Tainted Water Blamed For Van Zile Epidemic

Contaminated water seems to be the only possible cause of the intestinal disorder which occurred at K-State in December and January, according to Dr. B. V. Lafene, director of Student Health.

The Sanitary Engineer of the State Board of Health reported a possibility that the drinking water supply could have been contaminated by a drop in water pressure in the supply mains. This would permit back siphon-

age of water from bathtubs into the distribution system on the two upper floors when spray hoses were permitted by residents to lay in the tubs.

The water supply has been tested frequently by the Department of Bacteriology without finding any evidence of contamination at any time before or since the two outbreaks of illness. However, the back siphonage could have contaminated the water at

time when there were no tests taken, Dr. Lafene said.

It was found that the illness had been caused by contaminated food.

There is little likelihood of any package of the drinking water or other plumbing fixtures in the building to be a factor in contributing to such an illness, Dr. Lafene added.

This report is from surveys made by the State Board of Health, and the Division of Sanitation of the Kansas State Board of Health.

Pep Rally Scheduled After Tonight's Game

An appreciation pep rally will be held in the square area back of the Union after tonight's game, according to Larry Youngdoff, BA Soph., head cheerleader.

A new cheer has been planned for tonight's game, Youngdoff said. It will follow the Alma Mater and the crowd is to remain standing for the song.

The cheer is: Chant slowly—P-u-r-p-l-e a-n-d w-h-i-t-e f-i-g-h-t, f-i-g-h-t, f-i-g-h-t. Repeat.

Chant more rapidly—Purple and white, fight, fight, fight. Repeat.

Yell—Yea, Purple; yea, white; fight, fight, fight.

About 350 people attended the pep rally held last night. President McCain spoke. He said that he had always been proud of the conduct of K-

State students and that he would be after tonight's game.

Head basketball coach Tex Winter introduced the members of the team who came out for the rally.

Charges Are Filed Against Suspect in Molesting Case

A man suspected of molesting seven K-State coeds on February 7 has been arrested and released on bond, according to Riley County Attorney, Richard Rogers.

The seven coeds filed a complaint against David N. Devers, 21, of 510 N. 8th, charging him with assault and battery. Devers is stationed at Fort Riley. Trial will be held March 14 at

10 a.m. in Justice of the Peace, C. A. Kimball's court.

Devers was acquitted of the same charge in Manhattan Police court on February 22. He was accused of attacking a Manhattan woman but testified that he was working in a Camp Funston mess hall at the time of the attack.

McCain Says:

No Special Check Of Activity Tickets

"There will be no special check made of student activity tickets at tonight's Kansas State-Kansas university basketball game," President McCain stated yesterday.

"Identically the same procedure will be followed as in all previous games in the Field House when there has been a sellout, including the Iowa State game on February 23. This involves opening the doors a half hour sooner and placing additional attendants at the gate in order to expedite the handling of the crowd.

"I should like to point out that there has been official participation by Kansas State college students in the determination of the policies we are following in tomorrow's game with reference to the entertainment of our legislators and their wives and with reference to the nontransferability of student tickets.

"Arrangements for extending our hospitality to the Legislature were developed in consultation with at least

eight Student Councils since the last time it was built. I have personally discussed these arrangements with our last five student body presidents.

"The action taken last night by the Student Council was entirely proper since it recognized that the arrangements to which we were already committed for tomorrow's game had been given previous approval by groups which the Student Council represents.

"The regulations prohibiting transfer of the student activity tickets were established by the Athletic Council on which there are two student officials appointed by the Student Council. If these regulations or policies are changed, they can and should be corrected through the same channels by which they were established in the first place.

Crewcuts To Be Here

The Crewcuts will be on campus Saturday for a concert and dance in honor of the Union's first birthday celebration.

The concert will be in the College auditorium from 8—9 p.m. Tickets for the concert are 50 cents and are on sale at the Union information desk.

The semi-formal dance, "Shower of Stars," will be in the Grand Ballroom from 9 p.m. until midnight. Admission to the dance, at which the Royal Purple queen will be crowned, is \$2.25 a couple. Tickets for both the concert and dance are \$2.75 a couple, selling at the information desk.

A book review, two art exhibits, a pictorial display, a birthday party, jam session, and a movie are planned for the weekend.

Stater Line Begins Almost As Soon As Rally Ends

THE CHEERLEADERS started the pep rally last night by leading several Wildcat yells.

STUDENTS OVERFLOW with enthusiasm as the pep rally breaks up.

THE EARLY BIRD freezes to death. These Sig Alph's started the line to the game at 9 this morning.

Indiana Dorm Bans Nocturnal Osculation

By Shari Shellenberger

ANOTHER CAMPUS, another BAN. A University of Michigan women's dormitory has banned goodnight kisses for the coeds.

The Indiana University Daily Student, commenting on the ban, believes it will be like the Volstead Act, which tried to prohibit alcoholic beverages. It worked for a time, then failed.

PROTECTING ITS students from unclean Austin restaurants, the University of Texas formed a "Steer Here" committee of 31 members, whose job it was to inspect eating places in the University area. Restaurants and lunch counters that received the committee's approval now display "Steer Here" signs recommending the eating place to University students.

A letter to the University of Oklahoma Daily editor and the editor's reply are quite amusing. The letter to the editor reads:

"Dear Editor: From your editorials, I gather that:

1. You're against compulsory ROTC.
2. You're against the draft.
3. You're against parking meters.
4. You're against campus police.
5. You're against closing the old golf course to spooners.
6. You're against bicycle riders.

What a complete hard-head you must be!"

The editor's reply:

"Dear Mr. Page: From your letter I gather that:

1. You're in favor of coercive volunteering.
2. You like being drafted.
3. You're in favor of picking pockets already empty.
4. Your father is a cop.
5. You're against love.
6. You can't afford a car.
7. You're a hard-head."

Camera Focuses on Photographer

ON FLASHER—On Smasher—On Crasher—On Dasher . . . Santa Claus is credited with being a contributing factor bringing "light" to journalism's "dark-room-boy-wonder."

"Hold it, I think you're going to like this picture!" So goes the life of Gary Haynes, TJ Sr., "boy photographer." When you smile at the guy as he snaps your photo, you wonder how he got started in this "business with the camera."

It began when Gary was 12 and Santa Claus brought him a movie camera. "This is what really got me started," he said. "But after I took several miles of pictures, I figured that the motion picture business didn't pay off. I started shooting still pictures."

Always an economist at heart, Gary decided that it was cheaper to develop pictures himself. Even today the second place you can find him (if he's not in Kedzie 103C) is the "dark room" in the basement.

Talk about unusual pictures, someone else should have had a camera when Gary did the photography for a magazine in Yellowstone Park one summer. Especially the day he hung from a tree limb supported only by the strong arm of a friend.

"People have threatened to throw me out," Haynes said. "Fortunately, I was bigger. And I'll bet I'm the only person on campus that ever got a ticket for parking on the Chapel lawn. It happened when I was unloading my equipment to take a picture."

Gary likes to experiment with color photography. "I process the pictures myself," he said, "and color processing is like trying to synchronize my watch with somebody overseas by carrier pigeon." (Sounds just like something he'd say, doesn't it?)

"I hate for someone in a group picture to try to run things when I haven't asked for their contribution. And they won't let me park on the campus to get my equipment on game nights. Consequently, it takes three people to carry it over, but they've been lenient with me lately."

In a National humor writing contest last year, Gary tied for first with Darrel Miller, TJ Sr. He also has been a member of the Board of Student Publications and Student Council. He's been photographer for the Royal Purple and Collegian for eight semesters, plus Collegian feature editor, Royal Purple business manager, and the editorial staff for the Royal Purple.

"I had lots of fun running for FMOC," said Gary. "We went around to all the houses, took pictures, enlarged them and gave copies to the girls."

Gary is a photo correspondent for the United Press and took pictures for them at Ames last weekend. Gary is from Salina.

Readers' Forum

Dear Editor,

In recent weeks the Student Council has been giving serious consideration to a proposal that the few remaining trees between the tennis courts and the south parking area be removed to make way for more parking stalls. We further have been unofficially advised that the splendid grove of pines north of the President's residence is slated for removal also.

As conservationists we have deplored the trend toward substitution of a factory environment for the natural beauty of our campus. Our fine trees have required many years, and in some instances generations, of care to bring them to their present state of development. We need more trees, not fewer.

In our regular meeting of February 28, our members voted unanimous approval of a motion that we go on record as being opposed to the further needless destruction of our campus vegetation. We sincerely hope that we may enlist your support in our efforts to preserve the beauty of the Kansas State college campus for future students.

Sincerely yours,
The KSC Conservation Club
Clayton W. Stephens, president.

Conservation club members: We sincerely agree with you in your desire to keep our campus a beautiful one, not a factory environment. Our campus has long been noted as one with a variety of species of trees.

Special effort is being made, according to President McCain, to retain the natural beauty of the campus. A company has been hired to study the situation in regard to future buildings on the campus and their recommendations are being followed in the planning the campus.

The Editor.

Dear Editor,

What happened to our cheerleaders the night of the Iowa State game in Ames? Our cheerleaders are supposed to be the leaders of our school spirit, aren't they? Then why didn't they go to Ames? There was room enough on the pep club buses and the cheerleaders were informed of this.

The spirit and demonstrations of the students, who were not in the pep clubs but who went anyway, was tremendous.

During the game, often there

was disunity in the yells which could have been corrected by just one cheerleader (in uniform).

Our team played tremendous basketball and all of us who attended the game were proud of them. However, one position very much needed was not filled. Cheerleaders are as much a part of a team as the coach and players. When one part of a team lets down, the other players do not play as well.

This very thing happened to our cheering section Saturday night when the cheerleaders failed to show up for this crucial game.

Since the K-State-KU game is our last one, let's see our cheerleaders there being as peppy as the Iowa State cheerleaders were last week. Having peppy cheerleaders is like having penicillin when you have the flu—it's a real boost to your morale and the teams too.

Mid-East Doctrine Passed the Senate

Compiled from United Press
By KEITH KEMPER

Washington — Senate approval of the "Eisenhower Doctrine" yesterday put both Houses of Congress on record as favoring use of U.S. force to combat any open Red aggression in the Middle East.

The differing House and Senate wording must be adjusted before the doctrine resolution goes to President Eisenhower for signature.

But, regardless of the final language the Congress now has made its intention clear—by overwhelming majorities in both Houses—of joining with the President in a stern warning to Communist nations to stay out of the Mideast.

Secretary of State, John Foster Dulles, said Congress now has joined the President "to assure the peoples of the free nations in the Middle East that the United States stands ready to join with them to build up their strength and if need be to help them to defend their national integrity and independence against Communist armed aggression."

Behind the "doctrine" resolution lies a strong belief of the Eisenhower administration that failure to warn Communist nations of America's readiness to

oppose aggression might well open the door to such aggression.

Trip Helped France

Paris—Premier Guy Mollet told his cabinet today his trip to America healed the breach opened last October by France's participation in the Suez attack.

However, informed sources said Mollet's ministers told him his position in the French Parliament reached a record low during his eight-day trip to the United States and Canada.

They urged the Socialist leader to call a confidence vote tomorrow to smash a trap set for him by the opposition Independent-Peasants.

ELIZABETH PARKER, ArG Jr., will represent K-State in the state Miss GOP contest. She was chosen over twelve other candidates.

Collegian classifieds pay!

KS Republicans Choose Delegate for Miss GOP

Elizabeth Parker, ArG Jr., was chosen as Miss GOP last night at a meeting of Collegiate Young Republicans in Umberger hall. She was chosen over 12 other candidates.

Miss Parker received a trophy and an all-expenses paid trip to the state convention of Young Republicans at Emporia, March 15-17. She will compete with seven other candidates to represent the Young GOP's of Kansas in the national convention next summer.

Immediately following the election, a business meeting was held and plans were discussed for the Emporia convention. About 33 people signed up to go. There will be a meeting next Tuesday to make further arrangements. Time and place will be announced later.

Hawks Near Cinch For Big 7 Crown

By MIKE SCANLAND

Although the Big Seven basketball race has nearly run its course, there could be some shifts in the conference standings as a result of the five remaining conference games.

The first and most unlikely of these shifts could happen if KU should lose to K-State in the Wildcats final game here tonight, and then to Colorado at Lawrence Saturday night, allowing K-State to share the title with the Jayhawks.

K-State, with an 8-3 record is secure in second place no matter how the remaining games end as third place Iowa State has already lost five games.

Iowa State can do no worse than a tie for third place. The Cyclones have one game left, a Saturday night contest with Nebraska at Lincoln, and should nail down undisputed possession of the third spot even should they lose to the Cornhuskers.

Only Colorado, now in fourth place with a 4-6 record, is in a position to tie the Cyclones for

third, but the possibility is extremely remote since Colorado must play KU at Lawrence Wednesday night and Oklahoma at Norman Monday night.

Missouri, which has completed conference play, is in fifth place with a 4-8 record.

Still a threat to overtake and pass the Tigers in the standings are Nebraska and Oklahoma, both of which have two games left and identical 3-7 records.

Oklahoma and Nebraska play Wednesday night at Lincoln in a game that will go a long way toward deciding which of the two teams will escape the cellar.

Nebraska will have the home court advantage, but the Sooners are at home against Colorado Monday night. Saturday night at Lincoln, Nebraska must face Iowa State, the only team in the nation to beat both Kansas and K-State this year.

	W	L	Pct.
Kansas	9	1	.900
K-State	8	3	.727
Iowa State	6	5	.545
Colorado	4	6	.400
Missouri	4	8	.333
Nebraska	3	7	.300
Oklahoma	3	7	.300

IM Teams Play 7 Games

Five matches in the independent division and two in the fraternity division were played in intramural volleyball last night.

Both victors in the fraternity matches won on two straight games. Sigma Alpha Epsilon defeated Alpha Gamma Rho, 15-7, 15-13. Phi Kappa breezed by Phi Kappa Tau by scores of 11-0, 15-3.

OK House looked impressive in its match with Sigma Phi. Nothing in the independent division. The OK's took the Sigma Phi's in two games, 15-1, 15-1.

Jr. AVMA whizzed through its match with the Rho Alphas and won 15-2, 15-3.

Phi Epsilon Kappa won over Newman Club by identical scores of 15-8, 15-8. Wesley Foundation encountered stubborn resistance from YMCA but managed to overpower them, 15-9, 15-12.

Only one match went the full three games. Acropolis won over West Stadium, 14-9, 6-15, 15-13.

In the only other scheduled match of the night, House of Williams won by forfeit from the Eight Balls.

LA Bids for Brooklyn

Vero Beach, Fla.—Los Angeles makes its big "pitch" for the Brooklyn Dodgers today when Mayor Norris Poulson and other civic officials meet privately with Dodger President Walter O'Malley.

After an inspection tour of the Dodgers' training base here, Poulson, and his associates were to be whisked away to a hunting and fishing lodge deep in the cypress swamps where they will discuss the franchise with O'Malley.

It was expected here that the

Los Angeles group would lay on the table all its best cards in hopes of persuading O'Malley to transfer his team from Brooklyn to Los Angeles in time for the 1958 season.

You'll be pleased with a Collegian want ad.

Cagers Meet Jayhawks In Field House Tonight

Kansas' Jayhawks tangle with K-State's defending champion Wildcats, and hope to wrap up the Big Seven basketball crown in Ahearn field house tonight.

But Coach Tex Winter's Cats may have other things in mind. K-State, with an 8-3 conference record, can possibly deal KU its second Big Seven defeat.

The Hawks have lost only to Iowa State in Big Seven play, and have lost only one other game this season—that to Oklahoma A&M, 56-54, at Stillwater.

Iowa State beat KU 39-37 at Ames after Coach Dick Harp's Chamberlainized crew had won 12 straight. The loss knocked the Hawks from their first place rankings in the three major press polls into second, a position they have kept since then.

KU has won five straight games on the Field House floor, but the Cats are undefeated at home this year, and this will be their season finale.

Kansas will throw 7-0 Wilt Chamberlain against the Cat tall men, Jack Parr and Bob

Boozer, in the contest. Chamberlain has averaged near the 30-point mark all season and has been a leader in the national individual scoring race.

Parr and Boozer combine their scoring talents for a 40-plus mark. Parr, 6-9 K-State postman, is averaging 21.3 after his 23-point effort against Iowa State Saturday. Boozer, 6-7 forward, has a 19.5 mark.

Besides that pair, the Cats can start a pair of ballplayers near the 10-points a game mark. Roy DeWitz, 6-3 forward, has a 10.7 average, and 5-10 Eddie Wallace is hitting at a 9.4 clip.

Two K-State seniors, Wallace and Jack Kiddoo, will end their playing careers tonight. Wallace has been a starter at guard for Winter during most of the season, and 6-0 Kiddoo has been a first line reserve guard.

Kansas will probably start an all-senior team—with the exception of Chamberlain, a sophomore.

Gene Elstun, 6-3 Hawk forward who has been a regular this year, may not start. Elstun agitated a thigh injury he had suffered previously.

In Elstun's place, Harp is expected to start Lew Johnson, converted 6-6 center. Last season, Johnson was a regular at center for KU, but was shifted forward to make room for Chamberlain.

Johnson has been a starter through early season play, but lost his regular post to Ron Loneski, 6-4 1/2 sophomore.

The Hawks own an earlier win

over K-State. That was 51-45 on January 12 in Lawrence. K-State led in the contest through 36 minutes. But the Cat big men, Parr and Boozer, fouled out, and Chamberlain had a free rein with no opponent left in the contest any taller than 6-5.

KU has played before sell-out crowds in each of its road games this season—and tonight will be no exception. The 12,500 capacity Field House has been sold out for some time.

Probable starters:

K-State	F	Kansas
DeWitz (6-2)	(6-6) Johnson	
Boozer (6-7)	(6-4 1/2) Loneski	
Parr (6-9)	(7-0) Cham'in	
Wallace (5-10)	(6-0) Parker	
Matuszak (5-11)	(6-3) King

At Our Discretion

This evening K-State takes on Kansas' Jayhawks in what might have been a title-deciding game.

The Cats still have a mathematical chance for the title, but KU would have to lose here tonight and against Colorado at Lawrence Saturday—not a likely possibility.

However, Coach Tex Winter's basketball charges have a point to prove tonight, even though they're virtually out of the running for the Big Seven crown.

When K-State began its phenomenal 10-game winning string, Cat fans began to hope that the impossible might happen. Before Saturday's contest many were convinced that it might happen.

But Iowa State burst the Cat bubble, and now K-State has just a point to prove—that they can beat Wilt Chamberlain and the Hawks, that they are a better team than KU.

The Cats' upset by Oklahoma has become one of the "big ones" now, late in the season. Had K-State won that game, it'd still be a down-to-the-wire race.

But that's cryin' over spilt milk. Anyway, we hope the Cats can prove that point.

Kansas university may be without the services of 6-3 forward Gene Elstun tonight. Elstun was one of the three Hawks to score against K-State at Lawrence, getting 12 points. His buckets helped but his defensive work and ball-hawking was even more sparkling.

Elstun needs only eight more points to move into fifth place among KU's all time career scorers.

KU Coach Dick Harp will throw 6-6 Lew Johnson "into the breach."

Read a Dick Snider column in the Topeka Capital the other day. Snider quoted Dick Harp, KU basketball coach, as saying that he was glad he had a seat for the game tonight. He figured it'd be a real scrap.

Me, too.

For those of you who believe in the law of averages, here are some figures that might interest you.

KU has won its last four games against K-State on the Wildcat's home floor.

The Hawks won 80-78 in 1953, in 1954 the victory margin was three points, KU won by 10 points in 1955, and last year the Jayhawks won 91-86.

To quote Don Pierce, Kansas sports publicist, "... to win undisputed championship of the Big Seven, they (KU) will be obliged to win their fifth straight at Manhattan, hardly a percentage that can be expected of any club."

Both Kansas and K-State have been strengthened since the Jayhawks outlasted the Cats 51-45 at Lawrence. KU has added 6-4½ forward Ron Loneski to the lineup and he has done exceptionally well, sparkplugging KU to a win over Oklahoma in the only

game of the season in which Chamberlain has fouled out.

On the other hand, the Wildcats have moved up 5-11 Don Matuszak since the Lawrence meeting. Matuszak didn't play in the game down the Kaw, but became one of the big reasons K-State went through 10 straight games before losing to Iowa State last Saturday.

And for those of you with someone else's activity ticket, good luck.

Jim Bell

Matmen Travel to OU For Big Seven Meet

K-State's wrestling team will leave Thursday morning for Norman and the Big Seven tourney that will run through Friday and Saturday at the University of Oklahoma.

In last year's tourney at Iowa State the Wildcats took third. This year on the basis of dual meets they stack up near fourth place. "We could take third again this year—we have a real good chance to do so," Coach Fritz Knorr said.

Jim Miller, who usually wrestles in the 123-pound class, will wrestle in the 130-pound class with Wichita soph-

omore Billy Youngers manning the 123-pound event.

"Pat Doyle, who wrestles in the 157-pound class, has the best chance to win as there isn't any returning champion in that weight," Knorr said. "Some of our other good wrestlers will be competing against returning champions."

K-State's entrants:

123-pound class—Billy Youngers
130-pound class—Jim Miller
137-pound class—Marvin Everist
147-pound class—Jim Roberts
157-pound class—Pat Doyle
167-pound class—Gary Haller
177-pound class—Jim Dietrich
Heavyweight—Ellis Rainsberger

San Francisco Back In Defense of Crown

By UNITED PRESS

Defending champion San Francisco and St. Louis barged into the NCAA tournament last night.

San Francisco, winner of the NCAA crown for two straight years, earned the right to try for a history-making third straight when it clinched the California Basketball association championship last night with a 62-41 romp over second-place St. Mary's of California.

St. Louis, although idle, was crowned champion of the Missouri Valley conference when runner-up Bradley suffered a 99-91 loss to Wichita. Bradley, however, remains a leading candidate for a berth in the National Invitation tournament.

Joe Stevens' 33 points led Wichita to its victory over Bradley. The Shockers opened a 26-point lead midway in the second half and breezed home despite 24

points by Bradley's Barney Cable.

In another leading game last night, UCLA concluded its season with a 65-55 win over Southern California, but can tie for the Pacific Coast conference championship only if pacemaking California loses one of its two games against

'Walk a Crooked Mile'

U.P. Names All-America; Parr, Boozer Mentioned

By UNITED PRESS

Wilt (the Stilt) Chamberlain of Kansas and Chet (the Jet) Forte of Columbia, the tallest and the smallest of the nation's college basketball stars, were the outstanding choices today on the 1957 United Press all-American team.

The three other players honored in a nationwide poll of 281 sports writers and radio and television broadcasters were Lennie Rosenbluth of North Carolina's top-ranked Tar Heels; Grady Wallace of South Carolina, the major college scoring leader; and "Hot Rod" Hundley of West Virginia.

Chamberlain, the celebrated (7-0) Kansas center, is only the second sophomore ever to win a place on the United Press first all-America team. Tom Gola of Lasalle was so honored in 1953. The four other players are seniors.

Gary Thompson, 5-10 Iowa Stater, represented the Big

Seven as a second team all-American. The little Cyclone guard holds a sackful of Iowa State scoring records.

Jack Parr and Bob Boozer, K-State's double threat scoring aces were named to the area honorable mention teams.

Other Big Seven and area honorable mention selections include: Maurice King and Ron Loneski of Kansas, Lyle Frahm of Iowa State, Hubert Reed and Lyndon Lee of Oklahoma City, Red Murrell of Drake, Joe Stevens of Wichita, Hallie Bryant of Indiana, and Mel Wright of Oklahoma A&M.

First team: Chamberlain, Kansas 7-0, 19, Soph. Forte, Columbia, 5-9, 21, Sr. Rosenbluth, N.C., 6-5, 23, Sr. Wallace, S.C., 6-4, 22, Sr. Hundley, West Virginia, 6-4, 22, Sr. Second team: Elgin Baylor, Seattle; Charlie Tyra, Louisville; Jim Krebs, Southern Methodist; Gary Thompson, Iowa State, and Joe Gibbon, Mississippi.

Third team: Archie Dees, Indiana; Frank Howard, Ohio State; Guy Rodgers, Temple; Johnny Cox, Kentucky; Jim Ashmore, Miss. State.

Party Whirl Is On; Betas Plan Dance

Beta Theta Pi

In a setting of hay bales and corn shocks, the members of Beta Theta Pi entertained their dates at a Li'l Abner party Saturday night at the chapter house. Supper was followed by dancing, games, and TV. The costumes worn were appropriate to the Li'l Abner theme.

Sigma Nu

Sigma Nu members will host a gypsy costume party next Friday. Mr. and Mrs. Robert Buzenberg will be chaperones.

Phi Delta Theta

Phi Delta Theta members and their dates gambled on roulette wheels, horse races, dice tables and games of black jack, to see which couple could win the most paper money at the annual casino party last Saturday night. A cigarette lighter and a compact were given to the winning couple.

Mr. and Mrs. H. E. Stover were the chaperones.

Kappa Delta

The Kappa Delta's had their annual Emerald Ball in Pottorf hall last Saturday night. A banquet for the members and their dates preceded the formal dance. The Dreamaires from Junction City provided the music.

Included in the receiving line were Dean and Mrs. Herbert Wunderlich, Mr. and Mrs. Norman Armstrong, Mrs. Hugh Kershner, Nancy Hill, EEd Jr; Roger Maxwell, Ar 04; Rhonda Johnson,

BMT Jr; and Mart Cooley, MTC Jr.

Guests

Seven members of Gamma Phi Beta spent the weekend in the Gamma Phi Beta house at Iowa State college last weekend.

Tau Kappa Epsilon

Dr. and Mrs. M. J. Harbaugh were guests at the Tau Kappa Epsilon fraternity last Sunday for dinner.

Delta Upsilon

Pat Canary from Kansas university and Gene Gustafson from McPherson were weekend guests at the Delta Upsilon house.

Delta Delta Delta

Dean Helen Moore was a dinner guest at the Delta Delta Delta house last Sunday.

Kappa Delta

Weekend guests of Kappa Delta included Martha Evans, Kansas City, Mo.; Edwina Houghton, Abilene; Nancy Anderson and Jackie Fausett, Hazelton; Nancy McCoy, Hiawatha; Joan Cool and Barbara Yennie, Glasgow; Joan Johnson, Lincoln, Neb.; and Judy Hemphill, Lawrence.

Photo by Doug Tedrow

THETA XI fraternity members and dates "dance it up" at the Gold Rush party held in the house Saturday evening. Decorations in charcoal, pencil, and similar media were printed over cave-like walls of tan paper. Plenty of chances were offered for "making a fast buck" in the front room, where gambling devices were set up. Real play money was generously offered as rewards.

Alpha Kappa Lambda

Frat To Occupy New House; Love Is Still Campus Fashion

Members of Alpha Kappa Lambda will move to their new frat house at 1919 Hunting this weekend.

Engagements

King-Knepper

Chocolates were recently passed at Van Zile hall to announce the engagement of Joan King, SEd Sr, Horton, and Dale Knepper, Kansas City, Mo., a former K-State student. Dale also made the announcement at the Kappa Kappa Gamma sorority where he served as houseboy last semester.

Williams-Henry

Forrest Henry, GA Jr, Marysville, recently announced his engagement to Jackie Williams from Frankfort. Forrest is a member of Tau Kappa Epsilon.

Duncan-Garrett

The engagement of Barbara Duncan, Eng Jr, and Don Garrett, CE '56, was announced at the Kappa Delta Emerald Ball last Saturday night. Barbara is from Westmoreland and Don is from Blue Rapids.

Pinnings

Suderman-Goering

Shirley Suderman, HT Sr, Hillsboro, and Jim Goering, AA Jr, Pretty Prairie, announced their pinning at the Farm House fra-

ternity party Friday night. Shirley is a member of Clovia.

Pledges

Alpha Kappa Lambda

Don McCollough, ME Fr, and Paul Carver, ME Fr, are recent pledges of the Alpha Kappa Lambda fraternity.

Sigma Nu

Recent pledges at the Sigma Nu house are Rodney Fogo, Ed Soph; Tom Lewis, PsP Fr, David Gwinn, PrL Fr; Allen Schierling, Gop Fr; and William Chapman, Psy Soph.

Lambda Chi Alpha

Gary Culberson, ME Fr, Burton, is a new pledge of Lambda Chi Alpha.

Officers

Sigma Chi

New pledge officers of Sigma Chi are Clayton Buck, PrV Soph, president; Bob Blackwelder, AgE Fr, vice-president; Larry Bilotta, EEd Fr, secretary; and Bob Young, ArE Fr, chaplain.

Delta Phi Delta

Rosella Hiebert, Art Jr, has been elected president of the Alpha Rho chapter of Delta Phi Delta, national art honorary.

Other officers elected were Don Filby, Art Fr, vice president; Ilse Reiling, Art Soph, recording secretary; Margaret McKnight, Art Jr, corresponding sec-

retary; Ruth Kirtland, Art Jr, historian; Don Anderson, Ar 04, exhibit coordinator; Tom Swearington, Art Soph, treasurer; and Joyce Knepper, Arg Sr, publicity.

Regardless of why it won't run or keep good time—our watch cleaning will make it accurate and dependable.

Activities

Mortar Board To Hold Five School Conference

Mortar Board members will be hostesses this week end to approximately 40 other Mortar Board members and chapter sponsors from five schools attending a section conference here.

Kansas university, Wichita university, Arkansas university, Missouri university, and Washington university from St. Louis will be represented.

Physics Seminar

Servo mechanisms will be discussed by C. A. Halijak, associate professor of the electrical engineering department, at a Physics Department seminar Thursday at 4 p.m. in W 101.

Cosmopolitan Club

A discussion on problems of the world will be the main feature of the Cosmopolitan club meeting Thursday at 7:00 p.m. in room 207 of the Student Union. The club will meet whether we lose or win the game tonight.

Ag Seminar

The presentation of special awards and individual medals to judging team winners will take place at the Agricultural Seminar in the College auditorium tomorrow at 4 p.m., according to C. W. Mullen, assistant dean of the School of Agriculture.

Dean Arthur D. Weber, School of Agriculture, will speak on the "Evaluation of College Sponsored Activities."

Arnold Appleby, AgE Sr, Formoso, will be presented the \$300 Borden scholarship given to the highest ranking student in the School of Agriculture. Besides the 130 hours required for graduation in agricultural education, Appleby has taken 40 additional hours in agronomy and has maintained a 2.7 grade average.

American Institute of Physics

The American Institute of Physics club will meet at 5 p.m. Thursday in W 101 to discuss building satellite tracking equipment with the electrical engineering department.

Alpha Epsilon Rho

Alpha Epsilon Rho, radio honorary, elected the following officers at a meeting Sunday: John F. Barry, Sp Jr, president; Ernie

Allen, Sp Jr, vice-president; Mike Smith, PrV Soph, treasurer; and Paula Craig, Sp Jr, secretary.

Three actives were initiated and five new members were pledged. The new actives are Cathy Blanford, Sp Soph; Paula Craig, Sp Jr; and Pete Charlton, Sp Jr. The five new pledges are Bill Cox, Sp Jr; Ted McCoy, Sp Jr; Lou Ann Oberhelman, Sp Jr; Leanne Olsen, Sp Soph; and Virgil Walter, Sp Soph.

Amateur Radio Club

The Amateur Radio Club will meet at 7:30 p.m. Thursday in room 3, Military Science building. Election of officers will be held.

Entomology-Zoology Seminar

A joint entomology and zoology

seminar will be held at 4 p.m. Thursday in F202. Dr. Lallan Rai, assistant professor of entomology, will speak.

Collegiate 4-H

Collegiate 4-H will have a box social at 7 p.m. Thursday in the recreation center of Anderson hall. Ed Duren, DH Sr, will auction off the single and double box suppers the girls will bring.

Geology Gems

The Geology Gems will meet Thursday, March 7 at 8 p.m. in Fairchild hall.

You'll be pleased with a Collegian want ad.

All Women's Day Planned

All coeds are invited to take part in the second annual All Women's Day Monday, April 8, according to Rosalyn Rowell, Soc Jr, president of the Associated Women Students.

A sack lunch will be served at 5 p.m. in Nichols gym for participating coeds. Dinner will not be served in any of the women's organized houses.

After dinner, Connie Morgan, HE Fr, will tap dance and twirl; Doris and Donna Gels, both PEW Sophs, will sing a duet; Linnea Brown, Ar 03, will do an acrobatic dance; and Celia Dixon, EEEd Jr, will sing popular tunes.

After the entertainment, the new officers will be installed. Coeds from KU, Washburn, and Wichita university have been invited. Mrs. Justus Fugate, dean of women at Wichita university, will speak on "What Is a Woman."

Cold Spell

Hastings, Neb. (U.P.)—It can get pretty cold here, policeman Lyle Dunham said after trying to write out a traffic ticket. The lead in the pencil he was using, brittle from the cold, snapped off, and the ink in his fountain pen was frozen.

LOCKHEED

Aircraft Corporation

California Division • Georgia Division

Lockheed Representatives of the California Division and the Georgia Division will be on campus

Monday, March 11

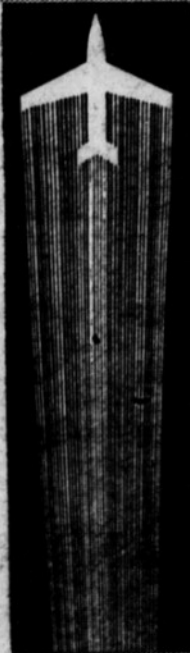

You are invited to consult your placement officer for an appointment.

Separate interviews will be given for each division.

Both divisions of Lockheed are engaged in a long-range expansion program in their fields of endeavor.

California Division activities in Burbank cover virtually every phase of commercial and military aircraft. Seventeen different models of planes are in production, including cargo and passenger transports, high Mach performance fighters, jet trainers, radar search planes, patrol bombers.

B. S. graduates who wish to attain a Master's Degree will be interested in the California Division's Masters-Degree Work-Study Program. In the program, participants achieve their M.S. while working concurrently on Lockheed's engineering staff.

At Lockheed in Marietta, Georgia, new C-130A turbo-prop transports and B-47 jet bombers are being manufactured in the country's largest aircraft plant under one roof. The division is already one of the South's largest industries. Moreover, a new engineering center is now in development as part of the division's expansion program. In addition, advanced research and development are underway on nuclear energy and its relationship to aircraft. A number of other highly significant classified projects augment the extensive production program.

This broad expansion program is creating new positions in each division. Graduates in fields of: **Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics** are invited to investigate their role in Lockheed's expansion.

No Increase in Influenza

Photo by Doug Tedrow

EFFICIENCY in a crowded kitchen must be the daily practice for the cooks of Student Health. By arriving at 4 a.m., the under-staffed and over-worked cooks are barely able to produce food enough for the patients' breakfast. During the epidemic periods an extra cook is needed, but sometimes cannot be found.

Activities Board Refuses Recognition for Integrity

The Student Activities Board has refused recognition to political parties as student organizations and has expressed disapproval of campus groups sponsoring money-making projects without first securing sanction from the board.

Receiving recognition as a student organization was Phi Chi Theta, professional organization for women in business administration and accounting.

Denying the Integrity party's request for recognition, the board members expressed

doubts that the organization would be benefited by such action.

Because the parties are allowed use of meeting rooms and facilities in the Union, the board expressed doubt that the organization would be hurt by their action.

Blue Key, senior men's honorary, and Alpha Delta Theta, medical technology honorary, were reported as sponsoring fund-raising projects although they had not come before the board for its approval.

In a kitchen measuring 9 1/2 ft. by 20 ft., all of the meals are prepared for the patients in Student Health. During the peak of the epidemic, 52 trays were prepared there three times daily.

"This required a tremendous amount of effort to cook all of the food and keep the dishes washed," said Dr. B. W. Lafene, director of Student Health.

"Even now, when there are only about half the number of patients that were there during the worst part of the epidemic, extra help must still be maintained," said Dr. Lafene. "Meals must be carried to the patients in the old college hospital from this kitchen, also. However, there are only one or two left over there now."

"This kitchen, as well as the entire building, was not intended to be used as long as it has been. The Student Health barracks was built in 1948 to take care of the post-war increase in enrollment. At the time it was built, a permanent hospital was in the planning stage. However, it has not yet materialized," explained Dr. Lafene.

Before the Student Health barracks were built, the doctors' offices and the clinic were housed on the second floor of Anderson hall, and the old college hospital between the present Student Health and the Veterinary hall was used to hospitalize patients. In emergency conditions, such as epidemics, the overflow was put on the second floor of the World War I barracks, which is immediately south of the present Student Health.

"There isn't any increase in the number of influenza cases, and there are only about 170 to 200 coming to Student Health each day this week, compared with the 300 that came each day during last week," said Dr. Lafene.

Kansas State Collegian

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Thursday, March 7, 1957

NUMBER 101

K-Staters Get Cold Feet In Long Wait for Seats

Four cold K-Staters braved the winter winds yesterday outside the Field House so they could get good seats. It was all to no avail, though, as the Wildcats lost to Kansas university, 64-57.

"I'm glad we did it, but it's too bad we couldn't have won.

Duo's Program Well Received

A near capacity crowd attended the all-College assembly in the auditorium yesterday to watch the Maxine Hunt-Alfred Brooks Dance Duo.

The program, which featured the dancing of Maxine Hunt, Alfred Brooks, and Martha Cutruello, opened with the well known shepherds' dance from "Amahl and the Night Visitors."

Miss Munt's choreographic interpretation of a painting was presented in the second part of the program. Entitled "The Murder," it attempted to illustrate through the dancers the emotions of adventure, glee, terror, and a desire for escape. Judy Hopp, TxC Soph, joined the group in this number to provide the necessary corpse.

Two dance solos by Miss Hunt lightened the pace in the third sequence. Dancing to a clever jazz rhythm, she provided the audience some splendid entertainment.

The final sequence was titled, "Each of Us—and Together." It was done in modern dance fashion.

Sts. Pat, Patricia Known Tomorrow

The identity of St. Pat and St. Patricia will be disclosed in tomorrow's Collegian according to Gaylord Stunkel, EE Jr., Sigma Tau publicity chairman.

John Nuzman, IT Sr; Jim Moore, EE Jr; Pat Schmiedeler, ME Sr; Virginia Roenbaugh, HT Sr; Sandra Tenorio, Ar 01; and Mel Eaton, BMT Soph, were candidates for Sts. Pat and Patricia.

Union Birthday Weekend Has Crewcuts, Crowning

The Union's first birthday celebration and the crowning of the Royal Purple queen will be highlighted by a concert and dance featuring the Crewcuts, Saturday. The concert will be in the College auditorium from 8 until 9 p.m. The semi-formal dance, "Shower of Stars," will be in the Grand Ballroom from 9 until midnight.

A book review, two art exhibits, a pictorial display, a birthday party, jam session, and movie are planned for the weekend.

"Raintree County" by Ross Lockridge Jr., will be reviewed by Walter H. Eitner, instructor in the English department, at 2:30 p.m. Sunday in the Union's main lounge.

The birthday party to inaugurate the celebration will be from 3 until 4:30 p.m. Friday in the northeast area of the Union. A tiered birthday cake and punch will be served by the Coffee Hours committee, and the Nightcaps, a mixed quartet, will sing.

Loren Kottner, Union director, and Bob Alexander, program director, will cut the cake. Ray Sis, VM Sr, will present a large framed photograph of the Union to Kottner as a gift from the Program council and the Union Governing Board.

"Daddy Longlegs" will be shown in Cinemascope, Friday, Saturday, and Sunday at 7:30 p.m., in the little theater. The cast includes Leslie Caron and Fred Astaire.

Quick Growth For 'Terrace'

Jardine Terrace in 1½ years will have a population comparable to Kansas towns such as Stanton, Greeley, Tribune, and Ulysses, when the newly proposed 11 buildings are constructed there.

The Housing and Home Finance administration has tentatively allocated 2.1 million dollars for the addition of 264 apartments and two wash houses in the area east and west of the present project.

These new apartments will be similar to the 192 apartments already constructed with perhaps some exterior differences.

"It will be at least 60 days before we receive the final approval from Washington and then 30-45 days after that before bids are opened," R. F. Gingrich, superintendent of the Physical Plant said.

K-State Choir Tour To End Tonight

The A Cappella choir will return to Manhattan tonight from a four-day out-of-state tour. Its last performance will be tonight at Forbes air base south of Topeka.

The itinerary of the Choir covered Kansas, Iowa, and Missouri and included seven appearances. Its Kansas performances were at Marysville, Shawnee Mission high school, and Forbes air base; its Iowa performances at Boone and Des Moines, and its Missouri performance at Sedalia. In addition, the K-State Singers gave a television program in Des Moines.

Sufficient funds were raised from the benefit concert given by the K-State singers last Sunday to pay for the transportation expenses of the choir tour, according to Prof. Luther Leavenworth, head of the Music department.

KU Claws Cats, 64-57, Wins NCAA Playoff Berth

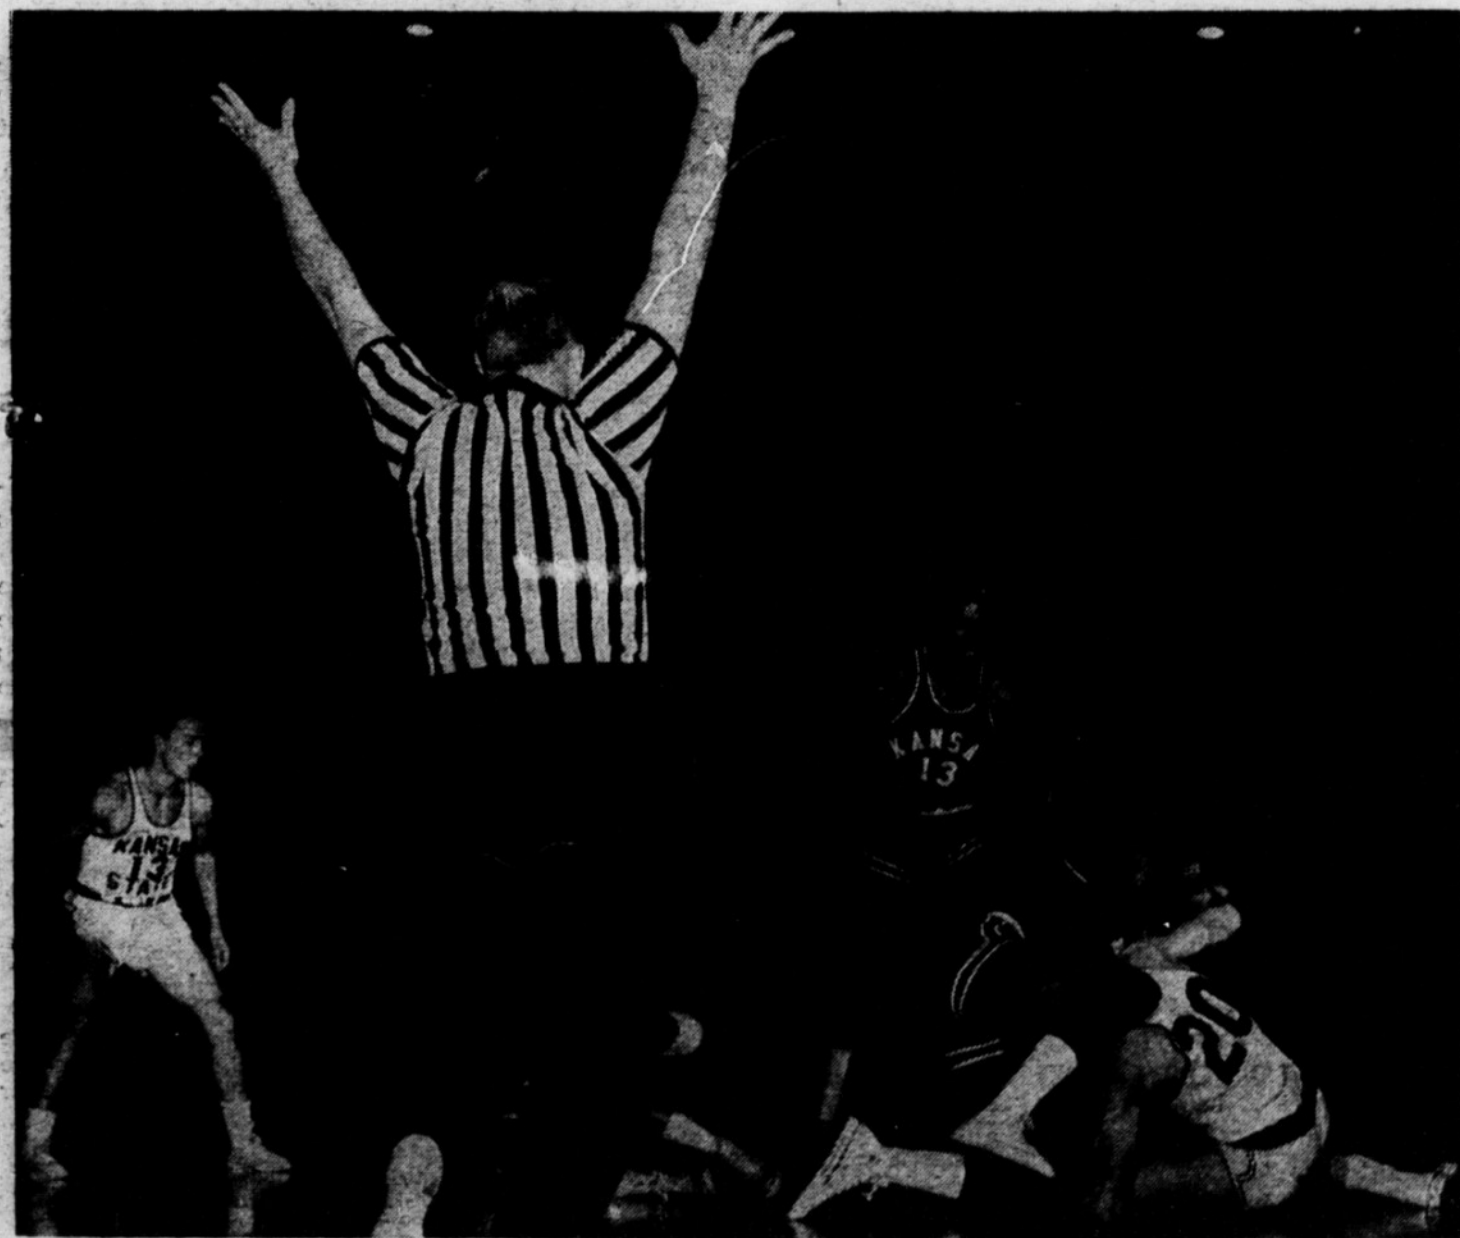

Photo by Darryl Heikes

TOUCHDOWN?—Linebacker Wilt Chamberlain (13) moves in as Don Matuszak, KS (20) scores a TD for Kansas State. KU's Maurice King (8) makes the stop. Whoops—wrong game, just action in last night's basketball game. Eddie Wallace, KS (13) watches while Bob Boozer, KS (31) and John Parker, KU (22) also tangle on the floor.

By JIM BELL

Collegian Sports Editor

Kansas' Jayhawks won the Big Seven basketball title and a trip to the NCAA regional tourney by tripping K-State, 64-57, in Ahearn field house last night.

The game was the last for the Cats and gave them an 8-4 conference standing and a 15-8 over-all record. KU has a 10-1 Big Seven record with a game left against Colorado Saturday at Lawrence.

The loss left the Cats in second place in the Big Seven, although a win wouldn't have changed that.

Kansas is 20-2, now, and will face Southern Methodist Friday, March 15, in second round play in the NCAA Western regionals at Dallas. SMU is the Southwest conference champion.

KU's win was reminiscent of the 79-68 K-State win at Lawrence last year. That game clinched the conference title for the Wildcats.

All-American Wilt Chamberlain hit 24 points, 16 of them in the final half, and grabbed 17 rebounds to lead KU to the win last night.

Bob Boozer, 6-7 Cat forward, trailed Chamberlain with 22 points. He hit 15 of those in the second period.

Maurice King had 16 for KU, and Roy DeWitz got 14 points and 12 rebounds for K-State. Jack Parr, 6-9 Kansas State postman, hit only 2 of 19 field goal attempts and finished the night with just six points.

However, Parr pulled 13 rebounds off the boards, and blocked several shot attempts by the 7-0 Chamberlain.

"Parr had the worst night I ever saw him have," Cat Coach Tex Winter said after the contest.

DeWitz opened scoring in the contest when he rebounded a free throw he had missed and hit a jump shot with 19:38 showing on the clock. From there, the score jumped to 5-2, Kansas, as Loneski hit a free shot and Chamberlain and John Parker hit from the field.

With 15:30 left, Boozer got a pair of free tosses to narrow the margin to 5-4, but Parker hit two quick jump shots to stretch it to 9-4.

DeWitz hit a set shot to break a Cat field goal drought that had lasted 7:48 since his bucket that opened the game, and make it 9-6, KU.

Then Boozer and Parr hit from the floor to make it 10-9, K-State, with 11 minutes showing on the clock. But the Cat lead was short (Continued on page five)

'Butterfly' Tops List Of Ten Best Sellers

By Sharon Totten

Tab Hunter was pushed out of the number one tune position all the way around this week, as Charles Gracie's record of "Butterfly" zoomed to the top spot in record sales, and "Young Love" by Sonny James topped the jukebox list. The top 10 sellers in Manhattan this week are:

- "Butterfly," Charles Gracie
- "Young Love," Tab Hunter
- "Party Doll," Steve Lawrence
- "Banana Boat Song," Harry Belafonte
- "You Don't Owe Me a Thing," Johnny Ray
- "Jim Dandy," LaVerne Baker
- "Teen Age Crush," Tommy Sands
- "Love Is Strange," Mickey and Sylvia
- "Ain't Got No Home," Clarence Henry
- "Don't Forbid Me," Pat Boone

Topping the list of tunes played on the jukeboxes in Manhattan this week are:

- "Young Love," Sonny James
- "Banana Boat Song," Harry Belafonte
- "Don't Forbid Me," Pat Boone
- "Too Much," Elvis Presley
- "Moonlight Gambler," Frankie Laine
- "You Don't Owe Me a Thing," Johnny Ray
- "Blue Monday," Fats Domino
- "Marianne," Terry Gilkyson
- "Knee Deep in Blues," Guy Mitchell
- "Jim Dandy," LaVerne Baker

Climbing fast on the jukebox list is a new disc by Gale Storm, called "Lucky Lips," while in the record stores, we find that Pat Boone has come out in typical rock 'n' roll style with a record entitled, "Why Baby Why."

Belafonte fans can look forward to spending a few evenings at home, because Victor Records has finally released the album they have been waiting for, "An Evening with Belafonte."

However, they may be a little surprised if they are set for an evening of calypso. In this album, Belafonte departs from the style which has brought him to the list of top tunes, and sings such folk songs as, "Shenandoah" and "When the Saints Go Marching In."

Telegraphic Tabloids

By UNITED PRESS

Chicago—David J. Brosier, 23, charged with impersonating an Army Air Force Officer, admitted yesterday he should spend some time in jail, "maybe six months."

"Excellent judgment," said District Court Judge John P. Barnes. "Six months it is."

Berlin—The East Berlin newspaper "Lausitzer Rundschau" reported today that a cow has given birth to three healthy calves.

It said the birth of triplets was "unique."

Detroit—James Pace, 23, made the mistake of visiting a restaurant the second time.

Pace was arrested after a waitress recognized him as the man who had held up the restaurant earlier this week.

Bitburg, Germany—The busiest office at the U.S. Air Force jet fighter base here is undeniably that of 1st Lt. Donald W. Eickman.

Eickman, of Gregory County, S.D., is 36th supply squadron adjutant, security officer, records officer, custodian of classified documents, education officer, postal officer, personal affairs officer, graves registration officer, fire marshal, unit supply officer, office of information services officer, historical officer, historical property officer, on-the-job training officer, casualty reporting officer, voting officer, intelligence officer, class "A" pay agent and personnel officer.

Fog in the Clear, Cold Light

By DARREL MILLER

IS IT any wonder that, in the face of defeat, I have turned to my good friend Henry P. Bronkwel, ME 06, for solace.

Henry P. Bronkwel not only is one of the best ticket hawkers in the business, but also is a badminton player of no ill repute and has been known to swing a mighty mean croquet mallet.

NOT THAT Henry P. Bronkwel always has been successful. Oh, no. He was a flop at boxing.

When he first went out for the squad he ran 17.63 miles a day, boxed innumerable shadows, and practiced his footwork. In his first bout, Henry P. feinted with his left, feinted with his right, then fainted.

His coach summed it up. "Henry P. Bronkwel is a natural-born and devout coward," was the way he put it.

Henry P. next tried bowling, but just couldn't stoop low enough to master that. It was in croquet that he finally found his true talent, and built a reputation that has brought him fame in the athletic world.

"HEY, MALLET head," I greeted him this morning. "The old world seems pretty gloomy after losing to KU last night, doesn't it?"

"Oh, no. Not in the least," said Henry P. "There's still plenty to live for—spring football practice, outdoor track, spring basketball practice, baseball. The list is long and impressive."

"Not to mention the Union birthday party," I chimed in. I was feeling better already (Henry P. does that to a fellow; he's infectious).

"BESIDES, BASKETBALL is a silly sport," Henry P. went on. "Can you think of anything sillier than five men running around like crazy,

trying to throw a ball through a hole on the wall, and wearing nothing but underwear?"

"Well, about the only thing sillier than that would be five men running around like crazy, trying to throw a ball through a hole on the wall, and NOT wearing underwear."

"NOW, SON, don't jest," Henry P. cautioned.

"Anyway, after last night I agree with Phog Allen," I went on. "After watching Wilt Chamberlain, I'm convinced that Phog was right when he said: 'What this game needs is a good 17-foot basket!'"

"That's about the size of it," Henry P. agreed.

"ANOTHER NICE thing about basketball season being over is that the administrators can quit saying 'I was misquoted'," I went on. "Besides they couldn't enunciate it very well with their feet in their mouths."

"It did get a little ridiculous," Henry P. admitted.

"And what's more, now we have time to settle back, unbothered, and hire a good football team," I went on.

"Yes," Henry P. said.

"AND THE administration can quit worrying about our appropriations being cut off because K-Staters were stupid enough to resent giving up their seats to legislators," I said.

"True," Henry P. said.

I was feeling much better. Henry P. always straightens me out with his cold analyses of the situations that arise.

"You know you're right," he said. "Basketball isn't important; KU has a much better team than K-State; Wilt Chamberlain is in the world's greatest basketball player; I thin. . ."

I slugged him. No K-Stater would stand for such stupid remarks.

Readers' Forum

Readers Say Collegian Distorted Letter; Ask About Monetary Burden of Activity Tickets

To the Editor:

It has been stated that "they (students) have not purchased seats, but only admission to the games." If this be the case why aren't the seats which here-to-fore have been designated as student seats being sold?

This in theory would still entitle the students to see the game and add income to the "Athletic" department. We in our ignorance cannot distinguish the difference between purchasing an admission or a seat.

However, let us depart from the abstract and consider the situation as it presents itself. There is, according to the figure published in the Collegian 6,508 seats available to students. Of these 500 are being reserved for the Legislature and 500 for the faculty, leaving 5,508 for the students. Unless we are mistaken the student wives who purchase tickets also sit in the student section further reducing the number of seats.

Even a student K-State engineer with aid of the slide rule would have difficulty seating over 6,000 students in the remaining seats.

How can the Athletic department lose money when it is already over sold? Excuse us, we forgot, as Dean Wunderlich stated, "they (students) have not purchased seats, but only admission to the games."

Is the function of the athletic program to give extra curricular activity and entertainment to the students or is its function to make money and entertain other people?

If the answer be affirmative to the latter question, let's make payment for student activities optional and sell the remaining seats.

Just think, in theory, this would give the Athletic department additional income. Apparently the amount it receives from the students activities fees must be inconsequential.

Yours truly,
Curt Rust, Gop Jr.
Carl Kirchner, Bac Gr
Dave Collins, EE Sr.
Raymond Cornett, Phy Sr.
Emilio Mora, Bac Gr.
J. D. Lambert, Prv

Dear Editor,

After reading the article, "Non-Students Denied Use of Activity Cards," in the March 4 Collegian, I have come to the conclusion that a student wouldn't have to buy an activity ticket.

If it is not compulsory to buy an activity ticket I would like to know how I can be relieved of this monetary burden.

Lynn J. Mayer, Geo Jr.

Dear Lynn,

The activity fee is compulsory, according to Herbert Wunderlich, dean of students. It is part of the set fee for admission to the College and was put in initially as the result of a student vote de-

siring the activity fee to support athletics.
The Editor.

Dear Editor,

In the Kansas State Collegian, under the Readers' Forum, you have often mentioned the fact that the letters printed were not necessarily the opinion of the Collegian, but rather the opinion of the writer.

However, a letter sent to you, and published in the March 5 issue, was distorted to the extent that it certainly did not relate nor indicate in any manner the viewpoints of the writer. This letter was changed to the extent that it lost its intended meanings and implications, and seemed to reflect the opinions of the Collegian rather than that of the writer.

If you do intend to continue distorting letters until it reflects the Collegian's opinion then we would suggest your printing your own name to it instead of the name of the writer.

So that the Readers' Forum may serve the purposes for which it is intended we would appreciate your reprinting the letter in the manner in which it was composed.

Yours very truly,
Howard E. Young, EE Soph
Eugene J. Asken, TJ Jr
Stuart W. Rose, Ar 02
Gary Graham, EE Fr
Lee Young, FT Sr
Gary Oettinger, GA Fr.

Gentlemen:

The letter which appeared in the March 5 Collegian with your names signed to it certainly does not express the views of the Collegian.

Your letter was addressed to the Legislators. The salutation was changed to direct the letter to the Editor. Your letter was approximately 700 words in length. Our policy states that letters not be more than 250 words. Your letter was cut to approximately that length.

If you object to the fact that we cut some of the rather crude remarks, we state in our policy that we edit all letters for libel.

The Editor.

KANSAS STATE COLLEGIAN
3—Thursday, March 7, 1957

THE LONG WAIT resulted in seeing a not-too-spectacular game full of floor play but devoid of scoring. Once, (below) even the referee got into the act as Alex George grabbed the ball as it went out of bounds, surprising Roy DeWitz (11).

WILT CHAMBERLAIN AND CREW (right) got a brief rest from the frenzied floor action, near the end of the first half when retiring senior Jack Kiddoo (5) and his teammates stalled the ball for one final shot. Here, Kiddoo calls to Chamberlain (13), Maurice King (33), and Bob Billings (32).

LA Hopeful for Brooks

By UNITED PRESS

Vero Beach, Fla.—Mayor Norris Poulson headed back to Los Angeles today with the news that the Brooklyn Dodgers may not be far behind.

"We are optimistic as a result of our visit," said Poulson after a 4-hour meeting with Dodger president Walter O'Malley. "We want major league ball in Los Angeles and we want the Dodgers."

Poulson, who met with Brooklyn officials "to test Mr. O'Malley's sincerity," added, "I don't think New York will solve the Dodgers' problem and I believe we will propose a compre-

hensive program the Dodgers can't resist."

Poulson, accompanied by five other city and county officials, said he is "returning to Los Angeles to meet with the City council and the County Board of Supervisors to report on our meeting with Mr. O'Malley."

The mayor and his group told O'Malley and his top lieutenants that Los Angeles could supply the Dodgers with a "brand new stadium" seating about 60,000 "one year from the day we get the okay for a move to the Coast."

Poulson's group presented the

Dodgers with a plan to clear Chavez Ravine, a mile from downtown Los Angeles, at a cost of about \$1,500,000 and then construct a stadium for about \$7,500,000. The experts estimated it would take about 60 days to clear the ravine and approximately 10 months to build the stadium.

O'Malley recently purchased the Los Angeles Pacific Coast league franchise from the Chicago Cubs and moved his Fort Worth, Tex., club there.

(Continued from page 1)

lived—Chamberlain dunked one, and King collected two more from the field to make it 15-10 with 10 minutes remaining.

That was the last K-State lead of the evening. From that point, the game settled into a monotonous affair.

The first half ended 23-21.

K-State spent the second half trying to catch up to the Hawks. The Hawks spent it pulling away from K-State, before a surge in the final four minutes pulled the Cats from a 15-point deficit to the final margin of 64-57.

That 15-point spread was the widest of the evening. Three free throws by KU's Bob Billings provided it with 4:10 showing on the clock.

K-State hit a cold 30.3 per cent from the field and made just 11 of 21 free throw attempts.

Kansas hit 39.3 per cent of its field goal attempts and cashed 16 of 27 free throw attempts.

The Hawks out-rebounded K-State, 51-49.

Kansas Fans Like Boozer; Staters Feel Cats Did Well

By JAY WORKMAN

K-State students' opinions concerning last night's basketball game were that the wildcats played their hardest, maybe even too hard. KU fans thought Bob Boozer was outstanding for K-State and that the Jayhawks didn't play quite as well as usual.

• Stanley Stokes, ME Soph at K-State—KU is certainly championship material. I thought our boys were tense and tried a little too hard.

• Jib Mason, business major from KU—Boozer was the only good player for K-State. The rest were way below par. It

was a lousy game. Chamberlain and Loneski were off and Parker didn't shoot enough.

• Loretta Pound, BMT Soph at K-State—It was a tremendous game and everyone tried real hard. The crowd was behind the team and cheerleaders all the way.

• Joe Harkins, agriculture major from KU—Kansas sure wasn't hot. K-State had a great fast break but Wilt's defense broke their back. Both teams hustled all the way.

• Bud Wareham, BPM Soph at K-State—I feel the players played with all they had.

Hamner Tries Comeback As Moundsman for Phils

By UNITED PRESS

New York—With Granny Hamner today it's a matter of control—of the nerves, the heart, and the fast ball.

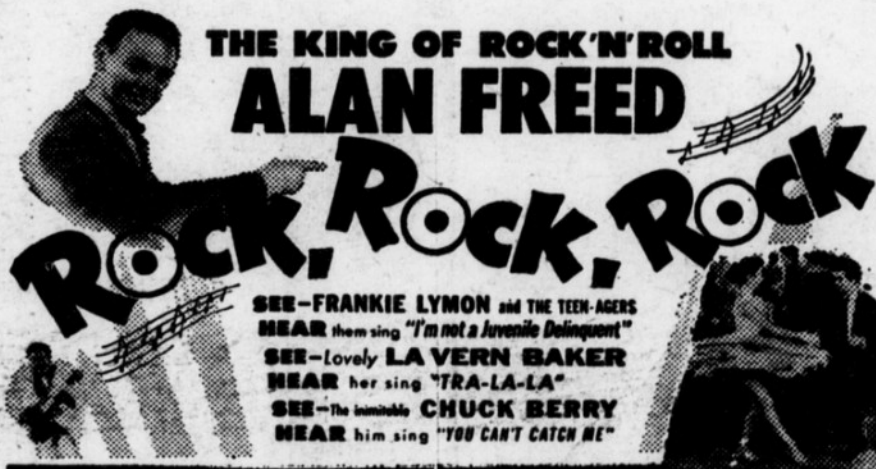

Granny at the age of 30 is trying to carve out a new career in the major leagues. After nine years as a regular infielder with the Philadelphia Phillies a soreness in the "extra arm" ruined his stretch and he's trying to make it as a pitcher.

"I fear the worst and hope for the best," he says.

The odds, strangely enough, are both with him and against him. Men with strong throwing arms have made it before. Made it big, too. But, strangely enough, those who were successful all switched at age 26.

Last season he hit only .224.

Meanwhile, to his dismay, balls he used to come up with were slipping under his glove or eluding his desperate lunge. But the sharp eyes of Coach Benny Bengough gave him a chance at a new career.

SU Air Conditioning To Be Done by June

Contracts for the air conditioning of the Student Union have been let, according to Kenneth M. Heywood, director of endowment and development.

The Endowment association has agreed to finance air conditioning of the Union from its investment funds, and the association will be reimbursed from a special student fee as money is accumulated.

R. F. Gingrich, superintendent of the Physical Plant of the College, reported yesterday that work has been started and

that he expects the air conditioning to be in operation by early summer, sometime between June 15 and July 1.

Duct systems and air handling devices for chilling the air in the Union were incorporated at the time the building was built. Gingrich stated that the entire Union, except the third floor, which is not yet finished, will be cooled by the system. He said the equipment will be adequate to air condition this floor whenever it is finished and the duct systems are installed.

Completing the air conditioning of the Union will cost around \$120,000 on the basis of the contracts awarded. These contracts include one for the water chilling unit, one for the power and motor control center.

Also included in the expenses are the costs of installation and additional materials. The installation is to be done by K-State's Physical Plant department, under supervision of the companies supplying the equipment.

McCain Flies To See Ike

President and Mrs. McCain left this morning for Washington, D.C. to meet with President Eisenhower Friday morning. McCain, named as one of the three "Eisenhower Fellows" for 1957 study abroad will meet with the President and the two other men named.

The McCains will arrive back in Manhattan Sunday and leave for Europe April 17 for six months of study.

Scheibe Reported To Be Improving

Donald Scheibe, GA Jr, who was injured in a car wreck Sunday morning, was reported by his attending physician as feeling better yesterday. He has several broken bones and a dislocated hip.

UGB Applications Now Being Taken

Students interested in applying for positions on the Union Governing Board can get application blanks in the director's office on second floor of the Union. These blanks with application letters will be accepted until 5 p.m., March 18.

The selection of next year's members is being made early to provide a greater degree of continuity and to expedite an earlier selection of Program Council and committee members.

Activities

KS Orchesis Club To Attend Dance Lecture in Wichita

Several members of Orchesis, modern dance club, will participate in a dance lecture given by Jose Lemons at Wichita university Saturday, according to Judy Hopp, TxC Soph, secretary of the club. This clinic is being sponsored by the Wichita university dance department.

"The entire club will be going to Junction City within a few weeks to present a program for the Women's Amateur Athletic union there," she continued.

Poultry Science Club

Paul Barrett, '50, manager of a poultry processing plant in Topeka will speak to members of the Poultry Science club tonight at 7:30 p.m. The meeting will be in 205 of the Union.

Alpha Delta Theta

Alpha Delta Theta, medical technology honorary, will meet today in room 206 of the Union, according to Pat-Lutz, BMT Soph, president of the club.

"This is an open meeting for all freshman and transfer students in medical technology. We

will explain the activities and goals of the club to them and serve refreshments after the meeting," she said.

Phi Epsilon Kappa

Four members of Phi Epsilon Kappa, physical education honorary, will each give a pint of blood at Riley County hospital this week. Each of the 34 men in the fraternity are scheduled to donate.

Sigma Gamma Epsilon

Members of Sigma Gamma Epsilon, geology honorary, will meet in F2 at 4 p.m. to vote on candidates eligible for initiation, according to President Jim Stewart, Geo Sr.

Frog Club

"There will be no Frog Club water show this year due to the inability to select a suitable date," according to publicity chairman Annabelle Chilcott, HEN Soph.

A general meeting of members

will be held at 8 p.m. Monday, March 11, in Nichols 2 and 4.

Integrity Party

The Integrity party will hold its annual general assembly tonight at 7 p.m. in the little theater.

Union Office Gets New Accountant

Walter Smith, former superintendent of schools in Montrose, will replace Verlyn Richards as accountant in the Union business office.

Smith, a '50 graduate from Kansas Wesleyan, is Salina, attended Kansas State in 1946, and has spent two years in the Naval Air Corps as an aviation cadet.

Richards' resignation will be effective March 9, according to Loren Kottner, Union director. He leaves for Ft. Benning, Ga., where he will begin a six months' army enlistment.

By KEITH KEMPER

Washington—President Gamal Abdel Nasser of Egypt may be very sorry some day that he seized control of the Suez Canal.

There are strong indications that Suez, long the world's most important waterway, may never regain the importance it held before Nasser nationalized it and then blocked it because of the Israel-British-French invasion.

Nasser's action made it alarmingly clear that a great part of the world's supply of oil, the life blood of modern industry, was at the mercy of one man.

Construction of gigantic tankers, which would carry Middle Eastern oil around the cape of good hope at the southern tip of Africa, instead of through the canal has been started.

But, in addition, plans are being worked out by interested governments and commercial interests to build pipelines which would take oil direct to the Mediterranean Sea and thus by-pass Suez.

Tender-Freighter Bump

New Castle, Del.—A Naval gasoline tender collided with a Liberian freighter at a bend in the Delaware river off here early today, setting both vessels ablaze following a terrific explosion which rocked homes on both sides of the river.

Some five hours after the collision, 49 survivors were picked

up with 16 crew members of the tender, The Mission of San Francisco, still missing, including the captain, William Allen of Galveston, Tex.

Nixon Arrives in Liberia

Nonrovia, Liberia—Vice President Richard M. Nixon arrived here today for a 48-hour visit in this East African nation—one of the surest friends the United States has on the "dark continent."

Coming from Africa's newest independent state, Ghana, Nixon will see here the results of 110 years of experience in self-government which the United States established with former slaves.

A government delegation

headed by Vice President William R. Tolbert went to Roberts Field, a U.S. Air Force wartime airstrip 45 miles from Nonrovia, to greet the Nixon party.

The Liberian delegation wore formal striped pants and morning coats. Also on hand was an American-trained and American-clad honor guard.

UNEF Controls Strip

El Ballah, Egypt—The United Nations Emergency Forces (UNEF) took over the Gaza strip from the retreating Israelis before dawn today and reported that "everything is in hand."

LOCKHEED

Aircraft Corporation

California Division • Georgia Division

Lockheed Representatives of the California Division and the Georgia Division will be on campus

Monday, March 11

You are invited to consult your placement officer for an appointment.

Separate interviews will be given for each division.

Both divisions of Lockheed are engaged in a long-range expansion program in their fields of endeavor.

California Division activities in Burbank cover virtually every phase of commercial and military aircraft. Seventeen different models of planes are in production, including cargo and passenger transports, high Mach performance fighters, jet trainers, radar search planes, patrol bombers.

B. S. graduates who wish to attain a Master's Degree will be interested in the California Division's Masters-Degree Work-Study Program. In the program, participants achieve their M.S. while working concurrently on Lockheed's engineering staff.

At Lockheed in Marietta, Georgia, new C-130A turbo-prop transports and B-47 jet bombers are being manufactured in the country's largest aircraft plant under one roof. The division is already one of the South's largest industries. Moreover, a new engineering center is now in development as part of the division's expansion program. In addition, advanced research and development are underway on nuclear energy and its relationship to aircraft. A number of other highly significant classified projects augment the extensive production program.

This broad expansion program is creating new positions in each division. Graduates in fields of: **Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics** are invited to investigate their role in Lockheed's expansion.

MOORE, EATON ARE 'SAINTS'

K-State student engineers have elected Jim Moore, EE Jr, and Mel Eaton, BMT Soph, St. Pat and St. Patricia, to reign over Engineers' Open House next weekend, Gaylord Stunkel, EE Jr, Sigma Tau publicity chairman, has announced.

Each department in the School of Engineering and Architecture submitted a St. Pat and St. Patricia candidate to Sigma Tau, the honorary engineering fraternity which will sponsor St. Pat's prom March 16. Sigma Tau then chose six finalists on the basis of poise, personality, appearance, and activities. A general election, for deciding the royalty, was held February 21 and 22.

Celebrating the 33rd anniversary of Open House this year, the Engineers will carry on a tradition of including royalty as a part of the festivities, begun 1929. Ron Bryant and Sondra Tate were chosen last year.

Open House royalty will appear on television previous to next weekend's event. A ribbon-cutting ceremony in which they

participate will officially signal the beginning of the exhibition, and the couple will be the first to be escorted through the maze of departmental displays.

St. Pat and St. Patricia will accompany the traditional torch relay team to K-Hill. The relay begins on the steps of the engineering building, proceeds southeast to town and culminates with the lighting of large concrete letters atop the hill.

The royalty will preside at the presentation of the Steel Ring trophy to the department with the outstanding Open House display.

The coronation of Moore and Miss Eaton will take place at St. Pat's prom Saturday, March 16. Dean M. A. Durland will do the crowning.

Royalty attendants will be Virginia Roenbaugh, HT Sr; Sandra Tenorio, Ar 01; John Nuzman IT Sr; and Pat Schmiedeler, ME Sr.

The Pastals will furnish music for the prom.

NUMBER 102

Eng Pro Students Must Sign Cards

Students assigned to English Proficiency this semester must report to the offices of their deans before March 14, to sign record cards and obtain their numbers for the English Proficiency examination March 19 in Eisenhower hall, Prof. Nellie Aberle, co-chairman of examinations for English Proficiency, announced yesterday.

Students who have not signed report cards will not be able to take the examination even though they are assigned to English Proficiency.

Passing of English proficiency is required before any student may receive a degree from the College.

Architects, et al, Here Talking of New Hospital

Architects from Shaver and Shaver of Salina are on the campus today discussing the new Student Health building with R. F. Gingrich, superintendent of the physical plant, Dr. B. W. Lafene, director of Student Health, and others.

The meeting was called to plan the types of materials that will be used in the building, and the cost and type of furnishings which will be required, according to Dr. Lafene. A number of engineers are sitting in on the conference.

Merna M. Zeigler, associate professor of institutional management, is on hand to determine the equipment that will be necessary for the new kitchen. An X-ray company is here to discuss the details of the X-ray suite.

"The legislature hasn't approved the appropriations for the new Student hospital yet; however, we hope that they will in the very near future. Should they appropriate funds, the building will be started next fall, and will be completed by the middle

of the '58-'59 term," explained Dr. Lafene.

"The proposed hospital will be T-shaped, and two stories high. There will only be forty beds in it, though. However, as more funds accumulate, we hope to add on to it," Dr. Lafene said.

This new Student Health will be on the site of the present one. "During the time it is being built, we will have to set up our offices anywhere on the campus where there's room, and parcel out service the best we can," he added.

KU Bottle Band, '4 Delts' Join Y-Orpheum Agenda

"The Four Delts," will be a featured entre act when the 1957 Y-Orpheum takes the stage at 8 p.m. March 22 and 23 in the College auditorium, according to Jan Madsen, HEJ Soph, publicity director.

"The Four Delts," is a quartet consisting of Lowell Novy, VM Fr; George Reed, ME Jr; Larry Foulke, NE Soph; and Larry

Ball, ME Soph. They sing barbershop numbers which usually have been specially arranged by members of the quartet.

The group was one of K-State's entries in the Big Three talent show held here earlier this year.

Another number which was featured in the talent show and will be here for Y-Orpheum is the Alpha Omicron Pi bottle band. The band consists of several girls who belong to the social sorority at Kansas university. They have had several TV engagements on a nation wide network.

Other entre acts will be handled by Gordon Jump, Sp Sr, who is the emcee for this year's show, and by Matt Betton's orchestra.

Tickets for this year's show will go on sale in the Union and at Betton's Music store March 16.

Monday 'Panhell' Meet For Rush, Sing Talks

Panhellenic council will meet Monday at 7:15 p.m. at the Alpha Delta Pi house to set a date for Interfraternity Sing and to receive the sororities voting results on the revised rush rules.

KS Union Plans Big Things on Its First Birthday

Celebrating its first year of operation, the K-State Union will be humming with extra activity today, tomorrow, and Sunday, as committees and staff members stage birthday festivities.

Opened one year ago today, the \$1,650,000 building has been the center of student activities and has served as a meeting place for students and dignitaries alike during its first year of operation.

Festivities will begin this afternoon at 3 p.m. when a birthday cake, which will serve 200 persons, will be cut.

The Crewcuts appear at a concert in the Auditorium tomorrow from 8 until 9 p.m. and at a dance from 9 p.m. until midnight in the Union grand ballroom. The RP queen will be crowned.

"Raintree County" by Ross Lockridge Jr. will be reviewed at 2:30 p.m. Sunday. Art exhibits and pictorial displays will be shown all three days.

The first Cinemascope production to be shown in the Union little theater will be presented this weekend. The movie is "Daddy Longlegs," with Leslie Caron and Fred Astaire.

Student Writes Ode to Grades

By Shari Shellenberger

THE UNIVERSITY of Connecticut has put a temporary ban on Coca Cola bottles. Seems the little green bottles have been finding their way through fraternity house windows.

And believe it or not, the new fad at Louisiana State is to embroider tennis shoes with the name of your current flame. When the romance dies, you simply clip off the old name and sew an "X" on the spot. "X" means available and scanning the scene. This one sounds more like good ole high school days.

FROM THE Regis College (Denver) Brown and Gold comes this evidently discouraged student's view of "Trees:"

"I think that I shall never see
A mark as lovely as a B.
A B that drives away dull care
And bringeth glances everywhere,
A B that may, in time, I wish
Increase fourfold to make Dean's list.
B's are probably made by fools
But not according to my rules,
For in this place it seems to me
That only God could get a B."

A NEW ANGLE for the picture story was presented recently in the Iowa State Daily. Instead of the usual queen photos, snaps taken at the basketball game, or of students waiting at the Field House door at 9 a.m. to get into the 7:30 p.m. game, the Daily featured the campus cop on his "All in a Day's Work."

First, he is shown writing out the ticket for an illegally parked car (one of Iowa State's "biggest problems"). Second, he is slipping the ticket under the windshield wipers (carefully, so it won't be lost), then taking time out for a cigarette and chat with a fellow policeman. Third, he follows a speeding car, and is pictured giving the driver a "stern warning" (checking his license and questioning him as to his knowledge of speed limits).

Our only comment on the story concerns the poor student who was stopped for speeding. It's bad enough to commit this embarrassing crime, let alone being featured for it in a picture story in the college daily.

AT MICHIGAN State, the University News criticized the school's Student Congress for its "apathetic state." The Congress in turn criticized the paper, saying it should be "more constructive and offer ideas."

The paper, attempting to please, suggested a list of 24 projects for the Congress to work on, including: getting traffic lights at busy campus crossings, working out a civil defense plan for students, regulating elections, doing something about dorm food and crowded rooms, planning coffee hours so students could meet famous visitors on the campus.

Quite a challenge, no?

Quotes from the News

By UNITED PRESS

Washington—House Democratic leader John W. McCormack (Mass.) warning President Eisenhower that final approval of the President's Middle East resolutions means the White House now holds full responsibility for executing a definite program in that area:

"APPEASEMENT IS the road to war. We have shown the world American unity. The execution rests with the President."

Michigan City, Ind.—Park superintendent G. J. Olvaney of the Washington park zoo, on Scottie, a 10-month-old lion cub he wants to sell to anyone offering \$50 and a good home:

"He's a little big for a playmate now."

Washington—President Eisenhower indicating he does not share the concern that some people do about water fluoridation:

"I do drink tap water here at home, but that is just because I figure it is just as good as the bottled water."

Washington—Agriculture Secretary Ezra T. Benson, first clergyman to serve in the cabinet since the Civil war, on religion as a guiding influence in all of man's activities:

"I BELIEVE very deeply in the possibility of finding divine inspiration for your daily work if you seek for it. I've had enough evidence of it to satisfy me beyond the shadow of a doubt."

Pittsburgh—Edward G. Outlaw, 29, of nearby Homestead, was sentenced yesterday to five years in prison for burglary.

Judge William F. Cercione told him: "You certainly lived up to your name."

An Editorial

Students Have Voice In Making KS Policies

STUDENTS HAVE been gunching for several weeks about the activity cards and seating arrangements at basketball games, etc. The basketball season is over for this year but we should begin action NOW if we want revisions made for next year.

President McCain requested in a meeting Tuesday that members of the Athletic Council and the Student Council plan a meeting to study the problem and make revisions if necessary for the coming year.

THESE RULES and policies can always be changed. If we are dissatisfied, we can and should do something constructive to remedy the circumstances.

Students have a voice in making the rules of the College through our representatives on the Student Council, Athletic Council, Apportionment board, Traffic Control board, Panhellenic council, Interfraternity council and so on.

THE MEETING between members of the Athletic and Student councils to study the activity card program will be Wednesday, March 13, according to Pat Wilkerson, student body president.

Student members of the Athletic Council are Gene O'Connor, PEM Jr, and Merle Nay, PEM Sr. Ron Bryant, ME Sr, is Student Council president. See them or other members of the Student Council if you have some constructive suggestions to make. Jane Moore.

K-STATERS WERE slipping a bit in their sportsmanship at the Wednesday night game between K-State and KU.

We're proud that there will be no need for paying \$458.98 bills to Kansas university for damages this year, but one of the first considerations given to any guest school is for us not to yell or boo while guest cheerleaders are leading their school in yells.

THE SEATING situation turned out about the same as any other sellout game, perhaps because of President McCain's announcement that there would be no special ticket check. Perhaps also because of the fact that many students didn't go to the game.

Oh well, we can't have our cake and eat it too. Happy Birthday to the Student Union.—Jane Moore.

Pogo

By Walt Kelly

Readers' Forum

Dear Editor,

Since your paper is so liberal in printing opinions rather than facts, I thought I would submit the following opinions.

Your statement, "There is nothing we can do about the activity card problem this year, but we can work toward a few changes for next year," is the type of fallacious reasoning found too commonly among the typical K-Stater.

The issues are hot; the time for action is now! To wait is to accept the dictations of an administration which chooses to completely disregard student opinion.

In yesterday's paper, Newton Anderson says, "activity tickets are a privilege..." If Newton should choose not to exercise the privilege of obtaining an activity ticket, he would find this so-called privilege is a compulsory purchase.

Bebe Lee says he "is opposed to anything that can be attacked as wrong in principle." If giving my ticket to someone else is "wrong in principle," then conversely, the practice of members of the Athletic department giving "complimentary" tickets seems slightly "tainted in principle" to me. He spoke further of "criticism from a minority of students."

What constitutes a majority in his opinion must be well in excess of 100 percent! I have yet to converse with a person who condones the opinions of the Athletic department in regard to the issues at hand.

If I am unable to attend a game, my wife will certainly have first preference of using my admission, rather than some legislator who is probably a graduate of KU to start with.

Unsubmissively yours,

Harry L. Hunsley, CE Sr.

Editor's note: In a meeting with members of the Athletic Council and Student Council Tuesday, President McCain requested that these two organizations get together and study the activity ticket situation for possible revision.

We believe you are wrong in saying that the administration chooses to completely disregard student opinions. The students have representatives on both the Athletic Council and the Student Council, all with voting power.

Telegraphic Tabloids

By UNITED PRESS

WASHINGTON—A cordial House reception appeared likely today for the administration's request to raise the cost of mailing a first class letter from three to four cents.

But its fate appeared in doubt at the hands of the Senate which killed similar legislation last year.

POSTMASTER GENERAL Arthur E. Summerfield yesterday requested legislation upping various postal rates which he said would bring in an additional \$527.5 million annually by 1961.

Summerfield apparently heeded the warnings of a number of congressmen and abandoned any idea of seeking a five-cent rate for letters.

Cheerleaders Laud High Student Spirit

"School spirit has run higher and more enthusiastically supported the team during the past football and basketball season than any time in the past few years," in the opinion of Larry Youngdoff, BA Jr, head cheerleader.

Among the many who contributed to school spirit this season have been the 10 cheerleaders whose efforts to build up school spirit have centered around trying to get the entire student body to yell at ball games, and in building up as much appreciation for the coaches as for the team.

Cheerleading practice was held each Tuesday and Thursday. With the season over, some of the cheerleaders expressed their views:

Marilyn Adams, EEd Jr, said "School spirit has been fine, especially when K-State was winning. She said she thinks the pep clubs are "marvelous," and among the tops in the Big Seven. "They are nice to work with because they are so responsive." Concerned about the issue made over no cheerleaders being at the away game with Iowa State, Marilyn said she was sorry that none could make it, explaining that some had the flu while others were tied up with activities here on the campus.

School spirit was good when the team won at home, Jack Hill, AE Soph, commented, but after the team had lost a game on the road it took the cheerleaders half of a game to rebuild it. He thinks the pep clubs are good now, but should be enlarged.

Sandy Culver, BA Soph, said she appreciated the way students stayed with the cheerleaders at the game at Kansas university, in spite

of the fact that no section was reserved for K-State students. "When you are down on the floor yelling and jumping around, you feel kind of foolish if the crowd isn't yelling, too. It really helps to have the crowd back you up when you lead a cheer."

J. M. Theis, BA Jr, thinks spirit at games was better this year than last, although he doesn't think it was the best ever. He said the student body has shown better conduct and sportsmanship at games than any other Big Seven school.

On the topic of "dead" crowds, Judy Gladish, BMT Soph, said that they were the reason all the cheerleaders led cheers on only one side of the field house during a couple of games. "We hope that a change in seating arrangement might partly solve this next year," she said.

Adelia Johnson, HE Soph, said she believes the attitude of the KSC student body toward teams which play here is more friendly than the student bodies of other schools at which K-State has played. Adelia explained that, contrary to popular conception, the cheerleaders do not get their way paid to games on the road, with the exception of gas mileage. "We do try to go to all the away games we can and have been to at least five during the past football and basketball season."

Youngdoff concluded that he was all for any demonstration of school spirit, as long as it didn't take the form of bad conduct. Although he doesn't consider booing to be the best form, it has been noticeable this year but he feels it is a good way to "let off steam."

Trademark Is Discussed By Campus Industries

Requiring a trademark to be on all products turned out by Campus Industries, Inc. was discussed by the five student members of the Campus Industries board of directors in a meeting recently.

The purpose of the trademark will be to tie together all Campus Industries products, in view of increasing the market. Board members discussed the design and wording of the product, but decided to chose it at a later date after due consideration and consultation.

Jerry Holliday, ArE Soph, chairman of the board, announced that new members of the board will be chosen by the Student Council after he and Mirt Smith, Soc Sr, interview all applicants. Applications will be open all next week, and may be obtained in the Dean of Student's office. Interviews will be held the following week. Former board members may apply, he added.

Present members of the board

are Jerry Holliday, ArE Soph; Marilyn Smith, Soc Sr; Dixie Brown, HDA Jr; Warren Keegan, Ec Sr; and Don Beck, ME Jr. The board voted at its last meeting to add a sixth member when applicants were chosen.

The Student Council will do the final choosing of members.

The board is making efforts to establish a magazine corporation whereby students will sell magazine subscriptions. Keegan read a letter from Time, Inc., which stated Time already has a representative on campus. The arranging with him to sell student subscriptions was suggested in the letter.

Plans are underway for the touring of communities by student talent and putting on paid performances.

A faculty committee will be set up to pass on the quality of crafts manufactured by Campus Industries. Don Beck explained that this would prevent the selling of any products which might be inferior in craft quality.

AWS Positions Open to Coeds

Application blanks have been sent to those coeds who are eligible for offices in the women's council of the Association of Women Students, according to Jean Koerner, DIM Soph, chairman of the nominating committee.

In order to be eligible for an office, a coed must have served on AWS council for one semester, and have an accumulative grade average of 1.5. The offices are president, first vice president, second vice president, third vice president, recording secretary, corresponding secretary, and treasurer.

The applications for office must be returned to Miss Koerner before March 15. The applicants will be interviewed the week of March 18 through 22 in the Student Union. Election will be held April 1 and 2.

"If any eligible coeds desiring to apply for office have not received an application blank, please call me at Northwest hall," said Jean.

You'll be pleased with a Collegian want ad.

Alumni News

Ag Grad at K-State Is Cop in Manhattan

With the Manhattan police department is William Jewell Elliott, Ag BS '53 who was in Scabboard and Blade while in school and married the former Rose Marie Clark in 1955.

Holder of a Raymond Gray scholarship and on the frosh football squad of '49 as well as the varsity squad of '52 was Raymond Lawrence Burns, BS '53. He is now with the animal husbandry department of Purdue university in West Lafayette, Ind.

Robert Lee Deam, BS '53, was a lawyer in Junction City from 1954 to 1956 and is now the county attorney.

With General Electric since his graduation in '53, Ray Lewis Gillette Jr. EE, BS was a development engineer in the engineering lab for two years and since that time has worked in the x-ray department. He married the former Martha L. Randall, class of '53.

Before John Henry Droge, BS '53 started his present work for

his masters in agricultural marketing and statistics at Raleigh, N.C., he lived in Liberal where he was an appraiser with the Federal Land bank.

A married couple, both graduates of '53, are presently living in Salina. Dwight Willard Hill was on the dean's honor roll and a distinguished AFROTC graduate while here and is now an accountant with Kennedy and company. His wife, the former Ruth Janette Moors, BS, taught elementary school in Fairborn, Ohio in 1954 and 1955 while her husband was in the service.

Alice Marie (Boone) Casey, '52, had a home demonstration scholarship while attending KSC and immediately afterwards worked as a home demonstration agent in Cottonwood Falls. She now lives in Hiawatha with her husband, Melvin L. Casey, '51.

Living in Kansas City and working as entomologist for Douglas Chemical company is Lester LeRoy Christopher, BS '52. He majored in milling industry.

George David Bishop, BA '53, is a life insurance underwriter for New York Life Insurance company. He married the former Mary Joan Thayer.

Robert L. Bertrand, BS '53, is now in the Chemical Engineering department of Kansas State college. He married the former Deloris Sutton, class of '53.

Valerian Hilary Brungardt, BS '53, MS '54, is director of junior activities of American Angus association.

Elizabeth Ann Elliott, BS '53, was employed in College Park, Md. after her graduation where she was with National 4-H club foundation, a part of the International Farm Youth Exchange program which was under the service of the U. S. Department of Agriculture. She is now a home demonstration agent in Belleville.

Cat Tankmen at OU For Big Seven Meet

K-State's swimming team is at Norman for the Big Seven swimming meet that ends tomorrow in the Oklahoma university pool. K-State has shown improvement following losses to Nebraska and a 44-42 dunking by KU at Lawrence early in the season.

The Wildcats came back to compile a 6-4 season's record in dual competition. They avenged the KU defeat with a 47-39 win here and beat Colorado here by the same score.

The other four victories came at the expense of Emporia State and Fort Hays State, each team

was defeated twice by the Cats.

A 69-17 loss to Oklahoma late in the season should dispel any illusions K-State supporters have about winning the conference swimming meet. An indication of the power and depth of the Oklahoma squad is that no K-State swimmer was able to finish first in that meet.

The undefeated Oklahoma tankmen are heavily favored to repeat as Big Seven swimming champions for the sixth straight year. Their dual record this season is 5-0.

Eleven Undefeated in IM's

With half the intramural volleyball season gone, there are seven undefeated fraternity teams and four undefeated independent teams. Three of the undefeated Greek squads and one independent squad with a perfect record were winners of their groups last year.

There are four groups in the fraternity division and three in the independent division. Each team plays only teams in its group during the regular season. The winners of the groups then play each other to determine the volleyball championship.

Leading Group I are Kappa Sigma and Sigma Nu, each with 2-0 records. Former group winner Pi Kappa Alpha is 0-1 in the standings with a loss to Sigma Nu.

Delta Tau Delta and Beta Sigma Psi are the only undefeated teams in Group II. Each has

won two games.

Sigma Chi is an all-victorious squad in Group III with a record of two wins and no losses. The Sigma Chi's were last year's group winner.

Beta Theta Pi and Sigma Alpha Epsilon are tied for the lead in Group IV with identical records of 2-0. The Betas were the winner of the group last season.

Jr. AVMA is leading Group I of the independent division with three wins and no defeats although Acropolis is close behind with a 2-0 record. Last year's group winner, the Hillbillies are not competing this year.

Phi Epsilon Kappa has things all to itself in Group II of the independent division. They are sporting a 3-0 record.

Rounding out the leaders in the groups is OK House which leads Group III with a record of 3-0.

Roger Myers

Jim Bell

At Our Discretion

Several groups that are allowed into home basketball games before the doors open took gross advantage of that privilege and saved some 100 of the choicest seats before the long-suffering near-frozen mob was admitted to the KU game.

Some people stood as long as eight hours to get a good seat, only to get in and find that those seats had already been sucked up by at least three school organizations.

The three principal offenders—there were probably more—were the K-State 100-piece band (for the KU game it looked closer to 130), the K-Club, and members of the freshman basketball team.

We must admit the offenders were pretty shrewd in their deceit. They (upon entering the Field House) rented as many seat backs as the number of seats they intended to save. This way there was no doubt as to how many seats were taken.

Certain of the band members, being either craftier or poorer, used their instrument cases to save blocks of seats.

The K-Club, which already has a block of seats reserved, used its letter sweaters to get in early, and then saved even more seats. They had a particular advantage in that they could save seats until their buddies were inside and then move back to their reserved section.

In one particular case, a person handling the public address microphone during the freshman game, used his privilege to save a large block of seats.

We are not saying that the privilege of these

people to get into the Field House should be taken away. Of necessity, or out of courtesy, they must be allowed in early and have special places set aside for them.

What we are attacking is the violation of the privilege. If the people who run the Field House are going to let this sort of thing go on, then why not open the doors at 3 p.m. and give the rest of the people a chance?

With the end of the basketball season, there comes a neutral period in sports. It'll be some time before outdoor track gets underway and baseball won't get into full swing until the latter part of March.

Despite the fact that these sports don't have the status of basketball or football, they are well performed by K-State athletes and certainly merit better attendance than they've received in the past.

K-State baseball in particular has been poorly supported. We admit college baseball isn't a big crowd-pleaser like collegiate football or basketball, but it's the gateway to professional ball and the stairstep to the majors.

With more support and more attention, perhaps the College athletics department could be persuaded to make some improvements of Griffith field, the present site of Wildcat diamond action.

One thing's for sure, you don't have to show a supplementary activity ticket to get into a track meet or a baseball game.

Photo by Gary Haynes

HERE'S HOW IT HAPPENED—seat backs costing 25 cents were rented in quantity and set up in choice positions to save seats for friends of some members of the special groups admitted to Wednesday's game early.

Carolina's McGuire Named 'Coach of Year'

By UNITED PRESS

New York—Frank McGuire, who transferred his big grin and a bevy of talented college basketball players from New York to the University of North Carolina, today was voted United Press Coach of the Year.

McGuire's Tar Heels, nine of whom hail from the New York City area, swept 24 games to become the only major college team able to finish the regular 1956-57 season with a perfect record. This showing earned McGuire Coach of the Year honors by a huge margin in a nationwide poll of 267 sports writers and broadcasters.

The 42-year-old coach received 150 votes, 54 per cent of

the total cast although 33 coaches were mentioned on the ballots. Adolph Rupp, whose Kentucky Wildcats won the Southeastern conference title, was a distant second with 22 votes. Bill Stranigan of Iowa State was third with 13.

Branch McCracken of Indiana was next with eight votes and Forrest (Fordy) Anderson of Michigan State was fifth with

seven. Donald (Dudey) Moore of Duquesne, a two-time winner of the United Press poll, was next with six.

Like Phil Woolpert, the San Francisco coach who won the U.P. Coach of the Year award the past two years, and Moore, the Duquesne coach who won it in 1954, McGuire is the latest to disprove Leo Durocher's theory that "nice guys always finish last."

Miller 'Tries' Way to Top

By ELDON MILLER

"I have a long, tough way to go yet, but I'll be trying," James (Riley) Miller, K-State's 123-pound wrestler, said earlier this season.

Miller "tried" his way into a top spot among Cat grapplers. The little sophomore has been one of the more consistent wrestlers for Coach Fritz Knorr's team.

When Miller said "I'll be trying," he meant it. "Riley does a good job of training," commented Knorr. "He is probably one of the hardest workers out there."

Riley may have to face Oklahoma university's Dick Delgado in the Big Seven tournament at Norman today and tomorrow. Delgado, who was a fifth place winner in the Olympics, already owns a victory by fall over the K-State sophomore. Miller hung on to a lead for most of the match but Delgado's experience made the difference and the Sooner was able to gain a third period pin.

After building a 5 wins, one tie, three losses record, Riley dropped his last two matches against tough competition. One loss was to Harmon Leslie of Oklahoma A&M, and the other was to Frank Altman of Iowa State.

Altman, one of the top 123-pounders in the Big Seven, decided Miller 3-2 in a close match in Ahearn field house.

Riley earned three wrestling letters while attending Wichita North high school. His prep coach was A. R. "Monk" Edwards who is a former Wildcat himself.

As a junior, Riley placed second in the state tournament competing in the same weight division as in college. However, he was unable to wrestle in the tournament his senior year because of an injury. While working on his car, a portion of Miller's right thumb was taken off by the fan blade.

Although Riley has a little trouble making his weight, both he and Coach Knorr believe he will be able to stay in the 123-pound class next year.

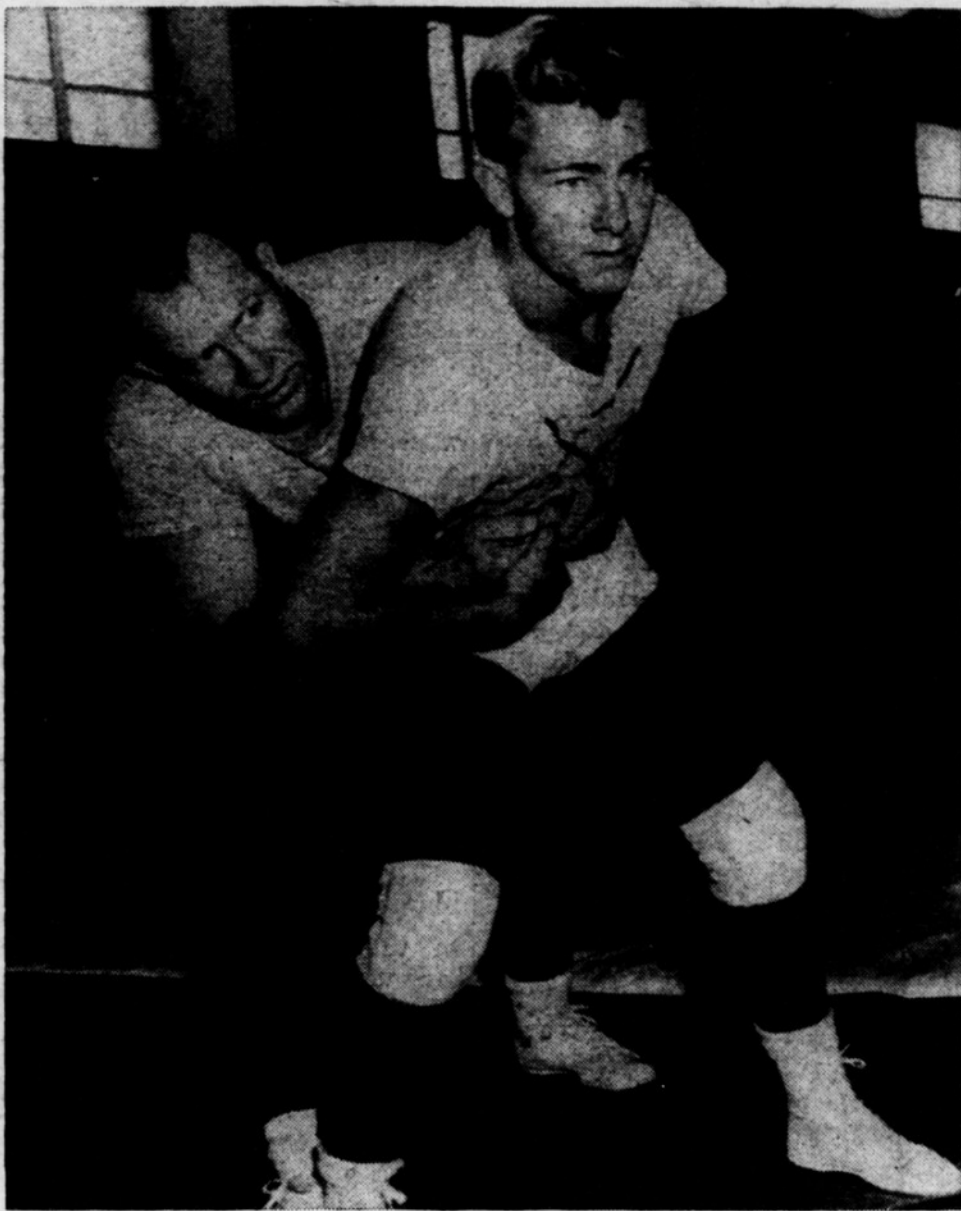

Photo by Darryl Heikes

RILEY MILLER, Cat grappler, will be trying for a top spot in the Big Seven wrestling tourney at Norman today and tomorrow. Though he has wrestled in the 123-pound class most of the season, Riley will jump a notch to 130 pounds for the conference meet. Coach Fritz Knorr is with Miller.

Drake Picks Two Cat Stars

Jack Parr and Bob Boozer, K-State's 40 points a game scoring duo has been named to Drake university's all-opponent basketball team.

The team was selected by the Drake squad. K-State beat the Iowa team 90-41 in Ahearn field house early in the season.

The only other representative of the Big Seven chosen on the six-

man team was Gary Thompson, Iowa State's All-American guard. Parr and Thompson received the most votes for the team, each getting 15. Boozer received six votes.

Others chosen on the team were Barney Cable, Bradley, and Bill Ebben, Detroit, each with 12 votes; and Harold Alcorn, St. Louis, with six.

NCAA Spots Nearly Filled

By UNITED PRESS

A record-busting scoring spree by Lennie Rosenbluth and a care-free clowning show by Hot Rod Hundley sent North Carolina and West Virginia surging closer today to the only two berths remaining in the NCAA basketball tournament.

North Carolina, the nation's No. 1 team, is expected to win the Atlantic Coast conference tournament and qualify for an NCAA game against Yale in New York next Tuesday.

The National Invitation tourna-

ment in New York announced that it has seeded only two teams in its 12-team field—Seattle (22-2) and Bradley (19-6). It announced the following pairings:

March 16: Utah vs. Memphis State. March 18: Seattle vs. Cincinnati-St. Bonaventure winner; Manhattan vs. Utah-Memphis St. winner. March 19: Bradley vs. Seton Hall-Xavier winner; Temple vs. Dayton-St. Peter's winner.

Matmen in Norman For Big 7 Tourney

Oklahoma university will be defending its Big Seven wrestling title today and tomorrow against a strong bid by Iowa State in the conference tourney at Norman.

The Sooners go into the tourney with an 8-0 season record while Iowa State has fashioned a 9-3-1 record against stiff competition.

In last year's tourney at Ames the Sooners outscored the second-place Cyclones, 88-67. Oklahoma won five individual crowns while Iowa State won two.

The Sooners return four of their five champions plus a conference champion of two years ago, Lee Young, who was idle last year because of a knee operation. Young is a 157-pounder.

Iowa State is led by a trio that has two undefeated season records and two returning champions. The returning champions are 137-pound Dean Corner and 167-pound Frank Powell who has a season record of 14-0. Ron Gray, 147-pounder, has a season record of 11-0.

Racing for third place will be Colorado and K-State. Colorado has a 9-4 season record in comparison with the Wildcat's 4-7 record.

According to K-State coach Fritz Knorr, the Wildcat's best chance for an individual title is in Douglass sophomore Pat Doyle. Doyle will receive stiff competition from Oklahoma's Young.

Leading the Colorado team will be 137-pound Lyle Neville, 147-pound Wilbur Derby, and heavyweight Jack Himelwright. Neville and Derby each have 9-2 season

records while Himelwright's record is 8-1.

Knorr has entered five sophomore wrestlers and three junior lettermen for the Wildcats.

They are Billy Youngers, 123 pounds; Jim Miller, 130 pounds; Pete Everist, 137 pounds; Jim Roberts, 147 pounds; John Doyle, 157 pounds; Gary Haller, 167 pounds; Jim Dietrich, 177 pounds; and Ellis Rainsberger, heavyweight.

Doyle is undefeated in Big Seven action and has a 7-2-2 record in dual competition. He has accumulated 27 points to lead the Wildcat grapplers. He is accorded a favorite's role, while Haller and Rainsberger figure able to place second. Miller could gain a third-place ribbon.

New Spring Styles Modeled by Coeds

A spring fashion show of clothes to sew entitled "Fashion Stars" will be presented by the Clothing and Retailing club next Tuesday at 4 p.m. in the little theatre of the Student Union.

Simplicity pattern company is providing 16 styles for on and off campus wear to be modeled by girls in the Clothing and Retailing club.

All the clothes that will be worn are shown in this year's Simplicity pattern book.

For campus there are versatile separates. One of these is a jacket and skirt is shepherd checks, the jacket with a bloused drawstring waist, the straight skirt very slim.

Another fashion for class is the shirtwaist dress, which will be shown in floral striped cotton with a full skirt.

For weekends there will be shown a one-piece playsuit in Chinese red, with a multicolor striped skirt that ties over it.

Over most of the casual clothes can go the short car coat, hooded, and light-weight in cocoa brown saletcloth. In the show, it will be worn over a forest green skirt and white cotton pima broadcloth shirt, two campus classics.

For dress, the cape is shown in two versions. One, a half-way length, is in deep coral wool. The other is a brief one, part of an emerald green ensemble, with a sheath dress whose bloused bodice is in print to match the cape lining.

Another shirtwaist dress is shown in this group in royal blue linen with a slim skirt.

Two coats have been made to wear with it . . . a reversible straight coat, one side a blue linen and the other a cotton print. The other coat is more dressy made of a crisp white eyelet linen.

There is a whole consellation of evening "stars" in the fashion show. On the sophisticated side is a sheath dress in summer cotton, the empire top of white cotton lace, skirt of black, and floating panels of red cotton voile.

Another sheath for evening is made in a turquoise, rose-print, silk shantung, softened with a full-skirted overdress of matching silk organza print.

Diana Koon, TxC Soph, will be

commentator at the "Fashion Stars" show, and modeling the clothes will be Alberta Timm, HEB Soph; Joan Skupa, TxC Sr; Linda Paulson, TxC Soph; Cibyl Teichman, HE Fr; Rhea Lake, TxC Soph; Marg Bearg, TxC Sr; Judy Hopp, TxC Soph; and Harriet Tedrow, TxC Fr;

Marcia Sowers, TxC Soph; Anne Anset, HE Soph; Rosemary Martin, TxC Soph; Susanne Wildgen, TxC Soph; Mary Jo Moriconi, TxC Fr; and Maryanne Keller, HEB Fr.

Marcia Sowers, TxC Soph, president of the Clothing Retailing club is in charge of the fashion show.

The committee chairmen are Maryanne Keller, HEB Fr, models; Rosemary Martin, TxC Soph, programs and publicity; Donna Stewart, TxC Soph, and Jean Brockman, HE Soph, staging; Harriet Tedrow, TxC Soph, lighting and public address system; and Joann Baird, TxC Fr, wardrobe.

Hospitality Day Exhibits Planned Around 'Alice'

Twelve Home Economics departmental exhibits are being planned for Hospitality Day, April 13.

In the family economics exhibit, Penny Stafford, HEC Soph, and her committee will show by the use of modern equipment that there is no excuse today for the phrase the fairy tale character used, "I'm late, I'm late for a very important date."

The clothing construction exhibit under the chairmanship of Sondra Cool, HE Soph, will display clothing construction techniques. Using five dress-forms the exhibit will show the construction steps from draping on up to the finished product which will be a blue dress and white pinafore on a form representing "Alice."

Margaret Crouch, HT Soph, and her textiles exhibit committee will be showing an "Alice" in

an array of wrinkled cottons viewing through her looking glass in the new wrinkle-proof and drip-dry fabrics.

Enlarged color photographs showing "Alice" going through a week's activities as an home economics agent will be the extension committee's exhibit under the chairmanship of Ilene Davey, HT Soph.

"Nurses" will put Humpty Dumpty back together again in the nursing demonstration. Marlene Van Schoonveld, HEN Fr, is chairman.

Low-temperature meat cookery will be the subject of the meats exhibit. Madelon Neff, DIM Jr, is chairman.

The opportunities for a journalistic career will be expressed in the exhibits in Kedzie hall planned by Betty Moore, HEJ

Soph, and her committee.

The art exhibit, under the chairmanship of Carol Lala, HEA Soph, will display work from all the art departments.

The institutional management exhibit committee will be showing a new kitchen and serving tarts made in this kitchen. Mary Banks, DIM Sr, is the chairman.

Judy May, FN Sr, and Phyllis Viergever, FN Soph, are planning a Mad Hatters tea for the foods and nutrition exhibit.

The way to become a teacher will be exemplified by the three stages of the caterpillar in the teaching exhibit.

Twiddle Dum and Twiddle Dee, two of the fairy tale characters will be used in the child guidance exhibit. Catherine Cain, ChW Sr, is chairman.

Conference To Be Here March 8-10

The third annual College Age Westminster Fellowship conference will be in Manhattan March 8, 9 and 10, at the First Presbyterian church and Westminster House.

The conference is for college age youth in Kansas, and representatives from Pittsburg State college, KU, and Emporia State college will attend. Sixty students are expected. The theme, "The Layman and His Church," will be considered.

The merger of four student fellowships, Disciples Student fellowship, United Students fellowship, Wesley foundation, and Westminster fellowship, will be the main topic of discussion.

Speakers at the conference will include Prof. Don Miller, layman in the Presbyterian church and a professor in the Department of Mathematics at the University of Nebraska. Prof. Miller will talk on, "The Place of Layman and Clergyman in the Church," at 9:30 a.m., Saturday. At 1:30 p.m., Professor Miller will define the opportunity and responsibility of the layman in today's church. Both sessions will be followed by group discussion.

Sorority Gets New Members

Initiated into Kappa Phi, Methodist women's service club, February 26, were Christine Bergstrom, HEJ Fr; Gwen Bourquin, EEd Fr; Jane Chalmers, SED Fr; Jo Ellen Cooley, MAV Fr; Barbara DeLange, HT Soph; Patricia DeLange, BMT Soph; Betty Emery, HE Soph; Sue Hiebert, HEJ Fr; Ruthann Hill, HT Fr; Carolyn Humburg, BMT Fr; Mary Alice Jordan, HE Fr; Greta Julian, MEI Fr; Joan Kirk, BA Fr;

Judie Kroell, Bac Fr; Kay Linder, His Soph; Shirley McAdams, HDA Fr; Mynie Lou Mundhenke, HT Soph; Gloria Ousdahl, HDA Fr; Marge Penrod, Mth Fr; Orva Richardson, HE Fr; Judy Ross, HT Fr; Fayanne Sandstrum, Eng Fr; Martha Stark, HT Sr; Mary Stephens, EEd Soph; Virginia Taylor, SED Fr; Muriel Ward, HEB Fr; Barbara Wenger, Eng Fr; Delores Wilken, HDA Fr; and Livonna York, HE Soph.

'Wives of Windsor' Cast Headed By Gordon Jump

The cast for "The Merry Wives of Windsor," to be presented in the College auditorium April 4 and 5, has been announced by E. G. Hoover, professor in the department of speech.

Shakespeare's comedy fatman, "Sir John Falstaff" will be played by Gordon Jump, Sp Sr.

Other members of the cast and their roles are Glen Rhea, Sp Fr, Fenton; Darwin Klein, BAA Fr, Shallow; Jim Johnson, EE Jr, Ford; Gene Olander, EE Fr, Page; Richard Mansfield, BPM Jr, Sir Hugh Evans; Jerry Hager, Sp Jr, Doctor Caius;

John Barry, Sp Jr, Host of the Garter Inn; James Tullis, EE Sr, Bardolph; Ken Keefer, Sp Fr, Pistol;

Landon Friesen, Soc Soph, Nym; Dale Livengood, Sp Sr, Robin; Bob Annan, CE Fr, Simple; Jon Weigand, NE Soph, Rugby; Bobbi Baumann, Sp Soph, Mistress Ford; Sharon Wagner, RT Fr, Mistress Page; Wendy Helstrom, Sp Fr, Anne Page; and Sharon Evert, EEd Soph, Mistress Quickly.

Professor Hoover will direct the play and Betsey Thomasson, Sp Sr, will be assistant director.

At Integrity Meeting

Faculty Pay, KS Name, Game Tickets Discussed

The executive council of the Integrity party passed a resolution to send a letter to the Kansas state legislature requesting a five per cent pay increase for all faculty members of Kansas State at a meeting last night in the Union little theatre.

A committee is inquiring into

Newman Students Attend Convention

Four K-Staters represented the Newman club, Catholic organization, at the Central State Province convention at Rockford, Ill., March 2 and 3.

They were Robert Robinson, Bac Gr, second vice-president of the province; Jim Lyle, EE Soph, chairman of Kansas regional Newman clubs; Fred Suellentrop, ME Sr; and Joe Gardner, CE Fr. Newman club representatives from Kansas, Missouri, Iowa, Illinois and Nebraska, attended the convention.

Assistant Director Hired by Wesley

Warren Rempel, who was YMCA secretary at Kansas State from 1954 to 1956, has been employed as assistant director of Wesley Foundation, according to the Rev. B. A. Rogers, director of Wesley.

Rempel is now attending the school of Theology at Denver University, Denver, Colo., where he is working toward his doctor's degree. His duties at Wesley will begin September 1, 1957.

the matter of changing the name of the school from Kansas State college to Kansas State university, Pat Wilkerson, BA Sr, president of the Student Governing association, said.

The committee is in contact with Colorado State university, which recently changed its name from college to university. He said a poll would be conducted to see what the students want.

Wilkerson was queried about what the party was going to do about the problem of activity tickets. He said that five student council members and he would meet with Frank Mosler, ticket manager, and other officials of the college to try and work something out.

The question was raised as to whether the Collegian was printing both sides of the activity ticket question in the Readers Forum of the Collegian. Wilkerson said a poll would be conducted to find out what the students want to do about activity tickets and that the matter would be talked over Monday night in the Student Council meeting.

You'll be pleased with a Collegian want ad.

NO ADMISSION CHARGE

Middle-East Doctrine Gets Ike's Signature

Compiled from United Press
By KEITH KEMPER

Washington—President Eisenhower today prepared to sign his Middle East Doctrine and immediately dispatch a special mission to the Middle East to explain it.

Special ambassador James P. Richards, head of the presidential mission, said he expected to leave Tuesday to visit possibly as many as 18 nations.

At the same time, U.S. officials prepared plans for issuing a declaration that the United States regard the Gulf of Aqaba and the Strait of Tiran as an international waterway open to all nations including Israel.

Fire Strikes JC Again

Junction City—Fire last night destroyed one downtown building here and damaged several others.

A two-story stone building housing the Kessel department store was a "total loss" the fire department said. The plant of the Junction City Daily Union, next door, was damaged, and smoke caused damage to a Montgomery Ward store and the Central National Bank building. Damage to the newspaper plant was confined to a photography dark room.

Both the store building and the newspaper are owned by John Montgomery, publisher of the Union, who was out of town.

Students Riot After Loss

Raleigh, N.C.—Police used tear gas early today to break up a wild demonstration by some 300 students at North Carolina State college.

One unidentified policeman was slightly injured when he was struck by a rock. The windshield of a police car was smashed during the near-riot which followed the college's elimination from the Atlantic Coast Conference basketball tournament in the first round.

Campus and city police at first tried to quiet the students. In desperation, city police fired tear gas shells to quell the demonstration. Twenty-one demonstrators were arrested.

Congress May Cut Budget

Washington—Congressmen today warned President Eisenhower that his budget-cutting talk may

kill off some of his own legislative proposals.

Some House members predicted flatly that the administration's \$1.3 billion school construction bill would fall under the Congressional economy axe.

Mr. Eisenhower told his news conference yesterday he has ordered a new look at the entire budget to see if cuts can be made.

Suez Canal Open Today

Cairo, Egypt—Egypt opened the Suez Canal today to all ships weighing up to 500 tons. Shortly after the announcement, the 400-ton Lebanese freighter Farida sailed south from Port Said to be the first vessel through the waterway.

CALENDAR

Friday, March 8

Union Birthday coffee hour, KSU main lounge, 3 p.m.
Swimming, conference meet at Oklahoma, 2 p.m.

WEATHER

Weather forecast for Kansas is partly cloudy today through tomorrow, with snow flurries in the north tonight. Warm weather will continue through today, getting colder Saturday.
Temperature will be in the 40's today, dropping to 15 to 20 degrees in the north and in the 20's in the south tonight. Temperature at 9 a.m. was 25 degrees in Manhattan.

STUDENT HEALTH

There are 21 students, 16 men and 5 women, in Student Health today. Women are Sharon Knox, EEd Soph; Ardith Lehman, DIM Soph; Patricia Blasing, BMT Soph; Esther Lee Dahl, BMT Soph; and Ferne Kindall, HDA Soph.
Men confined are Robert Doml-

nick, BA Soph; Albert Foltz, ME Sr; John Simmons, AgE Fr; V. Paul Walter, Sp Soph; W. H. Wendling, CE Jr; Robert Gardner, FT Soph; Gerald Marten, Ag Soph; John Shroder, ME Soph; Khaire Tamme, Jrt Jr; Dean England, CE Fr; Nathan Greene, Ch Jr; Jarrell Nuss, IT Soph; Allen Meyers, IT Fr; Gene Ellis, Ar 01; Nelson Sinder-son, AgE Jr; and Wifrede Garcia, FT Gr.

Reporter's Killer Guilty

St. Joseph, Mo.—William Eugene Morgan, 29, today faced life imprisonment for the slaying last October 18 of a young newspaper reporter. The state had sought the death penalty.

A jury which deliberated slightly less than three hours last night convicted Morgan of first degree murder in the shooting of Richard Skram, 20, as Skram sat in a parked car with a young woman on an isolated drive near Corby Grove here. The jury recommended a life sentence.

California Division activities in Burbank cover virtually every phase of commercial and military aircraft. Seventeen different models of planes are in production, including cargo and passenger transports, high Mach performance fighters, jet trainers, radar search planes, patrol bombers.

B. S. graduates who wish to attain a Master's Degree will be interested in the California Division's Masters-Degree Work-Study Program. In the program, participants achieve their M.S. while working concurrently on Lockheed's engineering staff.

At Lockheed in Marietta, Georgia, new C-130A turbo-prop transports and B-47 jet bombers are being manufactured in the country's largest aircraft plant under one roof. The division is already one of the South's largest industries. Moreover, a new engineering center is now in development as part of the division's expansion program. In addition, advanced research and development are underway on nuclear energy and its relationship to aircraft. A number of other highly significant classified projects augment the extensive production program.

This broad expansion program is creating new positions in each division. Graduates in fields of: Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics are invited to investigate their role in Lockheed's expansion.

Chamberlain and Crewcuts Highlight Union Celebration

Kansas State Collegian

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Monday, March 11, 1957

NUMBER 103

Mary Ann Chamberlain, EEd Fr, 1957 Royal Purple Queen, and the Crewcuts shared the spotlight at the "Shower of Stars," a semi-formal dance in the grand ballroom celebrating the Union's first birthday.

Attendants to the queen were Susan Schober, PEW Soph, Alpha Delta Pi; Margaret Walker, Ht Soph, Van Zile hall; and Rosemary Derks, Eng Jr, Kappa Kappa Gamma.

C. J. Medlin, graduate manager of Student Publications and Royal Purple adviser, crowned the queen with a pearl and rhinestone crown.

Mary Ann represented Southeast hall as queen. She is a pledge of Pi Beta Phi and president of her pledge class.

After singing to an audience of approximately 1,000 people at the concert which began at 8 p.m. in the Auditorium, the Crewcuts performed before more than 550 couples at the dance. Jimmy Featherstone's orchestra played for both the concert and dance.

The quartet sang many of their hit numbers such as "Sh Boom," "Crazy 'Bout Ya Baby," and "Earth Angel." Singing at 9:30 and again at 11 p.m., the Crewcuts did a specialty on "Take Me Out to the Ballgame," combining a skit with a song.

The entrance to the ballroom was done in blue and white streamers with a scattering of abstract stars sprinkled with gold glitter. A sign over the door proclaimed the dance a "Shower of Stars."

On the west wall of the ballroom were large letters done in gold glitter spelling "Crewcuts." A large purple crown, signifying the coronation of the RP queen, was on the east wall with blue and white streamers leading from it to the stage floor. Stars were scattered over the crepe paper, giving it a fan-like effect.

Two abstract wire sculptures were in the ballroom. One of gold-painted clothesline and chicken wire stood at the edge of the dance floor. The second was a "Starmobile" which hung from the ceiling with a small crown suspended from it.

Photo by Darryl Heikes

MARY ANN CHAMBERLAIN, EEd Fr, was crowned Queen of the 1957 Royal Purple Saturday night at the Union dance by C. J. Medlin, graduate manager of Student Publications, Inc.

K-State To Play Host To Foreign Students

"Keys to International Understanding" is the theme of the fourth annual international weekend to be held at K-State March 22 and 23.

Registration will begin in the Union Friday at 3 p.m., followed by an evening banquet at which President James A. McCain will be the guest speaker. The conference will convene Saturday in eight discussion sessions. A general and summary session is scheduled

for the afternoon in the little theater. The program will conclude at 4 p.m. Saturday.

Those who attend the Friday night banquet will have an opportunity to see the annual Y-Orpheum for \$.50, a reduced rate for conference participants.

Tickets for the week end will be on sale March 18, 19, and 20 in the Student Union and Anderson hall. The Friday night banquet is \$1.50; the Saturday registration is \$1.

Architect Will Be Assembly Speaker

Speaker for the annual Engineers' Open House assembly Tuesday at 9:30 a.m. will be Charles Luckman, the man who with his partner, William Pereira, established the firm of Pereira & Luckman, Planning, Architecture, and Engineering, one of the largest of its kind in the world today.

Mr. Luckman achieved great distinction as a young executive when he became president of Lever brothers from 1946-1950.

He was welcomed into the professional fold of architects six years ago when he and William Pereira, a former classmate at the University of Illinois, formed the firm of Pereira and Luckman. Since then Luckman has obtained licenses to

practice architecture in 29 states.

Pereira and Luckman, with headquarters in Los Angeles and New York, directs its activities toward large scale commercial and industrial architecture and engineering. Practically all phases of engineering have been incorporated in this firm which maintains departments in research and analysis, architecture, industrial, structural, mechanical, electrical, civil, and sanitary engineering, interior design, master planning, construction management, and construction cost control.

Mr. Luckman graduated magna cum laude in architecture from the University of Illinois. He was the only man in the School of Architecture to receive the key to Tau Beta Pi, the nation's highest honorary engineering fraternity.

Because the assembly will run a full 60 minutes, from 9:30 to 10:30 a.m., classes following the assembly will not meet until 10:40 a.m.

Greek Week To Include Dance, Talks

Workshops, a banquet, party hops, and a dance are being planned for K-State's first Greek Week, which will be April 24, 25, 26 on the campus.

The steering committee met over the weekend to make further plans. Representatives from national fraternity offices will help with the workshops, which will cover the main phases of fraternity life.

Workshop subjects include pledge training, pledge leadership, chapter problems, campus activities, sorority-fraternity relations, and college and Greek organization relations, according to Pat Roberts, TJ Jr, Greek Week publicity director.

English Pro Students Must Register for Test

Students assigned to English Proficiency this semester are urged to report to the offices of their deans before March 14 to sign their record cards and obtain numbers for the English Proficiency examination March 19 in Eisenhower hall. Prof. Nellie Aberle, co-chairman of examinations for English Proficiency, has announced.

Students who fail to sign record cards will not be allowed to take the English Proficiency examination.

Everyone Gets into Act at Union's Anniversary

Photo by Doug Tedrow.

LITTLE DOUG and Kathy Kottner, children of Loren Kottner, Union director, enjoyed the K-State Union birthday party Friday, as Gary Rumsey, AEd Jr, right, offered them one of the first pieces of cake.

DANCERS swarm the floor of the Union ballroom to the music of the Crewcuts and Jimmy Featherstone's band.

Photo by Darryl Heikes

THE CREWCUTS gave a forty-five minute concert in the Auditorium Saturday night and then sang several songs at the Union dance.

Holes in Union Are Numerous; Especially Void in Attic Area

Now that the Union has celebrated its first birthday and begun its second year, perhaps we should make a critical evaluation and see if it is fulfilling all of the purposes for which the students contributed and worked for so many years.

Now take the third floor. Since it isn't completed, it is at present serving the only purpose it can. It is used for Y-Orpheum practices and prop-building. It is occasionally used for meetings of large campus groups. It needs to be finished!

The second floor serves many useful purposes. The ballroom, activities center, and meeting rooms are all put to sufficient use. The TV room is not used to capacity. Something should be done about this.

The main floor—this floor, especially the stateroom is used beyond capacity. Many people who have never used the reading room and music rooms should stop and appreciate them. They are two of the most enjoyable rooms in the building.

The little theater is used by off-campus groups and for the weekend movies. Why couldn't this room be used for the meetings of large campus groups rather than sending them to the unfinished third floor?

The stateroom needs improvements as far as speed of service and cleanliness are concerned. The new number system used in ordering food in the stateroom has improved service much here.

The small room leading off of the browsing library isn't used. It should be opened for students use.

The basement floor is not only put to good use but helps pay for itself—except the dive. This is one of the sore spots of the Union. Perhaps here is the place we could put the TV.

The Union Governing board is considering this spot and ways to improve it.

The games area could be expanded into this area or a coffee bar could be installed here. It might be made into a combination TV lounge and coffee bar. Any one of these plans would improve utilization of this area.

The stairway on the south of the Union is pretty but why isn't it unlocked so it can be used? If students coming into the Union from the parking lot could use this entrance, it might improve use of the lounge area.—Jane Moore.

Quotes from the News

By UNITED PRESS

Paris—British Prime Minister Harold MacMillan after an Anglo-French conference at which he promised to keep troops in Germany: "The British government has no intention of withdrawing from Europe on tiptoe."

Washington—Clarence Francis, chairman of the Citizens committee for the Hoover report, urging government reorganization: "Inefficiency, waste, overlapping and obsolete government business procedures are costing us billions of dollars a year."

Canberra, Australia—Secretary of State John Foster Dulles on planned SEATO defense against Communist activity in Southeast Asia:

"We can confidently conclude . . . that international Communism now imposed upon many of the peoples of Asia is a passing and not a permanent phase."

Washington—AFL-CIO Vice President James B. Carey criticizing Dave Beck for tolerating corruption in his Teamsters union: "The Teamsters deserve a better leadership than they have."

Jerusalem—Peretz Bernstein, conservative opposition general Zionist leader, on Israel's withdrawal from the Gaza strip:

"We've surrendered unconditionally, without guarantees, and I'm afraid we'll soon regret it."

Readers' Forum

Dear Editor,

This is written, not in defense of the three organizations, mentioned in your "Editorial" which appeared in the Friday, March 8th issue of the Collegian, but rather to inquire if the figures presented were in all cases as inaccurate and irresponsible as those quoted with particular reference to the Band.

I was sent by Prof. Hedlund with two other members of the band to check on the number of chairs provided for the organization. There were not 130, or even the 100 so glibly mentioned, but 76, each of which was occupied by member personnel of the Band.

The rest of the Band was still in the Auditorium practicing during this time. The Field House was approximately one-third full when I arrived.

Limited inquiry into the circumstances with regard to the other two organizations maligned in this utterance gives every reason to believe the entire article was based upon inaccuracies.

I thoroughly dislike the parading of irresponsible insinuations from behind the curtain of journalistic typewriters, to the rattle of seeds from journalistic sour grapes.

Robert W. Brown, MEI Jr,
Pres. of the K-State Band

Dear Editor,

I'm not a math major or a journalist, but I can still count to 76. In the March 8 issue of the Collegian, under the At Our Discretion column, it was stated that one of the principal offenders (concerning the saving of seats previous to 5:30 p.m. the night of the KU game) was the 100-piece band which this time was nearer to 130.

First, I would like to inform the writers of this column that the band for this game consisted of 76 members. Little observation is necessary to distinguish a 76-piece band from a 130-piece band if the observer is actually trying to obtain facts rather than simply fill a column.

Second, it might be well for the writers of this article to realize that the Field House is not the meeting place for the band, but instead, it congregates at the auditorium and proceeds to the field house as a group after roll call is taken at 6:45 p.m.

This eliminates the possibility of band members saving seats for others. Yet the writers would accuse the band of being a principal offender.

I am not attempting to defend the actual offenders in any way, shape, or form, but when an accusation is directed toward an entire group as it was in this article, it might be well to know a little more about the situation before taking pen in hand and falsely putting the entire band as well as the director on the spot.

Dean Ebel, AEd Soph.

Telegraphic Tabloids

By UNITED PRESS

Des Moines, Iowa, A district judge had no trouble dividing a car between a 21-year-old couple in a divorce settlement.

The judge ruled Leon Burk should use the car by night and his ex-wife should drive it by day. The Burks agreed without complaint.

Detroit, Henry Ford has been driving the same car since 1923 for a total of 450,000 miles.

Rev. Ford, 92, a retired Baptist minister, says his ancient Willys-Knight Sedan is in "good shape" because "I don't know anything about how it works. When something goes wrong I get a mechanic."

Taipei, The "kindness" of the Nationalist Chinese tax collectors costs the government some \$10 million a year.

Vice-Finance Minister Chen Han-Ping reported the people owed the government more than 250 million Formosan dollars (\$10 million US) in 1955 alone.

He accused the tax collectors of being "too kind," since no arrests were made and no shop was closed for failing to pay taxes.

Egyptians Concerned Over Gaza Policies

Compiled from United Press

By KEITH KEMPER

Cairo, Egypt—Demonstrations against United Nations control of the Gaza Strip will hasten a showdown on, whether and when, Egypt will resume control of the explosive strip, observers said today.

Maj. Gen. E. L. M. Burns, the UN emergency force commander, conferred here today with Dr. Ralph Bunche, Assistant Secretary General of the United Nations, on the problems while the UNEF itself maintained an uneasy peace against the continuous demonstrations.

Bunche said when he landed in Egypt yesterday that his mission was concerned purely with UNEF affairs, but informed sources expected him to report to UN Secretary General Dag Hammarskjöld on a situation which threatens to deteriorate rapidly.

It appeared the United Nations would have to make a political decision soon on whether to return administration of Gaza to the Egyptians. Burns and Bunche were expected to fly to Gaza soon so Bunche could make an on-the-spot investigation.

Repairs Started on Tidal Wave Damage

Honolulu—Residents of Hawaii, Japan, and California today worked at repairing the damage caused by a quake-spawned weekend tidal wave that fanned out across the Pacific from the Aleutian islands.

The new quake was first felt at 7:20 p.m. (10:20 p.m. EST) and had "just about died out" three hours later.

Two persons lost their lives as an indirect result of Saturday's tidal wave in Hawaii. Sarah Park, 19, reporter from the Honolulu Star Bulletin and a pilot, Paul Beam, were killed when the small plane from which they were observing the tidal wave crashed into the ocean.

Reports of the tidal wave caused an alert up and down the California coast. Hours after the danger was thought to be over, a sweep of water swept into San Diego Bay, causing minor damage to five private boats and causing \$5000 damage to floating wooden docks.

Communism 'Passing Not Permanent' Says Dulles

Canberra, Australia—Secretary of State John Foster Dulles told the opening session of the eight-nation Southeast Asia Treaty Organization council today that Communism imposed on the peoples of Asia is a "passing and not a permanent phase."

World Communism itself is "but a transient if painful episode in the history of mankind," he said.

But, he said the Soviets have persistently sought to foment trouble and the SEATO nations must remain on guard. He said the United States is determined to respond to its security pact obligations and "the determination is backed by power."

Nixon Flies to Ethiopia Today

Addis Ababa, Ethiopia—Vice President Richard M. Nixon flies here today for a two-day visit with Emperor Haile Selassie and a first-hand look at reports of Egyptian subversion against this ancient kingdom.

Nixon's plane left Kampala, Uganda, at 4 a.m. EST and he was to arrive in the late afternoon. Torrential downpours have swept Addis Ababa for several days, and officials feared the rainy season might interfere with the reception arrangements.

Nixon is expected to discuss Ethiopia's recent request for additional aid as well as recent broadcast appeals by Cairo radio for the Moslem areas of Ethiopia to break away from the Coptic christian government and form a Moslem state. There also were reports Egypt has trained youths for subversive activities here.

Congress May Cut Foreign Aid Program

Washington—Senate Republican Leader William F. Knowland said today Congress probably would cut \$1 billion out of President Eisenhower's proposed foreign aid program.

The bipartisan drive of Congressional economizers to reduce the foreign aid program picked up the support of Senate Democratic whip Mike Mansfield.

Mansfield urged that the \$4.4 billion program be scaled down \$1 billion. He urged that the cut come mainly out of military assistance funds.

Knowland also repeated his prediction that Congress eventually would trim Mr. Eisenhower's overall \$71.8 billion budget by \$2 billion.

Mat Title To OU; Cats' Doyle Wins

The Oklahoma Sooners won their eighth straight Big Seven wrestling title Friday and Saturday at Norman against a strong bid by Iowa State.

The Sooners scored 71 points

K-State Fifth In Big Seven Swim Meet

Oklahoma's swimming team took first place in all seven events of the Big Seven swimming meet Saturday to pile up 161 points and hang onto the trophy for the sixth straight year.

K-State's 27-point total was good for a tie for fifth with Kansas university.

Second was Iowa State with 80, Colorado made 52, and Nebraska had 49.

The conference meet completes the Wildcat swimming action for the year. The Cats had a 6-4 record in dual meets during the season.

Eight IM Tilts Slated Tonight

Seven intramural volleyball tilts were played Friday evening, with a full complement of eight scheduled for tonight.

Sigma Nu stretched its season's record to 3-0 by beating Kappa Sigma, 15-6, 15-11, Friday.

Delta Tau Delta racked up impressive scores in its match with Alpha Epsilon Pi. The Deltas won in two games, 11-0, 15-5.

Beta Sigma Psi, the only other undefeated team to put its record on the line Friday, whipped Alpha Kappa Lambda in a close battle, 16-14, 15-13.

Pi Kappa Alpha won its match with Delta Upsilon in two straight games, 11-0, 15-2.

Acacia had little trouble getting by Theta Xi, 15-8, 15-4. Farm House likewise was victorious over Alpha Tau Omega, 15-8, 15-6.

Only one match went three games and it lasted the full 50 minutes. The Phi Delta Theta won it, 13-15, 15-13, 5-1, over Sigma Phi Epsilon.

A scheduled match between Lambda Chi Alpha and Sigma Chi was postponed.

In tonight's action, 7 o'clock matches will pit Beta Theta Pi against Sigma Epsilon; Delta Sigma Phi against Phi Kappa Tau; Alpha Gamma Rho against Phi Kappa; and the Aces against West Stadium.

Matches starting at 8 will be between Rho Alpha and Acropolis; House of Brec and House of Williams; Newman Club and Eight Balls; and YMCA and Sigma Phi Nothing.

Stolen Sermons

to defeat the Cyclones who scored 64. Taking third-place was Colorado with 49 points. Next in line was K-State with 32, then Nebraska with six.

Leading the Sooners was Dan Hodge, two-time NCAA 177-pound champion, who pinned Iowa State's Gene Frank in 41 seconds. The pin was Hodge's 19th straight.

K-State's John Doyle won the 157-pound crown when he decided Iowa State's Ellie Watkins, 3-2 in an overtime match. Doyle was the only Wildcat to reach the finals.

The finals:
123-pound class—Dick Delgado, (OU) decided Frank Altman (IS), 13-7.

130-pound class—Bobby Lyons (OU) decided Dave Harty (IS), 7-4.

137-pound class—Lyle Neville (OU) decided Dean Corner (IS), 7-2.

147-pound class—Ron Gray (IS) decided Wilbur Derby (OU), 7-2.

157-pound class—John Doyle (KS) decided Ellie Watkins, (IS), 3-2 (overtime).

167-pound class—Rex Edgar (OU) decided Frank Powell (IS), 8-7.

177-pound class—Danny Hodge (OU) pinned Gene Frank (IS) in :41.

Heavyweight — Gordon Roesler (OU) decided Jack Himelwright (CU), 13-5.

Gymnasts Win at Hays in Dual

By placing one-two in the final event, K-State was able to defeat Fort Hays, 50½-44½, in a dual gymnastics meet Friday at Fort Hays.

Robert Gramzow took first in the final event, tumbling, with Richard Rood getting second to put the Cats on top in the final scoring.

Gramzow and Rood both marked up 15 of the Wildcats points to continue their race for individual scoring honors. Gramzow now has 54 points and Rood 53½.

Gramzow scored firsts in free

exercise and tumbling, a fourth on the trampoline and fifth on the high-bar for his total.

Rood scored in all six events for his points. He took second in tumbling and free exercise, third on the trampoline, and a fifth on the side horse and fourth in the high-bar.

Other firsts for the Wildcats were garnered by Allen Olsen on the side horse and Merle

Schneck on the high bar.

The summary:
Free exercise—1. Gramzow, 2. Rood, KS; 3. Vaughn, FH, KS; 4. Eitel, FH; 5. Tie Olsen, and Fahey, FH.
Trampoline—1. Eitel, FH; 2. Vaughn, FH; 3. Rood, KS; 4. Gramzow, KS; 5. Swayze, FH.
Side horse—1. Olsen, KS; 2. Gillispie, FH; 3. McEwen, FH; 4. Schneck, KS; 5. Rood, KS.
High bar—1. Schneck, KS; 2. Swayze, FH; 3. Gillispie, FH; 4. Rood, KS; 5. Gramzow, KS.
Tumbling—1. Gramzow, KS; 2. Rood, KS; 3. McEwen, FH; 4. Vaughn, FH.

St. Pat—Patricia Dance Tickets Now on Sale

Tickets for St. Pat's Prom are on sale today, according to Bernard Hanson, EE Jr, in charge of ticket sales for the annual Open House affair. The Pastels will play for the all-College dance from 9 to 12 p.m. in the Student Union grand ballroom Saturday night. Dress is semi-formal.

Members of Sigma Tau, engineering honorary which sponsors the prom, will be on duty at ticket booths in Anderson hall and the Union from 8 a.m. to 5 p.m. through Friday, Hanson said. The tickets will be sold for \$2.00 a couple.

Climaxing two big days of Open House festivities, Dean M. A. Durland will crown Jim Moore, EE Jr, and Mary Helen Eaton, BMT Soph, St. Pat and St. Patricia at intermission.

STUDENT HEALTH

There are 11 students, 8 men and 3 women, in Student Health today. Men are Donald Stetser, Ch Gr; Richard Streets, AEd Soph; Gary Settle, Ar 01; Virgil Walter, Sp Soph; Daniel Lee, MTC Sr; Sergio Laos, special student in Ag; Phillip Weaver, ChE Jr; and Nelson Sinderen, AgE Jr.
 Women are Marjorie Raeckers, HE Soph; Ardith Lehman, DIM Soph; and Esther Edwards, HDA Jr.

WEATHER

The weather forecast for Kansas is partly cloudy, windy and cooler today with a few light showers in the East and locally blowing dust in the West. There will be diminishing winds, clearing and colder weather tonight. Tuesday will be fair and cooler in the extreme Southeast. The expected high today is 60 degrees in the Southeast to 50 degrees elsewhere and the low tonight 20 degrees in the Northwest to 35 degrees in the Southeast. The temperature in Manhattan at 8:20 a.m. today was 49 degrees.

Activities

Medals, Awards Given To KS Judging Teams

The presentation of medals to judging teams in poultry, meats, crops, dairy products, and livestock was made at a meeting of the Agriculture association in the College auditorium last week.

Arnold Appleby, AEd Sr, was presented with the Borden \$300 cash award and a certificate signed by the president of Borden company and A. D. Weber, dean of the School of Agriculture.

A \$300 award for outstanding accomplishment in crop judging was given to Richard Froberg, AEd Sr, by the Kansas Seed Dealers association. It was announced that Ludwig Bezemek, TA Sr, was the winner of a \$300 Standard Milling company award. Selection was based on superior ability in cereal crops.

Pi Tau Sigma

Members of Pi Tau Sigma, mechanical engineering honorary, chose six pledges and two honorary members at a smoker Thursday.

New pledges of Pi Tau Sigma are Raymond Schweitzer, ME Jr, Theodore Delker, ME Jr; Robert Krizan, ME Jr; Ronnie Erhart, ME Jr; Carl Bennett, ME Jr; and Don Dudrey, ME Jr.

Two faculty members of the Mechanical Engineering department were chosen as honorary members. They are Edwin Lind-

ley, assistant professor of applied mechanics, and Ralph Webb, mechanical engineering instructor.

Klod and Kernel Klub

The Klod and Kernel Klub will

meet Tuesday at 7:30 p.m. in Waters 137. The nominating committee will present the list of nominations for next year's officers.

NUMBER 104

Council Allocates \$2,500 For 1957-58 Artist Series

The Artist Series will be supported to the tune of \$2,500 next year by the Student Council. This was among the action taken last night at a Council meeting.

Tentative figures for this year's support of the Series by the Council was placed at \$1,767.41 by Luther Leavengood, head of the Music department. The Council originally appropriated \$3,000 to support the Series.

A recommendation was approved that the Council could require the Union Governing board to draw up a written policy stating that when the program council wants to take up new activities outside the Union, the activity must first be approved by the Council.

The Council supported a Union Program council proposal to go ahead and organize a flash card section through Bob Alexander, Union Activities director, and the pep clubs. Tentative costs for flash cards was set at \$650 to be financed by the pep clubs.

A committee to study the possibilities of altering the present activity ticket policy was set up. The committee will consider optional purchasing of the ticket, transferable tickets, student guest tickets, and other proposals.

A change in the SGA Constitution was put into effect giving

the Council power to charter the councils of the various schools. Two methods of amending their constitutions were adopted.

1. By a three-fourths vote of the total Council membership.
2. By a majority approval of

the total membership of the Council with a percentage approval of the students of each school.

Several committee recommendations were accepted making a Council member an

(Continued on page 4)

Spring SGA Elections Slated for April 11, 12

General elections for student body president, Student Council, and Student Board of Publications will be held April 11 and 12, according to a recommendation passed by the Student Council last night.

The Council set Monday, March 25 as a deadline for nomination petitions to be filed.

Last month the Council approved two alterations to the Constitution concerning spring elections.

1. On the general election ballot the number of candidates from any party shall not exceed the number required to fill any office.

2. Write-in candidates in the primary election must receive the number of votes equal to the number of signatures required for a petition to have their name printed on the general election ballot.

Reid Places High For Cat Debaters

Sophomore debaters from K-State scored high individually in a junior division debate tournament at St. John's in Winfield last weekend. Students representing 30 other schools from five states in this area attended.

Placing high in three events, Phil Reid, EE Soph, won the impromptu speaking contest, took second in men's extemporaneous speaking, and third in Bible reading. He reached the finals in radio speaking.

Van Zile Wins Trophy For High Dorm Grades

Photo by Darryl Heikes

THE INTERDORM SCHOLASTIC TROPHY is presented by Jo Prochazka, MEI Fr (left), President of Interdorm council, to Marline VanSchoonveld, HEN Fr, President of Van Zile Hall. Members of Interdorm council watching are from left: Dotty Craft, EEd Jr; Carolee Fox, HEA Jr; and Barbara Huff, Gvt Fr.

The first Women's Interdorm Scholarship cup was presented to Van Zile hall last night by Joanna Prochazka, MEI Fr, president of Interdorm council. This cup will be awarded to the dormitory with the highest grade point average at the end of each semester.

"Up to this time nothing has been done to encourage scholarship in the dorms," Joanna said. "We hope this is a step in the right direction. We want to establish unity in the women's dormitories."

At a scholarship dinner preceding the presentation, women who had maintained

a 2.5 to 3. grade average for the fall semester were recognized.

Special recognition went to Pat Tucker, Mth Sr, and Janice Loeckle, SED Jr, who were 3 point students last semester. Van Zile had a 1.6 overall grade average. Others were Waltheim, 1.5; Northwest, 1.4; and Southeast, 1.3.

The scholarship cup was purchased with money donated by each dormitory and by the Interdorm treasury. The name of the dorm, the semester the cup is awarded, and the grade average will be engraved on the gold band of the cup.

World Planners Failing To Make Life Pleasant

The master planners of today are failing in their obligations to make provisions favorable for our pursuit of happiness, said Charles Luckman, co-owner of the world's largest architectural firm.

Speaking to K-Stater's at this morning's Engineers' Open House assembly, Luckman charged the state colleges and universities with the responsibility of turning out high caliber engineers and architects who are planning our cities and industrial centers.

The engineers, Luckman predicted, will be the ones who will integrate the three L's—living, labor, and leisure.

"There is a tendency to measure the wealth of our nations in terms of national resources, but the greatest resource of a nation is the capacity of its people to be educated," Luckman said.

Luckman noted that the U.S. today spends only 1 1/2 per cent of its national income on education, whereas the Soviet Union annually devotes 8 per cent to its education program.

"Any nation is insane to worry about a parity of physical armaments," he warned. "We will do well to worry about the parity of intellectual armaments."

"The planless decentralization of our larger cities must be brought under control," Luckman said. Referring to suburbanite migrations, he warned that "we are repeating our mistakes—only a little farther out each time."

"Now is the time to stop planting the seed for tomorrow's unusable communities," he said.

In dealing with decentralization it is vitally important to plan where we are going. Otherwise, when we get there we'll wish we hadn't."

RP Queen Says

Books Aren't Everything in College

After first dazzling Alfred Hitchcock, then delighting several hundred college students at a dance Saturday night, Mary Ann Chamberlain, EEd Fr, Riley, was surprised when she was named Royal Purple queen.

"At that moment I realized the ultimate extent of a college education," she said, "and it's more than the knowledge you gain from reading a textbook."

"By all means a girl should go to college. There are things she gets out of attending class everyday and living in the dorm that she wouldn't get otherwise," Mary Ann said. "It's also coming in contact with a cross section of people who are interested in the same things that interest her."

Not only has Hitchcock seen Mary Ann, Miss Chamberlain has seen Hitchcock, but only occasionally on his television show. "Some of the girls in the dorm said they were wondering what kind of a queen he'd pick, after seeing some of the stories he invents."

"I tried to call mother Saturday night, but couldn't get in touch with her. She didn't give me a chance to phone again Sunday morning. The Kansas City paper had printed the story and she called to see if it was true. She felt about the same as I did—surprised! It was such an honor to be chosen from that wonderful group of girls," she added.

Mary Ann hopes to be an elementary school teacher someday. "In high school I used to think about modeling as a career, but I outgrew that," she said. "My final decision was a gradual one. I guess it's because I love children that I decided to teach. A little experience in Bible school helped sway me too."

Mixedup Kake Walk Ends on Sour Note

By Shari Shellenberger

VERMONT UNIVERSITY'S Kake Walk (similar to Kansas State's Y-Orpheum) ended on a sour note last week when the Vermont Cynic's story on the show featured not who WON, but rather who SHOULD have won.

Referring to Delta Psi fraternity, whose skit won second place instead of the coveted first, the Cynic began:

"THEY WERE robbed" seems to be the nearly-unanimous opinion of the members of the campus on the judging of the walking Saturday night. . . The apparent mis-judging was given semi-official status when the Kake Walk directors presented Delta Psi with a large four tier cake on Monday evening."

Kake Walk faculty directors added to the confusion by saying the Delta Psi's had been robbed. Even the winning fraternity, Sigma Nu, sent the Delta Psi's a telegram carrying the same sentiment.

Let's hope K-State's March 22-23 Y-Orpheum will feature no such confused aftermath!

IF YOU'RE DOWN to your last cent, your next ROTC check is still two weeks away, and you can see no money-making possibilities whatsoever, don't give up.

An engineering senior at the University of North Dakota won \$25 in a rhyme game sponsored by Lucky Strike cigarettes. His winning answer to "What is BUG BLISS?"—FLEA GLEE!

AN AD in the University Daily Kansan: "Lonely? Meet me between 6 and 11. I'll whisper sweet nothings to you."

Just advertising for a local radio station.

GUESS CROWDED student health centers are getting to be the fad. From Michigan State comes this claim:

"Olin Health Center is the only place in the country where you must register Monday to see a doctor for the illness that is expected on Wednesday."

Wanna bet?

SPRING APPARENTLY has sprung on the Colorado university campus. Recently someone dynamited a 75-foot flag pole in the CU football stadium. University officials quickly labeled this "the biggest explosion" in the school's history, but reportedly were reluctant to call the episode the school's "biggest blast."

(Wonder what they're reserving that label for!)

ACTIVITY CARD HOLDERS, please note. The Chico California State Wildcat has this to say about today's athletics:

"And when the Great Scorer comes,
To write beside your name,
It won't count if you won or lost,
But how many paid to see the game."

Dulles Denounces Red China; U.S. To Stay With Nationalists

By UNITED PRESS

CANBERRA—Secretary of State John Foster Dulles denounced Communist China as an international criminal today and said the United States will stand behind the Nationalist Chinese regime.

Dulles made the declaration in a "statement of information" to the Southeast Asia Treaty Organization (SEATO) council.

He said the United States "adheres steadfastly to the three main aspects of its China policy."

UNDER THESE aspects, Dulles said, the United States will continue to recognize the Republic of China, refuse to recognize the so-called Peoples Republic of China, and oppose seating the Peiping regime in the United Nations as accredited representative of "the Republic of China" listed in the UN charter.

Dulles' statement countered persistent recent reports the United States intended to recognize the Communist Chinese regime.

RECOGNITION OF the Peiping regime in the United Nations would give Red China a seat on the UN security council as a permanent member with veto power, the secretary of state pointed out.

Dulles said the United Nations is faced with growing responsibilities which "could not be more readily discharged by giving the Chinese Communists opportunity to work mischief there."

Senate Debates Severance Tax

The chairman of the Senate Oil and Gas committee made the flat statement Monday that a severance tax will not come out of his committee this session.

Senator Ralph Rinker (R-Great Bend), the chairman, made his statement during Governor Docking's afternoon press conference.

There is considerable sentiment in the Senate, however, for the Assessment and Taxation committee to write a new severance tax bill and put it out on the floor of the Senate for debate.

This bill could or could not be referred to the Oil and Gas committee depending upon what action Senator Paul R. Wunsch (R-Kingman), Senate president pro tem, decided to take.

The severance tax bill on which hearings have been held is not in the Assessment and Taxation committee. Wunsch referred it separately to Assessment and Taxation and to Oil and Gas. This means it must clear both committees before the Senate itself gets a chance to vote on it.

Rinker asserted that he plans to present an amendment tonight at a meeting of the Assessment and Taxation committee to include a severance tax on all minerals, in addition to oil and gas.

"I think that might bring more opposition to the bill," Rinker remarked.

Rinker is a member of the Assessment and Taxation committee and chairman of the Oil and Gas committee. In past seasons, the Oil and Gas committee has been the "graveyard" of severance tax measures.

The severance tax bill referred to both committees calls for a 5 per cent tax on oil and gas production, with provisions for a refund of property taxes. The measure provides no method of preventing counties from raising property tax assessments on oil and gas which would reduce the amount of money going to the state.

Quotes from the News

Acapulco, Mexico—Daniel Rios, after admitting he helped murder two New York tourists for money:

"I would die for 30,000 pesos. It was the same to me—murder or robbery—when I heard about the 30,000 pesos."

Washington—Senate Republican leader William F. Knowland on the chances of civil rights legislation being passed in the Senate:

"I think a bill will pass generally along the lines recommended by the president."

London—Bolivian tin heir Jaime Ortiz Patino testifying on what broke up his marriage with American cover girl Joanne Connelly:

"It was mother, the same old mother, always mother."

Boston — Patrolman Daniel Shea describing a vice rain in which a man, two divorcees and a Capuchin monkey named Elvis Cebidae were seized:

"Elvis was the only one decently dressed."

Madison, Wis.—Jeff Smith, a musician in a Manhattan classic jam session attempting to play through 83 compositions by Joseph Haydn, explaining the session might have to be cut short because of a lack of fiddle players:

"The rest went home and marooned us here."

New York — Dr. Wesley Shrader, associate professor of pastoral theology at Yale Divinity school, describing Sunday school as the "most wasted hour of the week":

"Many parents ask nothing more of Sunday school than that it keep their children occupied and out of the way for one hour a week."

Resolution in House For Ike Budget Cut

Compiled from United Press
By KEITH KEMPER

Washington—Democrats hoped to ram through the House today an unprecedented resolution asking President Eisenhower where and how much of his budget can be cut.

Outnumbered Republicans fought to defeat the resolution. They denounced it as a partisan maneuver.

But, the Democrats said the President should be glad to tell Congress of any cuts that might be made in the record \$71.8 billion peacetime budget.

Other Congressional Developments:

Schools—Secretary of Education Marion B. Folsom prepared to present to Congress his case for the administration's \$1.3 billion school construction program.

Civil Rights—The House Judiciary committee called a closed-door meeting to discuss the administration's amended civil rights program. A new dispute over investigating religious discrimination threatened to delay a committee vote.

Admiral Byrd Dies in Sleep

Boston—The world of science and adventure today mourned the death of Admiral Richard Evelyn Byrd who unlocked the frozen secrets of Antarctica in five famed explorations that covered a record two million miles.

His bereaved family or naval authorities were expected to announce burial plans today for the "Pioneer of the Poles" who died last night of a heart attack in his Beacon Hill home at the age of 68.

His family and physician, Dr. William E. Greer, were at the bedside when death came "peacefully in sleep" (at 6:20 p.m. EST) to the man who excited the world with his exploits in exploration and naval aviation.

It was barely three weeks ago that Byrd, the first person ever to fly over North and South Poles, received the last of his many decorations. He was presented the Presidential Medal of Freedom, accompanied by a personal note from President Eisenhower, in recognition of his distinguished scientific contributions to the nation.

Ike Advisor in Middle East To Back Doctrine

Washington—Ambassador James P. Richards, President Eisenhower's special adviser on Middle East affairs, left today on a trip to the area "to remove . . . misunderstandings" about the Eisenhower Doctrine.

The Eisenhower Doctrine, signed into law by the President Saturday, serves notice that the United States "is prepared to use armed force" to aid any victim of Communist aggression in the Middle East. It also authorizes use of \$200 million for military and economic aid to mideast nations.

Richards, former Democratic Congressman from South Carolina and recent chairman of the House foreign affairs committee, hopes to convince all nations of the area the United States wants only to help them preserve their independence. He is expected to be gone about two months and will visit all Middle East nations that want to talk to him—possibly some 18 in number.

Left Wing Editors Before Committee

New York—The House Un-American Activities committee summoned leading publishers, editors and distributors of left-wing publications to the Federal Court House today for questioning about the operations of the Communist propaganda mill in the United States.

The committee, headed by Rep. Francis E. Walter, was reported to have issued some 50 subpoenas for appearances starting this morning at public hearings expected to last four days.

The committee is sitting here, rather than in Washington, because New York is the headquarters for major Communist-influenced publications and the port of entry for most propaganda material arriving from abroad.

Pogo

By Walt Kelly

Grid Drills Start for 62

Sixty-two candidates turned out yesterday for spring football drills, including 20 lettermen, in what Coach Bu's Mertes called a "frantic search for reserve power."

We need five players at every position to play the kind of competition we're going to face next fall," said Mertes.

"The most healthy thing that could happen to us would be if some of our sophomores could beat out some of our returnees. That would make competition real good," he said.

Left halfback and right guard are wide open on the first unit, according to Mertes. The graduation of Kenny Nesmith at left half leaves that position tentatively to Ben Grosse, Jamestown junior.

Lost at guard because of injuries were junior Rudy Bletscher and sophomore Don Martin from Clay Center. Both are out with neck injuries.

Delta Sigs Win Over Phi Taus

Seven games were played in intramural volleyball last night, four in the independent division and three in the fraternity division.

Delta Sigma Phi beat Phi Kappa Tau in two games, 15-1, 15-2.

Beta Theta Pi knocked Sigma Alpha Epsilon out of the unbeaten ranks by winning, 15-10, 15-8.

In the only other fraternity division match, Phi Kappa defeated Alpha Gamma Rho, 15-1, 15-13.

Acropolis' undefeated record went by the boards in its match with the Rho Alphas, 15-6, 13-15, 15-12.

Sigma Phi Nothing beat YMCA in the only other match to go the full three games, 15-13, 0-11, 15-13.

House of Williams had little trouble beating House of Brec, 11-0, 15-11.

West Stadium likewise encountered little resistance from the Aces, 15-5, 15-7.

Newman Club was scheduled to play the Eight Balls but won the match by default, when its opponent failed to appear.

Eight matches are scheduled tonight. Starting at 7 it will be DSF and OK House; Farm House and Pi Kappa Alpha; Delta Upsilon and Kappa Sigma; and Alpha Tau Omega and Sigma Nu.

Eight o'clock matches pit Theta Xi against Delta Tau Delta; Alpha Epsilon Pi against Beta Sigma Psi; Acacia against Alpha Kappa Lambda; and Phi Delta Theta against Lambda Chi Alpha.

Sticklers!

WHAT IS A SQUAD OF SOLDIERS
WHO DON'T GET A LUCKY BREAK?

(SEE PARAGRAPH BELOW)

BASIC TRAINING for R.O.T.C. men. When the talk turns to tactics, remember this: troops who don't get a Lucky break soon become a *Solemn Column*! Why? Any private can tell you: Luckies outrank 'em all when it comes to taste. You see, a Lucky is all cigarette . . . nothing but fine, mild, good-tasting tobacco that's **TOASTED** to taste even better. On the double, now! Light up a Lucky. You'll say it's the best-tasting cigarette you ever smoked!

STUDENTS! MAKE \$25

Do you like to shirk work? Here's some *easy* money—start Stickling! We'll pay \$25 for every Stickler we print—and for hundreds more that never get used. Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send your Sticklers with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

exofficio members of each permanent SGA committee, removing committees that meet only 3 or less times each year from permanent status, establishing a calendar for committee appointments, revising committee application cards, reducing the committee coordinating staff to two members, and combining Alumni Relations, Orientation, and High School Relations committees into one.

Jerry Holliday, ArE Jr, announced his resignation from the Council due to low grades.

In other action the Council gave \$86 to the Kansas State University committee to print a brochure, \$31 to Campus Industries for incorporating

costs, and voted to send a representative to the Football Festival in Berkeley, Calif.

Riding in Style

Walkerton, Ind. (U.P.)—The high school basketball team rode home in an ambulance with the siren wailing after winning the St. Joseph County tournament. The team rode into town on a fire truck last year after winning the tourney, but sub-normal temperatures vetoed the outdoor ride this year. And one player did break a small bone in his leg in the final game.

You'll be pleased with a Collegian want ad.

NUMBER 105

KS Debate Team Enters Heart of America Meet

Anita Grimm, Soc Sr, and Dave Nuttle, AH Jr, will represent K-State in the first annual Heart of America debate tournament at the University of Kansas Thursday, Friday, and Saturday.

Seventeen schools which have consistently ranked high in the National Debate Championship tournament at West Point have been invited. Among the teams, which come from seven of the country's eight debate districts, will be the 1956 champions and runner-ups.

The national collegiate topic, "Resolved, that the United States should discontinue direct economic aid to

foreign countries" will be debated.

The winning team will be awarded a large traveling trophy for their school, and wristwatches for themselves. Members of the second place team will be awarded cups.

Several authorities in the field of foreign economics will act as consultants at the conference. They are Clifford Hope, former US representative from Kansas; Frank N. Trager, New York university; and F. O. Blanchly, International Cooperation administration.

After listening to the debates, the three economists will meet with the debaters and coaches to discuss the arguments they heard during the day and to answer questions.

Choir To Sing Sunday

Two numbers composed by Assoc. Prof. William R. Fischer, director of the choir, will be featured in a choir concert at 4 p.m. Sunday in the college auditorium.

They are "By the Waters of Babylon" and "Matthew, Mark, Luke, and John." The numbers will be performed by the A Cappella choir and the Women's Glee club.

Carlyle Thompson, TA Jr, Clayton Buck, PrV Soph, Kay Henning, EEd Fr, and Georgiana Rundle, EEd Jr, will be featured soloists. The choir will sing "Tovow,"

"I'm So Glad Trouble Don't Last Always," "Oh, Dear, What Can the Matter Be?," "From my Window," "Golden Slippers," and "Songs of Escape."

The 30 members of the Women's Glee club will sing "The Last Night," "Lo, the Messiah," and "Begin the Beguine."

The concert, sponsored by the Friends of Music, is one of several programs intended to help raise money for music scholarships given by the K-State music department, Fischer said.

Interfrat Sing Scheduled

Interfraternity Sing has been tentatively scheduled for May 10 by Panhellenic and Interfraternity councils.

Panhellenic also unanimously approved a revised rush schedule for sororities at its meeting last night.

The revised rush rules, adding an extra hour to each of the four days of rush, were proposed two weeks ago and

submitted to the sorority houses for approval.

The addition of an eighth sorority to the campus, Gamma Phi Beta, necessitated the revision. The new rules will allow more dates at the sororities for the rushees and will give rushees more time to get from house to house, since Gamma Phi Beta will be located some distance from most of the houses.

Photo by Gary Haynes

MUCH MIDNIGHT oil was burned last night by the K-State engineers as they stayed late (and in some cases, early) to work on Open House plans and exhibits.

Activities Board Discusses AWS, Blue Key, Tau Theta

After approving the Associated Women Students' constitution, the Student activities board last night accepted AWS as a recognized student organization and approved its proposed fund-raising plan to wash cars.

The board heard a report by Pat Wilkerson, BA Sr, and Ron Bryant, ME Sr, Blue Key members, explaining their honorary fraternity's fund-raising project and why it was not brought before the activities board.

A motion was made to postpone any decision to accept or reject Tau Theta, local professional engineering fraternity, as a student activity. The decision will await a report from the Dean of the School of Engineering and a survey of engineering students' opinions.

Tau Theta now consists of

10 chemical engineers. The organization hopes to increase its membership to 25 or 30 students and to procure a charter from Theta Tau, national engineering fraternity. Members must be white, 18

years of age or older, in geology or engineering, and accepted by unanimous secret ballot.

Tau Theta states that its purpose is "to promote professional interest" and "to encourage scholastic achievement."

AWS will sponsor a car wash from 9 a.m. until 5 p.m. on March 30 at the Methodist church to earn money for convention and election funds. Expenses for the project will be approximately \$10.

Defending Blue Key's fund raising project, which was not presented to the board, Pat Wilkerson asserted that the plans for painting Manhattan store windows were originated in a meeting on Thursday before the game, which was March 6, and work started Friday.

After the organization realized its error in not contacting the board, Wilkerson said he spoke to Dean of Students Herbert Wunderlich Saturday morning and got his approval.

"I don't feel in this particular case that we have been guilty of anything for which we should be censured by the Student activity board, when we went to about as high an authority as we could without going to the President of the College," he said.

Board members stressed that if organizations were to speak to Dean Wunderlich about such projects, it would dissolve the board's purpose as an examining group.

Commenting that the constitution was not clear on this point, the board accepted Wilkerson's explanation, which was upheld by a letter from Wunderlich explaining that his approval was due to the limited time available.

Student Recovers After Taking Pills

In regard to a rumor concerning a student who took an overdose of pills, Herbert J. Wunderlich, dean of students, said "The student who took an overdose of pills last Sunday evening is well and has returned to classes." The student's name is not being revealed in order to avoid embarrassment.

Reassignments Deadline, Easter Vacation Date Told

Saturday is the last day for student reassignments, according to Albert L. Pugsley, dean of Academic Administration. No student will be allowed to enroll in a course after this date except in certain research classes.

Saturday will also be the last day graduate students may drop a class without receiving a withdrawal or failure.

Pugsley also announced that Easter vacation will begin at 10 p.m. Thursday, April 18, and

will end at 8 a.m. Wednesday, April 23. This includes the one-day athletic holiday extension.

English Pro Registration

The deadline to sign record cards and obtain numbers for English Proficiency is tomorrow, according to Prof. Mary Francis White, co-chairman of the examination. Students assigned to English Proficiency this semester are urged to report to the office of their deans at once.

ALMOST DONE—Mechanical engineering students work on part of their department's display for Engineers' Open House.

Engineers Cry As Salaries Dip

By Darrel Miller

MY FRIEND Henry P. Bronkwell, best known as a sports authority, also slides a mighty mean slide rule.

This isn't surprising, since he's an engineer, but it does explain why last week he was fired up about Engineers' Open House.

Henry P. had been selected to give a slide-rule demonstration at Open House. When I found him in the State Room I expected him to be fondly polishing his slide rule. I was surprised to see that he was gazing rather disconsolately into his beer.

"What's the matter, Henry P?" I said. "You look depressed."

"Yes," Henry P. moaned. "I'm cast down in spirits, dejected, sad."

"What," said I, "is the reason for this lowering of your cheerfulness, this blot on your happy countenance?"

"I'M A FAILURE," Henry P. summed it up simply. "I, who have emerged victorious in innumerable slide-rule competitions, won the 'For Geniuses Only' contest four times in a row, and designed an electronic mousetrap—I have been snubbed."

"Who," said I, "has wrought this foul deed?"

"My profession, which refuses to see my true worth," Henry P. said sadly. "I've had but 17 job offers, and not one of the cotton pickers was for more than \$9,000 a year."

"THAT'S TWICE as much as I've been offered," I interposed kindly.

"Yes, but you're a journalist," Henry P. said, wrinkling his nose.

"Yes, that's true," said I wrinkling my nose.

"And you can't recite logarithms," Henry P. nodded.

"Yes, that's true," I nodded back.

"And you've never peeked through a transit," Henry P. sneered.

"No, but I once peeked over a transom," I sneered back.

"Well, nevertheless, it's easy to see that you and I aren't in the same class," Henry P. continued. "I've got a position to uphold. Why, one CE senior has had 47 job offers; one of them was for \$13,000 a year; and he's flown to Detroit, Dallas, San Francisco, New York, and Hong Kong for interviews. I haven't been farther than Tulsa, and I had to go by train."

"JOB HUNTING is strenuous," I admitted. "I drove down to Salina the other day—quite a dusty car ride. The pay wasn't bad—\$65 a week—but I can't afford to rent a trailer to move my furniture clear over there."

"DO YOU MEAN to sit there and tell me," Henry P. said, "that those newspapers won't move your furniture for free?"

"Well, I didn't mean to tell you, but now that it's out I suppose it's O.K.," I replied.

"Such trivialities may be O.K. for journalists, but the situation is different for me," Henry P. muttered inconstantly. "Sometimes I could fall on my slide rule and end it all!" he shouted.

THIS OUTBURST shook me no end. I've always been envious of the fine offers engineers receive. Like the common herd, I hadn't realized the terrific pressures that accompany such monetary rewards.

Never have I felt like falling on my typewriter and ending it all—for that I'm thankful.

I'll never be greedy again.

WE WUZ ROBBED—This picture of the east wing of the third floor of the Student Union illustrates the drab condition of the yet-unfinished little-used top floor. As of now this "attic" is used only for large group meetings and Y-Orpheum practices. The entire third floor is bare. Although the Union hasn't been apportioned money to finish the floor, perhaps some suggestions as to what could be done about this void would prompt some money into some sort of finishing fund. K-Staters are paying for the Union and if the top floor remains in its present state, they're not getting their money's worth. If your organization has ever been turned away from the Union because there was no space for a meeting, then why not drop the Union some suggestions.

House Recommends Passage Of E-Tax for First Class Cities

By UNITED PRESS

TOPEKA—A House committee has recommended for passage a bill permitting all first class cities in Kansas to levy a 1 per cent earnings, or city income tax.

The Senate, sitting as a committee, earlier approved a city 1 per cent sales tax. Both measures were aimed at solving municipal financing problems.

The measure would have to be voted on by city residents and would be in addition to existing state income tax and statewide sales tax.

IN OTHER night action, the House gave preliminary approval to:

1. A bill requiring all new autos sold in Kansas in 1960 to have safety belts as standard equipment which would be approved by the state highway commission.

2. Require the pardon attorney to maintain complete records of all proceedings and a list of all attorneys who appear in pardon and parole cases.

3. Permit the formation of a water district in Johnson county to clarify past actions. Some doubt as to the legal existence of the district arose after a \$20 million bond issue was approved for purchase of a water system.

By Walt Kelly

Council Backing Of Artist Series Very Helpful

Underwriting of the Artist Series this year by the Student Council has been extremely successful, according to Luther Leavengood, head of the Music department.

"There was more student participation and attendance at the Steinbeck Theater presentation than any other Artist Series production," he said.

Leavengood expressed these beliefs Monday night at the Student Council meeting. The Council then voted to underwrite the Series again next year to the tune of \$2,500.

An estimate placed a \$1,767 price tag on the Council's agreement to underwrite the Series this year. This figure is dependent on the Norman Scott production yet to come.

If the students on the Artist Series committee sell as many tickets for the Scott production as they did for the Kansas City Philharmonic orchestra, the Council will probably have to pay less," Leavengood said.

The Council had originally fixed \$3,000 as the maximum amount it would allow the Series this year. As it now appears the Council can tuck \$1,233 of this money back in its pocket.

Using the \$1,767 as the amount the Council will pay and dividing that amount by 6,000 students, the average assessment for this year's Artist Series comes to 29 cents a student.

This amount is far under that paid at many of the other colleges and universities in Kansas and the Big Seven conference, according to Leavengood.

Each student at Ft. Hays State college pays about \$2.50 a semester, about 75 cents is paid every semester at Emporia State college, and at Pittsburg State college each student pays \$1.50 a semester. At Kansas university it costs each student about 52 cents a semester, at Iowa State college 50 cents a quarter, and at Oklahoma A&M it costs around \$1.25 a semester.

Of course some of these schools have more than the four attractions that K-State presents, but some of these attractions are not of the high caliber that play at K-State, he said.

In voting to allow \$2,500 to underwrite the Series again next year, the Council expressed its confidence in the program and the need for this type of music at K-State.

Leavengood said that the Series began an upswing this year and will continue to become more popular next year and thereafter. "Perhaps we can increase our productions to five or six in coming years," he said.

The Council expressed the belief that if Artist Series productions were held on weekends instead of week night there might be larger student attendance at the events.

Leavengood stated that weekends would be fine with him and might make booking top productions much simpler and at a lower cost.

Under consideration for next year's Series are a ballet, another symphony orchestra, and perhaps some chamber music, according to Leavengood.

U.S. Still Recognizes Chinese Nationalists

By UNITED PRESS

Secretary of State John Foster Dulles has left no room for doubt about United States policy toward Communist China.

There has been speculation, off and on, for a long time on the possibility that the United States might soften its attitude toward the Red government of Peiping.

But Dulles, in a statement to members of the Southeast Asia Treaty organization, now meeting in Australia, said emphatically:

The United States means to continue its recognition of the Chinese Nationalist government in Formosa.

It will not recognize the Communist government. It will continue to oppose the admittance of the Red Chinese regime to the United Nations.

Dulles' statement seemed to be a carefully considered pronouncement of a policy which will continue for the foreseeable future.

One reason for the statement probably was that Red China shares the embarrassment of Soviet Russia over the way the demotion of Josef Stalin from Communist sainthood got out of hand.

Dulles apparently felt that this was no time to do any favors to one of the two great Communist powers.

But his blast against the Chinese Reds marked a definite hardening of policy.

World News Briefs

Resolution To Ike For Cut in Budget

Compiled from United Press
By KEITH KEMPER

Washington—The House has gone on record that substantial cuts must be made in President Eisenhower's record \$72 billion peacetime budget.

Moreover, it wants the President to point out the best places to make them.

The House rammed through a cut-the-budget resolution yesterday by a 219-178 almost straight party-line vote.

Less than 24 hours later, key House members relayed word from the White House of one place the President does not want the budget cut: his multi-million dollar school construction program.

Other congressional developments:

Rackets—Teamster Union President Dave Beck ended his seeming reluctance to appear before the Senate rackets committee. Beck told a news conference that he was "clean cut," "above board" and "ready to go" whenever the committee wants him to testify after today.

Civil Rights—Southern members of the House Judiciary committee pressed for "vital" amendments to the administration's civil rights program.

Housing—The Senate approved a bill that would boost by \$500 million the borrowing authority of the Federal National Mortgage association.

Passport—Sen. Thomas C. Hennings Jr., called on Congress to demand that the State Department issue a new passport to newsman William Worthy of the Baltimore Afro-American. The department refused to issue Worthy a new passport after he visited Red China despite a government ban.

Statehood—The Senate Territories subcommittee scheduled hearings in about two weeks on

Alaskan and Hawaiian statehood.

Tax Bill To Kansas House

Topeka—House Republican leaders today placed the administration's key revenue proposal to abolish the \$12.5 million sales tax residue on the calendar for show-down debate tomorrow.

After a night session yesterday when the House tentatively passed after prolonged debate, companion medical practices acts to regulate the state's medical doctors, osteopaths and chiropractors, the chamber decided to settle the fiscal fight this week.

By moving the residue proposal up for debate, House leaders hope to clear the track for the rush to the wire in resolving an acceptable revenue plan. Most observers gave the plan to stop distribution of the \$12.5 million residue scant chance of House passage.

This would throw the session open to introduction of substitute financial plans, including a severance tax, a sales tax increase or a statewide property tax, among others.

Action Possible in Gaza

Jerusalem — Israeli Premier David Ben-Gurion said today Israel would take military action against Egypt if the Gaza crisis is not solved through political negotiations.

He told the Israeli Parliament in Jerusalem that if the time came for military action, Israel would strike and "would not, of course, give prior notice of its action."

The crisis was heightened by an Israeli announcement that Fedayeen (commandoes) from the Gaza strip last night blew up a section of the railroad leading to Israel and cut off all telephone communications between Gaza and Israel.

'Angels' To Fly in Style

You'll know an "Angel" when you see one after the current project of the AFROTC association is carried out. Gerald K. Smith, PrL Jr., vice-president, stated that a project is now under way to provide uniforms for the thirty girls in Angel Flight.

"The type of uniform is still in the discussion stage," Smith said. "However, they will probably be an attractive 'suit-style' in blue and white gabardine."

In the past the girls have always worn blue capes and caps which were furnished and their

own white skirts and blouses. The new uniforms will add a professional touch and even more charm to the appearance of the Angel Flight, Smith said.

Each new uniform will cost approximately \$30, which would make the total cost of the uniforms \$900. The biggest share of this amount has been raised by the association, according to Smith. To take care of the balance, the association plans to sell new name tags to AFROTC cadets.

One of the newer organizations on the K-State campus, the AFROTC Association is one of the

first in this section of the country; is a national organization. It is open to all AFROTC cadets. Its purpose is to create interest in the Air Force.

Fender Bender

Detroit (U.P.)—Police in suburban Birmingham spent two weeks searching for someone they dubbed the "mad denter" after residents reported a rash of car fender denting during the night. The search was finally abandoned when Lt. Merlin Holmquist decided the "mad denter" was probably one of the city's snowplows.

Alpha Zeta To Hold Smoker For Prospective Members

Alpha Zeta, agricultural honorary fraternity, will hold its semi-annual smoker for prospective members next Monday, according to Ray Zimmerman, AH Sr, president. Seniors, juniors, and second semester sophomores in either the School of Agriculture or Veterinary Medicine will be invited to the smoker in SU banquet rooms A and B.

The spring banquet and initiation for new pledges will be March 28.

Delta Phi Delta

Delta Phi Delta

Members of Delta Phi Delta, art honorary will go to Lincoln, Neb., Friday to visit the University of Nebraska, Nebraska state capitol, and the Lincoln Plymouth Congregational church. They will visit various points of artistic interest,

according to Rosella Hiebert, Art Jr, president.

University Professors

President McCain will speak at the American Association of University Professors meeting at 7 dining room. The group will have dinner at 5:30 followed by a short business meeting before McCain's speech.

Alpha Kappa Psi

George Ryan, vice-president of the Atchison Exchange National bank, and W. C. Hartley, vice-president of the Commercial National bank of Kansas City, Kan., spoke on "Opportunities in the Field of Banking" at a recent meeting of Alpha Kappa Psi, men's professional business fraternity.

The steering committee of Phi Chi Theta, women's honorary business fraternity, and students enrolled in money and banking classes were guests.

Jr. AVMA

"Problems in Interior Decorating" will be the topic of a discussion by Mrs. Opal Hill, professor of home economics, at a meeting of the Jr. AVMA auxiliary tonight at 8 p.m. in Ex 11.

Business Fraternities

Members of Alpha Kappa Psi, men's professional business fraternity, and the steering committee of Phi Chi Theta, honorary women's business fraternity, will tour Viking Manufacturing company, Manhattan, Thursday at 3 p.m.

Phems Plan Play Day

Junior and senior high school girls from 60 schools have been invited to the March 16 Play Day sponsored by Phems, women physical education majors, according to Delores Hess, PEW Sr, president.

"Play Day is a program for girls interested in physical education," Miss Hess said. "Entertainment and recreation programs are planned to stimulate the girls interest in K-State and its physical education curriculum for women."

Orchestrals and Frog Club members will entertain the group

after a lunch and "buzz" session.

Recreation will be organized into five events: basketball, volleyball, two relays, and Norwegian ball.

The visiting girls will tour the residence halls and the Student Union after the afternoon program, Miss Hess said.

Any Challenge?

Waterville, Me. (U.P.)—At 93, Mrs. Eldora Brackett and Mrs. Ellura Chamberlain believe they are the oldest twin sisters in the United States.

Pershing Rifles Team Is Second in Meet

K-State's Pershing rifles drill team won second place at the annual regimental assembly at Oklahoma A&M this week.

A team of four K-Staters won first in machine gun drill. Members are Gerald Crabtree, Ar

02; Bruce Prentice, NE Fr; Oren Welch, Ag Fr; and Charles Blair, EE Fr.

Units from colleges in five states competed for a traveling trophy, which was won by Oklahoma A&M.

Blair was second high and Donald Potter, ME Soph, was third in disassembling the M-1 rifle.

In advanced individual drill, Arlie Mustoe, Agr Jr, won first and Frank Grippy, BAA Jr, won second.

The K-State rifle team was third high among the competing schools. Team members are Herman Kamerman, PrV Fr; Potter; Thurston Banks, ChE Soph; and Karl Schilling, AH Fr.

Kenneth Veraska, ME Jr, was second in the advanced individual rifle match.

K-State's honorary cadet captain, Jannene Foust, Sp Soph, was a finalist for the assembly's honorary cadet colonel.

Honors

KS Students Win Awards

Ludwig Bezemek, TA Sr, has been awarded the annual Standard Milling company scholarship for \$300, according to Dr. Ray V. Olson, head of the Agronomy department.

Bezemek, from Ellsworth, received the award from Paul Uhlmann, president of the company.

National Electrical Scholarship awards this year went to Electrical Engineering freshmen Dennis Esslinger, Clifton; and Duane Walker, Green; and sophomores Russell Case, Topeka; and George Serpan, LaCrosse.

The scholarships are awarded to K-State freshmen on the basis of their scholastic and extra-curricular activities in high school. Case and Serpan retained their scholarships from last year because of continued high grades.

ADVICE ON ADVISORS

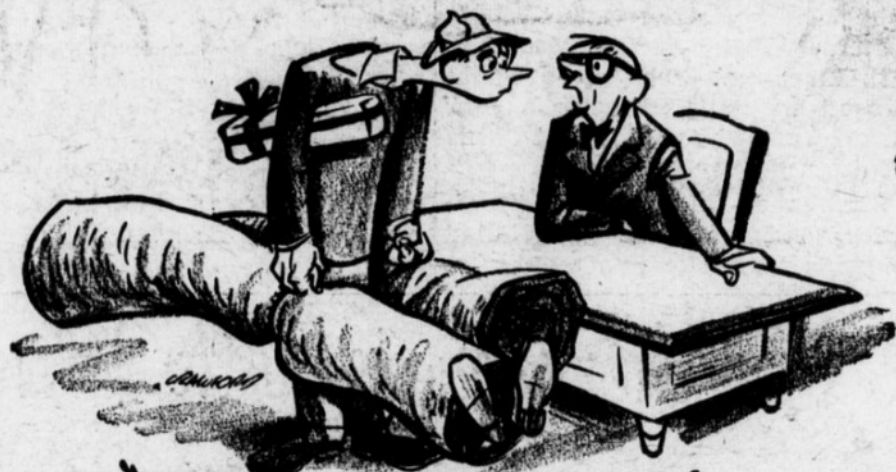

Recently I made an extensive tour of American campuses, interviewing students and selling mechanical dogs, and one of the most frequent complaints I heard from undergraduates was, "My faculty advisor doesn't really care about me."

Everywhere I went I heard this same cry. (Indeed, at one university I found 15,000 students jammed in the field house chanting it a *cappella*.) But I am bound to say, dear friends, that you are wrong. Your faculty advisor *does* care about you. The trouble is, he doesn't *know* you. And no wonder! How do you expect him to know you when you see him once or so a semester?

Get to be friends with your faculty advisor—like, for example, Alpine R. Sigafos, a sophomore in timothy and silage at Texas A. & M.

Alpine R. Sigafos appeared one night in the living quarters of his faculty advisor (whose name, by a curious coincidence, was also Alpine R. Sigafos).

"Good evening, sir," said Student Sigafos. "I am come so that you may get to know me better and thus help me solve the vexing problems that trouble me."

"And what are those three packages you are carrying?" asked Advisor Sigafos.

"This," said Student Sigafos, holding up the first of the three packages, "is a carton of Philip Morris Cigarettes, which come in long size or regular, and without which I never stir. It is, sir, a smoke beyond compare—full of fresh, natural, unfiltered flavor that delights the taste, salves the soul, and turns the whole world into one long vista of peace and greenery. Try one, sir."

"Thank you," said Advisor Sigafos, lighting a Philip Morris Cigarette. He puffed appreciatively for an hour or two and then said, "And what is in the other packages you are carrying?"

"I am rather a complex fellow," said Student Sigafos, "and I don't expect that you will get to know me in a hurry. So," he said, holding up his second package, "I have brought my bed-roll."

"I see," said Advisor Sigafos, not entirely pleased. "And what is this third package?"

"Well sir, I know that occasionally you will be busy with other matters and will therefore be unable to spend time with me. So I have brought along my gin rummy partner, Walter M. Handzlik."

In the next two years Advisor Sigafos, living cheek-by-jowl with Student Sigafos, got to know all of the lad's personality traits, his hopes, his fears, his drives, his quirks, his aspirations. At the end of that time, armed with true understanding, Advisor Sigafos concluded that Student Sigafos's basic trouble was that he was not really college material.

So Advisor Sigafos got Student Sigafos a job with the North Star Hockey Puck Corporation where today he is head of the puck-packing department and a happy man.

Advisor Sigafos is happy too. He has time again to pursue his studies of *Trichobatrachus robustus*, the hairy frog. At night he plays gin rummy with Walter M. Handzlik.

© Max Shulman, 1957

Our advice to students—and to faculty too and to anybody else who's looking for a sweetheart of a smoke—is to try new natural Philip Morris, made by the sponsors of this column.

—WELL, HOWS IT HAPPEN WE FIND YOU TESTING UNDER-WATER EQUIPMENT ON TH' GIRLS DAY FOR TH' POOL?—

A Campus-to-Career Case History

Leader of an exploration

Owen Williams leads a team of research and development specialists at Bell Telephone Laboratories. His is one of many teams set up at the Labs to explore the frontiers of electronics and communications. In the picture above, Owen (right) discusses modulation problems in electron tubes with Robert Leopold, M.S., Electrical Engineering, University of Michigan, 1949.

Owen himself is thirty-one, and a B.E.E. from Rensselaer Polytechnic Institute, class of '49. He joined the Labs upon graduation, and was assigned to communications development training—the equivalent of a two-year postgraduate course in communications. Mixed with his classes were various assignments in

the Chem Lab, the switching and wave filter departments, and work on transmission systems and coaxial cables.

In 1954 Owen was promoted to supervisor. He works with two electrical engineers, both systems analysts, and four technical assistants. Their current job is exploratory development of submarine cable systems, looking towards great new transoceanic communications links.

Owen is one of many engineers and scientists in the Bell System whose principal responsibilities include those of leadership. The work of improving telephone service in the Bell System is guided, and decisions are made, by men who understand the problems involved at first hand.

Many young men like Owen Williams are finding interesting and rewarding careers in the Bell System—at Bell Telephone Laboratories, in Bell Telephone Companies, Western Electric and Sandia Corporation. Your placement officer can give you more information about career opportunities in all Bell System companies.

Grid Drills Dusty; Squad Enthusiastic

By JIM CAIN

K-State's football squad went through its first spring drills surrounded by dust and enthusiasm, according to Coach Bus Mertes.

"The boys looked real good for early spring practices even though it has been a little dusty," Mertes said. "Their attitude is good and they are in pretty fair condition."

Mertes said that he hoped to have a scrimmage Saturday if the team continues to look good. "We'll start to toughen up the drills a little and then Thursday we'll take the day off to rest up for our scrimmage Saturday."

He also said that there will be a few major shifts to try and strengthen the line. Dick Scott, 6-0, 195-pound fullback has been moved to left end; and Russell Gaston from Junction City has been moved from fullback to left guard.

In the backfield, Mertes said that Mike Kinsella, 5-11, 166-pound sophomore, would be moved from halfback to quarterback, and sophomore Tony Tiro, 5-11, 190-pound halfback would be moved to fullback.

Mertes described the sophomore crop as "fair" and said that eight or nine of them will see a lot of action. Bolstering the line corps will be end John French, 6-4, 195-pounder; center Ralph Lambing, 6-2, 210; and Don Miles, 5-9, 185-pound guard.

Top sophomore backs include John Marcoline, George Whitney, and Vernon McConnell.

Mertes felt he would know who would fill the vacant positions by the end of spring drills. "We're going to have some contact work

Two Cats Are All-Big 7

BY JAY WORKMAN

K-State's one-two scoring punch—Jack Parr and Bob Boozer—have been named to the United Press All-Big Seven first team.

Other first team positions were gained by Gary Thompson of Iowa State, Kansas' Wilt Chamberlain, and Lionel Smith of Missouri. Thompson and Chamberlain were picked unanimously, with Thompson getting the nod for Player of the Year.

Wildcat made the second team but Roy DeWitz was named

to the honorable mention list.

The three Cats were also named to the Associated Press All-Big Seven team in their same positions. The AP first five was the same as that selected by UP with the exception of KU's Gene Elstun who was named instead of Smith.

Parr, 6-9 junior, landed on the all-star team for the second straight year.

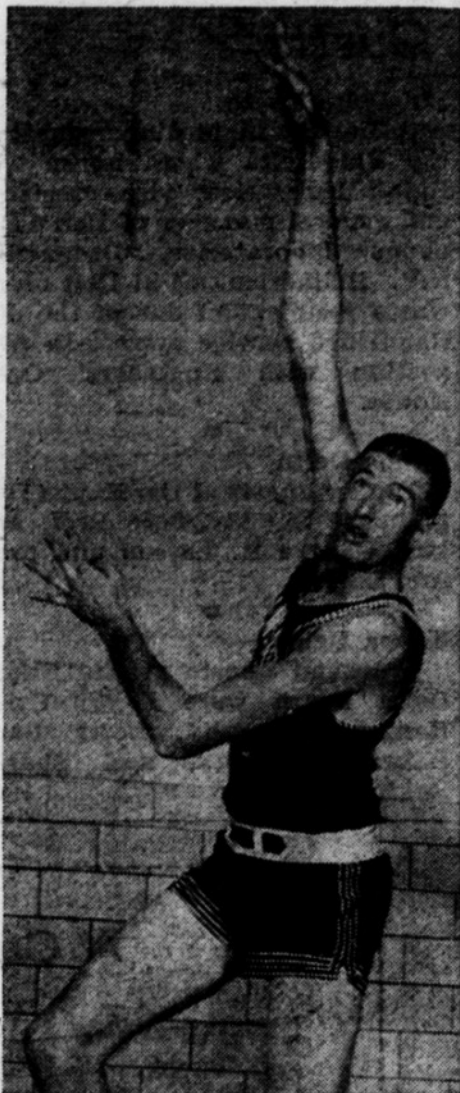

"I didn't think I'd make it as a sophomore," said Boozer. "My family called last night and was really thrilled about it."

Wildcat Coach Tex Winter was pleased with the honor given his charges. "I don't see how any all-Big Seven team could be picked without including them, they certainly deserve it," he said.

The second team was made up of Maurice King and Elstun of Kansas, Joe King of Oklahoma, Dave Mowbray of Colorado, and Lyle Frahm of Iowa State.

Coach of the Year was Sox Walseth of Colorado.

Honorable mention went to John Crawford, Don Medsker, and Chuck Vogt of Iowa State; Bill Ross, Roger Eglhoff, and Sonny Siebert of Missouri; Rex Ekwall and Gary Reimers of Nebraska; Don Schwall and Bill Ashcraft of Oklahoma; Bob Helzer of Colorado; and Ron Loneski of Kansas.

TANGLE SCHOOLS PUZZLES

FOLLOW THESE MAILING INSTRUCTIONS CAREFULLY!

**TIE-BREAKING
PUZZLE
NO. 8**

CLUE: This Nebraska coeducational college of liberal arts is affiliated with the Presbyterian Church. It was chartered and opened in 1882.

CLUE: Conducted by the Jesuit Fathers, this midwestern coeducational university was opened in 1877. It bears the name of the city in which it is located.

CLUE: This coeducational university was chartered in 1845 under the Republic of Texas. It is a Baptist school.

ANSWER 1. _____

ANSWER 2. _____

ANSWER 3. _____

Name _____

Address _____

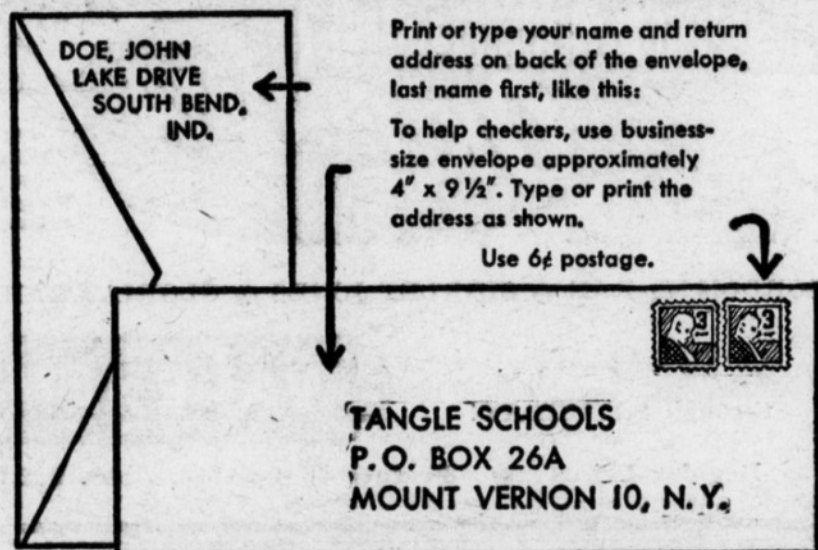

City _____ State _____

College _____

NOTE THAT THE ABOVE PUZZLE CONTAINS THE NAMES OF THREE SCHOOLS FOR WHICH THREE SEPARATE CLUES ARE GIVEN.

Players may now mail their completed sets of 8 Tie-Breakers. Before mailing your puzzles, keep an accurate record of your answers. The 8 Tie-Breakers must be answered, neatly trimmed, and enclosed in an envelope, flat and not rolled and addressed to: Tangle Schools, P. O. Box 26A, Mount Vernon 10, N. Y., and bearing a postmark not later than April 5, 1957. Do not decorate or embellish the puzzles in any way. Do not include anything in the envelope but the puzzles.

If, after solutions have been submitted to this set of Tie-Breakers, a tie or ties still remain, those tied will be required to solve another tie-breaking puzzle, in accordance with the official Tangle Schools rules. These tie-breaking puzzles, if necessary, will be mailed to each contestant.

- Use business-size envelope 4" x 9 1/2" ... sometimes referred to as a No. 10 envelope.
- Each of the puzzles must be neatly trimmed, separately, and placed in numerical order.
- No decorations please! Address envelope as shown.
- Your name and address MUST be on the BACK of the envelope ACROSS THE END and in the position shown in the illustration. Please print or type in CAPITAL LETTERS—LAST NAME FIRST. If mailed according to instructions, 6¢ postage should be enough.
- In the event of further ties, contestants will be mailed an additional tie-breaking puzzle form.

**REMEMBER—ENTRIES MUST
BE POSTMARKED NO LATER
THAN FRIDAY, APRIL 5, 1957.**

**FIRST PRIZE—A TOUR OF

OK's Unbeaten in Volleyball

OK House remained undefeated in intramural volleyball by beating the Disciples Student Fellowship in two games last night, 15-10, 15-4. It was the only independent match of the night. Seven were played in the fraternity division.

Sigma Nu kept its record clear of losses by defeating Alpha Tau Omega, 15-2, 15-6.

Delta Tau Delta and Beta Sigma Psi, both of Group II, remained undefeated with wins over their opponents. The Delts beat Theta Xi, 15-3, 15-8. The Beta Sigs defeated Alpha Epsilon Pi by an equally impressive 15-3, 15-4.

Pi Kappa Alpha won over Farm House in two games, 15-2, 15-6.

Kappa Sigma needed three games to defeat Delta Upsilon, 15-2, 12-15, 15-1.

Acacia whipped Alpha Kappa Lambda, 15-8, 15-6.

In the only other match of the evening, Phi Delta Theta beat Lambda Chi Alpha, 15-3, 15-9.

Eight more matches are scheduled tonight. Starting at 7, Tau Kappa Epsilon plays Sigma Chi, Phi Kappa Tau plays Beta Theta Pi, Sigma Alpha Epsilon plays Phi Kappa, and Delta Sigma Phi plays Alpha Gamma Rho.

Matches at 8 will be between Jr. AVMA and Acropolis, the Aces and the Rho Alphas, Phi Epsilon Kappa and the Eight Balls, and House of Brec and Newman Club.

Waltheim, NW Get Cage Wins In Girls' IM's

Waltheim hall and Northwest hall piled up 11-point margins in womens' intramural basketball victories yesterday.

The games, played in Nichols gym, marked the second night of competition.

In First league play Waltheim defeated Alpha Xi Delta, 23-12. High for Waltheim was Kay Linder with 12 points. For the Alpha Xi's Lavonne Tawney hit 10 points.

In Second league play Northwest hall beat Southeast hall 21-10.

Leading the scoring for Northwest were Pat Shannon and Carolee Baertch with 8 points each. Barbara Huff and Ruth Bybee shared scoring honors for Southeast with 4 points each.

Two games are scheduled this evening at 5 p.m. Alpha Xi Delta plays Delta Delta Delta and Alpha Delta Pi plays Van Zile hall.

STAN SMITH of Sigma Nu tries for the ball in intramural volleyball action last night. Alpha Tau Omega's Ron Edwards is at the right, and Frank Butler of Sigma Nu comes up to assist Smith.

You're Gene McGrew... high school footballer and class officer. You won a scholarship and went through Princeton in the top third of your class... managed varsity track... commanded an artillery battery in Korea... "When you put a lot of preparation into your career," Gene McGrew feels, "you should expect a lot of opportunity in return."

Meets IBM representative

Out of the Army in 1953, Gene met an IBM representative. It sounded like opportunity. A few interviews later, Gene was sure. Although sales was only one of the many jobs he felt he could handle, this kind of selling—(IBM machines are as much an idea as a product)—promised to occupy every talent he possessed. Besides, he's learned that "no other form of training produces so many top business managers."

Gene outlines programming test

Then began a 13 months' training program marked by merit salary increases. First—3 months' schooling and observing operations in Pittsburgh (Gene's hometown). Next—2 months' studying the applications of IBM's electronic data processing machines in business, science, government, and defense. Followed by 7 months' practical training in the field, with customer contact. Followed by IBM's famous course in selling methods. Finally, assignment to a sales territory near Pittsburgh, responsible for about 14 companies and their executives who used IBM equipment, and a dozen or so more who were logical prospects for it.

Tar Heels Win 28th; OCU Whips Loyola

North Carolina's Tar Heels trailed for the better part of a 40-minute basketball game last night, but came from behind with Lennie Rosenbluth pointing the way to whip Yale, 90-74, in first round NCAA playoffs.

All-American Rosenbluth hit 29 points on 11 fielders and seven from the charity stripe in powering the Heels to their 28th straight win in New York's Madison Square garden. That left Coach Frank McGuire's team the only major college undefeated team in the country.

In other National Collegiate playoffs action, Syracuse earned the right to meet Lafayette in Philadelphia Friday by whipping Connecticut, 82-76; Canisius won over West Virginia, 64-56; Notre Dame won its 10th straight by defeating Miami of Ohio, 89-77; Pittsburgh came from behind to nose Morehead State, 86-85; and Oklahoma City bumped Loyola (New Orleans), 76-55.

Hubert Reed, 6-10 OCU postman, hit 24 in leading the Chiefs to the win over Loyola. The win

left the Oklahomans with an 18-8 record, and marked the sixth straight year the Chiefs have entered the NCAA playoffs.

Reed was edged for scoring honors by Loyola's Pete Gaudin. Gaudin poked through 27 second half points to up his total for the night to 31. OCU hit 54 per cent of field goal attempts in the first half to take a 38-16 lead.

The victory boosted Oklahoma City to a Dallas date with St. Louis Friday. Winner of that game will play the victor of the Kansas-Southern Methodist contest for a quarter finals berth.

Notre Dame led all the way against Miami, though outscored in the second half. The Irish will meet Big Ten co-winner, Michigan State at Lexington, Ky., Friday. Winner of that game will meet the victor of a Pittsburgh-Kentucky clash.

North Carolina will play Canisius in Philadelphia Friday, and the winner of that game will meet the winner of the Syracuse-Lafayette contest. The finals in the NCAA tourney will be played in Kansas City

What's it like to be AN IBM SALESMAN?

Selling to management is perhaps the best training for management, and it's the reason Gene McGrew joined IBM. Today, he possesses a thorough practical Business Administration education, responsibility, an excellent income—all at age 27. Read about an unusual career.

Makes first sale

Gene's first sale, to a bank, required thorough study; consultations; a written recommendation. The climax came, Gene remembers, when he submitted his analysis to the vice president and received that gentleman's signature.

Discussing customers installation

Gene's latest sale was to a large industrial corporation. He's now preparing this customer for the installation of an IBM electronic system designed to simplify financial procedure; inventory and other systems problems. At 27, Gene finds himself top man on an important account. He's educator, salesman, administrator.

How would Gene define selling?

"We feel the best way to sell is to be able to consult. The best way to consult is to know something of value your customer doesn't. IBM's 'something of value' is profit through automation."

Gene's thoughts on competition:

"The entire Office Machine Industry feels the lead pencil is the biggest competitor. You've no idea how many time-consuming clerical jobs can be mechanized, thus freeing people for important, creative jobs. IBM's success in the field is due to service, knowledge, 'know-how'."

Does Gene find his youth a handicap?

"It's what you know—not how old you are—that counts. I deal with executives twice my age on a basis of

equality, because they respect my training and my business judgment."

Future wide open

"I'm getting married soon, and I was amazed to realize how much security IBM's growth (sales have doubled on the average every five years since 1930) and benefits represent. But I think my real security lies in the chance to use my own ability fully and freely. There are nearly 200 Branch Managerships, 15 District Managerships and executive positions in 5 other divisions ahead of me. IBM is introducing new machines, systems and concepts so fast that, every Monday, we have a 'new idea' meeting just to keep up."

IBM hopes this message will give you some idea of what it's like to be a salesman at IBM. There are equal opportunities for E.E.'s, I.E.'s, M.E.'s, physicists, mathematicians, and Liberal Arts majors in IBM's many divisions—Research, Product Development, Manufacturing En-

Committee Members Chosen For Hospitality Day Work

Twenty-two committees have been chosen to work on Hospitality Day April 13, according to chairman Verlene Sobke, HT Sr.

The registration committee is headed by Jan Foltz, FN Sr. Helping her are Dixie Brown, HDA Jr; Janet Kugler, HT Jr; Dottie New-

ton, DIM Soph; and Joyce Nixon, FN Sr.

Working on publicity are Jan Kraft, HEJ Jr, and Carol Ward, HEJ Jr, co-chairmen. Committee members are Connie King, HT Jr; Sandy Cox, HDA Jr; Peggy Farrar, HE Jr; Kathy Schultis, HEJ Soph; Joyce Rust, FN Jr; Jane Franz, HEJ Soph; Ginny Herzog, HEA Jr; Ann Williston, HEA Soph; Carol Sitz, HEJ Soph; and Jackie DuMars, HEJ Jr.

Betty Sellers, HDA Jr, is chairman of the buying committee. Committee members are Kathy Kirton, HDA Jr; Mary Jane Harri, HT Jr; Rogene Davis, HE Fr; Shirley Hundley, HDA Jr; Geraldine Fritz, HDA Soph; and Carol Wilkins, HT Jr.

The Assembly committee consists of Sally DeForest, DIM Sr, chairman; and Marlene Van Schoonveld, HEN Fr.

Special arrangements are being made by Anna Belle-Chilcott, HEN Soph, chairman; Rhea Lake, TxC Soph; and Virginia Herzog, HEA Jr.

Exhibit committee members headed by Charlotte Lybarger, DIM Sr, are Judy May, FN Sr; Phyllis Viergever, FN Soph; Catherine Cain, ChW Sr; Ilene Davey, HT Soph; Sandra Arnold, HEN Soph; Madelon Neff, DIM Jr; Betty Moore, HEJ Soph; Mary Banks, DIM Sr; Carol Cotner, HT Sr; Penny Stafford, HEc Soph; Carol Lala, HEA Soph; and Shirley Sarvis, HT Sr.

A style show is being planned by chairman Sylvia Gaddie, TxC Jr, and committee members Diane Koon, TxC Soph; Janell Farrell, TxC Jr; Marcia Sowers, TxC Soph; Mardy Edwards, HDA Soph; and Darlene Larkin, TxC Jr.

Pat Todd, HT Jr, heads the guides and tours committee. Helping her are Edith Lancaster, HT Sr; Nancy Smith, HT Jr; Barbara DeLange, HT Soph; Arlene Richardson, TxC Soph; Barbara David, HDA Fr; Margean Westerhouse, HEN Fr; and Juanita Clark, ChW Jr.

Hostesses will be Donna Knoche, ChW Jr, chairman; Carol Kellogg, HT Soph; Kay Wadsworth, HT Soph; Carilee Shipp,

HT Jr; and Janice Albers, HT Soph.

Signs and posters are being made by committee chairman Marilyn Kalous, HEA Jr; Suzie Cliborn, HEA Jr; Carole Greer, HEA Jr; Charlotte Strah, HEA Fr; Linda Bair, HEA Jr; Rosemary Newcom, HEA Fr; Mary Faye Frazier, HEA Sr; and Pat Johnson, HEA Sr.

Also working on the signs and posters are Paula Beason, HEJ Soph; Joan Smith, ChW Sr; Rosa Lee Nelson, HEA Jr; Carol Cooper, HEA Soph; Pat Cochran, HEA Fr; Carolyn Pults, HEA Soph; and Sue Green, HEA Soph.

Lunch is under the chairmanship of Susie Tucker, HT Sr. Others helping are Marilyn Brooks, HT Jr; Joy Allen, HT Soph; Virginia Devinish, HDA Sr; Beverly Richardson, HE Fr; and Pat Pletcher, TxC Soph.

Wright Heads Air Society

Phillip A. Wright, GA Jr, was elected Commander of the Arnold Air Society for next year at a meeting of the Society, Wednesday night.

Other officers for next year elected at the meeting were Arlie L. Mustoe, Agr Jr, Executive Officer; Robert B. Lawrence, MTC Jr, Comptroller; Lloyd C. Marshall, AA Jr, Operations Officer; Allen E. Fort, AEd Jr, Adjutant; Winston J. Barr, ME Soph, Information Services Officer; and Buddy D. Frye, GA Jr, Angel Flight Co-ordinator.

UGB Positions Open

Monday is the last day students can apply for positions on the Union Governing board, according to Loren Kottner, Union director.

Four positions are open. Interviews will be held Monday evening by the Governing board. Application blanks and letters must be in the director's office by 5 p.m. Monday.

Open House Routing Plan Announced

"An experiment designed for the convenience of this year's Open House visitors" will direct the grand tour of the engineers' exhibits along three routes, according to Harry Pallett, EE Sr, routing chairman.

The principal reason for the three-route system, being used for the first time this year, is to enable people to get around more quickly to the departments they want to see and to allow them to take a break between routes.

Pallett says routes will be marked so that visitors cannot get off them accidentally; all exits to the routes will be blocked with crepe paper.

The outdoor portions of the routes from the engineering building to the industrial and chemical engineering departments will be well-lighted for tomorrow night's visitors. Signs will point the way Saturday.

All three routes will begin and end at the main entrance of the engineering building, Seaton hall.

Ruined Bruin

Niagara Falls, Ont.(U.P.)—When smoke began to pour from the kitchen oven she had turned on only a few minutes before, Mrs. Nick Spinelli summoned firemen who pulled out a scorched teddy bear. The toy apparently had been put in the oven earlier in the day by the Spinelli's two-year-old son, Gary.

Housing Problems Expected This Fall

A. Thornton Edwards, College housing director, anticipates even more housing problems at K-State next school year than there were last year.

"We had difficulty finding space for 6,256 last fall," Edwards said, "and we anticipate greater difficulty in placing an estimated 6,800 to 7,000 this fall."

Housing needs will be for married men and women, and single men and women. The housing situation of married students has been eased by the opening of 192 apartments in Jardine Terrace, but these apartments are not expected to take care of the full enrollment of married students.

In past years there has been an increase of married students on campus. Last year there were 349 more married men enrolled in school than in the fall of 1954.

Last fall it was necessary for the housing office to arrange temporary housing for 50 men for two weeks until rooms could be located for them. Women's dormitories and sorority houses have been crowded beyond capacity for the last two years.

Integrity Politicos Consider Platform

Twenty-two points, proposed for the Integrity party platform, were taken under consideration at a meeting of the Platform committee of the party yesterday afternoon. Dick Miller, chairman of the Platform committee announced.

Miller assigned several points to each of the 12 members of the committee to be worked into planks for the party platform. The planks will be turned in Wednesday when the committee meets again. Miller and John Snider, assistant chairman of

the committee, will correlate them and write a preface to the platform.

Some of the points being considered are providing more lighting on the campus at night, paving the north parking lot and providing better facilities for coffee and eating in the Student Union.

The platform will be reviewed by the Executive committee of the Integrity party and then presented to all students for approval at a general assembly later this month.

Faculty Senate Approves Proficiency Test Ruling

Students who have earned A's in both Written Communications I and II will be exempt from the English Proficiency test, according to E. M. Gerritz, director of admissions and registrar.

The new ruling was approved

by the Faculty Senate at a meeting yesterday afternoon, and will go into effect this semester.

Since English Proficiency is a graduation requirement, every student must still enroll for it.

Students qualified for exemption will be required to ask for exemption in the registrar's office. The registrar's office will certify to the English department that the student is entitled to exemption and the English department will report a credit grade for the student in the same manner as for one who successfully passed the test.

According to John P. Noonan, assistant professor of English, 35 to 40 students normally receive A's in both Written Communications I and II every year. The number will get higher due to the increasing number of students," Prof. Noonan said.

Records show that only one person who has received A's in

both Written Communications I and II has ever failed the English Proficiency test, said Gerritz. He added, "That person failed only because he failed to follow directions. We decided that receiving an A in Written Communications I and II was equivalent to passing English Proficiency."

Program Council Vacancies Occur

Applications for positions on the Union Program council will be accepted starting Monday and until 5 p.m. March 25, according to Bob Alexander, program director.

Interviews will be complete by April 2, and appointees will be notified that week. This year the Program council has consisted of 11 committee chairmen and three officers.

KS Singers Tour Is Set for April 11

The K-State Singers will appear in Minneapolis, Bellville, and another Kansas town yet to be named when they go on tour April 11, according to William Fischer, director of the Singers.

Other performances coming up for the Singers will be on March 15 at a Livestock association banquet in Wichita, and a concert in Stafford sponsored by the Lion's Club on March 22.

Photo by Doug Tedrow

GREEK WEEK planning got off to a good start yesterday, when Marylyn McCready, Eng Sr; Dick Rohlf, AEd Jr; and Pat Roberts, TJ Sr, visited several sororities and explained the Week's activities and procedures. The committee plans to visit fraternities this evening, Roberts said.

High Winds Waft KS Coeds

By SHARON TOTTEN

It'll be a cold day in . . . , well, anyway, it'll be a cold day before the wind blows much harder than it did yesterday. At least that may have been the opinion of some K-State coeds when they braved winds of 25 miles-per-hour with gusts up to 35.

Skirts and scarves flew and hair and tempers were ruffled when the March winds wrapped themselves around coeds like friendly octopi. Incidentally, several male students were observed standing on street corners and at busy intersections saying, "Blow, winds blow."

One germ conscious pre-nursing student said, "Yes, I believe it was blowing rather vigorously—carrying many dirt particles with it."

This coed stated that she much preferred wet windy weather to dry weather, and when she was asked why, she said, "It's more humid that way."

At noon yesterday, quite a group of leering students gathered south of Anderson hall to watch an instructor chase his hat across the street.

Winifred Killian

Stateroom, Dive Draw Criticism

By BOB PATTERSON

"I like it, I like it," was the reply used over and over by students who were asked what they think about the way the Student Union is being run.

However, most students felt that the dive wasn't being used to the fullest extent. They usually felt that if some sort of food arrangement could be worked out in the dive, it would be used more.

There was a lot of comment to the effect that conventions held at the Union were a hinderance at noon because of the long lines that formed in the cafeteria.

Everyone asked said the state room was a good place to go for a snack, but the service was slow. Some felt that if there was another place like the state room, it would take care of the overflow at rush times.

● **RUDOLF L. TITSWORTH, AE Fr**—"I like the setup very much, especially the browsing library where I can do classwork whenever I need to. I don't like the idea of putting TV in the dive. I think it would interfere with the games. These extension meetings make a mess out of cafeteria lines at noon. On the whole I really like it because it is such a terrific improvement over the old Union."

● **FRED ELLEDGE, TA Fr**—"I feel the state room is too crowded after class periods. I think the cafeteria tries to make too much profit. I would like the desks to cash checks over \$5. The Union does make a nice impression on other visiting students that come here."

● **SANDRA COX, HT Jr**—"I don't feel that the dive is being used like it should. The state room is becoming quite popular. The Union offers nice facilities for meetings."

● **CHARLES BILLINGS, Gop Sr**—"I like the games area in particular. I feel that the Union can be used for whatever a student has in mind."

● **TOM OTT, Ar 02**—"I like the Union, particularly the location. The state room does a good job handling the crowd during rush periods, but I feel that if coffee was served in the dive it would alleviate the situation in the state room."

● **MARVEL JACOBSON, BA Sr**—"I think it's a great place. It is a great improvement over the other Union. I think everything in it is useful to the students. I feel everything serves its purpose in the Union. I think another room like the state room would be an improvement."

● **RAY MILSAP, Geo Fr**—"The Union needs better desks and writing facilities so a student can study easier. I like the games area. It is disappointing that the dive isn't used like it should be. I don't like to see people writing on tables in the state room."

● **Le CLAIR SLADE, IT Soph**—"I don't feel the dive has lived up to its expectations. It usually has the same crowd everyday. The Union is a swell place though."

● **ELAINE TEARNEY, ML Jr**—"The Union is closer to the other campus buildings than the temporarp Union was and I feel that it has been a success. I don't like the dive. I feel that the food service in the state room hurts the dive."

● **MARVIN McMILLAN, Ag Soph**—"Everything is useful, but the eating facilities are poor for students that have to wait in line at noon. Otherwise I'm 100 per cent for it. I feel the Union heads could figure something out for the conventioners that eat in the Union."

● **JAMES F. STEVENSON, CE Soph**—"It has been a pretty good thing. It has provided a place for students who can't afford to go to the movies, a place for recreation. It also provides a lot of jobs for students. It gives good space for student meetings. I feel that the atmosphere in the Union gives the students a sense of belonging. I don't think it will ever be outdated as long as the college is here."

Discrimination Is Not For K-State Students

THE STUDENT activities board has postponed any decision to accept or reject Tau Theta, profession engineering fraternity as a student activity. The Board is waiting on a report from the Dean of the School of Engineering and a survey of engineering students' opinions.

We hope that Dean Durland and the engineering students read carefully the list of qualifications for membership before okaying this organization.

KANSAS STATE is a state supported school. The money that runs this college is paid by people of other colors as well as white. K-State prides itself on the number of foreign students who pick this school for their study.

This is no place for discrimination, and we hope that the Activities board will not approve such an organization for a professional fraternity.

VARIOUS MEMBERS of the Athletics Council and the Student Council met yesterday to rehash the activity card situation.

The members present felt that some change was necessary. They discussed all aspects of the problem including optional athletic tickets and guest tickets. Either plan would probably call for an increase in price of the tickets.

ALTHOUGH NO solution was reached it was agreed that the Student Council draw up a definite plan which might be agreeable to both groups.

In every plan the big catch will be the finances of the athletics program. If you have any worthwhile suggestions, give them to some member of the Student Council.—Jane Moore

World News Briefs

Israeli Open Diplomatic Push Against Egypt's Gaza Return

Compiled from the United Press

By KEITH KEMPER

Jerusalem, Israel—Israel opened a major diplomatic offensive today against Egypt's return to the Gaza strip.

Foreign Minister Golda Meir consulted western diplomats here while Israel fought for support in the United Nations and Israeli ambassadors carried out urgent talks in the western capitals.

The diplomatic maneuvering followed Premier David Ben-Gurion's strong warnings that Israel reserved freedom of action to take more drastic steps if diplomacy failed.

Officials said the withdrawal of Israel from Gaza was carried out on the assumption that Egypt would on no account be permitted to regain control of the area and that this assumption received the support of and met with the understanding of by many western members of the UN.

Attempted Assassination of Cuban President Foiled

Havana, Cuba—The Cuban army said today the attempted assassination of President Fulgencio Batista ended in bloodshed, death and failure for the handful of student revolutionaries who staged it.

Batista labeled the attack on his palace late yesterday as Communist inspired.

The youthful members of the tiny band were either dead, captured or fleeing for their lives from police and soldiers.

At least 36 persons, including a U.S. citizen, were killed and more than a score wounded in the attack which reached the second floor of the Presidential palace before it was beaten back.

Top Ten Tunes

'Butterfly' Flits To Top of List

By Sharon Totten

Charles Gracie's record, "Butterfly," maintained its number one spot in sales in Manhattan this week while "Young Love," by Sonny James, topped the jukebox list. The top ten tunes in record sales this week are:

1. "Butterfly," Charles Gracie
2. "Party Doll," Steve Lawrence
3. "Teen Age Crush," Tommy Sands
4. "Marianne," Terry Gilkyson
5. "Why Baby Why," Pat Boone
6. "Walkin' After Midnight," Patsy Cline
7. "Lucille," Little Richard
8. "Jim Dandy," LaVerne Baker
9. "The Wall," Patti Page
10. "Round and Round," Perry Como.

Tunes played most on the jukeboxes this week are:

- "Young Love," Sonny James
- "Marianne," Terry Gilkyson
- "Don't Forbid Me," Pat Boone
- "You Don't Owe Me a Thing," Johnny Ray
- "Too Much," Elvis Presley
- "Blue Monday," Fats Domino
- "Walkin' After Midnight," Patsy Cline
- "Butterfly," Andy Williams
- "Banana Boat Song," Harry Belafonte
- "Lucky Lips," Gale Storm

Coming up fast on the jukebox list this week are Fats Domino's, "I'm Walking," and "Who Needs You," by the Four Lads. While in the record stores, a new disc by Harry Belafonte, "Mama Look at Bubu," is beginning to sell.

Some of the great standard popular songs of our time are made even greater by the Queen Ella Fitzgerald treatment in an album found in the record shops this week.

The album, entitled, "Sweet and Hot," features such favorites as, "Thanks for the Memory," "It Might as Well Be Spring," "You'll Never Know," "Taking a Chance on Love," "That Old Black Magic," "Old Devil Moon," "Lover, Come Back to Me," and "Between the Devil and the Deep Blue Sea."

Backed by splendid orchestras directed by Benny Carter, Sy Oliver, Andre Previn, and John Scott Trotter, Queen Ella again lives up to her title, "First Lady of Jazz."

School Travel Vouchers Questioned by Docking

Topeka, (U.P.)—Gov. George Docking yesterday questioned the validity of travel vouchers for 73 individuals from Kansas State college, KU, Emporia State Teachers, and the Board of Regents.

"I was wondering if there was anybody left there to teach classes," he remarked. He said he had not as yet turned down the expense requests.

"I wonder how many would go if they had to pay their own way," he said.

"I am somewhat dubious whether all this travel is necessary. Of course there are two things it's spring, and it's getting toward the end of the fiscal year and the boys may want to use up any remaining budget."

The state pays a large portion of in-state and out-of state travel expenses.

The Governor yesterday expressed doubt his key fiscal plan to abolish the \$12.5 million residue would pass the House and said it looked like the Legislature was "maneuvering toward a sales tax."

The Democratic Governor left it open for the Legislature to propose "any other sensible and honest financing plan—but I still oppose a sales tax."

He would not say he would veto an increase of 1 per cent in a statewide sales tax.

"It looks like a carefully planned campaign so that if the residue is killed off in the House we will have no alternative but an increased sales tax."

"The only solutions to raise quick money are the residue, and a sales tax is another," he said.

Asked if he thought the House would kill the residue plan, the Governor replied at one time, "quite probably."

It is due for a showdown debate in the House today, but most observers gave the Senate-passed bill scant chance of House approval.

Docking said he did offer one other plan and that was to defer distribution of the residue until next spring. This would keep the \$12.5 million in state coffers until another tax, such as a severance tax, begins bringing in revenue toward the end of the calendar year.

The BOOTERY

OPEN THURSDAY NIGHT TILL 9:00

We're reaching
for the stars
...are you?

You might call us "talent scouts." Certainly we're seeking talented young men — the kind that will star on our teams of engineers and scientists at Convair. Here is opportunity. Because Convair is engaged in the widest diversity of aircraft and missile projects in the U.S. today. Talk with the men from Convair (dates below). Let them explain the many advantages of working at Convair... of living in beautiful San Diego.

CONVAIR SAN DIEGO

Plan your career with America's top air-frame builder. Here you'll find a wide range of opportunities for the graduate engineer. You'll work with a congenial group in the Company famous for such advanced aircraft as the 880 — world's fastest commercial jet airliner; F-102A — first supersonic interceptor; Sea-Dart — first water-based jet fighter; and long-range research on nuclear aircraft. There is no ceiling on your chances to advance and make a name for yourself at Convair San Diego.

CONVAIR-ASTRONAUTICS

During 1957, groups of outstanding scientists and engineers, together with hand-picked young graduates, will occupy the new \$40,000,000 Convair-Astronautics facility. Here, in a unique environment, they will develop and design ATLAS — an Air Force top-priority Intercontinental Ballistic Missile (ICBM) — the forerunner of travel into space. You may qualify for a position with Convair-Astronautics' ICBM project — one of the most important of its kind in the United States.

Graduate and undergraduate students majoring in
AERONAUTICAL, ELECTRICAL, MECHANICAL, NUCLEAR,
CIVIL, CHEMICAL ENGINEERING
plus MATHEMATICS, PHYSICS, METALLURGY

Breck Wins in IM's After Tight Contest

House of Breck edged Newman Club in an intramural volleyball match last night that was as close as it possibly could be.

Newman Club won the first game, 15-13. House of Breck turned around and won the second, 17-15. Each game has to be won by two points, according to volleyball rules. The last game of the match was started with only five minutes remaining of the 50-minute time allotment. House of Breck won this one 4-3 to become the victor of the match.

Aside from that match, four teams, two in each division, kept their season records free of losses with wins over their opponents.

In the fraternity division, Beta Theta Pi stretched its season's record to 4-0 with a win over Phi Kappa Tau, 15-1, 15-4.

Sigma Chi beat Tau Kappa Epsilon, 15-9, 15-10, for a 3-0 record for the year.

Jr. AVMA and Phi Epsilon Kappa both have 4-0 records in the independent division after last night's action.

Jr. AVMA beat Acropolis in two games, 15-5, 19-17. Phi Epsilon Kappa didn't even have to show up to keep its record clear. They won by forfeit from the Eight Balls.

In the only other independent match, the Rho Alphas beat the Aces, 15-3, 15-10.

The other two fraternity

Tri-Delts, Van Zile Win IM Tilts

Susie Bates hit a free throw in a sudden death overtime to pull Delta Delta Delta sorority to an 8-7 win over Alpha Xi Delta in womens' intramural basketball yesterday.

At the end of regulation time, the game was deadlocked, 7-7. The two teams' captains elected to play a two-minute overtime, but neither team had scored after the extra period.

The game went into a sudden death overtime and Alpha Xi Paula Beason fouled Miss Bates. She sank her free shot to win the game.

High for Delta Delta Delta

were Miss Bates and Pat Smith with 4 points each.

Leading the scoring for Alpha Xi Delta was Lavonne Tawney with 5 points.

In the only other game scheduled, Van Zile hall defeated Alpha Delta Pi, 24-8.

High for Van Zile was Gayle Coppeoc with 12 points. Diane Gentry lead ADPI scoring with 4.

The intramural season will be

concluded with the finals on Tuesday, April 2. Until then, games will be played four evenings a week, Mondays through Thursdays.

OPEN HOUSE BEGINS TODAY

Kansas State Collegian

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Friday, March 15, 1957

NUMBER 107

EARLY TO BED—Charles Grimmert, BA Fr, decided to go to bed early last night so that he would be in good shape for his part of the torch relay which starts off Engineering Open House this evening.

Platforms Picked By United Staters

Six party platforms were adopted by members of the United Staters party in a meeting in the Student Union last night.

The ideas which were accepted, are for changing the name of Kansas State college to Kansas State university, the participation of both independents and greeks in all school activities, the establishment of an honorary fraternity for veteri-

ary students, the election of separate class officers for all classes, the establishment of good foreign-student relations, and the establishment of "dead week."

Dead week, it was explained, would be the week preceeding final week in which the instructors would give no tests except in one-hour courses.

A constitution for the United Staters party was approved.

St. Pats' Prom Will Mark End Of Open House

The final event of the 33rd annual Engineers' Open House is St. Pat's prom in the Union ballroom tomorrow from 9 p.m. until midnight. It is an all-college dance sponsored by Sigma Tau, engineering scholastic honorary. Dress is semi-formal.

Highlight of the evening will be the crowning of St. Pat and St. Patricia by M. A. Durland, dean of the School of Engineering.

Music will be furnished by the Pastels from Emporia.

Integrity To Have General Assembly

The executive council of the Integrity party voted to have a general assembly March 21, at a council meeting yesterday afternoon in the Student Union.

The party platform will be put before the student body at the assembly.

Warren Kegean, Ec Sr president of the party, said he, as president, sent a letter endorsing a five per cent salary increase for key faculty members, to Gov. George Docking.

Flash Card Section Is Under Formation

Eleven hundred students in addition to the pep clubs will be needed to fill a flash card section for football games next fall, it is believed. Plans for its operation, headed by Bob Alexander, Union program director, are under way.

"My feeling is that this is to be one of the best sections in the U.S. or the section is not to be at all," he said. "The University of Los Angeles and the University of Illinois have two of the best sections in the country and it was my good fortune to advise the Illinois section for three years. Thus, I hope to pattern K-State's section after the one at Illinois."

The section will be run by a student union committee which will consist of 50 to 60 people. "In order to have a well-organized section next year, it will be necessary to formulate most of the plans this spring," Alexander said.

Only students who are willing to give their loyal support to the section should be in the section, Alexander said, since it will be necessary to have a full section to perform at every game, come rain or snow.

Phyllis Loseke, HT Sr, president of Purple Pepsters, said the pep clubs will be the main core of the section and will form the letter "K" while students will fill the rest of the section. "We hope all members of the pep club will apply for positions on the union committee as well as being members of the card section," she stated.

Lafene Urges Students To Get Anti-Polio Shots

This year there has been twice the number of polio shots reported in Kansas as there was at this time a year ago, according to Dr. B. W. Lafene, director of Student Health. No K-Stater has contracted the disease since last October, when there was one case he said.

"Student Health has given several polio shots recently, although there are many students who have not gotten them. People under 20 get the shots free, and those 21 and older receive the shots for 85c," Dr. Lafene pointed out.

"There is no finer protection for polio, than to get the three

shots of Salk vaccine. Only a very small minority is sensitive to the vaccine," he said.

Tomorrow Is Last Day To Drop Classes—Gerritz

Tomorrow is the last day to drop classes without having a withdrawal or failure recorded, according to E. M. Gerritz, director of admissions and registrar. The Saturday noon deadline will be the end of seven weeks.

Royalty for KS Open House Pleased with Jobs

"The engineers are a wonderful group of fellows; I really think a lot of them," said Mary Helen (Mel) Eaton, Sp Soph, who has been chosen to reign over Engineer's Open House as St. Patricia this weekend.

Miss Eaton stated she did not have any idea she would be chosen St. Patricia, but "it certainly is a wonderful feeling."

Although her official duties as St. Patricia will not begin until Open House commences this evening, Miss Eaton has already appeared on two television films, both of which were presented last Friday night.

Miss Eaton's official duties start when she and St. Pat participate in a ribbon-cutting ceremony to signal the beginning of the exhibition this evening. She will then be escorted through the maze of Open House displays.

Miss Eaton said she thinks it will be a lot of fun accompanying the torch relay team.

Miss Eaton, who is a native of Harper, has been vice-president and social chairman of Gamma Phi Beta sorority, is a member of the Future Teachers of America, and a leadership school group leader. Earlier this year, she was elected Intrafraternity Pledge Queen.

Being elected St. Pat for the 1957 Open House celebration

has put the finishing touch on this year's event for Jim Moore, EE Jr, from Elk City. In addition to being St. Pat, he is chairman of the Sigma Tau St. Pat's Prom committee.

St. Pat will take up his official duties at 6 p.m. tonight. After a ribbon cutting ceremony at the main entrance to Seaton hall, he and St. Patricia will be escorted through the displays and then will accompany the torch-lighting racers to K-Hill.

St. Pat and St. Patricia will be presented with trophies and crowned by Dean M. A. Durland at the prom tomorrow night.

In connection with his work on St. Pat's Prom, Jim says he is "pleased with the cooperation and enthusiasm Sigma Tau members have shown in getting things rolling for the prom."

Jim graduated from Elk City high school in 1949 and attended Kansas State Teachers college at Pittsburg for a year before a four-year stint in the US Navy.

Jim is vice-president of Sigma Chi, a member of Eta Kappa Nu, electrical engineering honorary, and, of course, a member of Sigma Tau, engineering scholastic honorary.

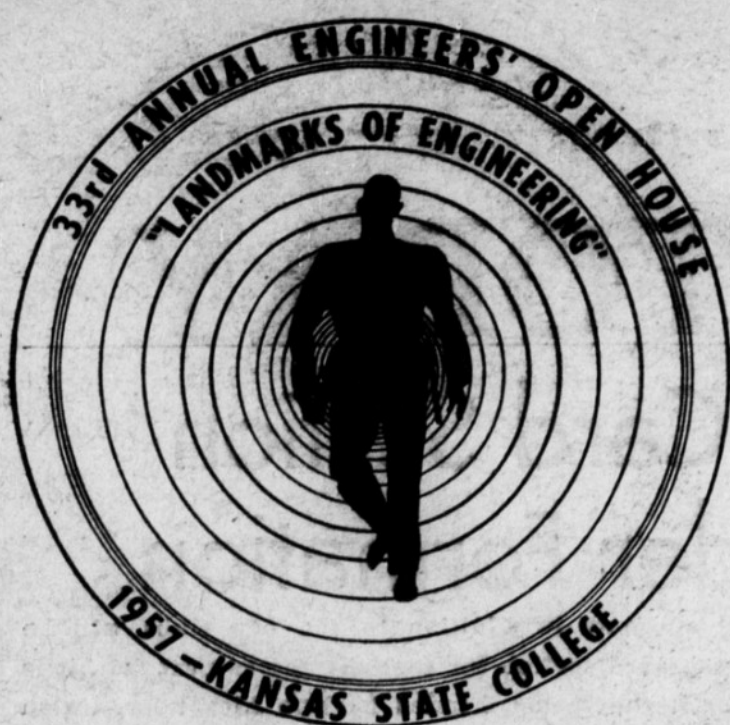

An avid sportsman, Jim plays golf and tennis. He especially enjoys quail hunting around his home in the southeast part of the state.

THESE BLACK, green, and white buttons will be in style for the next two days as K-State's engineers take the spotlight to show off their equipment and ingenuity. The 1957 Open House celebration starts tonight at 6 p.m. Slide rule festivities will conclude with the annual St. Pat-St. Patricia prom tomorrow evening in the Union.

Rising Costs Take Toll Of Open House Budget

The Engineers' Open House budget like many others reflects the reduced value of the dollar and fast rising costs. The Apportionment board granted Open House project planners \$2,515 for this year's activities. Last year they operated on a budget of \$1,900 and in 1955 on \$2,000 although these amounts proved to be inadequate.

According to William Hoskinson, EE Sr, Open House treasurer, this year's apportionment money has been budgeted in this manner:

General Expenditure Categories

Programs	\$200
Publicity	\$500
Routing (for tours)	\$65
Stationery	\$80
Postage	\$25
Communications	\$25
Freight	\$20
Guest Speaker	\$225
Professional Services	\$190
Total	\$1,330

Departmental Exhibit Credit

Electrical Engineering	\$200
Mechanical Engineering	\$200
Civil Engineering	\$175
Chemical and Nuclear Engineering	\$135
Architectural Engineering	\$175
Industrial Engineering	\$100
Agricultural Engineering	\$100
Applied Mechanics	\$100
	\$1,185

Hoskinson explained that the general apportionment grant is the principal means of support for the Open House project. A very small amount is earned through the sale of buttons and programs and some help is received from former students and others who lend the engineers pieces of equipment for display purposes.

Publicity, the largest single general expenditure, was devoted mostly to the production and distribution of four 15-minute television films. These films were produced at a cost of \$75 each. Following their use on television, some were sent to various high schools for promotional use.

The guest speaker for the Open House Assembly will be Charles Luckman, a member of the American Institute of Architects. The engineers will share the cost of bringing Mr. Luckman here with the regular college assembly sponsors.

The professional service category includes such things as typing, special printing such as luncheon invitations, and other services which the engineering students can't provide for themselves.

Hoskinson stated that the entire financial program for Open House is channeled through the college comptroller's office and all transactions are on a credit basis. For this reason, the total cost of staging the entire operation is often unknown until several months after Open House week.

John Kasper Back To Alabama To Speak at Segregation Rally

By UNITED PRESS

Adm. John G. Crommelin (Ret), the Alabama Citizens council leader who converted John Kasper to the segregation cause, will sponsor an appearance of the young campaigner tonight in Aetumpka, Ala.

Kasper said he will take a "temporary leave of absence from Florida," where a Legislative committee denounced him as a "professional agitator," to address Crommelin's council rally and make other speeches in Alabama.

But he will return to Florida in time to submit a "full-scale, across-the-board" segregation program to the next Legislature session starting April 2, Kasper said.

Among his "suggestions to the Florida Legislature," Kasper said, will be proposals to prohibit rock 'n roll music and inter-racial sports.

Kasper, 27, became a friend of Crommelin's in Washington, D.C. The controversial naval officer resigned a few years ago after helping spark a feud with the Air Force.

At Clinton, Tenn., where Kasper's part in school integration riots brought him a one-year federal contempt sentence, the Anderson county school board asked Gov. Frank Clement to use his police power to remove Negro students from the integrated school.

Telegraphic Tabloids

By UNITED PRESS

Honolulu, T.H.—Some 1,000 British soldiers and sailors, on three-day leave from the atomic test site at Christmas island, were politely asked yesterday to please stop driving rental automobiles.

They kept driving on the right side of the road, as in Great Britain, which is the left and wrong side of the road in the United States and its territories, police said.

San Diego, Calif.—Coroner Al Gallagher has sent out invitations to tea, cookies and punch for an open house affair celebrating the opening of the county's first morgue.

Lansing, Mich.—Flint, Mich., bait dealers have complained to the State Conservation department about "unfair competition." They asked for protection against little boys who are selling worms below the dealers' set price.

Pogo

By Walt Kelly

Personality of the Week

Tom Creech
Open House Manager

Tom Creech Says

Student Enthusiasm Up For 1957 Open House

By SANDRA WILSON

"Students have been more enthusiastic about Engineers' Open House farther in advance this year than in other years," says Tom Creech, ME Sr, Open House manager and the Collegian's personality of the week.

He believes this preliminary surge of enthusiasm has resulted in a higher caliber of work by the engineers to make this year's "Landmarks of Engineering" exposition a bigger success.

One of the essentials of organizing an outstanding Open House is "letting the people know about it and arousing interest," according to Creech. One 30-minute and four 15-minute telefilms, radio spots on stations throughout Kansas, and statewide newspaper coverage will help to publicize this year's event.

In addition, each of the 670 high schools in Kansas has been contacted, and as in the past the student engineers have prepared their Open House to appeal to the prospective engineer and to stimulate thinking about engineering as a career.

Aside from working with the different Open House groups such as the Co-ordinating committee and the departmental managers, Creech says he has gotten the most satisfaction out of starting with the Open House from its very earliest stages and watching things shape up as the completion date draws near.

Creech was elected Open House manager last spring by a vote of the Engineering association which is composed of all students in the School of Engineering and Architecture.

Dwight Nesmith, assistant professor, Engineering Experiment station, who is faculty adviser for Open House says "Having a fellow like Tom for Open House manager makes my job a snap. He has done such a thorough job that there is little left for me to do."

Not only is Creech a competent manager, but he is also an outstanding student. He is holder of the \$300 Coleman scholarship awarded annually to a top student in the School of Engineering and Architecture for his senior year and was recently informed he has been named by the Kansas Engineering society to receive an honorary associate membership.

The KES awards are made by the society annually upon recommendation from the schools of engineering at K-State and Kansas university. Creech will be presented with the award at the KES banquet next Saturday night in Kansas City.

After graduation this spring, Creech plans to teach in the Applied Mechanics department and to work toward his MS degree in applied mechanics. His main engineering interest is in the research and design field.

He is a member of the American Society of Mechanical Engineers, past treasurer of Pi Tau Sigma, mechanical engineering honorary, and a first sergeant in the Army reserves. Creech grew up in Licking, Mo., is married, and the father of two children.

Edukashunal Benefits of Comics Kweshunned; Nashun Sellebrates Nashunal Comic Week

THE COMIC INFLUENCE has hit Broadway, even. Late last year theater-goers were shocked to see the famous characters of Al Capp's "Li'l Abner" come to life on the stage in a real honest-to-goodness Broadway show. And, according to latest reports, the characters in their lunacy have cut themselves a niche in the next income bracket. This scene, from the cover of an album of the lilting tunes from the show, depicts some of the "Li'l Abner" characters as they appear, from left, Mr. Magoon, Pappy, in Li'l Abner's arms, Mammy, and Daisy Mae.

By SHARON TOTTEN

It's a dogbone outrage, that's what it is, a ding blasted catastrophe. Here we is—all students of Kansas State college, a institution of higher larning, and here it is—Nashunal Newspaper Comics week, and whut is we doing about it? We is kalusly ignoring it, that's whut we is. The avrage student on our campus is sadly missing the full edukashunal valu of universite training.

Yessir, in a resunt poll, which asked 20 student the kweschun, "What do you reed first in the Collegian?" only 14 of the critturs sed they reads "Pogo" first.

After giving this problem a pow'ful bunch of thot the uthur day, I came up with a jim dandy idea. I decided to seek the advice of a older, wiser member of the college. And who is older and wiser than Dean Schmugsley? Mundy morning, I walked into the Dean's office, brite, intellijunt, and full of confidense.

"Hiya Deenie," I sed, pulling up a chair so weed be all nise and cozy. "Do you no what week this is?"

"Week, schmeek," he sed, "get to the point; get to the point."

Realizing the valu of the deen's time, I decided to get rite to the point. "Whut," I asked, "is your opinion of the edukashunal valu of comic strips?"

"Strips?" he exclaimed, clinging to the edge of his desk.

Pushing him back into his chair and taking notes furiously at the same time, I sed, "Now tell me Deenie, what is your opinyun of Schulze's Peanuts."

"Nuts," he sed.

Awed at the depths of this dinamik indivijul, I asked reverntly, "And what do you think of Capp's Lil Abner?"

"Now, there is a subject deer to my heart," he sed, shedding his shoes and wiggling his tiny pink toes.

"And Kelly's Pogo," I sed, "don't you think it's deliteful?"

"Pogo, Schmogo," he sed, "get to the point; get to the point."

"The point is that this is Nashunal Newspaper Comics week and—"

"Nashunal Newspaper Comics Week, goody gumdrops, a holiday," he shrieked, leaving the traks of his tiny pink feet in the plush karpet as he went out the dor.

Like I sed, it's a dogbone outrage.

Falcata Comosa Fruit Eaters Hark: (It's National Peanut Week!)

By JANICE GRAHAM

Baseball's on the spring winds . . . and peanuts, ball games, and baseball fans just naturally stick together! For the statement "I'll try one" has been the crucial beginning of a peanut-eating habit that can't be stopped. Give credit to the fellow who can eat one peanut and put the top back on the container.

Peanuts are one of America's six basic crops and are worth approximately \$175 million annually to Southern farmers according to the National Peanut council.

And the nation is just recovering from "National Peanut Week," which, to date, hasn't been recognized as a National holiday.

Even Time magazine recently printed a letter from a reader regarding an article concerning peanut butter sandwiches. The letter suggested sandwiches made of peanut butter and onions, because the peanut butter cuts the strength of the onion, and the onion cuts the dryness of the peanut butter.

Sam Hasayen, HE Jr, said, "I don't crave peanuts, but if I eat one, I can't stop." Sam is classified in the same category with dozens of other peanut-eaters . . . and some folks think the smoking habit's hard to break.

Historically this crop goes back a long way. American Indians cultivated the plant and used peanuts as food. They were reintroduced to North America in colonial days by slave traders who had noticed that slaves were in better physical conditions upon arrival when they were fed raw peanuts on the trip.

"I like 'em," said Marcia Hesler, BMT Jr, in a recent survey. "Especially at a baseball game. For basketball I have something to wet my throat. Peanuts aren't exactly 'quenching' during a game like the Indiana or Iowa State games."

Comments vary when you mention the "goober" subject to folks. "Peanuts are fattening," said Pat Johnson, HT Jr.

And they are! But the energy value of one pound of peanuts is said to be

equal to that of four pounds of beef steak, 21 pounds of cheese, 10 quarts of milk, or 33 eggs! If one of these essentials is lacking in your diet—have a peanut!

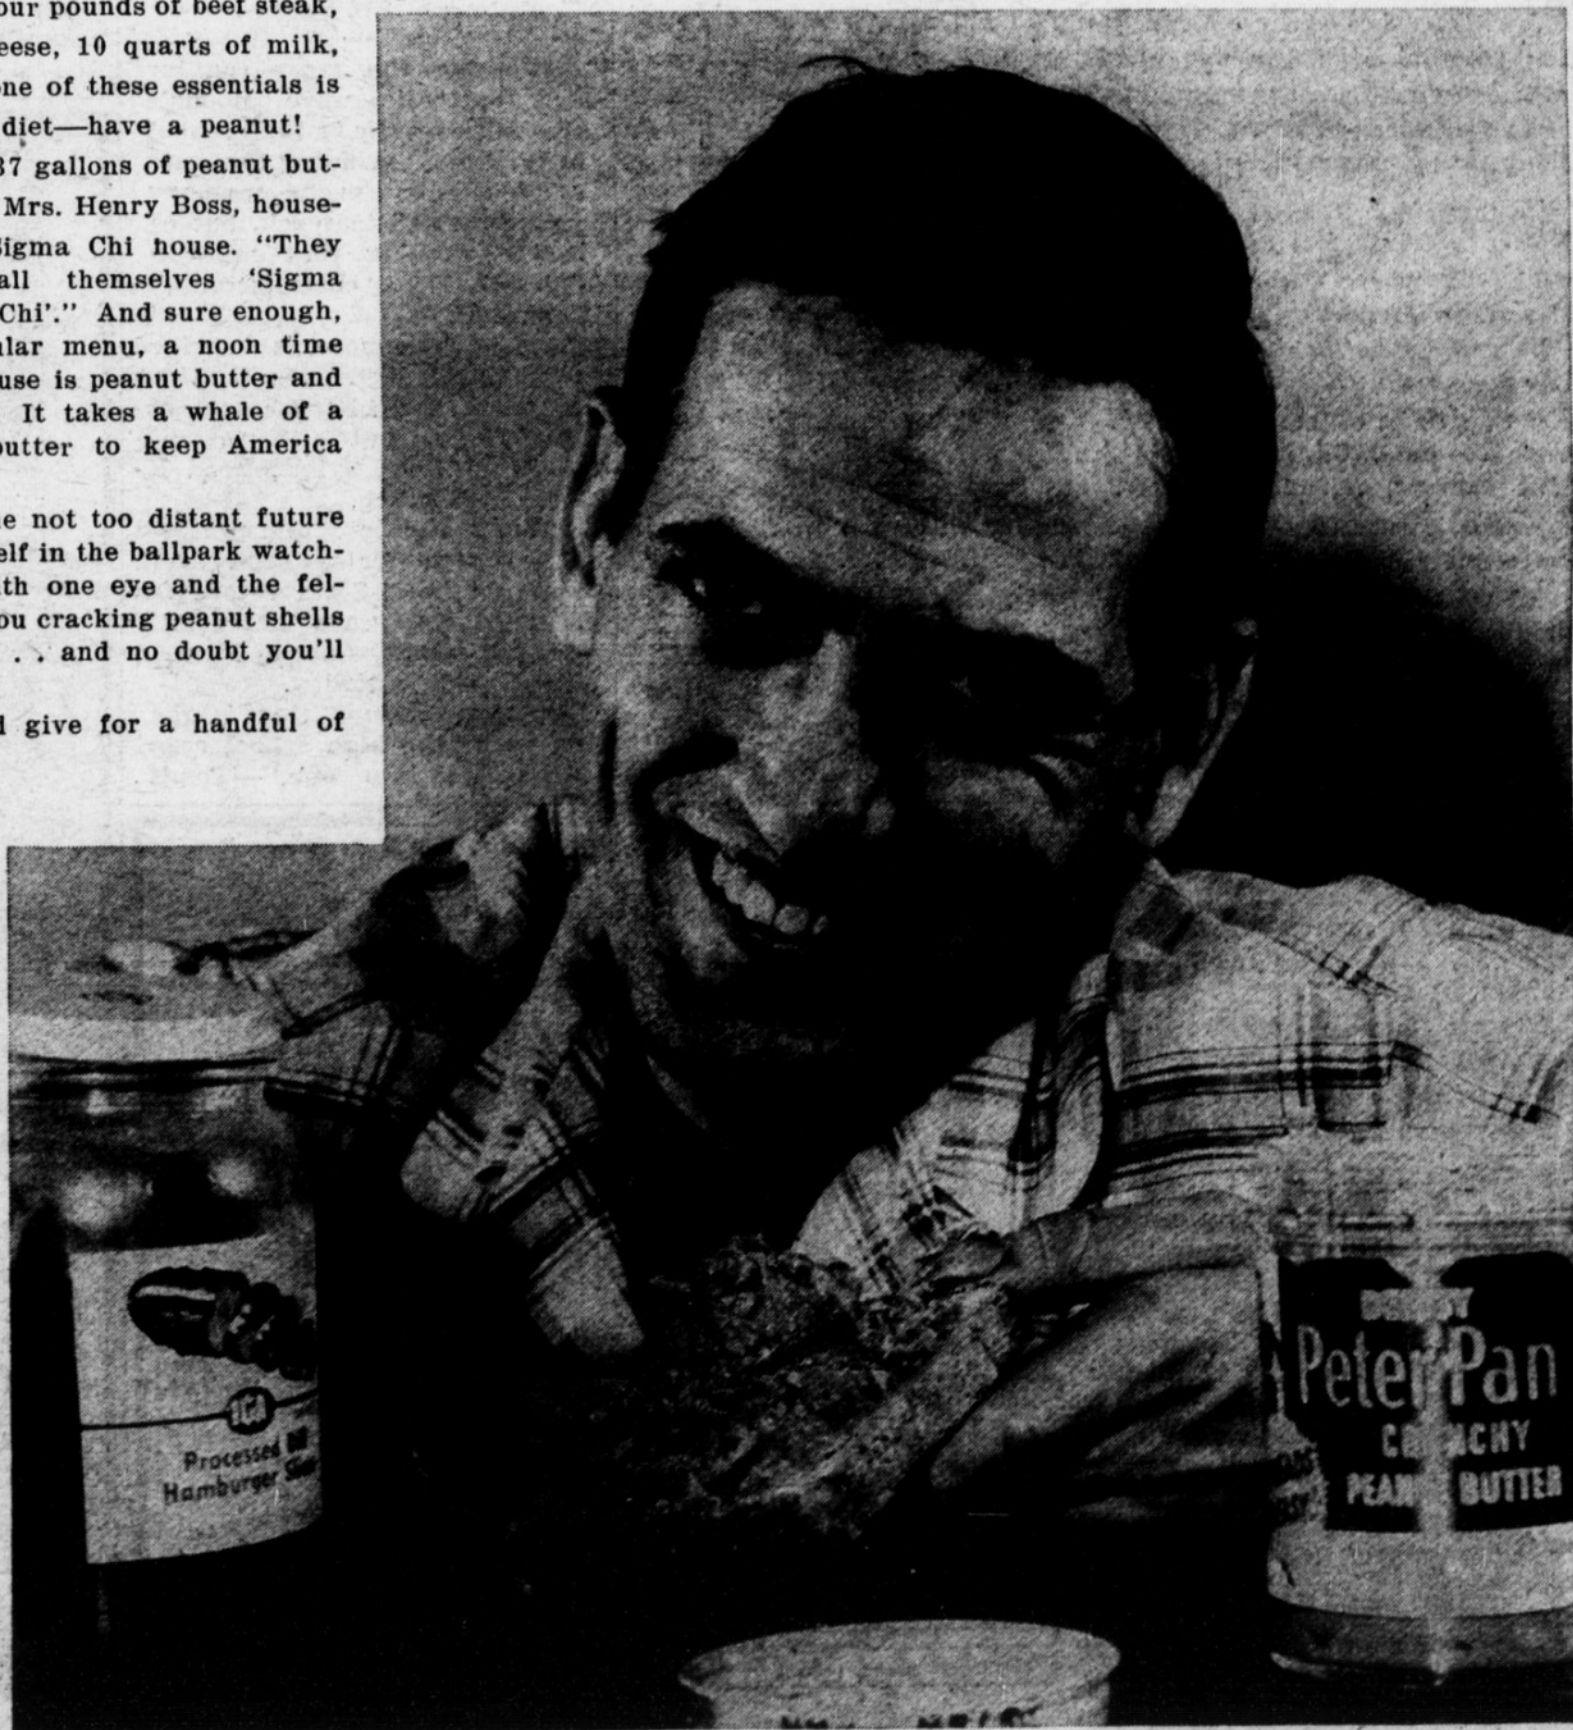

"My boys eat 37 gallons of peanut butter a year," said Mrs. Henry Boss, house-mother at the Sigma Chi house. "They appropriately call themselves 'Sigma (peanut butter) Chi'." And sure enough, besides the regular menu, a noon time treat at their house is peanut butter and jelly—everyday! It takes a whale of a lot of peanut butter to keep America strong.

Anyway, in the not too distant future you'll find yourself in the ballpark watching the team with one eye and the fellow in front of you cracking peanut shells with the other . . . and no doubt you'll be thinking . . .

"Oh, what I'd give for a handful of peanuts!"

Photo by Gary Haynes

"I DIDN'T EVEN THINK about peanuts until I read about 'em," Orval Jackson, TJ Sr, said, making his fourth peanut butter sandwich . . . with pickles "to kill the dryness."

Roger Myers

Jim Bell

At Our Discretion

Last Friday this column appeared and we charged a trio of campus organizations with saving seats at the K-State-Kansas basketball game.

We made a mistake—a mistake relatively insignificant, insofar as our main theme was concerned. That mistake dealt with the size of K-State's band.

Two letters appeared in the Collegian Monday from indignant band members (who proved at least that our column is, or has been, read). However, those two letters appeared to be chiefly concerned with our error in the size of the band.

For this, we apologize—but for nothing more. Mr. Brown and Mr. Ebel, you may have that point. But we still choose to believe what our eyes saw before the KU-Kansas State game—namely, instrument cases on seats—and we still believe that this is an unfair practice so far as non-band students are concerned.

Mr. Brown stated in his letter that "limited inquiry into the circumstances . . . gives every reason to believe the entire article was based upon inaccuracies."

We have never believed that limited inquiries brought forth facts. Rather, more detailed research will bring facts to light. However, we feel that we have reasonably accurate vision, and that was the foundation upon which last Friday's column was based.

Mr. Ebel said that the band proceeds as a group to the field house after 6:45 p.m. "This eliminates the possibility of band members saving seats for others. Yet the writers would accuse the band of being a principal offender," his letter stated.

Mr. Ebel is right—we do accuse the band as a principal offender.

And we know that some band members were not eliminated from the possibility of saving seats.

Well, pardon us, it's time to draw our curtain of journalistic typewriters and rattle our seeds again (they're from journalistic sour grapes).

Though K-State's basketball team didn't win the Big Seven cage crown, K-Staters can get all swelled up anyway. The Cats were ranked 12th in the final International News service balloting, and 20th by United Press.

The football team everyone always feels sorry for is Oklahoma. Those poor guys have lost eight straight to their alumni.

Course, while they lose in that spring game, they make up for it by winning everything in the fall.

The Sooners will be protecting a 40-straight streak in next season's opener against Pittsburgh. Coach Bud Wilkinson has lost seven starters—but by now, we believe in the guy.

Channel 13 in Topeka (WIBW-TV) will be carrying the Kansas-Southern Methodist basketball game tonight.

The NCAA, WIBW, and the Jaywatchers, Inc., are arranging the affair. The Jaywatchers are a group of KU fans who are boosting television of KU's away-from-home games.

They're asking contributions to help pay costs. Jayhawk partisans in this area can send money to box 518, Lawrence.

There's a possibility that the finals Saturday night may be telecast, too.

Notice where Oscar Fraley, United Press sports writer, picks Southern Methodist over KU, tonight. The Mustangs are 21-3 this year and fourth-ranked by Associated Press. Kansas has a 21-2 season's mark and is rated second.

Ought to be a great ball game. Two all-Americans will do battle in the contest. Jim Krebs, 6-8 SMU center, will try to outdo 7-0 Wilt Chamberlain of the Hawks.

Krebs is carrying the 19th best major college scoring mark in the country at 23.9. Chamberlain is fourth at 29.5.

As we said, ought to be a great ball game. Bet the TV room in the Union will be jammed.

Harp To Speak to Cagers

Dick Harp, coach of Kansas' Big Seven basketball champions, will be the featured speaker at K-State's annual basketball banquet at 6:30 p.m. Wednesday, March 27, in the Union grand ballroom.

K-State varsity and freshman players will be presented at the banquet. Letter winners and special award winners will be named.

Toastmaster for the banquet will be Prof. Howard T. Hill, former head of the department of speech at K-State.

Banquet tickets, at \$2.50 each, will be placed on sale Monday through the Manhattan Chamber of Commerce offices and the Athletic department ticket window in Ahearn gymnasium.

K-State Gridders To Work On Passing This Afternoon

By MIKE SCANLAND

K-State's football squad will work on pass offense and defense and fundamental drills today after taking yesterday off.

Backfield coach, Herb Cormack and freshman Coach Ed Cavan-

ough, who is working with the line this spring, were highly pleased with the efforts of their charges during a short scrimmage Wednesday.

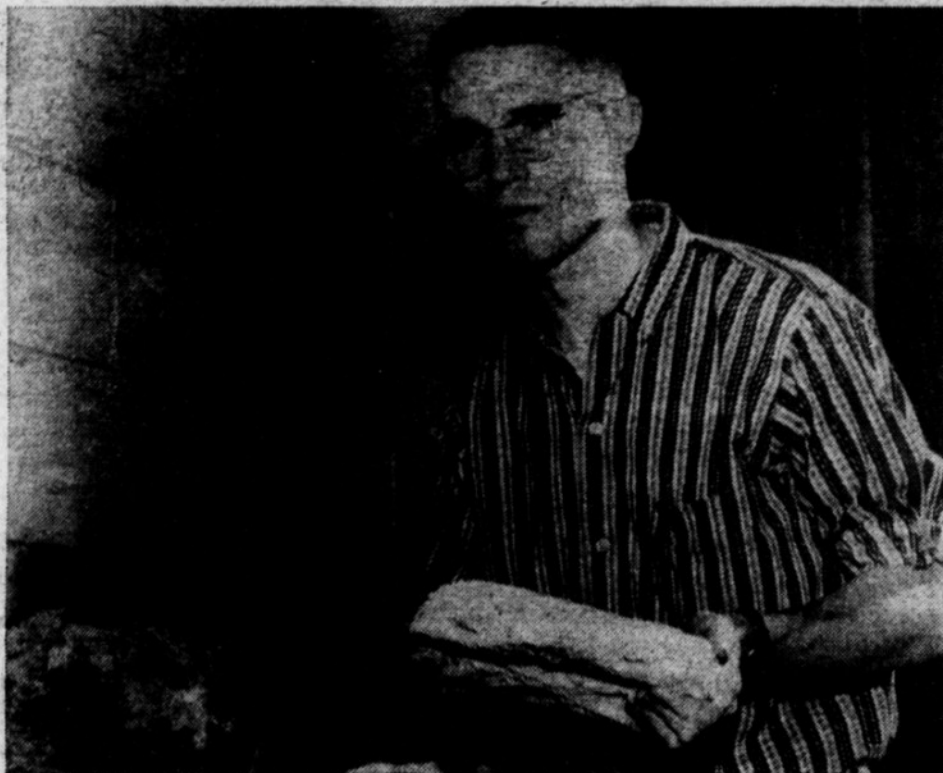

"Practice is going very well except there are a number of

men unable to do contact work," Cormack said. A total of 10 men are unable to take part in practice.

Seven of the 10 have minor injuries and the other three are being held from practice this spring to give them a complete rest in hopes they can be ready next fall. These three are Rudy Bletcher, 5-10, 190-pound junior guard; Don Martin, 5-11, 185-pound sophomore guard; and Jerry Sand 5-11, 185-pound sophomore lineman.

Cormack had high praise for Tony Tiro, 5-9, 190-pound sophomore, who has been moved to fullback from halfback. "Tiro has the size for a fullback, is a very powerful runner, has good speed and is a fine blocker," Cormack said.

Mike Kinsella, 5-11, 170-pound sophomore, was shifted from halfback to quarterback to utilize his speed and shiftiness. "The idea was to get a quarterback with outstanding speed," Cormack said. The fact that Kinsella is a good student is another reason for the move according to Cormack.

TOM RODDA, Cat miler, is "workin' on the rock pile." Actually, he's helping decorate for his fraternity's formal. Rodda holds the K-State record for the mile run at 4:19. That mark eclipses the old record of 4:20.6. Rodda, a sophomore, hails from Wichita.

Rodda Credits Grid Coach With His Start as Runner

By DENNY BASSETT

Tom Rodda, K-State's record holding miler, attributes being cut from a high school football squad as his biggest break in track.

"The greatest break I ever got was when my high school football coach cut me from his squad enabling me to earn my first letter in track during my junior year," Rodda said.

Running the cross country and half-mile were Rodda's specialties while in high school in Wichita. "Winning the state cross country event was my greatest thrill in track, but of course running that mile in Chicago is a close second," Tom said.

Tom, a sophomore, is described as a hard and conscientious worker with a 100 per cent desire to be an outstanding trackman by Ward Haylett, head K-State track coach.

"Tom is the best mile prospect I have seen for a good spell. Breaking the K-State record for the mile helps prove that point," assistant track Coach Herman Wilson said yesterday.

"College competition is the cream of the high school crop all rolled into one,"—Tom's

reason for believing that college competition is stiffer than high school competition.

Tending to business while working out, good training rules, and the will to excel are Tom's reasons for being able to be a college competitor in track.

"Any athlete who breaks training rules will never be a strong competitor, and will never excel in college sports," Rodda said.

Doyle After Wrestling Title

By JIM CAIN

K-State's lone 1957 Big Seven wrestling champion goes to the NCAA tourney in an effort to match mat honors with his father who won a national crown as a 1931 Cat grappler.

John (Pat) Doyle, who won the conference 157-pound title last weekend, is the son of Bill Doyle, the only wrestler in school history to win a national crown.

Pat will make his first bid to match his father's record when he wrestles in the NCAA meet at the University of Pittsburgh March 29 and 30. His father, who wrestled at 145-pounds, was a teammate of mat Coach Fritz Knorr.

As Knorr puts it, Pat could follow in his father's footsteps. "He's just a sophomore and by the time he is a senior he should be one of our all-time greats."

"That boy works awfully hard; he runs two or three miles every day all the year round and that's what it takes to be great."

"When he won the championship at Norman, we were just as happy about it as Oklahoma was about winning the team title," Knorr said enthusiastically.

"But now that he has won it, he is going to have to work even harder, because he is really on the spot. The Iowa State boy he defeated, Ellie Watkins, is also a sophomore." Doyle defeated Watkins 3-2 in an overtime match.

Describing his victory as "pretty pleasing," Pat commented, "I just hope that I can win the championship again next year."

At the moment, Pat's only

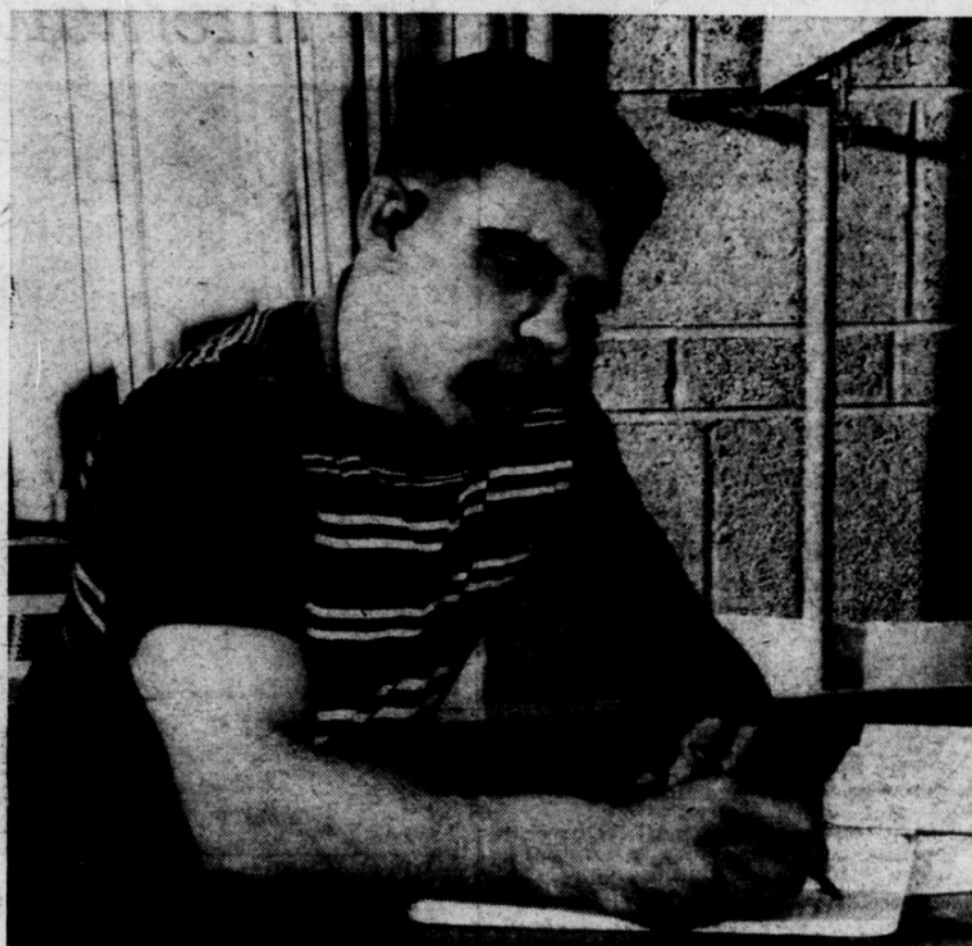

Photo by Darryl Heikes

PAT DOYLE, K-State's 157-pound wrestler, catches up on studies after last week's trip to Norman for the Big Seven wrestling tournament. Doyle won an overtime match from Iowa State's Ellie Watkins for the conference crown. He will enter the NCAA tourney at Pittsburgh later this month.

concern is the NCAA tourney. "I think I can improve some more before the tourney starts. The main thing I have to work on is takedowns and escapes," he said. "I don't know what my chances are up there but I'm going to try."

Pat, who hails from Douglass,

won the state 165-pound crown his junior and senior years in high school. His coach in high school was none other than the elder Doyle.

Should Pat win the NCAA crown, Coach Knorr will become the nation's foremost believer in the old saying, "Like father, like son," he said.

K-Staters To Face Full Spring Slate

By JAY WORKMAN

Wildcat athletes have begun spring practice sessions and are looking forward to full schedules in four sports plus an alumni-football game this spring.

K-State trackmen will compete in a 12-meet outdoor schedule including two duals, five major relays, and five other multi-team meets. They will open outdoor action at the Oklahoma A&M Relays March 30.

The Cat baseball team hopes to improve last season's 5-10 record on the strength of five returning lettermen—seniors Bill Blume, Bob Boyd, and Bill Sinderson and juniors Jim Rafferty and Wally Carlson.

The Wildcat's first foes will be Memphis Naval Air Station and Arkansas State on a road trip the weekend of March 30. A 22-game schedule is laid out for the baseballers, 18 games against Big Seven competition.

Instead of having games on Monday and Tuesday as has been the practice in the past, Big Seven diamond clubs will play single games on Friday and double-headers on Saturday. This will give players more time in the classrooms.

Athletic Director Bebe Lee has announced the Wildcat tennis slate for this year. Coach Karl Finney's netmen

will play in six conference dual matches as they take part in 14 meets ahead of the May 17-18 Big Seven meet at Nebraska. The first match is against Southwestern, here, March 30.

Returning golf lettermen, Jerry Smith and Ronnie Young, with help from upcoming Joe Downey, hope to improve on last year's third place standing in the Big Seven conference race.

Last years number one man, Dave Smith, is ineligible this semester because of low grades.

Scheduled as the initial opponent for coach Mickey Evans' team on the list of 15 dual matches this season is Wichita university at Wichita April 4th. The home season opens against Wichita April 12.

The Big Seven golf meet is at Lincoln May 18 and 19.

Sixty-one K-State gridgers turned out for spring football practice in preparation for next fall's 10-game campaign. Coach Bus Mertes is hoping to form a top-flight outfit but is lacking in reserves.

The squad will attempt to get in its allotted 20 workouts between now and April 6, when it meets the alumni in the annual spring game.

K-State Gymnasts Travel To Illinois for Invitational

The K-State gymnastics team journeys to Macomb, Ill., today for the Illinois Invitational gymnastics championships at Western Illinois State.

According to gymnastics Coach Frank Thompson, Western Illinois is the favorite in the meet. Leading its team is Glenn Wilson who has not been beaten this year on the trampoline.

The Wildcats are going into this meet with a 6-7 record. Leading Cat scorers are Bob Gramzow with 54 points and Richard Rood with 53½ points. Gramzow has lost only once this season in free exercise.

Thompson said that the Wildcats would be stronger in this meet because of the return of Merle Schneck, a five-event man. K-State entrants:

Free exercise—Allen Olsen, Richard Rood, Bob Gramzow. High bar—Gramzow, Rood, Merle Schneck. Trampoline—Gramzow, Rood. Flying rings—Schneck, Rood, Wendell Minckley.

Long horse—Olsen, Rood, Gramzow. Still rings—Schneck, Rood, Minckley. Parallel bars—Rood, Schneck, Olsen. Tumbling—Rood, Gramzow. Side horse—Rood, Schneck, Minckley, Olsen. All-around event—Rood.

Intramural Volleyballers To Play Full Schedule

Intramural volleyball teams will play a full complement of contests tonight.

Starting at 7, Wesley Foundation will play Sigma Phi Nothing, DSE will play YMCA, Pi Kappa Alpha will play Kappa Sigma, and Farm House will play Sigma Nu.

Starting at 8, Delta Upsilon plays Alpha Tau Omega, Delta Tau Delta plays Beta Sigma Psi, Theta Xi plays Alpha Kappa Lambda, and Alpha Epsilon Pi takes on Acacia.

Westminster House Proposed for 1958

Westminster fellowship hopes to have a new Westminster house to move into by the end of 1958. The new location will be on Denison avenue next to the Sigma Alpha Epsilon fraternity. The new Westminster will be nearer the college campus and will take care of the over-crowded conditions that Westminster now has.

The original Westminster house, erected in 1932, was built with the major concern of providing for ministry and a program for Presbyterian students at KSC. Funds for the first house were raised by the Rev. William Geurrant, director of Westminster for 30 years. The Rev. Geurrant retired in 1951. Mr. Emerson Abendreth is now director and lives at Westminster house with his family.

President of Westminster is Jack Kersting, AEd Jr. Jim Elliott, ME Sr, and Allen Cervenka, EE Jr, have both been national officers in College Age Westminster fellowship.

Westminster fellowship has many activities during the school year of which one of the most important was the production of "Tomorrow for the Taking." The drama was put on for the Kansas Synod and had a cast of about 50 people. The drama presented the work of the Presbyterian church on college campus in this country.

Merle Jones, Beatrice, Neb., past president of the national council of Presbyterian men, will speak at a dinner for Westminster men April 7. Jones' talk will be on the

work of the laymen in the church.

Moderator weekend begins March 17. Dr. Larry Schwartz, a moderator in the Kansas Senate, will speak at fellowship on Sunday and at a Westminster men's meeting on Monday evening.

After commencement this Spring, 15 students will retreat to Camp Alta Vista at Colorado Springs. At Alta Vista, the students do repair work on camp buildings. They also will have time to discuss and read about religious interests and go sight-seeing.

Westminster takes pride in its married students program. There are 35-40 couples that attend the monthly fellowship and also the church school class on Sundays.

The work of Westminster is directed by a local committee which consists of seven members. Chairman of the committee is Dr. Paul Sanford, associate professor of poultry husbandry.

KSCF Sponsors Vacation For International Students

Photo by Doug Tedrow

KANSAS STATE CHRISTIAN fellowship members S. L. Issar, Pth Gr; Louise Ottaway, EEd Soph; and James Hughbanks, AEd Sr, look over a map showing Bear Trap ranch, Colorado, where several of the group plan to visit during Easter vacation.

The Kansas State Christian fellowship, among its various projects, encourages international students to spend their vacations at one of four camps sponsored by this interdenominational organization.

Sixteen students spent Thanksgiving and Christmas vacations at "Bear Trap Ranch" in the Rocky mountains this year. Plans are now being made for students who wish to spend Easter vacation there.

The other camps are "Campus in the Woods" in northern Canada, "Cedar Campus" in northern Michigan, and "Campus by the Sea" in southern California. All offer summer training schools of varying length. Students enjoy sight-seeing, horseback riding, and hiking as well as participating in discussions of the Bible. The Kansas State Christian fellowship, which is a chapter of Inter-Varsity Christian fellowship, has 35 members. It was organized on campus in 1946 after the first group was started in the United States in 1945. The first Christian fellowship was located at Cambridge university, England, in 1877.

All of the chapters of Christian fellowship are supported entirely by donations. There are no membership fees or dues.

K-State's members meet every Tuesday night from 7 to 8 p.m. in recreation center of Anderson hall. Businessmen, missionaries, and ministers are guest speakers.

Students also lead the discussions which are focused on the study of the Bible from an objective, non-denominational point of view. The meetings are open to anyone who is interested.

On Friday nights, members get together in Anderson 212 for informal fellowship meetings from 7 to 8 p.m.

K-State's chapter helps to support David Abeny, a missionary in Hong Kong, China. The group's goal is to furnish him a \$1.25 a day. Other projects included collecting toys and clothes to send to a children's home in Colorado, and sending international students to the camp in Colorado during vacations.

CE's Push 'Engine-Unity' In Equal-Emphasis Exhibits

By SANDY WILSON

The civil engineers, who won first and second places for the best individual displays at last year's Open House, have emphasized "engine-unity" in planning their 1957 "landmarks of engineering."

Cloyd Scott, departmental chairman, said the CE's have not concentrated on any one display this year but have devoted almost-equal effort to eight.

A surveying project, under the direction of seniors William Schlitter and Wilbur Pattison, traces the evolution of some of the basic instruments used by civil engineers. Included in the display will be discussion of a simple surveying instrument called a groma, which was used by the Romans to obtain 90-degree angles.

In conjunction with a bridge display Open House visitors will be given an opportunity to guess how much load the model of a pre-stressed concrete bridge will take. At the close of Open House the bridge will be loaded until it breaks. A prize will be given to the closest guesser. Seniors John Cannon and Richard Stalcup are in charge of this project.

John Boring, CE Sr. and Melvin Burdorf, CE Jr. are in charge of display of the history of modern road materials. Boring's display traces the many uses asphalt has been put to, from prehistoric times (through its utilization for masonry construction, waterproof layers for temple baths and water tanks, mummification, and others) to the present-day use of artificial asphalt for paving.

In the story of the development of cement, Burdorf will place special emphasis on what he calls the greatest "landmark" in modern-day cement production — the changeover from vertical kilns to the rotary continuous process.

A sanitation display will compare a section of a town 50 years ago without ample sanitation facilities to that same section with the improvements brought by today's filter plant and sewage treatment plant. The contour of

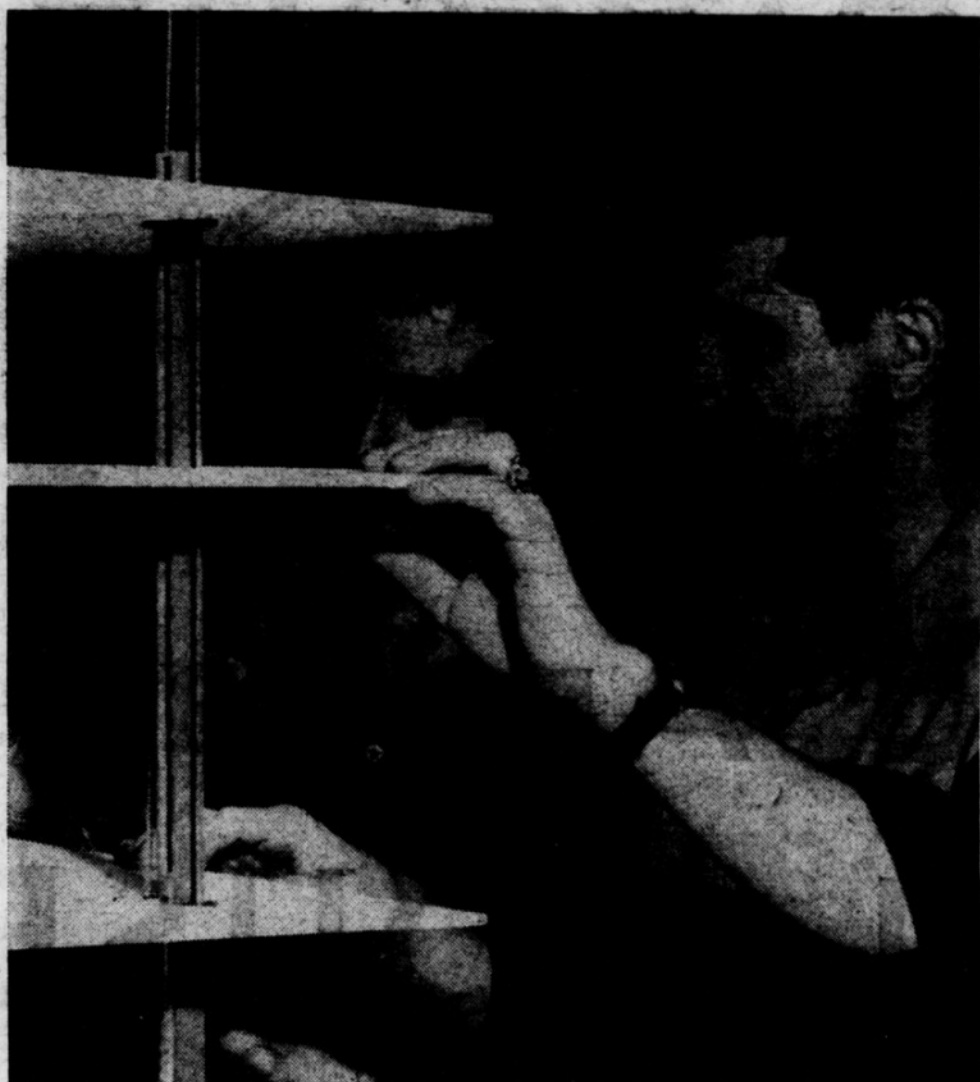

Photo by Doug Tedrow

CIVIL ENGINEERS Wendall Cole and Delbert Roupp touch up a model for Open House. The model, a small part of which can be seen here, represents the method of pre-formed cement and concrete work, combined with modern engineering in mechanical power.

the land in the 4- by 12-foot scale model has been molded from plaster of paris. All parts of the model town are handmade. Joe Daniels and Leon Heidebrecht, seniors, had charge of this exhibit.

Senior David Melroy and junior Joe Haeglin have plotted the course of a proposed route for the new interstate highway in their exhibit.

Two of the very latest construction methods, slip-form construction and lift-slab construction, will be demonstrated with models planned by seniors Arthur Rodas and Kurtz Paul-

son, and Delbert Roupp and Wendell Cole, respectively.

The demonstration of the use of a slip form in the construction of such buildings as grain elevators shows why this method can cut down on construction costs. By eliminating the need for many different forms a major item of expense is reduced, it explains. The slip form is moved as the concrete is poured.

The lift-slab construction display shows how a concrete slab is poured at ground level and then lifted into position.

The civil engineers have set up exhibits in E 220 and E 222.

Open House Judges From School, Town

Steel Ring, honorary engineering fraternity, has picked a 12-man committee to judge the exhibits at the Engineers' Open House this weekend, according to George Bemis, CE Sr, fraternity president.

The committee is made up of one representative from each engineering department and five from Manhattan and the surrounding area. The persons' names will not be disclosed until after the exhibits have been judged.

A trophy will be awarded tomorrow evening at St. Pat's Prom to the engineering department which the judges feel had the best exhibits. The trophy is kept by the winning department for one year. However, if one department wins it three times in succession, it keeps it permanently. The mechanical engineering department has won it the past two years and would keep it with a first place this year.

Recognition will also be given Saturday night to the second and third place winners in departmental display and to the first, second, and third place winners in individual display.

All exhibits will be judged according to originality, arrangement and attraction, continuity of theme, time and effort, and public interest value, Bemis said.

Five Engineering Frats Active in Open House

By JANE FRANZ

Each of five engineering honorary fraternities is playing its part to make "Landmarks in Engineering" a success.

Sigma Tau, engineering scholastic honorary, is in charge of opening ceremonies, this evening, which include a relay race to K-Hill beginning at 7:30 p.m.

The letter "K" was erected on the hill in 1921 by the engineering school, the letter "S" was added in 1930. The letters are maintained by Sigma Tau, and are white-washed by its initiates each semester.

Eight freshmen trackmen will be attempting to break the record of 12 minutes, 10 seconds, set in 1955.

Sigma Tau also does all of the planning and makes the arrangements for the St. Pat's prom tomorrow evening.

Steel Ring, honorary engineering fraternity selects the judging committee, which consists of seven faculty members and five Manhattan townsmen. A traveling trophy is awarded to the best departmental display at the St. Pat's prom.

A beer bottle organ, constructed of 24 beer bottles filled

with differing amounts of water, will be displayed by Pi Tau Sigma, mechanical engineering honorary. There is an air hose leading to each bottle, which will release air when pressed by the key connected to it.

The big "Open House" sign made of blinking lights will be erected above the main door of Seaton hall and maintained by Eta Kappa Nu, electrical engineering honorary.

Tau Sigma Delta, architecture honorary, will sell refreshments during Open House.

8:00 and 11:00 a.m. Worship Services
9:30 a.m. College Bible Class
5:00 p.m. College Student Program
St. Luke's Lutheran Church
330 North Sunset Ave.

Engineers' Opportunities More Plentiful—Durland

"The demand for engineers is on the increase, and I see no possibility of this demand changing," Dean of Engineering, M. A. Durland stated recently.

Statistics back up Dean Durland's statement from both the standpoint of rising salaries and the number of companies seeking engineer recruits. Average monthly starting salary paid engineers this year is \$20 more

than last year while 85 more companies have conducted or will be conducting recruitment interviews on K-State's campus this year than last.

"More engineering companies are coming on campus to recruit engineers than there are engineering graduates," according to Chester Peters, director of the College placement bureau.

ME's Desire Status Of '3-Time Winner'

Five displays outlining "Landmarks of Engineering" from the days of the caveman to the future constitute the mechanical engineers bid for a third consecutive win in the Engineers' Open House departmental display competition.

The department will have a program composed of the five landmark displays, plus several other displays of actual machinery. One display will be a beer bottle organ.

The first display on the caveman denotes the controlled use of fire and the origination of the wheel. The second exhibit show the de-

velopment of mathematics and weapons of war during the Roman-Grecian period. In the third display a period of time from 400 AD to the present is covered, showing the development of the printing press and internal combustion.

The fourth exhibit covers the twentieth century and the growth of transportation and industry. In the final display things to come are shown.

Applied Mech Department Shows Hydrodynamic Filter

By JAY WORKMAN

The hydrodynamic filter that stops waves made by a boat will highlight the Applied Mechanics Department's display for Engineers' Open House.

Two model boats will be in a tank of water. One will be rocking while the other is still because of the effect of the filter.

Applied mechanics includes the study of stationary and moving objects and liquids,

and how they react to forces applied to them. The ancient science deals with familiar objects, but often the behavior of common things is surprising. How it is possible for a cat, or

a high diver to turn over in mid-air will be explained by one of the displays.

Other applied mechanics exhibits shown include dynamic stability of a cart.

Quartet of Alums From 'E-School' Receive Awards

Four outstanding K-State engineering graduates were presented distinguished-service awards in connection with Engineering Open House at the Open House assembly Tuesday.

Honored were Ralph L. Helmerich, BS '28, now vice president and general manager of Bell Telephone laboratories in Bronxville, N.Y.; Herbert M. Lew, BS '24, vice president of J. F. Pritchard and company in Kansas City, Mo.; Charles W. Shaver, BS '15 and degree of "architect" in '26, in private architectural practice at Salina; and Murray A. Wilson, BS '24 and professional degree in CE in '26, now with Wilson and company of Salina.

Shank Named Cadet Colonel Of AFROTC

Harry L. Shank, Sp Sr, has been appointed cadet colonel of the 270th AFROTC cadet wing, at Kansas State, for the spring semester, according to the Air Science department.

His staff is as follows: Leo W. Stolzer, BAA Sr, wing inspector; Donald F. Swartz, ME Sr, deputy wing commander; J. Brent Adair, MTe Sr, deputy for operations; William C. Bowman, MTe Sr, deputy for personnel; John C. Poelma, AH Sr, deputy material; Estel J. Schultis, AH Sr, 272nd Group commander; Jerome J. Ewald, EE Sr, 271st Group commander; Robert E. Quantz, AH Sr, 273rd Group commander; Larry A. Rash, ME Sr; wing adjutant; and Robert A. Boyd, TJ Sr, wing information services officer.

History of Open House Tells of Start in 1929

In line with this year's Open House theme, "Landmarks of Engineering," it might seem appropriate to take a look at some landmarks in the history of the event itself.

The success of this year's event is directly dependent of past success, just as the progress of the engineering profession is dependent upon certain previous "landmarks."

Before 1920, about the time of year when the annual epidemic of spring fever hit the "Engine school," a field day and picnic

were planned by the school.

Rivalry among the several departments was just as keen as it is today; however then the spirit of competition took the form of a tug-of-war with side bets being placed on the favorites.

In 1920 the engineers exhibited machinery in conjunction with Farm and Home week. The predecessor of St. Pat's prom, called the "Slide Rule Slide," usually followed in the evening.

In 1929 the engineers divorced their show from Farm and Home week activities and chose the

weekend nearest St. Patrick's day to put on their exhibit. Since that time they have elected a St. Pat and St. Patricia to reign at the ball following the exposition.

Somewhere in the line, effort was put forth to guarantee that St. Pat, who had become the "Engineers' Patron Saint," was an engineer. An explanation why he was the "patron saint" is that St. Pat, the engineers here, "engineered all the snakes out of Ireland." Another explanation was that St. Pat made the first "worm drive."

Presently the two days of festivities are begun with a ribbon-cutting ceremony and a torch-lighting race to K-Hill.

The Steel Ring trophy, dating from 1937, is the goal toward which each department works. It is awarded for the outstanding over-all exhibit.

AgE Exhibit Includes Solar Energy Model

By JERRY EMERSON

Ag Engineering students have been working since the second week in January to construct exhibits for the Engineers' Open House, according to Danny Burgess, AgE Sr, chairman of Ag Engineering committee.

Following the main theme of the Open House, "Landmarks in Engineering," the Ag Engineers have a series of displays aimed at interesting both technical and non-technical observers. Concentration will be the four fields of farm machinery, farm structures, water and soil conservation, and rural electrification.

Highlighting the farm structure exhibits is a model house which will use, and even store for future use, solar energy for elec-

tricity. The Ag Engineering department is now actually doing research on the use of solar energy, and much of this research data was used in the building of the exhibit. The model was built entirely by students.

Open House visitors will have an opportunity to participate in one of the farm mechanics exhibits. The agriculture engineer students are building a power steering assembly.

Engineers 1,753 Strong This Year, Jump of 365

A total of 1,753 students, 365 more than last year, are presently enrolled in the School of Engineering.

The Electrical Engineering department had the largest increase over last year's enrollment, with a jump of 110, while the Industrial Education department enrollment revealed a loss of six students.

KS Engineers Plan Breakfast In SU Sunday

An informal breakfast for all engineers will be sponsored by the K-State Engineer magazine Sunday from 8:30 to 9:30 a.m. in the Union cafeteria. Engineers working on the various clean-up crews will gather to discuss the success of Open House.

You'll be pleased with a Collegian want ad.

The Electrical Engineering department has 481 students; Mechanical Engineering, 427, or 92 more than last year; Architecture, 213 or 37 more; Agriculture Engineering, 95 or 34 more; Civil Engineering, 207 or an increase of 22; Nuclear Engineering, 58; or 21 more; Chemical Engineering, 111 or a jump of 17.

Industrial Technology has 36, 15 more than last year; Industrial Engineering, 48 or 14 more; Architecture Engineering, 59 which is nine more than last year; and Industrial Education with 18, a loss of six.

The only other decline is with the fifth year architecture students. This year there are 15 enrolled as compared with 22 last year.

IE's Base Exhibit On Nine Subjects

By SHARON TOTTEN

The main phases of industrial engineering will be presented in nine Engineers' Open House exhibits this weekend, according to Warren Dietrich, IE Jr, who is in charge of the Industrial Engineering department displays.

Themes of the nine phases are driver's education, time and motion, machine shop, auto mechanics, forging, welding, foundry, metallography, and woodwork. The display will follow this year's Open House theme, "Landmarks of Engineering," by demonstrating differences between old and new methods and equipment.

The driver's education display will consist of equipment on which viewers can test the speed of their reactions.

A pin board for checking a person's timing will be featured in the time and motion display. Open House guests who check their timing will be given pointers on how to develop better timing.

Various machines in action will make up the machine shop ex-

hibit. New models and types of machinery will be compared with those of the past.

A 1957 Ford will be a part of the auto mechanics display. The safety features of the auto will be demonstrated and various types of testing equipment for cars will be shown.

Plastic souvenir tags, made on the spot, will be given to persons visiting the forging exhibit. A dye-casting machine will also be featured.

The welding exhibit will demonstrate the old bare-rod method of arc welding to contrast with the new submerged-welding method. The foundry exhibit will feature a sand-testing machine.

Open House visitors will be able to have their watches x-rayed at the metallography display. This display will also show differences between old and new microscopes.

Architects Twist Name To Fit Their Own Display

By JACKIE DuMARS

"Landmarks of Architecture" is the theme of the Architecture department's Open House display showing today and tomorrow in Seaton hall, room 243.

Replicas of pyramids, the Parthenon, Roman baths, a Gothic church, Versailles, the Crystal palace, a skyscraper, as well as a kaleidoscope of present day architecture are the eight model landmarks that are being shown along with posters, cartoons, and other exhibits.

A suspension method displaying the models and the use of lighting for dramatic effects will be used.

Planning committee members were Bill Wilson, Ar 05, chairman; Linnea Brown, Ar 03, secretary; Tom Johnson, Ar 05, treasurer; Art Mar-

tinez, Ar 04; and Leland Roberts, Ar 05, co-ordinating chairmen. Alden Krider, as-

sociate professor of architecture and allied arts, was the faculty advisor.

Goods-Evolution Highlights To Star in ChE Exhibition

By MIKE SCANLAND

The principal display of the Chemical Engineering department exhibit for Engineers' Open House will illustrate the important phases in the development of a typical product manufactured by chemical engineers, said Darold Barb, ChE Sr, chairman in charge of the department's exhibits.

The first part of the display will give the history and early development of paper.

It shows ancient Egyptian and Chinese paper making and how crude paper, which was little more than wool mashed up and put back together, was made.

The display then shows modern processing of weed to make paper and cellulose. This will contrast the modern methods with the older methods.

A further step will show the use of cellulose to make rayon and cellophane. Small sheets of cellophane will be continually produced all during Open House.

Another section shows the development of new synthetic fibers such as nylon, dacron and orlon. These synthetic fibers, made from coal, air and water, will be compared with such natural fibers as wool and cotton.

Also shown will be the development of synthetic rubber. This portion will show how the strength characteristics of a rubber tire can be improved by addition of carbon black, a derivative of natural gas. The role of nylon in helping to improve tires also will be shown.

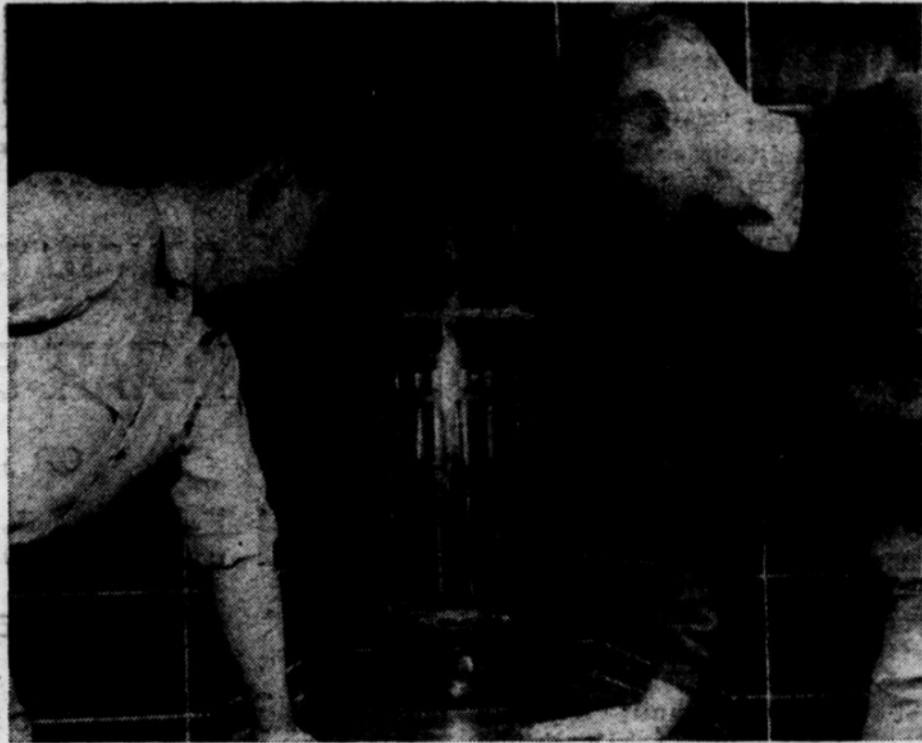

The second display in the exhibit shows a model oil well and follows the processing of oil from the well to the finished products of gasoline, lubricating oils and petre chemicals.

Kerchner Elevated In EE Organization

Russell M. Kerchner, head of the Electrical Engineering department has been elevated to the grade of Fellow in the American Institute of Electrical Engineers.

This is the Institute's highest grade and is awarded to members who have performed outstanding work in the electrical engineering profession.

Kerchner was cited for "distinction as a teacher of electrical engineering and as author of textbooks in this field."

WATCHING a nuclear reaction are, from left, Mark Hooper and Harvey Goering.

Dad Becomes Son's Brother As SAE Fraternity Initiates

Robert H. Kissick became a member of the K-State chapter of Sigma Alpha Epsilon fraternity Saturday afternoon—two years after the initiation of his son, Bob, IE Soph, and 20 years after he attended K-State. It is the third time in the history of SAE, which has initiated almost 100,000 members, that the son was initiated before the father.

President of the Kissick Transfer Co., Kissick lives in Kansas City, Kan. He was enrolled in architecture when he came to K-State in 1930. After making his grades the first semester and completing all the requirements of the fraternity and college, Kissick was forced to quit college before being initiated because of financial problems brought on by the depression.

Kissick, whose son is recorder for the K-State chapter, was brought to the attention of the Sig Alph's by Al Schoth, national visitation officer of the fraternity. Schoth, former sociology instructor at K-State and chapter supervisor, recognized Mr. Kissick this fall when they were at a Sig Alpha party.

A short time after this, Mr. Kissick was pledged by the Sig Alphs'. Given a pledge pin and a copy of the Phoenix, the SAE pledge manual, he was told to start studying for a pledge test over fraternity history.

When told that he had been accepted by the chapter for pledging, Kissick expressed only one reservation. "I'm afraid I'm a little old now to go through another hell week."

After initiation the happily beaming father shook hands with his 14 other pledge brothers and laughed, "It took me 40 semesters, but I finally made it."

"I don't feel any different around the fraternity now that I'm initiated," Mr. Kissick said. "I guess you might say that a father just became a brother."

The new initiate lives at 2001 Washington avenue in Kansas City, Kan. He belongs to the Rotary club, Midwest Investors, American Truckers association, Kansas City Chamber of Commerce and the St. Paul's Episcopal church.

Egypt Moves to Gaza; Draws Israeli Protest

Compiled from United Press
By KEITH KEMPER

Jerusalem, Israel—Israel withheld action today on Egypt's return to the Gaza strip pending clarification from UN Secretary General Dag Hammarskjöld on the future role of the UN emergency force.

Foreign Minister Golda Meir warned Egypt last night that Israel warships would shoot their way through the Gulf of Aqaba if Egypt tries to reimpose its blockade, but said only the situation in Gaza was not clear.

Congress To Cut Budget

Washington—The administration grabbed the initiative at least temporarily today in the rolling drive to cut President Eisenhower's record peacetime budget.

Housing Administrator Albert M. Cole proposed that congress chop \$200 million from specific housing programs. Then, he prepared to

go before a House banking subcommittee to give more details.

The President said earlier this week the administration is "going through an intensive study" looking for ways to cut his \$71.8 billion budget.

Ike Heads for Bermuda

Aboard Eisenhower escort ship—President Eisenhower headed into warm southern waters today on a leisurely cruise that he hopes will clear up the last of his bothersome cold.

The President was bunked sumptuously aboard the guided missile cruiser Canberra as it slowly traveled down the Atlantic coast between the destroyers Wood and Barton in anti-submarine formation.

Mr. Eisenhower's destination is Bermuda for a unity conference with British Prime Minister Harold MacMillan. The Canberra is scheduled to arrive March 20.

Student Council To View New Changes in SGA Law

Changes in the Student Governing Association constitution will be among the items to be considered tonight at Student Council meeting in room 205 of the Student Union at 7:30.

Two recommendations have been proposed by the Constitutional Revision committee of the Council. They are:

1. That article VII entitled "Revision of the By-Laws" be added to the By-Laws section of the constitution. The article would read, "Any member of the Student Council may propose an amendment to the by-laws which must be approved by a three-fourths vote of the Council."

2. That Student Council approve the jurisdiction of the judicial board of the Associated Women Students. This would give the AWS judicial board jurisdiction over all cases concerning women which arise because of infractions of standards or regulations pertaining particularly to women students.

The Basic ROTC Evaluation committee will ask for permission to complete a survey of students. The committee believes that such a survey would determine specific faults with the basic program and the amount of dissatisfaction with the program on campus.

A recently completed survey of about 15 faculty members showed that eight were definitely against non-compulsory ROTC; three favored it; two questioned its value; and two refused to comment.

The Flag Pole committee will make a progress report on erecting a flag pole on the Student Union grounds. The senior class is donating funds for the pole, but a way to pay for flags is now being sought.

A letter has been prepared

by the Campus Business Relations committee to accompany a questionnaire that will be sent to students. The committee is trying to find out how much money students spend in

Manhattan. The Council will be asked to review the letter.

The Artist Series committee will report progress on plans for the Norman Scott production scheduled for March 26.

McCain Leaves April 17 As Eisenhower 'Fellow'

Pres. James A. McCain, recent Eisenhower Exchange Fellowship award winner, will leave with his family from New York on April 17 for a six month tour of European educational facilities.

The Fellowship tour will take President McCain to 16 countries including: Germany, Switzerland, Italy, Spain, France, Austria, Belgium, Holland, Greece, Norway, Sweden, Denmark, Yugoslavia, Finland, Scotland and Great Britain.

As an Eisenhower Fellow, Dr. McCain will have three primary interests in the countries he visits.

First, by visits to universities and conferences with educators, he will be able to observe how well European institutions are meeting the manpower needs of their respective nations.

Secondly, through association and consultation with governmental, educational, and industrial leaders together with the rank and file citizen, Dr. McCain can enlarge and broaden his own understanding of the culture, economy, institutions and aspirations of the people and determine and evaluate the existing attitudes toward the United States.

The President's third major purpose will be to explore possibilities for improving international understanding and good will through cultural ex-

change programs involving colleges and universities.

Dr. and Mrs. McCain have acquired an European automobile and plan to find a small house, probably in Switzerland, which they can make their central base of operations. Their daughter Sheila will continue her education in Switzerland until they return to the United States and K-State the latter part of October.

High Grades Plaque Given To OK House

OK House, independent men's organized house, was the first to receive a plaque for the highest grade point average, according to James Keating, FT Sr, president of the Independent Organized House council.

The OK House had a 1.997 grade average last spring.

The presentation was made to Frank Jessop, BA Jr, president of the OK House.

Keating explained the delay in the presentation was because the award was given for the first time this year.

10,000 Attend

ME's Win Open House

Permanent possession of the Steel Ring trophy was awarded to the mechanical engineers Saturday night for the best over-all exhibit at the 33rd annual Engineers' Open House.

Tom Rumsey, ME Sr, departmental chairman, accepted the trophy which was presented by Dean M. A. Dur-

land during intermission at St. Pat's Prom. "We were able to take the trophy for the third straight year thanks to the great co-operation of the mechanical engineering students, faculty, and especially R. E. Crank, our faculty advisor," Rumsey said.

The civil engineers placed

second in the over-all display competition with the electrical engineers taking third.

Recognition for the best individual display went to the mechanical engineers for their space ship display. They also earned second place honors with a caveman scene depicting controlled use of fire and the origination of the wheel.

Placing third were the civil engineers with their sanitation display showing the improvements wrought on a community by modern sewage treatment and water purification plants.

Over 10,000 persons attended Open House this year, according to Nor Sutton, ME Sr, publicity chairman.

A large electrically lighted shamrock adorned the east wall of the Student Union grand ballroom where the dance was held. In the center of the dance floor the decorations committee, headed by Sam Warren, EE Jr, placed a green and white replica of the Sigma Tau pyramid. Music was provided by the Pastels. Master of ceremonies was Pat Conlan, ChE Jr.

Failing in their attempt to break the 1955 record to 12 minutes 10 seconds, the marathon racers to K-Hill fell short by 24 seconds. The race was run in 12 minutes 34.9 seconds, according to Sutton.

Official Opening

ENGINEERS' ROYALTY—Jim Moore and Mel Eaton climb the steps of Seaton hall before cutting the ribbons which officially opened the 1957 Engineers' Open House Friday.

K-State Plays Host To Internationals

K-State has sent over 500 invitations to students in 40 colleges and universities to attend the fourth annual international weekend on the campus Friday and Saturday. Theme is to be "Keys to International Understanding."

Nineteen K-State campus organizations are making the arrangements. The participating groups are Chi Omega, Alpha Xi Delta, Tau Kappa Epsilon, YWCA, Kappa Kappa Gamma, Lutheran Student association, Northwest hall, Wesley foundation, Lambda Chi Alpha, Alpha Delta Pi, Delta Delta Delta, Acropolis, Blue Key, Hillel, Theta Xi, Student Council, Pi Beta Phi, Mortar Board, and Cosmopolitan club.

International exhibits are being planned by chairman Suzanne Cliborn, HEA Jr, and her committee members, Friedrich Kunath, FT Jr; Permanent chairman and secretary of the weekend are John Rhodes, ChE Soph; and Marilyn Smith, Soc Sr.

Registration will begin in the Union Friday at 3 p.m. The first event will be an evening banquet with President James A. McCain as the guest speaker. Chiara Bini, special student; Georg Plange, FT Soph; and Sam Hasayen, ME Jr.

Reservations must be made for the Friday night banquet, housing, and Y-Orpheum tickets which will be offered at half-price to those attending the conference.

Tickets for the weekend will be on sale March 18, 19, and 20 in the Union and Anderson hall. The Friday night banquet is \$1.50, and Saturday registration is \$1.

Georg Plange, FT Soph, is in

charge of the conference planning, and Midge Mulkey, BA Soph, publicity.

Eight discussion groups are being planned for Saturday morning in the Union. A general session will be in the little theater that afternoon.

Prof Tells How To Make Good On English Pro

The downfall of many students taking the English Proficiency examination has been errors in grammatical construction, spelling, and punctuation, according to Prof. Mary Frances White, English department. The examination will be given in Eisenhower hall tomorrow night from 7 p.m. until 10 p.m.

Students enrolled in English Proficiency are urged to be conscious of logical paragraph and sentence structure. Incoherent and disconnected sentences will weigh heavily against a paper.

Obvious errors in agreement of subject and verb, a shift in number, disagreement of pronoun and antecedent, and incomplete sentences are common faults made by students in the past," Professor White explained. "Sometimes students fail because they don't follow directions and write a narrative instead of an expository theme."

Students are allowed free choice from a list of subjects which have been suggested by department heads in the various schools of the College.

THE CROWD begins swarming Seaton hall for Engineers' Open House seconds after the opening ceremony by St. Pat and St. Patricia. This year's attendance was estimated at 10,000.

Cut in Spending On Capitol Asked

Compiled from United Press

By KEITH KEMPER

Washington—House GOP Leader Joseph W. Martin, Jr., suggested today that Congress needn't look any further than its own doorstep to begin cutting government spending.

Martin said he believed lawmakers ought to give up plans for construction of a \$42 million new front for the U.S. capitol.

"Since we are asking everybody else to tighten their belts in an effort to hold down government spending, I think we ought to set a good example by curtailing some of our own projects," he said.

Other Congressional developments:

Civil Rights—Southerners planned a last-ditch fight in the House-Judiciary committee to further water down President Eisenhower's Civil Rights bill. The committee has a firm agreement from both backers and opponents to complete action on the bill today.

Foreign Policy—The much-heralded Senate investigation into U.S. Middle East policy opened today. The committee summoned Undersecretary of State Robert Murphy, Assistant Secretary William M. Rountree and other state department officials to testify.

Ike Sees Guided Missile Display on Cruise

Aboard the Eisenhower Escort Ship—President Eisenhower planned today to watch a display of America's guided missile might on his get-well cruise in tropical waters.

Mr. Eisenhower showed obvious improvement from his lingering cold. His cough has been lessening steadily and he told reporters yesterday: "I am feeling very good."

Though Mr. Eisenhower expected to take it easy a good part of the day, he kept in close touch with international developments, particularly in the tense Middle East. The state department sent him up-to-the-minute reports on the situation.

The Chief Executive also was expected to confer by closed circuit radio wire with Secretary of State John Foster Dulles, who returned to Washington yesterday from a meeting of the Southeast Asia Treaty Powers in Australia.

Egyptian Troops Return to Gaza Area

Cairo—Egyptian troops were reported today to have returned to El Arish at the entrance to the Gaza Strip, but informed sources said Egypt has made no move to send her armies into the strip itself.

UN Secretary General Dag Hammarskjöld arrives Wednesday for talks with President Gamal Abdel Nasser, and the sources believed he would try to persuade Nasser not to send troops there and would seek to set up a buffer zone between Israel and Egypt.

Crown Prince Faisal, the Saudi Arabian Foreign Minister, arrives today for a meeting of the Arab League council. He was reported carrying a message to Nasser on the Gulf of Aqaba—the second explosive issue in the Mideast crisis.

Nixon in Rome After Visit with Pope

Rome—Vice President Richard M. Nixon promised today there will be "increasing consultation" between the United States and Italy on critical world problems.

Nixon made the statement at a news conference where he renewed his warning that the only Colonialism currently threatening the world is "Communist Colonialism."

Nixon, who leaves this afternoon for Tunis and the last leg of his trip through newly independent African nations, wound up his visit here by inspecting an "open skies" exhibit.

Yesterday Nixon was received in private audience by Pope Pius XII who expressed praise for the goodwill of President Eisenhower and the American people and prayed to God to give the President "health and comfort in the arduous duties of his office and his unremitting labors in the cause of world peace."

An Editorial

Organizations Make Bids For Part of Activity Fee

THE ORGANIZATIONS which receive appropriations from the activity fee for the next school year turned in their requests for funds last Thursday.

The Student Union last year got a flat fee of about 30 percent and it is rumored that Athletics have asked for a larger percentage for next year than in the past. If this is true many of the other organizations may have to take a cut in their allotments unless the tuition is increased to put more money into the activity fee.

PERHAPS SOME of the organizations should get a bit concerned over this.

This year's Student Council has also discussed appointing the members of the Apportionment board for next year before spring elections when the new Student Council will come into office.

One of the duties of the new Council is to appoint the Apportionment board which will work with them next year.

IS THIS ENTIRELY fair since next year's Council is the one that will have to work with the Apportionment board that they by right should appoint?—Jane Moore

Readers' Forum

Dear Editor:

Much has been written and spoken about the proposal to change the name of our school to Kansas State university. This recent discussion reminded me of an incident which happened several years ago and which left quite an impression on me.

A friend from an eastern state and I were teaching in another state (not his or my home state). He became convinced of the necessity of doing graduate work. I had sold him on the virtues of Kansas State, I thought; but come September, he enrolled at Kansas university.

I asked him why had he gone there instead of to Kansas State. He replied that "university" implied a bigger and better school and since he had a B.S. from a state college his M.S. degree should be from a better school, namely a "university"—end of story.

A little time spent looking through references brings out the following enlightening statement, "In American usage college commonly indicates the stage of instruction immediate between high school and the university." The same article brings out English usage as, "The colleges are subordinate to the university . . ."

The Americana Encyclopedia (1953) in its articles on colleges and universities from which the above statements taken, further states that there is a distinction between college and university in the public mind and that university is definitely the higher title. It states that educators generally make the following comparison: A college is a higher educational institution offering mainly courses of instruction leading to the bachelor's degree. A university is a college or group of colleges or departments under one control offering courses of instruction leading not only to the bachelor's degree; but also to the master's and doctor's degrees.

There are 51 land grant colleges for general admission and 17 land grant schools limited to colored students in the segregation states. (Recent law changes may have changed this somewhat).

In the 51 schools the following titles (or versions of) are used:

University	33
Technical institute	6
A&M college	5
State college	10

Of the schools for colored people the following names are used:

University	3
Technical institute	3
A&M College	8
State College	6

Or the total breakdown would be:

University	36
Technical institute	3
A&M College	13
State College	16

In only 19 states is a separate land-grant school maintained, no authoritative data was immediately available to me to find out whether or not special distinction was employed in these states. On the basis of the material here presented it would appear that the renaming of Kansas State college would be in line with both the definition and usage in the majority of our sister states.

Walter F. Robohn,
Assistant professor of Civil Engineering.

Over the Ivy Line

Life Gets Tough At Motor City U

By Shari Shellenberger

A NEW TIGHTENING of grade averages at the University of Detroit has introduced the cumulative average system, which replaces the current system in which an F is forgotten once the course is repeated. In other words, to get a C out of a course after you have farked it, you must make an A in it the second time you take it.

ON A FOUR POINT system, in contrast to K-State's three point, the University of Detroit places on probation freshmen who do not maintain a two point average. Here at K-State, that would mean that freshmen would have to maintain a 1.5 grade average in order to keep from being placed on probation.

A STRING of college degrees evidently doesn't help in all occupations, especially if your occupation is safe-cracking. Or so a 25-year-old Evanston, Ill., man found out last week.

AFTER BEING caught red-handed trying to break into a safe in a Chicago office, David Stevenson, an unemployed research analyst, told police he graduated from the University of Chicago when he was 18, earned a psychology degree from KU, studied law at the University of Missouri, and had been working on a doctorate degree in psychology at Northwestern university. ???

THE "NEW PRE-MARITAL monogamy of youth" is the term given "going steady" by Amherst college president, Dr. Charles W. Cole, in a recent article in Harper's magazine.

DR. COLE says the system of "going steady" is having these far-reaching effects on the social and economic structure of America: (1) it has created a situation where parents and children find it hard to communicate on social matters, and (2) it has caused the average age of marriage to drop very rapidly, and therefore is responsible for the new birth rate that has exploded the predictions that the nation's population would become stable in numbers in the 1970's.

DR. COLE believes, in favor of "going steady," that a marriage relationship based on this elaborate system (dating, going steady, getting pinned, becoming engaged) may be built in a solid and enduring fashion.

THIS "DAILY GRIND" of a tired journalist is the latest unsolicited contribution of Sydney, poet laureate of the University of North Dakota Student:

"Monday: alarm went off and rang till dead
But there I lay asleep in bed.
Awoke at nine with such a shock
I think I missed my eight o'clock!
If I tried for my next I'd be so beat
So off for the union and a bite to eat.
Eyeballed, table hopped, talked and then
Rushed like mad to make my ten
Slouched in my chair in soothing rest
Until I heard him say, "class dismissed."
Ran to next class—out of breath and face so red
Note on the board: prof sick in bed.
So back to the union and up the stairs
Fast asleep in a soft lounge chair.
I'd tell the rest, I am so inspired
But gee folks, I am just so-o tired."

Quotes from the News

By UNITED PRESS

Aboard Eisenhower Escort Ship—Presidential Press Secretary James C. Hagerty reporting by radio from the guided missile Cruiser Canberra the first day of the President's cruise to Bermuda:

"We are going where the weather is good and we are going nowhere in particular. We're just looking for some warm weather."

Key West, Fla.—Cmdr. Jack R. Hunt, who captained navy blimp ZPG-2 on its record-breaking 11-day flight, describing how both the airship's engines had to be run full speed to combat 40-knot winds over the Azores:

"At times we were not making any forward progress at all."

'Gridders Work Hard, Need Depth'—Mertes

K-State's football team moved through its longest scrimmage of the spring Saturday afternoon in Memorial stadium.

"They're a good group. They're working hard and they take pride in their job. If they stay that way we will be okay. We need depth though," said Coach Bus Mertes after the two-hour workout.

Mertes thinks Harold Riechers, 6-1, 215-pound junior, who looked good in Saturday's drill, may help solve his pressing need of depth at the tackle positions. Jim Goodmiller, 6-1, 205-pound freshman tackle also has shown well this spring.

He feels his quarterbacks are not too smooth but are getting better.

In the battle for the left half-back position left vacant by Keny Nesmith's graduation, Ben

Grosse, 6-0, 185-pound sophomore, has the edge at the present time. He is being pressed by George Whitney, 5-10, 170-pound freshman break-away runner. "Grosse looks great but Whitney could push if he smartens up," said Mertes.

"If it becomes a problem of needing a punter Grosse will probably get it. We are hurting for punting. Nobody on the first three teams but Grosse can punt," said backfield coach Herb Cormack.

Mertes named Goodmiller, Whitney, Joe Vader, 6-4, 215-pound end; and Ralph Peluso, 5-11, 205-pound guard as freshmen who have looked good in early practices and could help next fall if they develop.

Volleyball Slate Nears End

Six matches were played in intramural volleyball Friday, leaving only five scheduled matches and three postponed matches to be played tonight.

In Friday night action, YMCA beat DSF in two games, 15-5, 15-11, in the final independent match of the season.

The big game in the fraternity division was that between Delta Tau Delta and Beta Sigma Psi, both of whom were undefeated. The Deltas won it in three games, 10-15, 15-5, 15-8. They are group champions by virtue of the victory.

Sigma Nu beat Farm House in two games, 15-8, 15-8, to become champion of its group.

Alpha Tau Omega was the winner of its match with Delta Upsilon. The score was 15-8, 11-0.

The other match of the night went the full three games. It was between Acacia and Alpha

Epsilon Pi. Acacia was the victor, 15-3, 4-15, 15-6.

Immediately after tonight's matches managers of the group winners in both divisions will meet with Frank Myers, director of intramurals, to draw names for opponents in the semi-final playoffs Tuesday night.

In tonight's action starting at 7 Sigma Phi Epsilon plays Lambda Chi Alpha, Tau Kappa Epsilon plays Phi Delta Theta, Beta Theta Pi plays Phi Kappa, and Phi Kappa Tau plays Alpha Gamma Rho.

Sigma Alpha Epsilon plays Delta Sigma Phi at 8 in the only other

regularly scheduled match of the night. Postponed matches at 8 will be between Theta Xi and Alpha Epsilon Pi, Alpha Tau Omega and Phi Kappa Alpha, and Lambda Chi Alpha and Sigma Chi.

Cat Gymnasts Finish Third In Illinois Meet

The K-State gymnastics team placed third in the Western Illinois invitational championships, Saturday, at Macomb, Ill., behind Western Illinois, which placed first, and Ball State college, which placed second.

Scoring for the Wildcats were Wendell Minckley, third place in the metal flying rings and fifth place in the side horse; Merle Schmeck, third place in the metal high bar; Robert Gramzow, fourth place in free exercise and fifth place in tumbling; Allen Olsen, fourth place in the side horse and fifth place in the parallel bars; and Richard Rood, fifth place in the rings and sixth place on the parallel bars.

'B' Wrestlers Nail Omaha

B-team wrestlers from K-State whipped Omaha's neophyte team, 24-9, at Omaha Saturday.

Cat grapplers won five of the nine matches, two of them by pins, and three by decisions, while Omaha was winning four with a single pin and three decisions.

"It was the first match for the Omaha team," Wildcat Coach Fritz Knorr said. "They are just starting wrestling and we went up to help them out."

Mrs. Mancuso, mother of former Cat 130-pound wrestler Bob Mancuso, gave the K-State team a spaghetti feed after the meet.

The results:

115-pound—Billy Youngers (KS) decisioned Williams, 6-5.
123-pound—Gary Darter (KS) pinned DeBlasi in 7:00.
130-pound—Riley Miller (KS) pinned Sealock, in 3:45.
137-pound—Cal Schwab (KS) decisioned Jackman, 9-2.
147-pound—Abbond decisioned Jimmie Caster (KS), 3-1.
157-pound—Graybill decisioned Tom King (KS), 2-1.
167-pound—Emery decisioned Glenn Brandon (KS), 5-0.
177-pound—Nuzum pinned Dan Noe (KS) in 4:30.
191-pound—Jim Dietrich (KS) decisioned Nevins, 5-0.

AWS Plans Car Wash As Fund-Raising Project

The Association of Women Students is planning a car wash in the First Methodist church parking lot at Sixth and Poyntz, Saturday, March 30, from 9 a.m. to 5 p.m.

Cars will be washed on an assembly line basis. Persons will drive their cars through a line of coeds who will wash, sponge, and chamolise the cars. "We expect to do each car in less than ten minutes," said Darlene Larkin, TxC Jr, member of the women's council of AWS.

People will be able to leave their cars for the coeds to wash, so they can shop. After the car is washed, it will be parked in the Methodist parking lot.

Orchesis

Orchesis, modern dance club, will have try-outs for prospective members tonight at 8 p.m. in Nichols 1, according to Judy Hopp, TxC Soph, secretary.

"When trying out, a woman is scored by the present members on the way she executes the exercises learned at warm-ups. Those who receive a majority of points are invited to become members. Those who don't receive a majority will be asked to join Junior Orchesis, which affords a woman further training and gives her a better chance for senior Orchesis," Miss Hopp said.

American Guild of Organists

The American Guild of Organists will meet in the Student Union at noon Thursday when they will eat in the cafeteria and listen to records from the collection of

organ music of Mr. Hays, assistant professor of music and college organist.

Club Cervantes

Club Cervantes will meet Monday at 7:30 p.m. on the third floor of the Student Union.

Plans for the Pan American Day banquet will be discussed.

Student Council Okays Changes in SGA By-Laws

Two changes in the by-laws of the Student Governing association constitution were approved last night by the Student Council.

The SGA by-laws may now be revised by a three-fourths

vote of the Student Council members. No previous provision for amending the by-laws had been determined.

The jurisdiction of the judicial board of the Associated

Women Students was approved. Approval was given the Basic ROTC committee on their project to complete a survey of student opinion on the ROTC program.

Gary Haynes, TJ Jr, reported progress on a brochure presenting the pro's and con's of a change to university status. Some of the points brought out about the change included:

1. There is a distinction between college and university. This distinction could handicap students and alumni in job competition.

2. The Graduate School finds difficulty in attracting outstanding graduates because of the college status.

3. Distinguished scholars prefer to be associated with Universities.

4. Some foundations are willing to give financial aid only to universities.

5. Land-Grant status should be a source of pride to students and faculty.

6. Some confusion might result from a name change.

The Health Insurance committee is now investigating a report from a local insurance company that no group plan could be written for students ding group insurance unless because a Kansas law forbids an employer pays 10 per cent of the fee.

Nancy Howard, SED Jr, said that two campus groups have expressed interest in conducting a student book exchange.

AWS Interviewing Council Applicants

Candidates for offices of the Women's council of the Association of Women Students are now being interviewed, according to Jean Koerner, DIM Soph, chairman of the Nominations committee.

Voting will be held April 1 and 2, in booths in Anderson hall and in the Union. All girls on campus will have one vote, and activity cards will be punched.

The new officers will then be installed at All Women's Day, April 8, in a short ceremony. Their names will

not be disclosed until that time.

Patsy McClenahan, EEd Soph, and Darlene Larkin, TxC Jr, will represent K-State's AWS at a meeting of the Intercollegiate AWS at Michigan State this weekend.

It was decided in last night's meeting that a good portion of their expenses be paid by AWS. One hundred and twenty dollars will be furnished.

At this meeting K-State's AWS will be recognized as a member of the Intercollegiate AWS.

"Copies of the regulations concerning the selection of queen candidates are being sent this week to all organized groups, which will be desiring queen candidates to be chosen," said Monne Wills, EEd Fr, chairman of the Queen's committee. AWS has taken over the selection of all beauty queens, which were formerly under the jurisdiction of the Student Council.

Monday Last Day to File SGA Primary Petitions

Petitions to run in the Spring SGA elections may still be obtained from the Dean of Student's office. Petitions must be completed and returned by March 25 before students are eligible to participate in primary elections April 4 and 5.

Applications may still be submitted to the Dean of Students for positions on the board of directors of Campus Industries. Four positions on the board are open.

Greek Week May Include City Project

Interfraternity council is conferring with the City Council an effort to find a project of a constructive nature to be followed during Greek Week, according to Pat Roberts, publicity director.

At the IFC meeting last night, a steering committee was set up to meet on weeks that the Council does not meet. The committee will prepare business to be discussed at the IFC meetings.

The Council also discussed the possibility of constructing bulletin boards at strategic spots on the campus for the purpose of eliminating the cluttering up of the campus with posters.

Photo by Doug Tedrow

Y-ORPHEUM was "steered" one step closer to reality last night, as steering committee members met in the Union to discuss plans. From left, members are Lou Ann Oberhelman, John Upton, Jerry Emerson, Chuck Wingert, John Trachsel, Bruce Wilson, and Ken Nakari.

"Tickets for the 1957 Y-Orpheum are going fast," said Barbara Ericson, BA Jr, tickets manager for the show, at a meeting of the Y-Orpheum executive council last night.

"We sold 450 tickets on Monday in the Union alone. Tickets are also on sale at Betton's Music store and I have not as yet gotten a report from them."

"I would urge anyone wanting a ticket for either Friday or Saturday night's performances to purchase it before Wednesday if they want a good seat," she continued.

"The tickets are \$1 for adults and \$.50 for children under 12 years of age and will also be sold at the door the nights of

performances," Miss Ericson commented.

After the executive council meeting Bruce Wilson, His Gr, general chairman of Y-Orpheum met with the directors of all the participating houses skits and ironed out rehearsal conflicts with nine weeks tests and gave each director a copy of the judging procedure which will be used the nights of production.

Special rehearsals with Matt Betton's orchestra are scheduled for the Delta Delta Delta's, Sigma Alpha Epsilon's, Alpha Tau Omega's, and the Pi Beta Phi's at Pottoroff hall starting at 8:45 p.m. Tuesday night.

Army ROTC Cadets Receive Promotions

Forty-nine military science cadets have been promoted to positions of higher responsibility, according to Maj. Z. S. Grzywnowicz of the military science department.

Seniors only may hold commissioned offices. Among seniors promoted to top positions are George C. Ismert, Geo Sr, from cadet captain to cadet major; and John A. Lothman, Me Sr, from cadet lieutenant to Ismert's cadet captain position.

Seniors formerly cadet 2nd lieutenants who have been promoted to cadet first lieutenants: Richard C. Froberg, AEd Sr; Gordon M. Gilmore, BAA Sr; Harry A. Granzow, AEd Sr; Charles H. Jacobson, Sr; James R. McCrea, BA Sr.

Seniors formerly cadet MSgt who have been promoted to cadet lieutenants: Robert H. Doremus, ME Jr; Warren J. Keegan, Ec Sr; Galen A. Murphy, AH Jr; Eldon N. Wancura, SED Sr.

Those promoted from cadet sergeants to master sergeants: Paul H. Hatfield, AEd Jr; Richard L. Lyell, AGE Jr; and Terry R. Price, ME Jr.

To be cadet sergeants first class and formerly cadet

sergeants: James D. Barber, ME Jr; Joseph L. Downey, ChE Jr, John R. Milton, DM Jr.

Those appointed: Richard K. Allen, EE Soph; William H. Bingham, AA Soph; and Clifford A. Nielson, BAA Jr.

Former cadets to be cadet corporals: James R. Allen, Ag Soph; Norman C. Anders, Ag Soph; Ben A. Attebery, Ag Soph; Edward J. Balaban, BAA Soph; Bryan B. Barr, AH Soph; George E. Beck, BAA Soph; James O. Bell, TJ Soph; George W. Bennett, ME Soph; Rodney M. Bowen, Ar 02; Charles Clinkenbard, E Fr; Donald E. Dailey, Ch Soph; Charles E. Davis, ML Soph; David H. Dettke, Ag Soph; Larry R. Foulke, NE Soph; Miles G. Hartman, BA Soph; Robert E. McDonald, ME Soph; Jerry B. McKee, Geo Soph; Clyde O. McKee, ME Soph; Larry C. North, ChE Soph; Edward J. Ross, Ag Soph;

Harold R. Seeger, BAA Soph; George R. Serpan, EE Soph; Stanford Severance, ChE Soph; Gordon H. Smith, Mth Soph; Michael R. Smith, PrV Soph; Vacil I. Sullens, CS Soph; Edward H. Thompson, BAA Soph; James C. Walker, AGE Soph.

Sneaky Oregon U Men Snow Girls' Dormitory

By Shari Shellenberger

FELLOWS THREW the snowballs and broke the windows, but the gals paid the damages on the University of Oregon campus. Following a snow storm, fellows deliberately broke women's dormitory windows by throwing snowballs, rocks, and even beer bottles.

When it was suggested by the Dormitory Policy committee that the women students pay for the damages, according to a rule stating that dormitory occupants pay for damages to dormitory property, women students protested, claiming they knew nothing of the rule. The rule, although it had appeared in handbooks for men's dormitories, had not been published in the women's dormitory handbooks.

WOMEN STUDENTS also claimed that in most cases they had not caused the damages, and felt that they should not be required to pay for it.

To settle the issue, the Dormitory Policy committee charged the women students for only half of the damages.

THE UNIVERSITY of Nebraska Student Union introduced a special program to give students a break during final week and help them to relax.

The program called "Relaxavous," included free movies, jam session, free candy bars and suckers, and dances. And a free coke was given periodically to the customer standing nearest the cashier when an alarm went off.

SOUNDS GREAT! But it brings to mind the question of how much time the student should spend in the Union during final week. This program might encourage more final week Union attendance than the grade average could stand.

THE COMMON pop corn popper has been turned into a one-in-all cooking utensil by gals at Texas State college for women.

Boiling water for tea and coffee in the poppers is old stuff. The gals prepare midnight snacks of oyster stew, pudding, chili, and chow mein. Other uses include warming rolls, boiling eggs, and making cereal at breakfast time.

FRATERNITY PLEDGES at the University of Arizona, following the trend of Help-Week-Instead-of-Hell-Week, performed various tasks around Tucson, then donated all profits to help the blind through the "Guide Dogs for the Blind, Inc."

Jobs included lawn mowing, window washing, and car washing. A local businessman talked four pledges into painting his store. Publicity for the drive was provided by newspapers, spot radio announcements, television, and special notices sent to the members of the University of Arizona faculty.

Potato Situation Eyed By Local Mashers

By DARREL MILLER

A BUNCH of the boys were whooping it up at a local tavern last night when the conversation quite naturally turned to planting potatoes.

It would not have been surprising to the casual passerby that the conversation was about Irish potatoes. First of all, the boys were holding a belated St. Patrick's day celebration. Secondly, a casual passerby wouldn't have been listening.

NOT THAT this was a gathering of ag students. Oh, no. There was an engineer who was recuperating from his part as a caveman in an Engineers' Open House exhibit.

There was a history student who was gathering his wits after attempting a bloodless revolt in a Civilization II class. He also was re-figuring his grade average.

THERE WAS a band member who kept muttering nasty remarks about the Collegian.

There was a member of the campus Young Communists' club who was bemoaning the green beer and was longing for May Day and red beer.

THERE WAS a senior nearing graduation who was disgusted because President McCain was going to Europe and wouldn't be around to give him his sheepskin.

There was a freshman who was raving about the rain, his first. He was amazed at the way it washed the dust out of the air.

THERE WAS a junior who was trying to drown his fear of English proficiency.

And an English major was expounding the virtues of "The Adventures of Huckleberry Finn," but that's another story.

AT FIRST GLANCE it would appear that this was a heterogeneous group. At second glance it would appear the same. But at third glance one could see that these fellows were united by a common bond—their liking for beer.

No one remembered later how the conversation turned to potatoes. Perhaps it was the rain, a most pleasing phenomenon; perhaps it was the balmy spring weather; perhaps it was because one of the fellows was eating french fries.

AT ANY RATE, it was easy to see why the conversation should have settled on Irish potatoes.

It was too bad that no one knew anything about potatoes, but radishes do almost as well as a conversation piece.

Besides, they're much more crisp.

Telegraphic Tabloids

By UNITED PRESS

Los Angeles—Linda C. Wenland, 21, an actress-model, was granted a divorce when she told the judge that her estranged husband, Steward S. Bernstein, 21, "went home to mother" on their wedding night.

London—A singing souse persisted in following five men through side streets of London's East End Saturday night, but they decided to get on with their job and ignore him.

When they smashed the window of a shop they intended to rob, they were arrested by the "drunk"—Tony Holmes, a Scotland Yard detective.

Paris—Gas rationing has been driving the French motorist underground, a government report showed today.

The report said 713,540,000 Frenchmen rode the Paris Metro (subway) in the year ending last December, a five per cent increase over 1955.

Chicago—The National Pickle Packers association is looking for a beauty queen with a 32 to 35 inch measurement to reign at its convention.

Applicants for the title of "Miss Sweet Midget Pickles" will be measured from top to toe.

Milwaukee, Wis., (U.P.)—Axle Pavich, a collector for a vending machine company, told police yesterday someone stole \$2,000 in quarters he had collected.

The loot apparently was too heavy for the thieves because they also took Pavich's truck.

Los Angeles, (U.P.)—Councilman Ransom M. Callicott complaining that a "keep off the grass" edict prevented persons from enjoying a downtown park, proposed to the city council that the grass lawns be replaced by concrete painted green.

Denver, (U.P.)—Roy Blake must pay a \$4.85 excise tax because he moved his garage 60 feet across his backyard.

Internal Revenue Service Supervisor Herbert Mueller said the action constituted moving property "from one point in the United States to another" and thus is subject to a 3 per cent excise tax on the cost of moving.

Oh what a web we weave
When first we practice to deceive,
But it don't matter, we're still hopin'
The Union south stairway will soon be open.

Anticipated Sales Tax Increase Slated for House Floor Debate

Topeka, (U.P.)—A proposal for a one per cent increase in the state sales tax was approved yesterday by the House Assessment and Taxation committee by a vote of 10 to 6.

The action, anticipated for weeks, sends the measure to the House floor for debate. It would raise the sales tax from two to three per cent and result in estimated revenue of \$25 million a year.

Rep. H. M. Christensen, Concordia Republican, submitted an amendment attaching the sales tax increase on a Senate-passed bill.

Ten Republicans voted for it and six Democrats opposed it. The action generated new arguments over the fairness of a sales tax in lieu of Gov. George Docking's defeated residue plan.

A Kansas City Democrat, Rep. Thomas Van Cleave, said he was "much opposed to this. It's the little man who will pay. It is not a suitable tax. It does not equalize the tax burden."

Chairman Marion Mathews, a Winfield Republican, said:

"It fits. There are other taxes we could consider, but this one fits. We are confronted with a financial problem. It is my understanding it would take about

\$25 million to solve the state's problem."

The bill also has provisions to broaden the sales tax to include service firms such as hotels and laundries to bring in an estimated \$1,100,000.

It also would remove contractors for churches and public buildings from their current tax exemption for an estimated \$2 million.

No Plans To Enter Gaza Strip--Egypt

By UNITED PRESS

Egypt has assured the United States that it has no present plans to send troops into the Gaza strip, along whose borders Israeli sources reported new minor violence today.

Cairo dispatches also reported that Egypt has assured the United Nations it has no intention of pushing the UN emergency force out of the disputed strip.

At the same time, Cairo has outlined its views on future Egyptian operation of the Suez canal in a memorandum handed to representatives of the United States, the Soviet Union, India and the UN.

Activities

Eastern Tour for Students Being Planned by YMCA

The third annual trip to Washington, D.C. and New York City, sponsored by the Political Effectiveness committee of the K-State YMCA, is presently being organized, according to Keith Landis, Gvt Jr, committee chairman.

The trip and tours are open to all K-State students and will last four days. Students taking the tour will be given class excuses. The bus fare for the trip is \$45.20.

Special hotel and food rates will be provided. The trip will cost about \$115 for each person.

Among the places to be visited are Congress, the United Nations, U. S. Naval Academy at Annapolis, the Smithsonian Institute, Library of Congress, and National Art Gallery.

All students who wish to go on this trip should contact the YMCA office in A217 before March 29, Landis said.

Jr. AVMA

"How To Train You To Train Your Dog" is the title of a film which will be shown at this evening's meeting of Jr. AVMA at 7:30 p.m., in room 175 of the Dykstra Veterinary Medicine hospital.

Harmonizers

The Harmonizers will hold a regular meeting at 7:30 p.m. tonight in the SU Walnut dining room. The musical group will be directed by Clifford Asling of Abilene.

CRC

K-State will be host to the Central Renaissance conference March 28 and 30 in the Student Union. The organization is meeting to

hear papers written by members on all phases of the Renaissance. Registration will begin at 8 a.m. March 29 and will last until 9:30 a.m. Delegates to the conference will be welcomed by President McCain at a banquet in the Student Union at 6:30 p.m.

Psychology Club

"What's New in Psychology" will be the subject of a symposium to be presented at a meeting of the Psychology club, Tuesday, March 19 in room 206 of the Student Union.

The symposium will be composed of faculty members of the Psychology department and will be led by Dr. Arthur Brayfield, head of the Psychology department.

Highway Engineering Conf.

The annual Kansas Highway Engineering conference will take place in Umberger hall Thursday and Friday. Aspects of the federal highway program, the Kansas turnpike, and county highway construction will be subjects for different programs planned.

Registration will be in Umberger hall from 10 a.m. until noon Thursday. Sessions will be in Williams auditorium of the extension building.

Home Ec Extension Club

Virginia Devinish, HDA Sr, will speak to the Home Economics Extension club Thursday at 4 p.m. about her trip last summer as an International Farm Youth Exchange student.

The meeting will be in Eisenhower hall, room 12.

Harmonizers

Cosmopolitan Club

Walter Eitner, English instruc-

tor, will speak on "Some Views of the American" at the Cosmopolitan club meeting Thursday at 7:30 p.m. in SU 208.

Gamma Sigma Delta Invites New Members

Gamma Sigma Delta, agricultural honor society, invited into membership the upper 15% of all seniors and sophomores in agriculture, agricultural engineering, and veterinary medicine at a meeting in Dickens hall Friday. Letters were sent out yesterday to eligible students.

Besides high scholarship, election to the society is based on worthy attainments and excellence

in agricultural pursuits. Some faculty members and alums have also been invited to join Gamma Sigma Delta.

Dr. E. C. Stakman, University of Minnesota plant pathologist, will be principal speaker at the annual initiation banquet in April. Special certificates of merit will be presented to one faculty member and one alumnus.

Social Calendar Heavy With Dinners, Parties

Kappa Kappa Gamma

Brothers and cousins of Kappa Kappa Gamma members and the sons of alums, were guests of honor at dinner Thursday evening at the chapter house.

Kappa Sigma-Tri Delt

Kappa Sigma had an exchange dinner with Delta Delta Delta Thursday. The dinners began at 6 p.m.

Gamma Phi Beta

Future initiates of Gamma Phi Beta were honored at a dinner

Sunday evening in the Student Union.

Sigma Phi Epsilon

Sig Ep pledge fathers and their pledge sons enjoyed steak dinners at Keck's Sunday night, March 10.

Pi Kappa Alpha-Tri Delt

Pi Kappa Alpha had an exchange dinner with Delta Delta Delta at 6 p.m. Monday.

Beta Sigma Psi

Beta Sigma Psi fraternity enter-

tained 130 parents with a banquet in the Student Union Sunday, March 10.

Sigma Chi-Alpha Chi Omega

Members of Sigma Chi and Alpha Chi Omega had an exchange dinner Tuesday.

Parties

Gamma Phi Beta

Pledges of Gamma Phi Beta had a song and paddle party at the home of Mrs. Richard Ambrose Wednesday.

Kappa Kappa Gamma

Ivy League attire was worn by Kappa Kappa Gamma members and their dates at the party at the chapter house Friday evening. Chaperones were Mr. and Mrs. W. R. Thrall and Mr. and Mrs. Robert Alexander.

Alpha Epsilon Pi

Alpha Epsilon Pi fraternity members left Friday afternoon for a weekend in Kansas City, Mo. They returned Sunday after a picnic.

Phi Kappa Tau

Members of Phi Kappa Tau had their Red Carnation ball in the terrace room of the Wareham hotel Saturday.

Sigma Chi

Members of Sigma Chi and their dates attended a "Beach Combers' ball" at the chapter house Friday.

Actives Become Pledges; Alpha Xi Deltas Reverse

Alpha Xi's were rudely awakened at 5:30 a.m. Wednesday, by three actives, who clanged pots and pans, yelled, and even set off the fire alarm. This was the beginning of "reversal day," when all of the actives assumed pledge duties, and the pledges took their turn at telling the actives what to do.

The actives had to clean all of the rooms and see that they stayed spotless in order to pass the three room checks the pledges had during the day. All pledge rules were completely reversed — demerits were given for chewing gum, going to the Union or downtown, before 3 p.m., and failing to answer the telephone.

When answering the phone, the actives had to sing a little ditty to the tune of the "Battle Hymn

of the Republic." The usual number of phone calls was increased many times, due to the several fraternity pledge classes who agreed to call as often as possible.

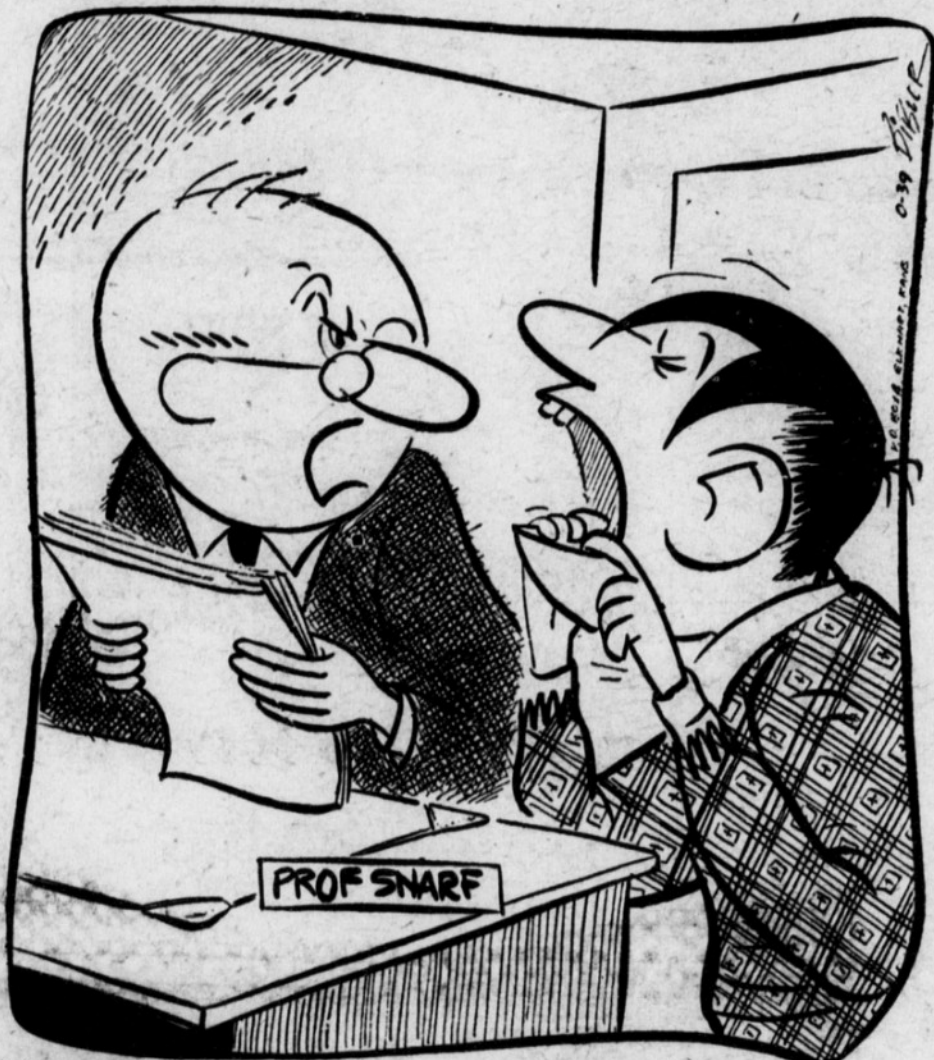

Three of the actives were cheerleaders and staged a pep rally at the house before the intramural basketball game. All actives were required to attend the game.

During dinner, the actives provided "pledge entertainment," which included such things, as imitating anyone in the house, and scrambling like an egg. After dinner they had required study hall, which was followed by a mock pledge meeting.

At the meeting the total demerits for the day were handed out, at the rate of five for each violation. These all had to be worked off before 10:30 p.m.

Romance Blooms; Springtime Nears

Endicott-Williams

Bob Williams, CE Jr, announced his pinning to Kathleen Endicott, HE Fr, of Kingman at the Alpha Kappa Lambda fraternity house Tuesday night. Bob is from Irving.

Scott-Kranz

Cigars at the Beta Sigma Psi house Wednesday announced the pinning of Art Kranz, BA Sr, to Patty Scott, a member of Kappa Alpha Theta at Washburn. Art is from Haven and Patty from Topeka.

McKinley-Roberts

The pinning of Carol McKinley and Pat Roberts, TJ Jr, was announced at the Pi Kappa Alpha Dixie ball Friday night. Pat is

from Oskaloosa and Carol is from Kansas City.

Tau Kappa Epsilon

Duane White, BA Jr, announced his pinning to Jackie Jones, EEd Soph, Northwest hall, at the Tau Kappa Epsilon house Tuesday night.

Engagements

Newcom-Hoover

Chocolates at Northwest hall Sunday announced the engagement of Rosemary Newcom, HEA Fr, to Bob Hoover, EE Soph. Rosemary is from Whitewater and Bob is from Pleasanton. A June wedding is planned.

O'Gara-Wimsatt

Cigars were passed recently at the Phi Kappa fraternity house to announce the engagement of Sally Ann O'Gara to Pete Wimsatt, BA Sr. Sally, a '53 graduate of St. Teresa's school, Kansas City, Mo., is now on the research staff for the Stanford Research Institute, Palo Alto, Calif. Pete is from Kansas City, Mo. An August wedding is planned.

Sororities, Frats Receive Guests

Sunday dinner guests at the Alpha Xi Delta house were Leon Sucht, AH Sr; Ray Zimmerman, AH Sr; Dick Fankhauser, AH Sr; and Dave Lawrence, Ar 03.

Alpha Delta Pi

Guests at the Alpha Delta Pi house over the weekend were Marcia Legg and Barbara Howard of Topeka.

Alpha Delta Pi

Week end guests at the Alpha Delta Pi house were Marilyn Olsen, Minneapolis, and Janice Miller, Hays.

Alpha Tau Omega

Mr. Al Layburn of Salina was a dinner guest at the Alpha Tau Omega house Tuesday.

Phi Kappa

Weekend guests at the Phi Kappa house were Father William Killian, Manhattan; James Curran, Abilene; and Wilhem Kubitz, instructor in civil engineering.

Men in the know
know true from false

More than 50% of college men
earn at least half their way
through school

☐ TRUE ☐ FALSE

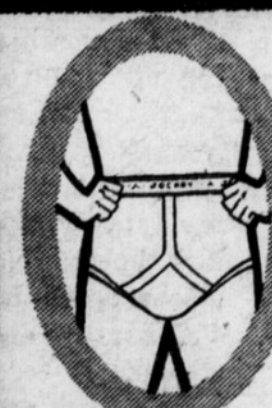

False. While 71% earn part or all of their expenses, the breakdown is: 17% earn nothing; 25% earn less than 1/4; 20% earn 1/4 to 1/2; 14% earn 1/2 to 3/4; 24% earn 3/4 to all.

College men usually marry
college women

☐ TRUE ☐ FALSE

False. They might like to, but there are just so many more college men than college women that they can't. However, it is true that college girls usually marry college men.

The vital part of Jockey
underwear lasts longer than
the rest of the garment

☐ TRUE ☐ FALSE

True. The waistband is usually the weak point of most underwear, but Jockey developed a special, long-wearing, heat-resistant elastic (with U.S. Rubber and the American Institute of Laundering) that actually outwears the garment itself.

Sigma Chi, Beta's End IM's Unbeaten

Sigma Chi and Beta Theta Pi finished the regular intramural volleyball season undefeated after last night's action in which eight matches were played.

Sigma Chi defeated Lambda Chi Alpha in two straight games, 15-5, 15-11. The Sigma Chi's are now group champions with a 4-0 record.

The Betas became group champions with a record of 5-0 by virtue of their win over Phi Kappa. Score in the two games was 15-8, 15-4.

The Sigma Chi's and Beta's will join the other two group winners, Delta Tau Delta and Sigma Nu, in the semi-final playoffs Wednesday. Sigma Chi will play Delta Tau Delta and Beta Theta Pi will play Sigma Nu. Both matches will start at 7. The winners of the two matches will play at 7 Thursday night for the championship.

OK House, Jr. AVMA, and Phi Epsilon Kappa, all undefeated winners of their groups, are in the semi-finals of the independent division. The Phi Eps have a bye for the championship match which will start at 7 p.m. Thursday. An OK House-Jr. AVMA match will be Wednesday at 7.

Another match in last night's action saw Pi Kappa Alpha defeat Alpha Tau Omega in two games, 15-6, 15-4.

Sigma Phi Epsilon defeated Lambda Chi Alpha in three games,

15-10, 2-15, 15-12.

Alpha Gamma Rho needed three games to get by Phi Kappa Tau. Score was 15-3, 8-15, 15-5.

Sigma Alpha Epsilon lost the first game of its match with Delta Sigma Phi but came back to win in three games, 8-15, 15-9, 15-4.

In the other match of the night, Alpha Epsilon Pi beat Theta Xi, 15-12, 9-15, 11-0.

K-State's indoor track team will hold its first home meet this Saturday night in a meet involving five teams and possibly six.

Definitely entered in the meet are Missouri, K-State, Pittsburg State, Fort Hays State, and Emporia State. The sixth possibility is Nebraska.

"This could be a real good meet," said Coach Ward Haylett. "The competition will be terrific in some events like the hurdles, pole vault, and the 75-yard dash."

Missouri, which broke Kansas' long win skein, is led by a trio of Big Seven indoor champions, dashman Henry Wiebe, pole vaulter Karl Englund, and high jumper Jim Kilgore.

The Tigers also have a pair of top-notch hurdlers in Charlie Batch and John McIntyre. Batch has run the 60-yard high and low hurdles respectively in 7.3 and 6.9 seconds. McIntyre is behind him in each race by a tenth of a second.

A hot duel is expected in the hurdles between Batch, McIntyre, and K-State's Gene O'Connor. Should Nebraska decide to enter the meet that would make competition even tougher with

the addition of the Cornhuskers' Keith Gardner.

Another hot race should be the 75-yard dash in which Pittsburg's Bobby Wooten will be paired against Wiebe. Here again, Nebraska's Gardner could make the competition tougher as he has run the 60-yard dash in 6.1 while Wooten and Wiebe have run it in 6.2.

In the pole vault, Missouri's Englund and Bob Davis, both 14-

footer's, will be trying to beat Emporia State's Dick Utter, another 14-footer. A darkhorse in the race will be K-State's Karl Lindenmuth who has done 13 feet 9 inches.

Top performer for Emporia State is Billy Tidwell, one of the nation's top trackmen. Tidwell, who can run almost any race, will be challenged in the mile by Missouri's Jim Sanders and K-State's Tom Rodda.

Lee Releases Track Slate

The outdoor schedule for K-State's track team was announced by Athletics Director Bebe Lee. The schedule consists of 12 meets composed of two duals, five major relays, and five other multi-team meets.

The first meet is at the Oklahoma A&M Relays at Stillwater March 30.

March 30—Oklahoma A&M Relays at Stillwater.

April 5, 6—Texas Relays at Austin.

April 13—open.

April 20—Kansas Relays at Lawrence.

April 26, 27—Drake Relays at Des Moines.

April 27—Colorado Relays at Boulder.

May 4—Nebraska at Manhattan.
May 11—Iowa State at Ames.
May 17, 18—Big Seven Outdoor Meet at Nebraska.
May 25—Missouri Valley AAU Meet at Kansas City.
June 1—Central Collegiate Meet at Marquette.
June 14, 15—National Collegiate Championships at Texas.
June 21, 22—National AAU Meet at Dayton, Ohio.

Knows His Value

Egremont, Mass. (U.P.)—Tax Collector Carl H. Warner finally has won his long battle for a pay cut. He convinced the town meeting that his annual salary should be fixed at \$750. Last year he made \$1,100. That's all I'm worth—\$750," insisted Warner.

"What's it like to be

A PHYSICIST AT IBM?"

Five years ago, college senior Nick Hemmer asked himself this question. Today, as Administrative Assistant to the Quality Control manager, Nick reviews his experience at IBM and gives some pointers that may be helpful to you in taking the first, most important step in your career as a physicist.

"I was tremendously impressed," says Nick, "by my first plant tour. When you go through the facilities—meet the men and get an idea of the problems they handle—you can't help but become interested. Add the friendly, informal work atmosphere, and you know right off the bat these people have a story to tell."

Nick came to IBM in 1951 with a B.S. in physics. He started as a Technical Engineer—in Test Equipment Engineering—working on an analog bombing system. When that project moved from the Endicott to the Poughkeepsie plant, Nick followed it, becoming first an Associate Engineer, then a Project Engineer. As the lat-

tion of alloys . . . or of the properties of metals, such as the resistivity of germanium. Then, there are the important 'analysis of failure' and reliability studies, in which you seek to determine, for example, the 'life

Problems fascinating to the physicist

expectancy' of a device, the mean time between failures, or perhaps which step in a process has the greatest effect on the equipment involved. You may be asked to control the deposit of glass on X-ray tubes to avoid spill-over, or microscopic spotting. Or you may be dealing with are-suppression, or gaseous electronics, the grass roots of instrumentation; or in the estimation of tolerances, or

Extensive educational facilities

in correlation coefficients—that is, in physically sound numbers."

Nick has been instrumental in encouraging many college physics majors to come to IBM. "I find they're interested in questions like these," he says: "How would you go about determining the 'life' of electrons in transition from the valence to the conduction band?" Or, in the manufacture of magnetic inks, "How can the grain size of the iron content be controlled . . . or its viscosity regulated over wide temperature ranges? How would you control the concen-

tration and concentricity of colloidal solutions?" "Present a job in terms of actual problems," believes Nick, "and you'll get the man's interest—for it's his career and his future that have top priority."

How about further study?

Nick has taken full advantage of IBM's extensive educational facilities to get ahead at IBM. He took at least one course each semester on subjects within his immediate work area—courses on digital and analog computers and on their components such as cores and transistors. He found time to take management courses as well. "If you want opportunity for study," Nick says, "IBM will provide all you want."

Promotion almost inevitable

Asked about opportunities for advancement at IBM, Nick says, "The situation could hardly be better in that respect. With sales doubling every five years on the average, promotion is almost inevitable."

IBM hopes that this message will help to give you some idea of what it's like to be a physicist at IBM. There are equal opportunities for E.E.'s, M.E.'s, mathematicians and Liberal Arts majors in IBM's many divisions—Research, Manufacturing Engineering, Sales and Technical Services. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of Engineering Recruitment, Mr. R. A. Whitehorn, will be happy to answer your questions. Just write him at IBM, Room 9301, 590 Madison Ave. N.Y. 22, N.Y.

THREE K-STATE GRIDDERS in the foreground run through plays in dummy drills in yesterday's practice session. From left the three are Keith Wilson, Tony Tiro, and Les Krull. Unidentified Cat backfieldmen await their turn in the background.

Wildcats To Play Wide Open Ball, Football Coach Bus Mertes Says

K-State football fans will probably see an attack that will be more wide open than in the past, when K-State's football team takes the field next fall, according to coach Bus Mertes.

He plans to keep the T-formation and send the ends and flankers out wide often next fall. "We hope to pass more. It depends on how things develop. We plan to have both halfbacks passing," Mertes said.

Dick Corbin, 5-11, 180-pound junior, and Keith Wilson, 5-8, 157-pound junior, K-State's first and second string quarterbacks, return next fall as does Gene Keady, 6-0, 180-pound junior, the team's leading pass receiver last year. Both first string ends, George Laddish, 6-1, 180-pound junior, and Don Zadnik, 5-11, 180-pound junior, also return.

With this experienced group of passers and receivers, Mertes hopes to field a dangerous passing attack which will help open up the Cat running game. "We should have a more balanced attack," he said.

Mertes sent his team through two and a half hours of individual drills yesterday with the emphasis on offense, as it has been since the beginning of spring practice. He said he would switch the team to defensive drills starting today through the rest of the week in preparation for Saturday's scrimmage.

"We're way ahead of any-

thing we have done in the spring before. The only thing that can hurt us is injuries," he said, referring to a squad that carries only 52 men as compared to Missouri and Kansas — both these schools reported approximately 100 men at spring drills.

"We have probably the smallest squad in the conference but it's not the numbers, it's the quality that counts," said Mertes.

With all but one regular from last season's starting eleven returning, Mertes is concentrating on developing a strong second unit.

"You can't win against the competition we play with one good team. We feel our second group has to play as much as the first group, and that second group will win a lot of games for you. We should have three good teams but we are trying to get two good teams right now."

In an effort to develop the new men who will back up the experienced first unit, Mertes is putting his team through a heavy schedule of contact work. He hopes to finish fundamental drills in the first two weeks of practice and then concentrate on scrimmage.

"We are trying to give the new men all the work they can handle. What makes a football player is scrimmage and they need lots of scrimmage. I think the most healthy thing about this group is that they like scrimmage. Of course I don't want to scrimmage

so much they lose their zest for it," Mertes said.

OCU Not Ethical? KU Coach Is Mum

Lawrence, (U.P.)—Coach Dick Harp of Kansas said today he would make no comment on charges by Referee Al Lightner that Oklahoma City violated the code of ethics "to the very last degree" against Kansas in Western National Collegiate Athletic association regional basketball play at Dallas last Saturday.

"I won't make any statement on it and I don't want to stir up any controversies," Harp told the United Press.

However, he did say that "as

always, we were pleased with the conduct of our boys, both on and off the court. Their behavior was exemplary in every respect."

As another comment on the game, Harp said, "I am disappointed in Coach Lemons' (Abe Lemons of Oklahoma City) astuteness when he stated that Wilt can't stop within 20 feet. Wilt can change directions quicker than anyone on our squad."

Wilt, of course, is Wilt Chamberlain, the 7-0 Kansas Soph.

Ike Prepares for Meeting With MacMillan This Week

Compiled from United Press
By KEITH KEMPER
Aboard Eisenhower escort ship,
—President Eisenhower saw
supersonic Terrier missiles from
the cruiser Canberra knock down
a high-flying drone target plane
off the Bahamas today.

The President was given the
demonstration of America's
guided missile might as the
Canberra took him on a
leisurely get-well cruise in
tropical waters prior to his
Bermuda conference later this
week with British Prime Min-
ister Harold MacMillan.

Mr. Eisenhower and members
of his staff watched the firing
from a small deck area near huge
radar direction finders which
control movements of the mis-
siles.

Docking to Veto Sales Tax

Topeka—Gov. George K. Dock-
ing said today he will veto "any
increase" in the retail sales tax
that the Legislature presents to
him.

Yesterday, the House as-
sessment and taxation commit-
tee amended a bill to propose
a one per cent increase in the
sales tax.

Gov. Docking said the "sales
tax a tax levied on the poor,"
and "that unless the Legislature
feels that it has the sufficient
strength to over-ride my veto,
they would be advised to save
their time and the taxpayer's
money by not presenting..." a
sales tax increase "to me for sig-
nature."

It would require a two-
thirds vote of both Houses to
over-ride the Democratic Gov-
ernor's veto.

"I have repeatedly stated my
opposition to any increase in the
state two per cent sales tax," the
banker-Governor said, "and I
now inform the Legislature that
I will veto any bill increasing the
state sales tax..."

Gov. Docking said "there are
other tax sources or combina-
tions of tax sources to which
resort can be made for the
additional revenue needed re-
sulting from failure of the
Legislature to adopt the resi-
due proposal..."

Nixon in Tunisia Today

Tunis, Tunisia, — Vice-Pres-
ident Richard M. Nixon got down
today to the task of working out
with Tunisian leaders the out-
lines of a \$5 million U. S. techni-
cal aid program.

The Vice-President and his
wife Pat arrived here by plane
from Rome yesterday afternoon
for an enthusiastic welcome by
some 150,000 jubilant Tunisi-
ans.

Tunisia, which observes to-
morrow the first anniversary of
its independence from France, is
the 12th and last North African
and Mediterranean country Nixon

Interviewing Begins For Vet Applicants

Interviews for admission to the
School of Veterinary Medicine will
begin Thursday, according to Dean
E. E. Leasure. Applicants are
being notified by letter as to the
dates of their interviews.

Scheduled on Tuesday and
Thursdays from 3 p.m. to 6 p.m.
and on Saturdays from 10 to 12
a.m., the interviews will be in
Veterinary hall.

Dean Leasure reports that ap-
proximately 115 men have applied
for admission to the school. The
committee on Selection hopes to
have at least part of the class
chosen by April 15.

is visiting on his 22-day tour.

Nixon dined with 54-year-
old Tunisian Premier Habib
Bourguiba last night and later
conferred at length with the
Arab leader and other Tunisian
officials.

MacMillan to Bermuda

London—Prime Minister Har-
old MacMillan flies to meet Pres-
ident Eisenhower in Bermuda
today.

A six-point agenda has been
drawn up for the board out-
lines of the world review by
the two leaders.

It lists: the future of the
Anglo-American Alliance; Anglo-

American policy towards Russia;
the Middle East; the future of
European defense; China and
other Far Eastern problems, and
the role of the United Nations as
an international policy organ.

Foremost in the British mind
is the restoration of Anglo-
American friendship.

MacMillan will argue that
failure to restore a "working
partnership" between London
and Washington will spell dis-
aster for the Western world.

Failure of the conference,
British officials feel, would
amount to an invitation to
Moscow to drive a dangerous
wedge into the Western Alli-
ance.

WEATHER

The weather forecast for Kansas
is fair in the West, slowly clearing
in the East today. It is warmer
over the state except in the East.
It will be fair tonight, warmer in
the West.

STUDENT HEALTH

There are four students in Stu-
dent Health today, three men and
one woman. The men are Sam
Chestnut, AH Sr; Richard Falter,
PrV Fr; and Richard E. Barrett,
EE Fr. The woman is Marilyn Jo
Rogers, HE Fr.

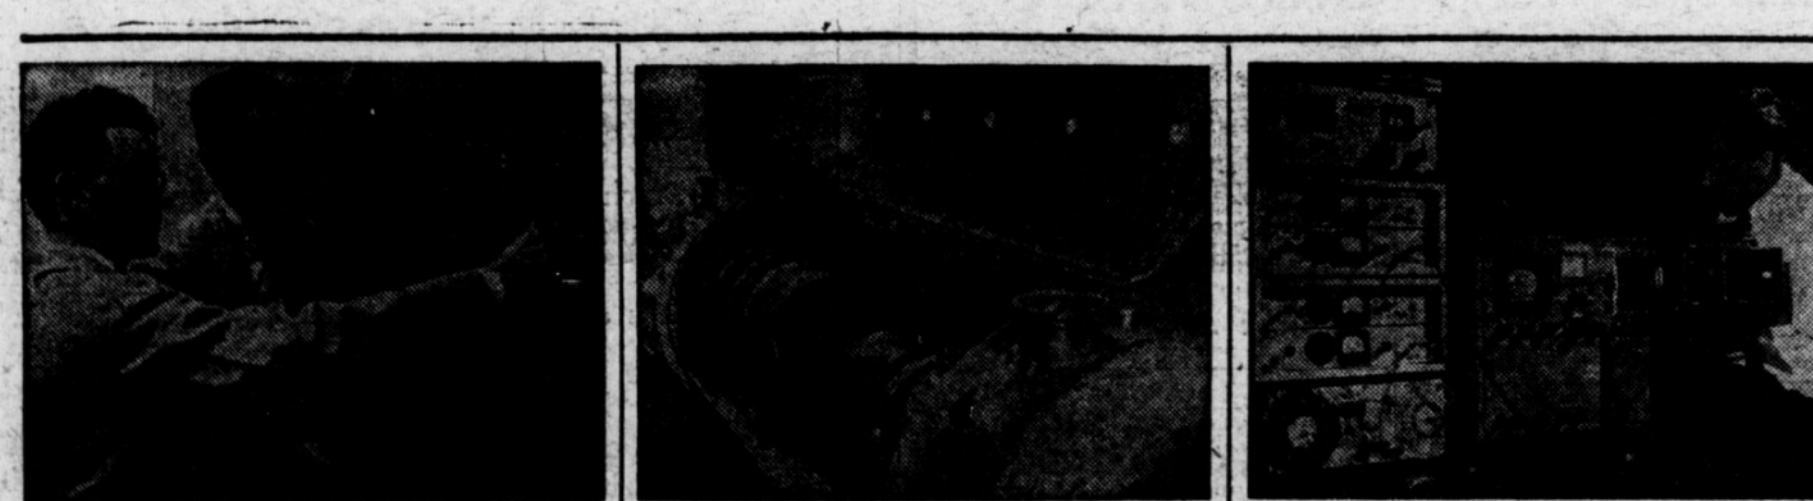

What's doing... at Pratt & Whitney Aircraft

Professors practice what
they preach... and vice versa

Following a practice of twenty years, Pratt & Whitney
Aircraft will again welcome a group of college pro-
fessors as members of the engineering staff during the
coming summer months.

Last year our "summer professors" represented col-
leges from coast to coast. They tackled important projects
in such diverse fields as instrumentation and vibration,
combustion, compressible flow, and materials develop-
ment. Despite the limited time available to these men,
they made significant contributions to our overall effort.

Though it was to be expected that both the com-
pany and the participating professors might benefit di-
rectly from such a program, the sphere of influence
has been much broader. The many students who are
taught by these professors during the college year are
sharing the ultimate benefits... profiting from lectures
that are sparked by the kind of practical experience
that can be gained with a recognized industry leader
like Pratt & Whitney Aircraft.

Several "summer profs" voluntarily spent
part of their time conducting refresher
courses for P & W A's young engineers.

One assignment involved a comprehensive survey
of equipment for the expansion of high-altitude
test facilities in Willgoos Laboratory, the world's
most complete, privately owned jet engine lab.

Technical contributions were varied.
Worthwhile assistance was given in vibra-
tion and instrumentation studies.

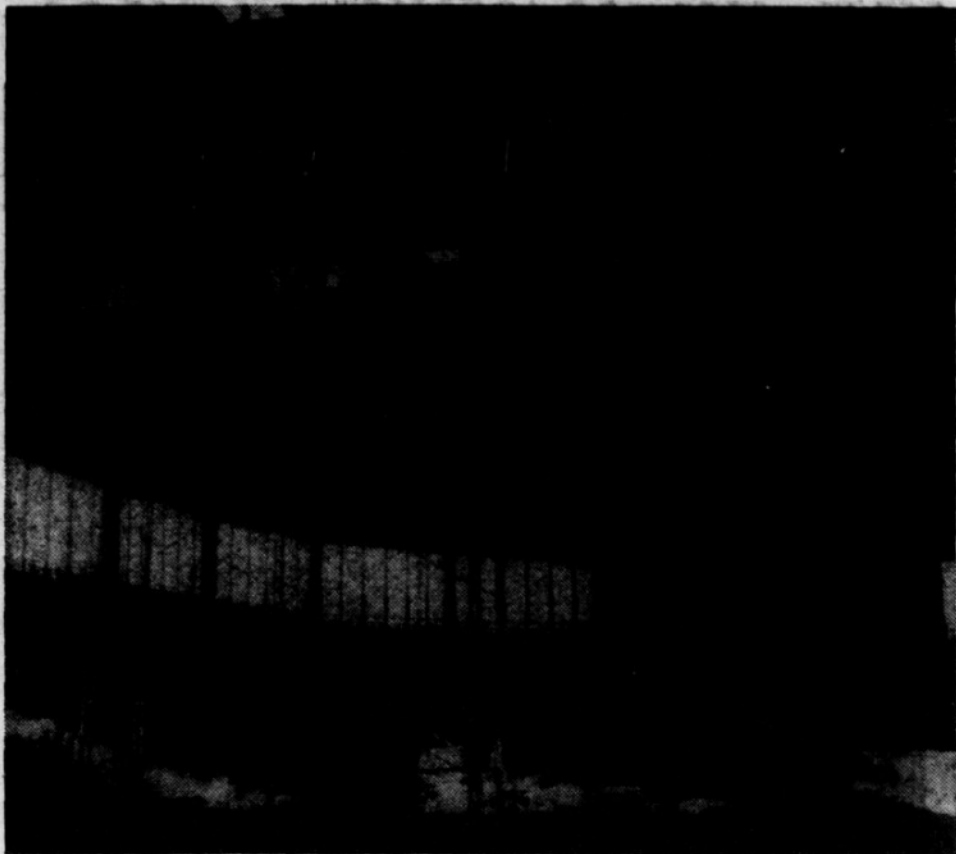

World's foremost
designer
and builder
of aircraft engines

PRATT & WHITNEY AIRCRAFT

DIVISION OF UNITED AIRCRAFT CORPORATION
EAST HARTFORD 8, CONNECTICUT

Barn Nears Completion

THE NEW LIVESTOCK BUILDING will be completed by the middle of June, according to R. F. Gingrich, physical plant superintendent. All departments of the agriculture school will use the livestock pavilion part of the building, while the specialized laboratories will be used by various classes such as meats and wool.

Two Clubs Okayed By Activities Board

The Student Activities board met yesterday and approved two groups as student organizations. It also okayed two fund-raising projects sponsored by the Arnold Air Society.

A committee report recommending standards for approving places for special functions was tabled for discussion next week.

The Gainer club for students interested in diving and the Baptist Student union, an organization for students active in the Southern Baptist church, were approved as recognized student activities.

The Arnold Air Society plans for a paper drive and a theater ticket-selling project were given the board's sanction. The air force organization will sell tickets for a movie to be held at a local theater. They will re-

ceive a 35% profit from the theater chain.

The paper drive will be held in April after the mid-term. Profits will go to support the Air Force ball and Angel Flight.

Dwight Bennett, Ar 02, chairman of the Student Activities board, was elected the outstanding member of the board. He will be honored with other committees' representatives at a Recognition banquet to be held by the Student Governing association on April 4.

IPC To Meet Tomorrow

Interfraternity Pledge council will meet Thursday at 7:30 p.m. at the Chi Omega house, according to Rex Pearson, BA Fr, publicity director for the group.

Kansas State Collegian

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Wednesday, March 20, 1957

NUMBER 110

McCain Says

Bill 280 in Kansas Legislature Would Let Some Skip ROTC

A bill has been passed by one house of the Kansas legislature and is before the other house exempting certain students from taking courses in basic military training, according to President McCain.

The bill states that students will be exempt who:

1. Are unfit to pursue such a military training course because of any physical defect or disability or whose health will not permit.

2. Because of age or certain physical characteristics would not be, upon successful completion of the basic military training, eligible to continue advanced military training leading to a commission in one of the armed services.

3. Has certain religious beliefs or because of citizenship would not be eligible for or required to perform military service in the armed services.

4. Has had previous training in or for some branch of the armed services, if exempted because of previous training in or for some branch of the armed forces, may be allowed college credit for time served in the armed forces as shall be appropriate in the individual case. The present law includes this stipulation.

The general purpose of the bill is to liberalize military training requirements as the

college interprets them, according to Col. Charles H. Wilkens of the Military Department.

The original bill, which would be repealed or amended by this bill, states that all colleges or universities in Kansas under the Morrill act shall include in their course of study a course or

courses in training and tactics in any one or more of the following armed services: the army, air force, navy, marine corps, coast guard, or any other armed service of the United States.

The Morrill act donated public lands to states which have colleges teaching agricultural and mechanic arts.

Registrar Announces Pre-Enrollment Plan

"Enrollment will hereafter be divided into its specific parts of advisement, assignment, completion of personal data cards, and payment of fee," E. M. Gerritz, director of admissions and registrar, announced today. "This is to avoid confusion or misunderstanding of the term pre-enrollment."

Assignment to fall semester classes will follow advisement this spring, according to Gerritz.

Personal data cards will be filled out and fees will be paid immediately prior to the opening of classes in the fall. Students who are not assigned in the spring will complete all phases of enrollment in the fall.

"If early advisement and

assignment of students is to be continued, each student will have to assume more responsibility for meeting with his adviser and for building his class schedule," Gerritz said.

Gerritz defines advisement as "the consultation between the student adviser about the course to be required and elected for a forthcoming semester. Assignment is the reserving or pulling of class cards for specific hours and days according to the schedule."

Appointments for advisement should be arranged by the student. Details on the specific procedure for early advisement and assignment for next fall will be announced later.

KS Student Pilots Practice in Flying Club Planes

Two airplanes, an Aeronica Champ and a Cessna 140, are the prize possessions of the K-State flying club, which recently affiliated with the college and changed its name from the Civil Air Cadet flying club.

The club was originally incorporated in June, 1955, with

eight shares of stock in circulation. It now has provision for 15 members with shares valued at \$125.

Club director Keith Robertson, AgE Jr, says there are no additional memberships available at present, but interested persons may place their name on the waiting list. A meeting to explain the club will be held in April for interested persons.

To qualify for membership, applicants must be either students or faculty members of the college. Before a member may fly the club aircraft, he or she must meet the requirements of the Civil Aeronautics authority.

Five of the club members already have their private pilot's licenses. They are Robertson; Dale Gessell, former K-Stater living in Manhattan; Dr. Clyde E. Wasson, assistant professor of agronomy; Ron Thompson, ME Soph; and Merrill H. Bumbaugh, ME Sr. One member, L. C. Garrison, DH Sr, has a commercial pilot's license.

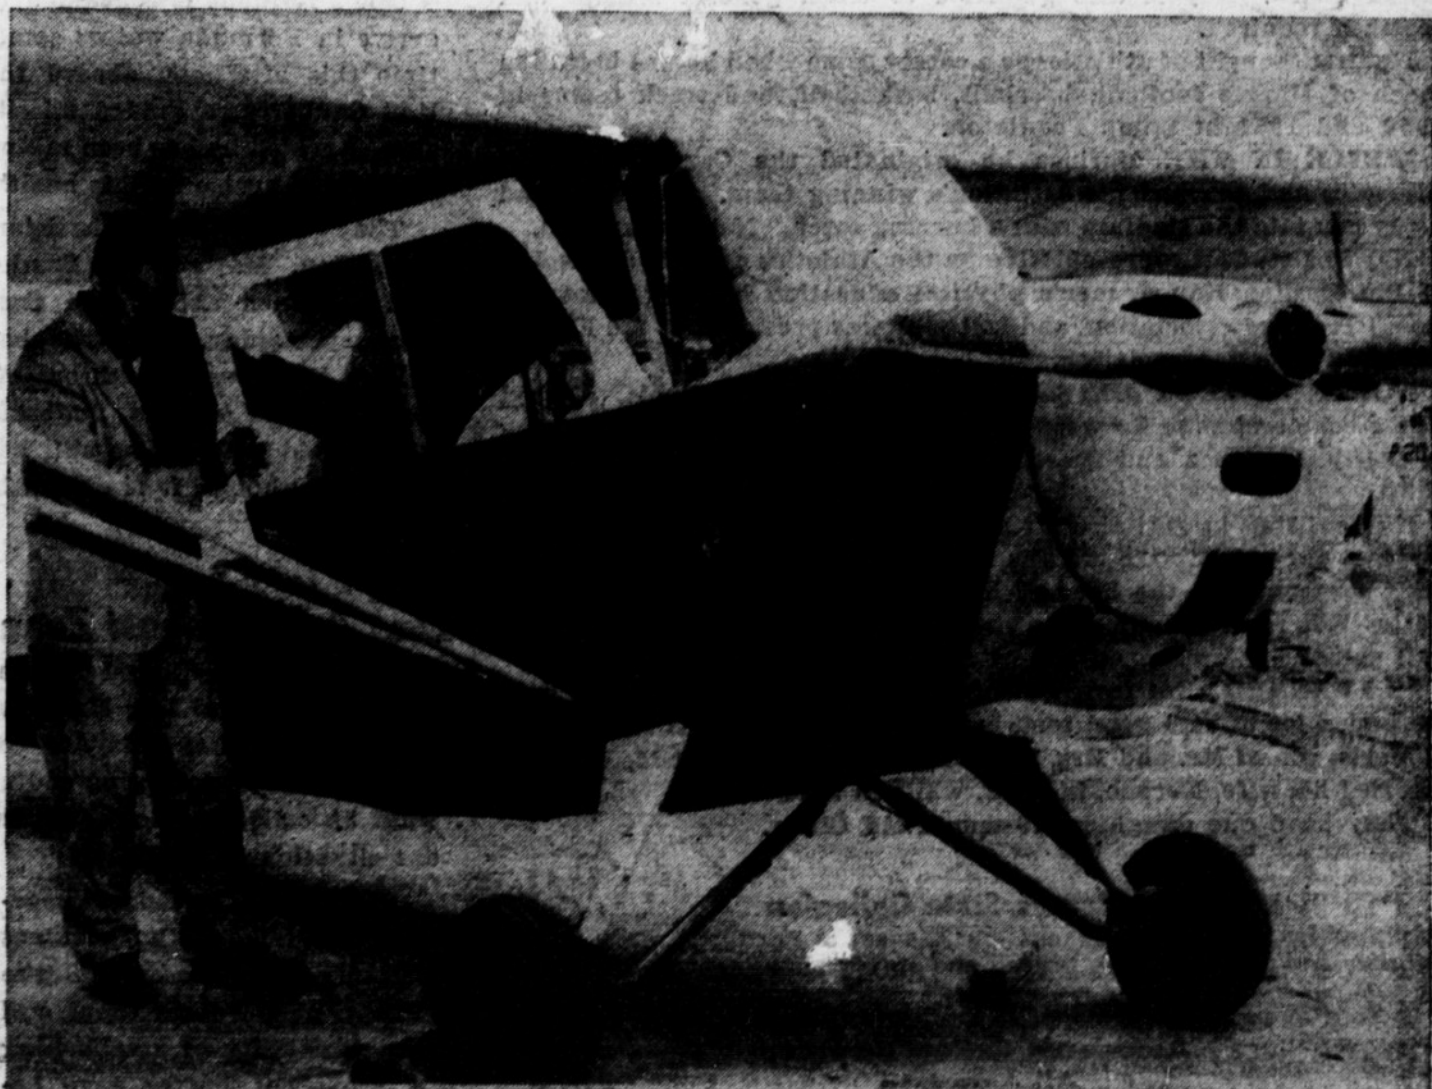

The student pilots are Margaret Richards, Soc Fr; James Hartwick, a former student; Leo Pennington, Ag Fr Jim Needham, BA Sr; Donald Gier, TA Sr; LaVerne Lervold, ME Sr; Gary Peterson, Ag Jr; and Dale Steffes, ME Sr.

Six Debaters In Tournament

K-State debaters will participate in an invitational forensic tournament at Northwest Louisiana State college in Natchitoches, La., on Thursday, Friday, and Saturday.

The local delegation consists of Sharon Nuttle, PrL Fr; Pat Trent, BMT Fr; Tom Bowman, PrL Jr; Ray North, PrL Jr; Kay Eplee, BA Soph; and Bob Paulson, ChE Soph.

A sweepstakes trophy will be points in both debate and the awarded to the school accumulating the greatest number of individual events. Winners in individual events and the outstanding debater will receive medals. Second and third place winners will receive certificates.

MERRILL H. BUMBAUGH, ME Sr, flight officer of the K-State Flying club, prepares to climb into the cockpit of an Aeronica Champ, one of the two planes owned by the club.

Injured Cat Athletes Are Merle's Meat

PERSONALITY of the Week, Merle Nay, takes times out from his training and coaching duties to reflect back on his many experiences as Wildcat taper-upper.

By JAY WORKMAN

"BEING ASSOCIATED with K-State athletes and the athletic staff has been my greatest thrill," says Merle Nay, PEM Sr, and this week's Collegian Personality of the week.

Nay is the tall lean man in the white trousers K-State sports fans see on the sidelines at all Wildcat football and basketball games. Part of his job as assistant trainer is to be on the spot when Cat athletes get injured.

BUT MORE important is the work Merle does in the dressing room. He attends every practice and is responsible for taping up the men before all practices and games. Merle also travels with the track squad as trainer and helps head trainer Porky Morgan. "I have gained wonderful practical experience and advice from Porky," he said.

Nay is freshman baseball coach and also lends head coach Ray Wauthier a hand during the spring months.

AS FROSH COACH he orients prospective varsity players to the practice schedule and checks their high school records.

Merle said, "Since Big Seven freshmen aren't allowed outside competition, so we are limited to four or five freshmen-varsity games before the season is over."

IN ADDITION to his college activities, Merle has done a lot of work with city teams and has built a good record while in Manhattan the last three years.

In the summer of 1954 he coached the Cole's department store softball team to the city league championship. In 1955 he spent the summer coaching Manhattan's Junior American Legion baseball team to a league championship and last summer he was mentor of the local Lumbermen's Nine that took first in its league.

ANOTHER OF NAY's jobs is being director of East stadium. "I act as landlord to 27 football players we have living up above us."

He has accepted the head football and basketball coaching position at St. Francis (Kan.) High School, and will take over next fall.

HE COULD SPECIALIZE in training as an occupation but would rather coach. Nay is also qualified to teach general science and health if required.

He first thought of athletics as a career came when he was battalion coach of Marine football, baseball, basketball, and track teams in 1950 and 1951 at Camp Pendleton.

WHILE IN THE Marines he originated the Camp Pendleton Olympics and coached his battalion's winning team. "We even had a guy run into the stadium with a burning torch," Nay commented.

Nay is a student representative on the Athletics council, a member of Phi Epsilon Kappa, men's physical education honorary, the National Trainers association, and last year was president of the Kansas Future Teachers association.

NORTHWESTERN UNIVERSITY at Evanston, Illinois, offered Nay a scholarship so he went there for a year and a half, majoring in political science and speech, before enlisting in the Marines in 1950.

Nay enlisted in anti-aircraft artillery but was assigned to special services for all but six months of his three-year hitch. He was a staff sergeant and the head of his battalion athletic program. His duties ran from planning the season's schedule to umpiring baseball games.

"**I LEARNED** a lot from coaching the Pendleton baseball team—we had a lot of real good semi-pro ball players on that team."

Merle, son of Mr. and Mrs. Harold S. Nay, 746 Litchfield, Wichita, married his wife, Norene, in 1952, while in the service.

They have one daughter, 19-month-old Cindy.

KS Campus Industries Inc. Busy Securing Work for Kansas Staters

Campus Industries, Incorporated, a committee set up by the Student Council to meet and work with local groups in order to create and secure more student jobs, is getting up steam.

The Industry has met with Manfax, \$100,000 Manhattan industrial development committee, and has formed a corporation, started a weaving industry, and is in the process of starting a magazine sales organization.

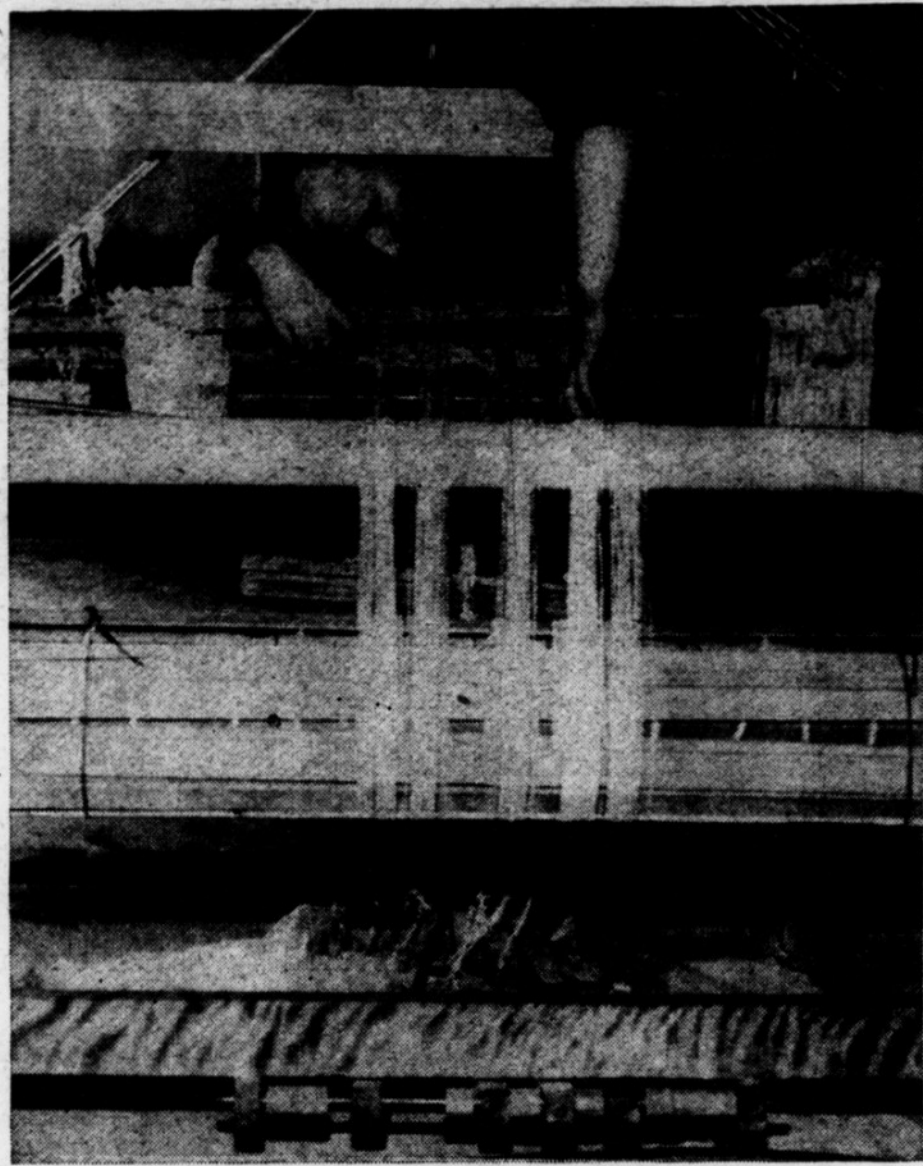

Since its organization the committee has changed its purpose to the creation of student jobs at a higher than average wage rate.

In a meeting between Manfax and Campus Industries it was decided that Campus Industries would make a survey for Manfax.

The survey, a poll of students taken during pre-enrollment, found that 75 percent would like to work for Campus Industries. This survey also collected data on a cross section of K-State student skills.

Campus Industries then turned its interest toward a possible weaving industry which will become a reality when production starts today. A poll of Kansas interior decorators was taken over Christmas vacation to determine their reaction toward buying hand-woven products from a K-State industry. It was favorable.

At the present time the industry is in the process of working up a sales organization to sell magazine subscriptions for the Curtis Circulation Co.

DOYLE MOORE, BA Jr, gets down into the entrails of the Campus Industries loom to get it set up for operation. Moore, in charge of weaving for the industries, is working in the basement of Anderson hall, temporary home of Campus Industries. Today is the first day of operation for any Industries project.

World News Briefs

Inclement Weather Threatens Important Ike-Mac Conference

Bermuda—Wet, windy weather threatened to wash out elaborate welcoming ceremonies for President Eisenhower and British Prime Minister Harold MacMillan today.

A forecast of cloudy with possible showers forced British Colonial Secretary J. W. Sykes to make alternate plans for receiving the two statesmen for their crucial attempt to re-align Anglo-American policies.

The President is scheduled to arrive in Bermuda waters sometime this afternoon aboard the USS Canberra, a guided missile ship on which he has been taking a sunshine cruise for his health.

The President's physician, Maj. Gen. Howard M. Snyder told newsmen aboard the Canberra yesterday, the trip has helped the President throw off many effects of his lingering winter cold but that he still has a cough although it is diminishing daily.

Dag Asks Mideast Zone

Cairo, Egypt—United Nations Secretary General Dag Hammarskjöld was flying today to the Middle East in hopes of ending what he called the long, drawn-out situation of crisis.

He arrives in Cairo tomorrow for talks with President Gamal Abdel Nasser on the future of the Suez canal and the possibility of establishing a war-proof buffer zone between Israel and Egypt.

Though the situation was still

tense, recent conciliatory statements by Egypt eased the immediate threat, including one that Egypt would not fire on Israel ships using the Gulf of Aqaba.

Beck Case to Head Today

Washington—James R. Hoffa, heir-apparent to Teamster President Dave Beck, said that Senate investigators may already have "cooked Beck's goose," according to a federal grand jury.

Meanwhile, Beck—head of

the nation's biggest union—had until mid-afternoon today to decide whether to surrender his personal financial records to the Senate rackets committee or be slapped with a quick subpoena. He conferred with his attorneys in Seattle, Wash., yesterday on what move to make.

As the committee waited for the deadline it gave Beck it recalled western teamster chief Frank W. Brewster to explain some mysterious uses of union funds.

KS Collegiate 4-H To Hold Movie Premier

A premier showing of "Timberline and Tundra" will be presented April 1 in Williams auditorium, Umberger hall, by the Collegiate 4-H club. Tickets are on sale at the Student Union information desk. They are 75 cents

for students and \$1 for adults.

Photographers Cleveland and Ruth Grant say they have spent nearly half a lifetime of study and animal photography in making this film. After the picture, the

Grants will conduct a question and answer session.

Block and Bridle

Students interested in becoming members of Block and Bridle club are urged to attend a meeting Monday at 5 p.m. in WA 7, according to Walt Martin, president.

Martin stressed that prospective members need not be enrolled in Animal Husbandry, but should have an interest in livestock.

Geology Gems

Geology Gems, wives of geology majors, will meet in Fairchild hall Thursday at 8 p.m.

Phems

The members of Phems, women's physical education club, will meet Thursday at 4 p.m. in Nichols gym, according to Dolores

Hess, PEW Sr. president. Reports of committee chairmen will be given on Playday, which was March 16.

AWS

Election of officers for the women's council of the Association of Women Students will be held in the Union and in Anderson hall April 1 and 2.

Rosalyn Rowell, Soc Jr, tabulated the library questionnaires that were given to all women students living in organized houses. "There wasn't enough positive interest shown to begin a campaign

for longer library hours," she said.

Education Conference

Dr. Verne Sweedlun, professor of general studies, will leave Thursday for a conference on general education at Des Moines, Iowa. He will be chairman of a section on Social Science.

ENGINEERING STUDENTS

WE CAN'T PROMISE
YOU THE WORLD...

...but

we can offer you a genuine career opportunity with the leading jet aircraft equipment manufacturer.

Hamilton Standard's tremendous rate of expansion alone is evidence enough of the obvious opportunities now open at this beautiful, modern plant. However, there are numerous other "plus" values which you will want to consider:

- 1) the opportunity for further, tuition-assisted study at R.P.I. Graduate Center.
- 2) the exciting, challenging projects dealing with fuel controls for both jet and nuclear engines, air conditioning systems, jet starters, and turbo-propellers.
- 3) the tremendous variety of openings, so that you may select the field which interests you most.
- 4) the ideal location, in beautiful Connecticut, within easy travel distance to Boston or New York.

These are just a few of the reasons it is essential for you to talk to Hamilton Standard.

HAMILTON STANDARD

VOLUME LXIII NUMBER 111
Kansas State College, Manhattan, Kansas, Thursday, March 21, 1957

Kansas Senate Passes Bill To Control Campus Traffic

A Legislative bill providing for a fining system to be used in regulating traffic on the Kansas State campus has passed the State Senate and will be before the House in the next few days, according to Daniel D. Beatty, College business manager.

The bill, number 250 in the Senate, will govern traffic on the campuses of K-State, Kansas university, the KU Medical Center at Kansas City, Kansas State Teachers college at Emporia, Kansas State Teachers college at Pittsburg, and Fort Hays Kansas State college at Hays.

Section two of the bill states that "No motor vehicle, whether privately or publicly owned, may be parked upon institution parking facilities except as authorized by the Board of Regents."

The only change which this bill will make at K-State is that the College will be able to fine persons parking cars illegally on the campus instead of the method presently used, according to President McCain.

The system presently used provides that after a student has three parking tickets, he is restricted from driving on the campus and that after four tickets he is dismissed from the College.

Section four states that when an institution is located within the corporate limits of a city that persons violating ordinances shall be subject to prosecution

in the police court of the city. This section of the bill does not affect K-State, according to President McCain, since the College is not within the limits of Manhattan.

The College has requested that this bill be passed, McCain

stated. If the bill passes the House then the College Tribunal and the Traffic Control board will study the situation in light of KU's experiences with the fining system to determine what would be an appropriate amount for violations at K-State.

Union Made Profit On Crewcut Dance

The Union dance committee made a profit on a big-name attraction for the first time in two years when the Crewcuts appeared at a concert and dance here March 9, according to Bob Alexander, Union program director.

"Total income less expenses incurred left a net profit of about \$25," Alexander said. "Although the income on ticket sales was \$1,664, the Crewcuts and the orchestra cost \$1,500, leaving a gross profit of \$164. Miscellaneous expenses included cost for publicity, ticket printing, programs, and sound men and a custodian at the auditorium. Subtracting the cost for these items gave us the small net profit."

"We lost about \$175 on a comparable dance a year ago when Les Elgart was here. When the Four Lads were here for the Union opening last March, we lost about \$500," Alexander said.

Although it wasn't considered a big name attraction, the Cell Block Seven dance in December, 1955, was profitable, showing a net of about \$270. The low cost of the band probably accounted for most of the profit, Alexander said.

"The Ralph Marterie concert in February last year also brought a small profit, but Marterie was scheduled here because of a traveling circumstance," Alexander explained. "The band was on tour and wanted to play an extra concert so we scheduled them for a weeknight."

The high cost of nationally famous artists, plus the fact that the committee is trying to keep admission costs to a reasonable amount are probably the main reasons why it doesn't usually make a profit, he explained. Tickets are low in price here compared to other campuses.

Seniors Get Applications For Honors

Seniors graduating in May or August of 1957 or in January of 1958 who have maintained a grade-point average of 1.75 are eligible for senior leadership honors, according to Ralph Nevins, associate professor of Mechanical Engineering and chairman of the Senior Honors committee.

Seniors who have not already received honors applications in the mail may pick them up at Nevins' office, E 106. All applications must be returned to the committee by April 5.

Three per cent of the graduating class from each school or approximately 35 seniors will receive senior leadership badges and certificates in recognition for outstanding scholarship and campus activities. The awards will be made at the honors assembly sometime in May, Nevins said.

Ah, Rain!!

"Wonderful," says Betty Theiss, HEJ Sr.

Even Break Financially Seen for K-State Union

"Our best estimate right now is that the Union will break even financially for the fiscal year which ends June 30," Loren Kottner, Union director, said yesterday.

He stated, however, that it

would be impossible to make an accurate report until the end of the fiscal year. Accounting for the fact that the Union finances showed a deficit of \$18,000 in September and would probably show a deficit at the present time

if they were totaled, he explained that only a report for an entire fiscal year can give a true picture.

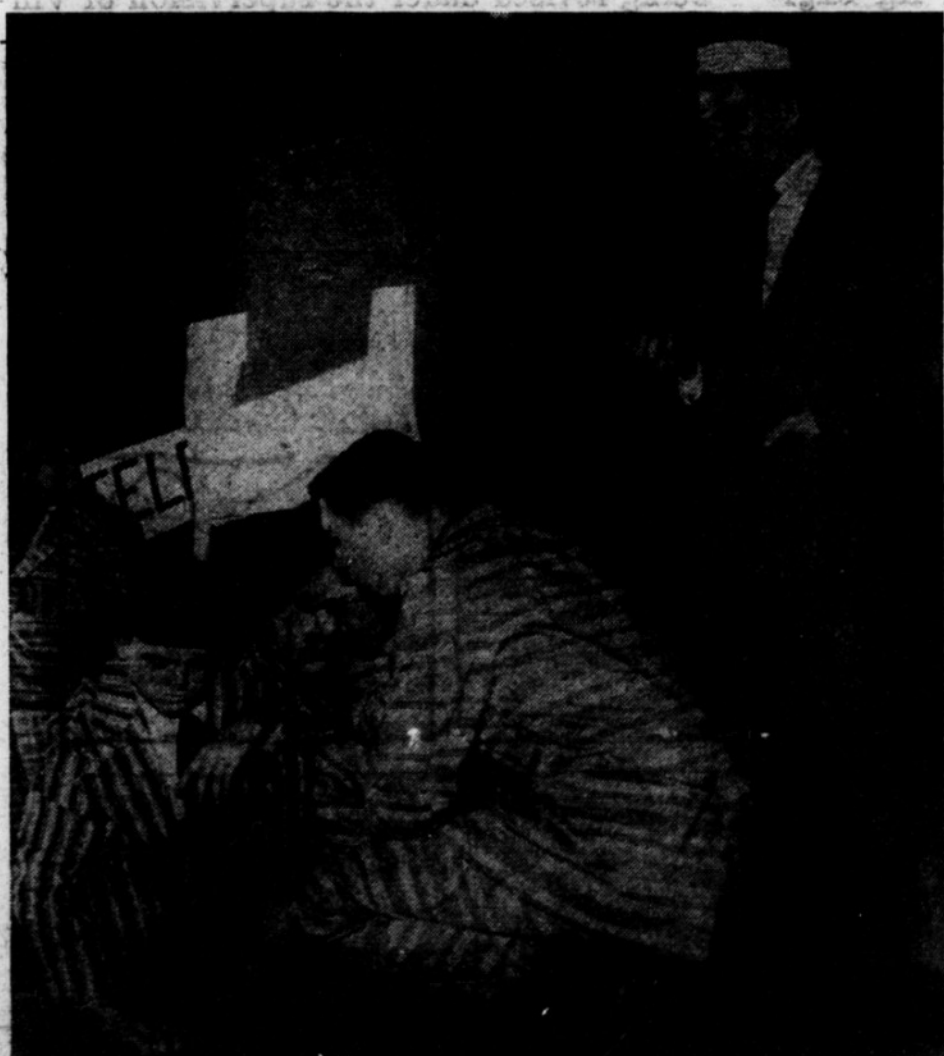

It is impossible to state accurately whether any particular part of the Union is making or losing money, because many parts work together so closely, according to Kottner. For instance, he said, the complete food service is breaking even, although the cafeteria is losing money. Also, the cost of maintenance for the entire building is figured in one account so it would be impossible to tell how much each department spends on maintenance.

"The failure of the dive is the success of the stateroom," said Kottner. He believes the reason for the failure of the dive is probably the conduct of students and non-students, and he does not believe faulty designing of the dive has any bearing on the situation.

The program council is now working on specific programs for the dive so students will have a reason for going there at a particular time, he reported. "We are also trying to make arrangements for selling coffee there," he said.

Concerning the stairway on the south side of the Union, Kottner stated it was built to meet fire requirements of the building, and he sees no point in keeping it open. He explained that the stairway is equipped with panic doors which open only from the inside. "We feel the doors of the Union are conveniently located, and there is no need to open the doors to the stairway," he said.

Spotlight To Shine on Y-Orpheum Skits

HOT DICE GAME is interrupted by Bob Krizman, BAA Soph, right, in the opening scene of ATO's Y-Orpheum production during dress rehearsal last night. Other "hoods" are from left, Jim Angle, TJ Fr; Phil Upton, ME Fr; Fred Martell, Ar O2; and Roger Mochamer, CE Fr.

The 29th annual production of Y-Orpheum, which is being sponsored this year by the YMCA and a K-State Union committee, is ready for production in the College auditorium at 8 p.m. tomorrow and Saturday, according to Jan Madsen, HEJ Soph, publicity director.

The show features seven skits based on a general theme "Channel Chuckles," which was borrowed from Bill Keane, a nationally syndicated cartoonist. "There are still seats available for tomorrow night's performance although Saturday night seating is scarce," Miss Madsen said.

"The judges, who are not affiliated with the college in any way, have been picked and have received their judging criteria," Miss Madsen said.

Earl Hoover, professor of speech, and dramatics adviser for the show said, "This year's show promises to be the best of any I've worked with." Hoover has been directing Y-Orpheum since 1943.

Outside of expenses incurred by the production and staging of the show, the profits are turned over to the YMCA's general charity fund.

This money is then used by the YMCA cabinet to help various charitable organizations in Manhattan and around the state.

Miss Madsen said this year's Y-Orpheum should reach a all-time high in providing enjoyment for the audience because of the hard work and enthusiasm shown by the cast.

A full length dress rehearsal is scheduled for tonight. Each skit will practice twice with all music, lighting, and sound effects.

O. D. Hunt, professor of electrical engineering who has been in charge of lighting for Y-Orpheum since 1930, will handle lighting arrangements this year too.

Organizations having entries in this year's Y-Orpheum are Pi Beta Phi, Chi Omega, Delta Delta Delta, Alpha Gamma Rho, Acacia, Sigma Alpha Epsilon, and Alpha Tau Omega.

Two trophies will be presented in the fraternity division Saturday night, and one trophy will be awarded the winning sorority.

Party Doll' Is Tops On Everyone's List

SPRING HAS sprung,
Grass has ris

AND SO has Steve Lawrence's record, "Party Doll." It is No. 1 on the list of record sales in Manhattan this week. However, rising faster and more unexpectedly is, "Little Darlin'," by the Diamonds, a disc that has reached the No. 3 position in its first week on the top ten list.

The jukebox list is showing little change with, "Young Love," by Sonny James, still holding the top position.

THE TEN best sellers in Manhattan this week are:

1. "Party Doll," Steve Lawrence
2. "Butterfly," Andy Williams
3. "Little Darlin'," The Diamonds
4. "Teen Age Crush," Tommy Sands
5. "Young Love," Tab Hunter
6. "Why Baby Why," Pat Boone
7. "I'm Walking," Fats Domino
8. "Marianne," Terry Gilkyson
9. "Walking After Midnight," Patsy Cline
10. "Don't Forbid Me," Pat Boone

THE TOP ten tunes played on Manhattan jukeboxes this week are:

- "Young Love," Sonny James
"Marianne," Terry Gilkyson
"Banana Boat Song," Harry Belafonte
"Too Much," Elvis Presley
"Don't Forbid Me," Pat Boone
"Butterfly," Andy Williams
"You Don't Owe Me a Thing," Johnny Ray
"Teen Age Crush," Tommy Sands
"Love Is Strange," Mickey and Sylvia
"Who Needs You," Four Lads

THE BOSTON POPS orchestra, conducted by Arthur Fielder, now has a record for "lowbrows," called "Classical Music for People Who Hate Classical Music."

The album, which includes music by Beethoven, Schubert, Verdi, Tchaikowsky, Strauss, Chopin, and Rachmaninoff, is arranged to convince people who think classical music is over their heads that it isn't.

It points up the fact that many of the world's most popular tunes and dance rhythms come from so-called classical music and demonstrates that many attractive qualities can be found in music outside the ordinary, "popular" field.

World News Briefs

Ike, MacMillan Begin Confab With Mideast Mess Main Topic

Compiled from United Press
By KEITH KEMPER

Bermuda — President Eisenhower and Prime Minister Harold MacMillan settled down at the lavish mid-ocean club today to discuss Anglo-American interests in a broad field ranging from the Middle East crisis to aid Communist Poland.

According to the best available information from both British and American sources, President Eisenhower planned to do most of the listening in the first stage of the conference and let the British take the initiative.

Beck to Report Tuesday

Washington — The Senate Racket Committee today awaited word from Teamster President Dave Beck whether he will turn over all his personal financial records voluntarily.

Committee chairman John L. McClellan called on Beck to telegraph during the day a promise that he will surrender all the records when he appears before the committee Tuesday.

The committee recalled this morning western teamster boss Frank W. Brewster for more questioning on the charge that he was linked with an alleged rackets-teamster plot to control Ore. and gambling in Portland, Ore. Brewster denied it last week.

Dag Begins Egypt Talks

Cairo—UN Secretary General

Dag Hammarskjöld began crucial talks with Egypt today in the biggest challenge of his diplomatic career. It was an uphill effort to break the Middle East deadlock, and pessimism was growing.

The dispute over the Suez Canal was right back where it was last October when Britain and France intervened in Egypt. The canal is to be cleared within three weeks, and the problems of tolls and management were as far from solution as ever.

House Chops Ike Budget

Washington—A House appropriations subcommittee said today the only way to cut the budget is to stop setting up new federal projects.

It rejected administration the Hoover commission proposals to give Congress a tighter control over spending as merely "magic devices" that won't work.

The economy-minded House yesterday passed its fourth trimmed appropriations bill of the current session. The lawmakers chopped more than a half billion dollars from a \$5.9 billion request for operating 18 government agencies including the civil defense and veterans administrations.

Student Council's KSC-KSU Brochure Idea Commendable

THE STUDENT Council has decided to print a brochure listing the pros and cons of the Kansas State college versus Kansas State university question.

The brochures will be out soon, according to Gary Haynes, TJ Sr, chairman of the Brochure committee. The Council's decision to print the brochures is commendable and it would be an excellent idea if each student would make a point of reading them when they come out.

A POLL of student opinion will be conducted after the brochure has been published. However, the question would have to be considered by the State Legislature

before it could become official in favor of KSU.

Opinion at the immediate time seems to indicate a large section of the campus is in favor of the new name because of the distinction between the terms "college" and "university."

SPRING SGA election petitions are due in the Dean of Student's office by next Monday.

We are sure that any of the students who have served on the Student Council or other governing groups this year would agree that their position has been an educational as well as interesting and challenging experience.—Jane Moore.

K-State Campus Is Developing Under Twenty-Year Program

Architects and engineers may not plan their cities for the future according to architect Charles Luckman, but K-State is planning for its future, according to R. F. Gingrich, physical plant superintendent.

K-State started its campus planning back in 1934 under a "Twenty-Year Program" and is continuing it today under a Campus Development committee.

Comparing the campus building maps of 1934 and 1957 we see that:

1. The Field House was proposed at the south end of the stadium. In 1950 it was completed—only at the north end.
2. A proposed armory has never been built.
3. The proposed location of the men's residence halls for the west side of 17th street has been changed to the west side of 18th street, land not owned by the college in 1934.
4. The livestock pavilion proposed in 1934 is now being constructed as part of the Animal Industries building.
5. Additions were proposed to the old veterinary hospital, but instead a new veterinary hospital was built.
6. Additions were proposed but still haven't been made to the power plant.
7. The proposed wing to the Engineering building was added and an Ag engineering wing is now under construction.

8. There is still no new auditorium proposed.

9. According to the 1934 map, Willard hall has been moved further north than first declared.

10. The library has been enlarged as was suggested in 1934.

In 1947, K-State President Milton Eisenhower appointed a Campus Development committee headed by Dean R. A. Seaton, former Dean of the School of Engineering.

President McCain has continued and expanded this committee work with Dean R. I. Throckmorton, former Dean of Agriculture, as chairman. This committee consists of faculty, administrative officers and students. The members take suggestions and requests from the various schools regarding building needs and set up a priority listing.

In 1952 the Kansas City firm of Hare and Hare was employed to work with the Campus Development committee in producing a map of future K-State. This new plan provides facilities for 10,000 to 12,000 students.

This development plan, like the one in 1934, has been followed closely but of course has been modified to fit changing needs and enrollment. At the present it is being revised under the supervision of Vincent Cool, campus architect, to accommodate the present-day predictions.

Still Alive, Cutting Censorship Board

Topeka.—(U.P.)—The Kansas House yesterday killed by a 54-68 vote a bill that sought to abolish the Kansas State Board of Review, one of the few state film censorship boards remaining in the nation.

Lawmakers have attempted to abolish the Board in several recent Legislatures.

By a vote of 86-13, the House sent to the Senate a measure requiring that all junk yards within 200 feet of Kansas highways must be either removed or screened from view.

Other measures given final approval and sent to the Senate included:

—Approval, 96-7, of a bill to exempt certain non-draftable students at Kansas State college from taking ROTC military training "when the Army would reject them anyway."

—Approval, 88-22, of a bill authorizing the State to create a system of issuing drivers' licenses on a staggered 12 months basis.

IM Finals Tonight; Deltas, Betas Meet

Delta Tau Delta, Beta Theta Pi, and OK House advanced to the finals in intramural volleyball in their respective divisions by winning last night in semi-final play.

Both championship games will start at 7 tonight in Ahearn gymnasium. The Deltas will meet the Betas for the fraternity championship, and in independent finals OK House will meet Phi Epsilon Kappa, in the finals by virtue of a bye.

Van Zile Victorious In Girl Intramurals

Van Zile hall defeated Alpha Chi Omega, 22-17, last night in women's intramural basketball.

Evie Warner led Van Zile's scoring with 11 points. High scorer for the A Chi O's was Layln Krey with 12 points.

Delta Delta Delta forfeited to Kappa Delta in the other game scheduled for last night.

Last night, the Deltas edged Sigma Chi, 15-13, 17-15. Sigma Nu lost to the Betas in a 70-minute match, 15-9, 12-15, 15-11.

In the independent meeting, OK House knocked Jr. AVMA out of contention after spotting the vets a 15-11 lead. They won after that, 15-5, 15-9.

In a make-up game, Pi Kappa Alpha whipped Kappa Sigma, 15-3, 15-12.

Eleven To Try For Top Spots On Golf Team

Qualification for the golf team's first match will start Saturday with 11 men shooting for a berth on the four-man traveling squad.

Dave Pfuetze, Jerry Smith, and Ron Young are lettermen back from last year and Joe Downey and Jerry Hendricks return from last year's squad.

Other men working for spots on the team are Gary Hardin, George Hooper, Bob Moore, Fred Nolan, Fred Saunders, and Bruce Stover.

K-State invades Wichita university on April 4, Oklahoma A&M April 5, and Tulsa April 6, in a three-day road trip.

Baseball to Start April 2d

K-State will play a 23-game baseball schedule this season, starting April 2 with the Wildcats' traditional two-game series with the Memphis (Tenn.) Naval Air Station team.

The K-State diamond schedule, announced by Bebe Lee, director of athletics, shows the Wildcats meeting each of the other Big Seven schools under the new conference policy of three games per week-end.

The K-State baseball schedule:
April 2, 3—Memphis Naval Air Station at Memphis, Tennessee
April 4—Arkansas Tech at Russellville
April 5—Arkansas State at Jonesboro
April 6—To be announced
April 12, 13—Nebraska at Lincoln (Three-game series)
April 19, 20—Kansas at Manhattan (Three-game series)
April 26, 27—Oklahoma at Norman (Three-game series)
May 3, 4—Missouri at Columbia (Three-game series)
May 10, 11—Iowa State at Manhattan (Three-game series)
May 17, 18—Colorado at Manhattan (Three-game series)

Registrar Says

Cards Available Monday For Pre-Fall Advisement

Students wishing to be advised and assigned classes for the fall semester may secure their dean's cards for advisement purposes

beginning Monday, according to E. M. Gerritz, director of admissions and registrar.

Cards may be picked up by stu-

dents in Arts and Sciences or Engineering and Architecture in their department offices, by those in Home Economics in 113 Calvin hall, by those in Agriculture in 116 Waters hall, and by those in Veterinary Medicine in 105 Veterinary hall.

"Each student should make an appointment with his adviser for the purpose of preparing a list of courses to be taken by the student in the fall semester and summer school, if he plans to enroll for the summer."

He said, however, that while all students may be advised about future studies, only those who have no failing grades at the end of the nine weeks will be eligible this spring for assignment to classes.

Line schedules cannot be issued until early April. Therefore eligible students will be asked to prepare a complete proof ticket in accordance with their advisement as soon as line schedules are available.

Gerritz stated that no student would complete enrollment until next fall. Class cards and proof tickets will be held by the registrar until the fall. Completion of enrollment in the fall will involve filling out of personal data cards and paying fees. Reasons for leaving them until the fall, Gerritz said, are that personal data would be up-to-date and that students in general would rather pay fees in the fall.

Deadline Soon For Ordering Senior Gowns

All graduating seniors must have their caps and gowns ordered by April 1, according to Robert A. Anderson, assistant director of admissions and registrar. Candidates for graduation may place orders at the Campus Book store.

Commencement invitations will go on sale in Kedzie hall the first week in April. Members of Theta Sigma Phi, women's journalism honorary will handle the sales.

Eight SGA Petitions In; Only One for President

Among the eight petitions received so far for the Student Governing association primary April 4, only one is for student body president, according to Neil Scott, Zoo Jr., chairman of the elections committee.

Tom Bowman, PrL Jr., has filed a petition for student body president under the Integrity party.

Three petitions have been received for positions on the Board of Student Publications. Applicants are Jim Bell, TJ Soph, independent; Roger Myers, TJ Jr, independent; and P. A. Young, AgJ Soph, Integrity.

Four petitions have been received for student council representatives. They are for Sam Strahm, VM Soph, School of Veterinary Medicine, Integrity; Larry McDonald, PrL Soph, School of Arts and Sciences, Integrity; Gene O'Connor, PEM Jr, School of Arts and Sciences, Integrity; and Carol Kellogg, HT Soph, School of Home Economics, United States.

Petitions for office can still be obtained from the Dean of Students' office. The petitions have to be filed in the office by 5 p.m. Monday.

Any students who would be interested in helping with the election booths should be at the meeting of the election committee Monday, at 5 p.m., in the SGA office, according to Scott.

Position Applications Must Be in by Monday

Applications for positions on the Union Program council must be in the Union Activities Center by 5 p.m. Monday.

Positions on the program council are chairmanships of the publicity, games, campus entertainment, dance, coffee hours, harmonizers, movies, hospitality, art, music-library, flash card, and jazz club committees.

Applications are also being taken for the positions of chairman, vice-chairman, and secretary of the council.

Skits To Be Given By Greek Groups

Photo by Gary Haynes

WON'T BE LONG until these two Y-Orpheum trophies are sitting in somebody's trophy cases, Dorothy Wahle, EEd Jr, says as she scrutinizes the blank plate where the winner's name will be engraved.

"Everything seemed complete last night at the final dress rehearsal for the 1957 Y-Orpheum," according to Bruce Wilson, His Gr, general chairman for the show.

Y-Orpheum is scheduled to begin tonight and tomorrow at 8 p.m. in the College auditorium.

Tickets will be on sale at the east, west, and main entrance of the Auditorium starting at 7 p.m. on the night of the performance, said Barbara Ericson, B, tickets manager for this year's show. Tickets will also be on sale Saturday in the K-State Union at the information desk until 4 p.m. today and from starting at 9 a.m. until 4 p.m. tomorrow, Miss Ericson added.

"I believe that this year's show will top any Y-Orpheum

production for the past 15 years," Matt Betton, musical director, said.

In their order of appearances will be Pi Beta Phi with "Ding Dong Rhythm"; Alpha Tau Omega, "TV or not TV"; Chi Omega, "64,000 Yen"; Acacia, "This Far North"; Delta Delta Delta, "The Katkateer Klub"; Alpha Gamma Rho, "Behind the Scenes with Sgt. Philco"; and Sigma Alpha Epsilon, with "Rickey Rat and his Kremlin Gremlins."

Besides the participating houses the program will include the Four Deltas, an entire act, and Gordon Jump, Sp Gr, doing between-act emceeing.

Wilson announced that the final plans for a TV show over WIBW-TV in Topeka would be announced shortly after the production this Friday and Saturday.

Regional Debate Tourney Planned Here Monday

Kansas State college will host the West Point Regional debate tournament in the Student Union Monday, according to Prof. Charles S. Goetzinger of the Speech department.

Debaters Anita Grimm, Soc Sr, and David Nuttle, AH Jr, will represent K-State as one of ten teams selected on the basis of individual yearly records for tournament competition. Eighteen schools from the fourth debate district submitted bids.

Five rounds of debate will be held here. The top five teams in the tournament will go to the West Point Nationals at West Point, N.Y., in April.

The first round of debate

will begin at 9 a.m., and will be followed by a second round at 10:30 a.m. After lunch, debates will commence at 1 p.m. and will continue on a two-hour schedule until all five rounds have been completed.

The debate is open to the public. Schools participating are K-State, Southwest Missouri State college, University of Kansas, Southwestern college, Wisconsin State college, St. Olaf's college, Marquette university, Nebraska Wesleyan university, Washington university at St. Louis, and Pittsburgh State Teachers college.

Photo by Doug Tedrow

GETTING SET for a ten-school debate meet on campus Monday, Dave Nuttle, AH Jr, and Anita Grimm, Soc Jr, go over their notes. The winning five debate teams will have a chance to attend the national meets at West Point.

Colorado U Prof Suggests Limericks To Sharpen Sterile Intellects

By Shari Shellenberger

IN A student-faculty debate at the University of Colorado on the question "Is the campus student population intellectually sterile?", one of the participating professors refused to make a statement on the debate.

Instead, he offered to hold a limerick contest in which the winners would receive free dinners at his home. Entrants must complete the last line of this limerick:

"There are too many students in Boulder
Whose minds are beginning to moulder
And shrivel and die
Because they don't try
....."

OUR SYMPATHY goes to Oklahoma's Bud Wilkinson. During a preliminary grid workout at which senior Sooner all-Americans Tommy McDonald and Jerry Tubbs aided in coaching the drillwork, Wilkinson remarked: "We have some very good players out there on the practice field, but most of them are coaching."

We're more inclined to believe the Oklahoma Daily assistant sports editor, who says: "Looks like another successful season for Coach Bud Wilkinson and his Big Red football team."

And of course, at Oklahoma U., "successful" is a synonym for "undefeated."

K-STATE'S WHO are still confused by the student identification system employed by the Col-

legian, (Joe Jones, BA Soph), should actually feel fortunate.

At the Angeles City college, NO identification of students is used in the Los Angeles Collegian except in the letters to the editor column. Here a student's name appears: Stuart Abramowitz ID 200719, or Rod Flewelling ID 300834.

BEFORE THE March 2 KU-Colorado basketball game, a headline in the University of Colorado Daily screamed, "WILT & CO. HERE TOMORROW." And "The Knothole" column featured this one:

"Twas the night before the Kansas game and all through the Field House, not a creature was stirring (don't kid yourself, there are mice in the Field House, but the AUP seating plan took care of all humans who might have been camping out on line for tickets this early).

The Buffaloes were snuggled all tight in their beds, while visions of 20 foot baskets danced in their heads.

AND WITH SOX (Walseth, Colorado coach) in his gym shorts and Bruce (Conway, freshman coach) thanking his stars that he only had to coach the first game, they all settled down to "dream" another perfect defense.

When what to their wondering eyes should appear, than an eight foot center, room, board, and tuition all free and clear (just like Chamberlain's: Ha! Ha!).

Inquiring Reporter

Wildcat Fans Charge Pep Clubs, Cheerleaders with Inefficiency

By SHARON ANTHONY

Did the K-State cheerleaders and pep clubs do an effective job of supporting the athletic teams this year in the opinion of student body members?

The consensus is, "No," by a ratio of two-to-one.

Although it was difficult to get clear-cut yes or no answers, the qualifying statements of the individuals interviewed definitely left the impression that both the cheerleaders and pep club could have been much more effective.

● BONNIE BRYAN, HT Fr—"No, they only really backed the teams when they were winning and to be effective you must try to build morale while the team is losing, too."

● JANET SCHAFER, EED Fr—"I think the pep club supported the cheerleaders, but the cheerleaders failed to support the athletic teams properly. They were more like a group of grade school cheerleaders than college cheerleaders."

● PAT WILKERSON, BA Sr—"I think we had a charming group of cheerleaders who did an excellent job of supporting the teams. There may have been a few minor mistakes, but I think they were the most successful group in years."

● BARBARA FLINN, HE Fr—"I think they did a lousy job, particularly the pep club. They didn't even wear their uniforms on the days of games like they were supposed to."

● COLENE HENSON, HE Fr—"No, I don't think they were as effective as they should have been, but they did improve toward the end of the season. I think one fault of the cheerleaders was they just seem to take their job as just another honor and not one to improve school spirit."

● EDDIE WALLACE, Mth Sr—"I think they have done as good or better than groups in the past four

years have done and are behind the teams as much as any other school in the Big Seven."

● AL NILES, GA Soph—"They were fairly colorful during football season, but could have improved considerably during basketball season. I think the pep clubs need some backing and strength."

● MARGARET RICHARDS, Soc Soph—"No. The cheerleaders in particular were not nearly effective enough. They lacked enthusiasm and are badly in need of some new yells."

● DON ZADNIK, BA Jr—"Yes, I think the cheerleaders and pep clubs supported the teams as well as could be expected."

● EMILY MOHRI, EED Fr—"The cheerleaders lacked enthusiasm and pep, in fact, they didn't even all come to the home games. A lot of people in the pep club weren't in it because of their interest in backing the teams, but just joined for social reasons or to get choice seats at the games."

● LARRY FISCHER, BAA Jr—"They did a fairly good job, but I would say they only ranked about midway in the Big Seven and might be classified pretty low compared to some of the schools."

● BETTY POTEET, TJ Fr—"The Iowa State game at Ames was a perfect example of how well the cheerleaders backed the teams—pep club with no one to lead them."

● PAT McDERMOTT, BA Jr—"I would commend them for their work, but I do think they could have initiated a better type of program to raise school spirit—like pep rallies."

● JIM ANTHONY, BAA Jr—"Kansas State's athletic teams were the type that deserved a good, peppy, well-coordinated pep club supporting them. I think the majority of the students feel that they definitely weren't what they should have been, but will anything be done about it? NO!"

Ike-Mac Conference Having Good Results

Compiled from United Press

By KEITH KEMPER

Bermuda—The United States and Britain, faced with Russia's boasts of globe-circling atom bombers, sought closer coordination today on future production of atomic weapons and guided missiles.

President Eisenhower and Prime Minister Harold MacMillan have reached a "gratifying measure of agreement" in their talks so far. They conferred privately this morning on construction of a Baghdad Pact Pipeline while their top aides discussed European affairs.

The two top statesmen planned to join the roundtable conference later in the morning and then call Iobeah Lsdvplitary advisers for the grave discussion on joint weapons production this afternoon.

Spokesmen for both sides mentioned the "gratifying measure of agreement" Mr. Eisenhower and MacMillan had found.

They hastened to point out, however, that there still remained some divergence of views on specifics. One of these might be the degree of faith the two nations place in Egyptian President Gamal Abdel Nasser. The British have none at all.

Dag Continues Efforts to Avoid Mideast War

Cairo—UN Secretary General Dag Hammarskjold is trying to persuade Egypt not to send troops into the Gaza strip and Sarh El Sheikh, although he admits Egypt's "legal" right to do so, informed sources reported today.

Hammarskjold met for five hours last night with President Gamal Abdel Nasser and again this morning with Foreign Minister Mahmoud Fawzi. He was seeing Nasser again later in the day in his "secret diplomacy" efforts to stave off a new Middle East war.

Hammarskjold ordered a tight security ring to protect his "super-secret diplomacy" but word seeped out he was trying to persuade Nasser not to move troops into the two tinderbox areas. There have been rumors but no indications Egypt planned to send troops there.

Nixon Back from Africa with Doctrine Approval

Washington—Vice President Richard M. Nixon has brought back strong evidence from Africa that Egyptian President Gamal Abdel Nasser's star is waning among Arab leaders, informed sources said today.

However, they said Nasser's influence still remains great with the Arab masses.

Nixon, who returned yesterday from a triumphant 19,000-mile swing across Africa, called on all "interested nations" to provide greater economic and political contributions to bring about a long-range peace settlement in the troubled Middle East.

Nixon found wide approval during his 22-day tour of President Eisenhower's Middle East Doctrine and its aim of strengthening Mideast nations economically and politically so they will not fall under the domination of either Russia or Egypt.

Air Force Plane Lost at Sea; All Feared Dead

Tokyo—A U.S. military transport plane with 67 persons aboard fell today into the shark-infested waters off Japan where winds of near-typhoon force lashed the sea into giant waves that hurled spray hundreds of feet into the air.

All aboard were feared dead.

Brief hopes for the 10 crew members and 57 passengers aboard the huge C-98 Boeing Stratocruiser were dashed when a sighted "life raft" turned out to be an overturned rowboat with a straw mat floating beside it. The sighting led an Air Force spokesman to say "hopes are very high."

But a senior Air Force pilot said "it would have been damned near impossible to make a successful ditching under the conditions—the plane would just break to pieces in high seas like this."

Quotes from the News

By UNITED PRESS

Washington—Vice President Richard M. Nixon, after his 19,000-mile African tour, citing the Arab refugee problem as the real key to a Middle-Eastern solution:

"This problem can't be brushed under the rug. If we are going to have a long-range settlement in the Middle East, all interested nations must make a greater contribution economically and in leadership.

Washington—Dr. Paul Dudley White, President Eisenhower's 70-year-old heart specialist who stresses the importance of hiking, bicycling, or golf to keep in shape, on being asked if he played golf: "I haven't had the time but I will take it up again when I am old enough."

CLAPPING IN APPROVAL after a "competitor's" act are Marylyn McCready, Eng Sr (seated), Pi Phi housemother Mrs. J. I. Hollingsworth, and Pi Phi national extension director Mrs. Paul Hansen.

SUCKERS FOR PUNISHMENT—Matt Betton (top center) and his orchestra, after practicing long hours with Y-Orpheum skits for two nights, sat after the performers left last night and practiced some more.

Cats Lose Top Vaulters For Indoor

By JIM CAIN

K-State's Indoor track team suffered a severe blow Monday when junior polevaulter Karl Lindenmuth sprained his ankle in practice.

Lindenmuth will be unable to vault for approximately three weeks, according to Coach Ward Haylett. In the track meet tomorrow in Ahearn field house, Lindenmuth would have been vaulting against Missouri's fine duo of Karl Englund and Bob Davis, and Emporia State's Dick Utter.

Haylett also said that Nebraska definitely was not entering the meet but that Oklahoma A&M would send a pair of two-milers plus a two-mile relay team and a distance-medley relay team. The Aggies had said previously that they would not enter the meet.

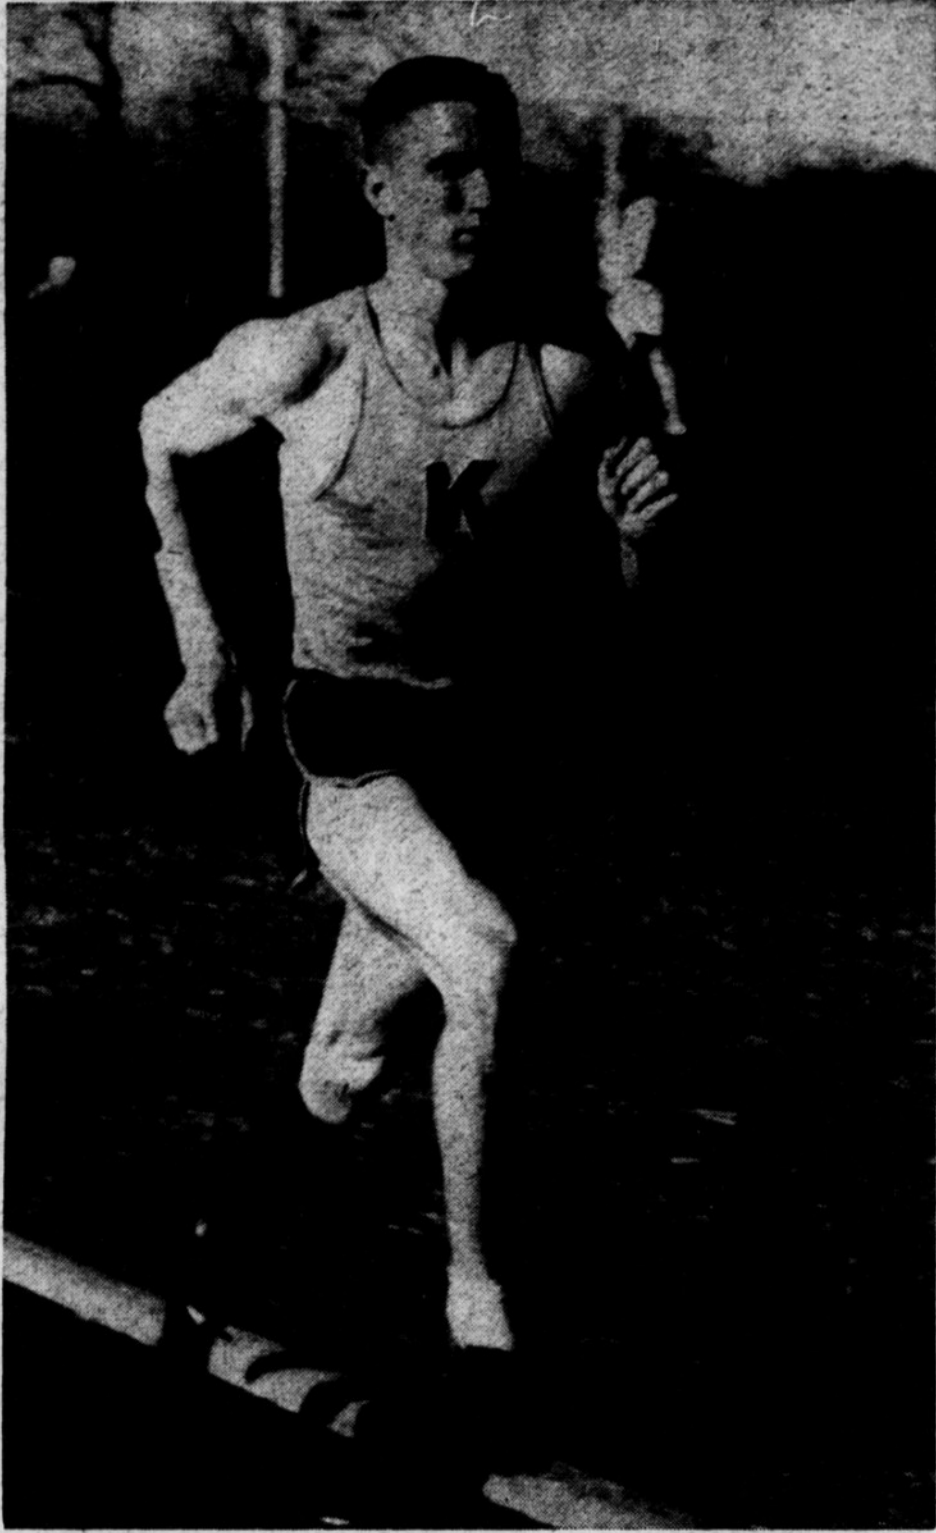

As a sidelight, Haylett said that there would be two and possibly three events that freshmen could compete in against themselves. The 600-yard run and the 1,000-yard run are definitely slated and the high jump is a possibility.

The meet, which starts at 7:30 p.m. features some of the nation's top trackmen. Heading the list is Emporia State's Billy Tidwell who has run the outdoor half-mile in 1:48.6.

Tidwell's teammate, Dick Utter holds the state collegiate outdoor polevault record at 14 feet, 4 inches. Missouri's fine vaulting pair, Englund and Davis, are currently ranked among the top ten collegiate polevaulters for the year by the National Collegiate Athletic association.

Also in the meet will be four 1957 Big Seven indoor champions, three of them from Missouri and one from K-State. The lone champion from K-State is hurdler Gene O'Connor from Hoisington. O'Connor won the low hurdles in seven seconds.

From Missouri are 60-yard dash champ, Henry Wiebe; high jumper Jim Kilgore; and polevaulter Englund. Wiebe, who has run the 60-yard dash in 6.2, will be dueling with Pittsburg State's Bobby Wooten in the 75-yard dash. Wooten has also run it in 6.2. Last year Wooten ran the 100-yard dash in 9.6.

BILL TIDWELL, Emporia State's star distance runner, will compete against K-State and four other teams tomorrow in Ahearn field house. Tidwell won the mile earlier in the season against the Cats and Omaha in 4:21.2, far above his best mark.

Baseball Nine Forms Around 8 Lettermen

By MIKE SCANLAND

K-State's baseball team, with one week of practice left before its first game, is being molded around a nucleus of eight lettermen by Coach Ray Wauthier.

Because of bad weather the team has had only one outdoor workout since practice began.

"I haven't seen them play enough to tell who my starters are going to be. Our first game is April 2. I only have one week left to decide who to take on the trip," said Wauthier.

Returning from last year's squad are pitchers, Bill Blume and Bill Sinderson; outfielder Bob Boyd; first baseman Wally Carlson; second baseman Jim Rafferty; and utility infielder Hugh Nethercot. All were starters but Nethercot.

The team will be bolstered by the return of two former squad members who did not play last year. They are pitcher Mike Lair, and outfielder Jim Logsdon.

"We are hurting for catchers, pitchers, and third basemen," said Wauthier. Three of last year's team members quit school during Christmas vacation. They were starting third baseman Paul Clark, starting catcher LaVerne Billinger, and pitcher Joe Heir.

Wauthier believes the team's hitting will be "just fair." The Wildcats compiled a team average of .279 last season. He thinks Boyd and Carlson will be his best men at the plate. Carlson hit .314 and Boyd, .279 last season.

"We should have a better defensive ball club than last year, but pitching is a weak

spot. The pitching I have is fairly good but there is not enough of it," said Wauthier.

Wauthier does not see much chance for the Wildcats to improve on last season's last place conference finish.

"We are getting better but so is the rest of the Big Seven."

Delts, OK House IM Champs

Delta Tau Delta in the fraternity division and OK House in the independent division are 1957 intramural volleyball champions after last night's action in Ahearn gymnasium.

The Delts beat Beta Theta Pi two straight games, 15-11, 15-9, to become the champs. The Delts, who were knocked out of the semi-finals last year by Pi Kappa Alpha, finished the season with a 7-0 record. The Betas, who were last year's winners had a 6-1 record.

OK House downed Phi Epsilon Kappa to take the independent crown. The OK's needed only two games to defeat their op-

ponent, 15-3, 15-4. OK House ended the season with a record of 6-0 while Phi Epsilon Kappa had a 5-1 record.

Students from 17 Colleges On Campus for HE Confab

Seventeen Kansas college home economics clubs will attend the Home Economics association spring conference here this weekend.

Today's program began with registration at 8 a.m., and was followed by a business meeting with a national field secretary, and election of state Home Economics association officers.

A breakfast in the Union for girls in home economics honoraries will begin tomorrow's program at 7:30 a.m. Also planned is an induction of graduating home economics seniors into the National Home Economics association.

gram at 7:30 a.m. Also planned is an induction of graduating home economics seniors into the National Home Economics association.

Agriculture Association

Nominations for new officers of Agricultural association were made by the Agricultural council and a nominating committee at a meeting in Waters hall this week. Election will be at the next meeting of the association on April 4.

ing of the association on April 4.

Candidates for president and vice-president are Jack Van Horn, Ag Jr; Paul Hatfield, AEd Jr; Bill Brethour, AH Jr; and Clinton Pierce, Ag Jr. Candidates with the highest number of votes will be president, and second high will be vice-president.

Others nominated were Reinhart B. Billiar, FT Jr, and Carlyle Thompson, TA Jr, secretary; Dean Porter, Ag Jr, and Bryan Barr, AH Soph, treasurer; Paul Faidley, AEd Jr, Ag Week magazine editor; and Harry Todd, AH Soph, and Jim Beauchamp, TA Soph, assistant Ag Week magazine editor.

Little American Royal

Mock showings of beef cattle in preparation for the Little American Royal will be held today at the beef sheds, just north of the new livestock building, at 5 p.m. and at the Sargent farm northwest of Manhattan at 6 p.m., according to Bill Root, head of the Block and Bridle entries.

All persons who are going to show animals in the Little American Royal, April 6, should attend one or both of these demonstrations, he said.

Don Hamilton, publicity co-chairman, said the hog drawing has been changed from Monday at 4 p.m. to 1:30 this afternoon.

K-State Rifle Team

K-State's rifle team will compete in the Midwest section of the National Intercollegiate Rifle match tomorrow at the University of Nebraska.

S/Sgt. James B. Hart of the AFROTC department will coach a five-man team whose score will be compared to teams from schools throughout the nation.

Competing for the Wildcats will be Floyd Bayer, William Shilling, Tom Banks, Fred Kohman, and Jim Niernberger.

Alumni News

Ex-Foreign Students At Work in America

Two foreign students, graduates of '53 are now employed in the United States. They are Ying-Lun Ma, BS, whose former home was Hong-Kong; and Mijoski Okomura, BA, who formerly lived in Hawaii. Ying-Lun Ma is now with Hatfield, Evans, and Malnus of Philadelphia and Okomura with Metropolitan Water District in Los Angeles.

While Llano Guy Thelin, '53 grad in agriculture was at KSC he was in Collegiate 4-H and Ag Econ club as well as many religious organizations, such as Lutheran Student association, Religious Coordinating council, as well as being chairman of Lift Week. He farmed in South Dakota for a year after his graduation, then entered Augustana Seminary in Rock Island, Ill., where he is now a senior.

Raymond H. Nicholas, BS '53, obtained his master's in '54 and has been with Humble Oil & Refining Company ever since. He is presently living with his wife, the former Carolyn Hanson, '54, in Odessa, Tex.

A cheerleader during the entire four years he was at KSC and head cheerleader his senior year, Randolph Francis Jass, BS '53, was in the service in San Francisco until 1955. He is now doing graduate study at Yale university in New Haven, Conn.

Both Seth Sidney Swift and Richard Duane Holder graduated with DVM's in '53 and are now practicing veterinarians. Sidney

married the former Margaret E. Havpt, '53 and is living in Peoria, Ill., and Holder married the former Shirley A. Hardin, '52, and now lives in Independence, Mo.

The former Mary Lucille Smith, BS '54, married Jay Richard Smith who graduated from Bethany. She is now teaching home economics in Colby.

Presently employed as methods engineer for a division of General Motors in Kansas City is Robert Owen Stratton, BS '53. His wife is the former Norma Rae Peterson.

With a Methodist missionary school in Brazil Clarissa Rolfs who got an MS in food and nutrition here in 1953. She obtained her BS from Florida State university in 1920. She is now employed as head of the department of home economics at the mission and is manager of food service.

Presently with the Kansas State college News Bureau service is Lois Marie Ottaway, BS '53. Her activities included Motar Board, Chimes, Phi Kappa Phi, Who's Who editor, and Royal Purple business editor.

Behind Times

North Egremont, Mass. (U.P.)—An American flag with only 46 stars soon will fly from a new flagpole on the village green. The flag was made between 1907, when Oklahoma became the 46th state, and 1912, when New Mexico and then Arizona gained statehood. It was presented to the town by the late Mrs. George Peck.

Church Leaders Organize Religious Advisers Council

The newly formed Council of Religious Advisers will act as a co-ordinator of student religious activities, according to the Rev. Emerson I. Abendroth, secretary-treasurer for the organization.

The council was formed in order to bring the Jewish, Protestant, and Catholic students closer together, he said.

"We had four purposes in mind when we organized the council last spring."

1. To serve as a co-ordinating agency for mutually agreeable joint activities and to foster understanding.
2. To provide opportunity for the exploration of co-operative approaches to religious work among students and faculty including the study of problems of such work.
3. To maintain mutual and helpful relations with the College in a concern for the total welfare of the students.
4. To work in co-operation with the Religious Coordinating Council.

The members are the Rev. Roy Turner, Canterbury; Mrs. Leslie Kingsbury, Roger Williams; Walter Able, Disciple Student Fellowship; Dr. Max Milner, Hillel Foundation; the Rev. E. J. Weisenberg, Newman club; Delbert Schultz, St. Luke's Lutheran; the Rev. William Keeney, United Student Fellowship; the Rev. B. A. Rogers, Wesley Foundation; the Rev. Emerson Abendroth, Westminster Fellowship;

Miss Helen Bocker, YWCA director; John Hanks, Latter Day Saints; Miss Bernita Owens, Lutheran Student association; Lloyd Hulbert, Society of Friends; the Rev. Harold Ekrut, Southern Baptist; the Rev. Kenneth Huyck, First Baptist; Robert Christiansen, United Student Fellowship;

the Rev. Darrell Yeane, United Presbyterian; the Rev. Leslie Kingsbury, First Christian; and Dr. William Tremmel, K-State director of student religious activities.

Delbert Schulz, director of education and music at St. Luke's Lutheran church, is president. Dr. Max Milner, Hillel, is vice president; and the Rev. E. I. Abendroth, Westminster Fellowship, is secretary-treasurer.

Gamma Phi Beta To Initiate Tonight

After waiting five months, 32 girls will be initiated tonight into Gamma Phi Beta, the 10th sorority to join this campus.

The girls began their initiation activities Wednesday night with a paddle party, each girl contributing a self-decorated paddle and original song to the sorority.

Tonight at 7 in the Presbyterian church, they will be initiated into the Beta Upsilon chapter of Gamma Phi by the Kansas university Gamma Phi chapter president. Seven Manhattan alum-

nae also will be initiated.

Initiation will continue tomorrow at 1 p.m. At 7:30 p.m. the sorority will receive its charter from its grand president, Mrs. Gerald Arnold, at a formal installation banquet in the Wareham hotel.

A formal installation tea in the Student Union ballroom Sunday afternoon will conclude the festivities.

Twenty Gamma Phi's from KU will assist in the weekend activities.

Sororities Elect, Appoint New Officers for Spring

Kappa Delta

ENGINEERING STUDENTS

WE CAN'T PROMISE
YOU THE WORLD...

...but

we can offer you a genuine career opportunity with the leading jet aircraft equipment manufacturer.

Hamilton Standard's tremendous rate of expansion alone is evidence enough of the obvious opportunities now open at this beautiful, modern plant. However, there are numerous other "plus" values which you will want to consider:

- 1) the opportunity for further, tuition-assisted study at R.P.I. Graduate Center.
- 2) the exciting, challenging projects dealing with fuel controls for both jet and nuclear engines, air conditioning systems, jet starters, and turbo-propellers.
- 3) the tremendous variety of openings, so that you may select the field which interests you most.
- 4) the ideal location, in beautiful Connecticut, within easy travel distance to Boston or New York.

These are just a few of the reasons it is essential for you to talk to Hamilton Standard.

If you cannot attend an interview, please send your resume to
Ted Fisher at

performing U. S. automobile"!**

Want facts about performance?

Then look at the official figures from NASCAR's* internationally famous Daytona Beach competition for stock cars. Here's what you'll find: Chevrolet, in two weeks of blistering competition, proved itself as America's Number One performance car. Nothing in the low-price field could touch it.

No other car, regardless of price, scored such a sweep. And Chevy walked away with the famous Manufacturers' Trophy, hands down!

The 1957 Chevrolet is, by all odds, the most astonishing performer ever produced in the low-price field. Best of all, this superiority isn't limited to just a few extra-cost high-performance models. Every type of Chevy—from the six-cylinder models right up to the 283-horsepower "Super Turbo-Fire" V8's, from the single-carburetor V8's with Powerglide to the stick-shift "270's"—is a championship car.

Chi Omega, Sig Alphas Win First Place in Y-Orpheum

Y-ORPHEUM WINNERS Chuck Wingert, director of the Sig Alpha skit, and Lou Ann Oberhelman, director of the Chi Omega skit, hold the trophies won Saturday night.

Pi Phis, FH Top Greek Grade List

Pi Beta Phi sorority and Farm House fraternity won top Greek scholastic honors for the fall semester of 1956, according to figures released by E. M. Gerritz, registrar.

Winning the honor for the eighth consecutive semester, Farm House achieved a 1.949 average, which was slightly below its preceding semester average of 1.848.

With a 1.949 average, Pi Beta Phi moved ahead of Delta Delta Delta, who won the honor in the last spring semester with a 1.939 average.

Kappa Kappa Gamma was second among the sororities with a 1.885 average followed by Delta Delta Delta with a 1.833 average. In the fraternity division, Beta Theta Pi was second with an average of 1.739 and Alpha Gamma Rho was third with 1.481.

All-college average for the fall semester was 1.363. The women averaged 1.643 while the men averaged 1.297.

Farm House and Beta Theta Pi pledges kept pace with their house averages by top grades among the fraternity pledge classes with averages of 1.701 and 1.605.

Pi Beta Phi pledges were top

among sorority pledges with a 1.725 average. Alpha Delta Pi pledges jumped ahead of their sorority rating by taking second place honors with a 1.643 average.

Sorority grade averages for the fall semester are: Pi Beta Phi, 1.949; Kappa Kappa Gamma, 1.885; Delta Delta Delta, 1.833; Clovia, 1.736; Chi Omega, 1.729; Alpha Delta Pi, 1.707; Alpha Chi Omega, 1.642; Alpha Xi Delta, 1.571; Gamma Phi Beta, 1.563; Kappa Delta, 1.522.

Fraternity averages for the fall semester are: Farm House, 1.827; Beta Theta Pi, 1.739; Alpha Gamma Rho, 1.481; Alpha Tau Omega, 1.477; Delta Tau Delta, 1.461; Sigma Alpha Epsilon, 1.436; Phi Kappa Tau, 1.423; Sigma Chi, 1.420; Delta Upsilon, 1.409; Alpha Kappa Lambda, 1.385.

Pi Kappa Alpha, 1.378; Acacia, 1.365; Beta Sigma Psi, 1.357; Kappa Sigma, 1.352; Lambda Chi Alpha, 1.335; Sigma Phi Epsilon, 1.256; Phi Delta Theta, 1.248; Delta Sigma Phi, 1.215; Alpha Epsilon Pi, 1.213; Tau Kappa Epsilon, 1.155; Theta Xi, 1.140; Sigma Nu, 1.004; Phi Kappa, .956.

Gamma Phi Tea

Photo by Gary Settle

TOP BRASS of Gamma Phi Beta are from left, Mrs. C. J. Olsen, collegiate vice-president; Mrs. Elizabeth Arnold, international president; and Kathy Schultis, HEJ Soph, president of Beta Upsilon chapter. The local chapter received its charter Sunday at a tea in the Union.

Opera Star To Sing At Final Artist Series

Norman Scott, Metropolitan Opera bass-baritone, will sing a varied five-part program of 16 numbers when he appears on the fifth Artist Series program Tuesday at 8:15 p.m. in the College auditorium.

Prior to joining the Metropolitan Opera in 1951, Scott had sung leading roles with the New York City

Opera and with other companies in Boston, Pittsburg, Chattanooga, New Orleans, San Antonio, Havana, Hartford and Detroit. He since has appeared with the New York Philharmonic Symphony under Mitropoulos, and in concerts in the United States and Europe. He sang at the Holland Festival and in Vienna, in the Puerto Rico opera festival, and made recordings in Venice for Remington records.

Scott's performance in Manhattan will range from opera and oratorio to show tunes, according to Luther Leavengood, manager of the Manhattan Artist Series.

In part one of the program, Mr. Scott will sing "Within These Holy Portals," by Mozart; "O Ruddier Than the Cherry," by Handel; "If You Find a Lovely Lady," by Mozart; and "Man Is for the Woman Made," by Purcell-Britton.

He will sing "Winterreise," "Das Rosenband," and "The Erlking," all by Franz Schubert on the second part of the program. Giuseppe Verdi's "Aria: Ella M'Amo from 'Don Carlo'" will fill the third part of the program.

Scott will sing "Ellrgie," by Jules Massenet; "L'Heureux Vagabond," by Alfred Brussau; "Reve D'Amour" by Gabriel Foure; and "Au Pays" by Augusta Helmes on the fourth part of the program.

The last part of the program will consist of "The Pilgrims' Song" by Tchaikovsky; "The Chains of Love" by Armstrong Gibbs; "Blow Ye Winds" and "Shenandoah" by Celius Dougherty; and "Long Ago in Alcalea" by Andre Messager.

Arts, Sciences Selects May 4 As Special Day

The annual Arts and Science Carnival has been changed to an Arts and Science Day and will be on Saturday, May 4. According to Carol Miller, EEd Sr, this move was taken to help the departments within Arts and Sciences acquaint others with the school's work.

Each department in the School of Arts and Sciences will have either a display or representatives on hand to explain the various activities which are carried on in each department.

Most of the day's activities will be centered in the Union. A coffee hour is planned for the afternoon after which the Music and Drama departments will entertain. A special feature will be a style show by the newly organized Women's Business club.

Personalized invitations are being sent to six outstanding students in each Kansas high school. The Council hopes to have approximately 500 high school seniors here for the day.

head of radio and TV, and Skip Landen, assistant director of KSAC. The show will be April 10 at 7:30 p.m.

Receiving the trophies were the directors of the shows, Louann Oberhelman, Sp Jr, Chi Omega; Chuck Wingert, His Soph, Sigma Alpha Epsilon; Gary Yeakley, AgJ Jr, Alpha Gamma Rho; Sally Carney, Eng Soph, Delta Delta Delta; Kaye Koon, BPM Jr, Pi Beta Phi; John Upton, ME Fr, Alpha Tau Omega; and John Trachsel, BA Soph, Acacia.

SGA Applications Due In Dean's Office Today

Today at 5 p.m. is the final time SGA petitions may be filed in the Dean of Students' office.

Petitions for student body president, student council members, and student board of publications can still be obtained from the office.

If the slates are filled, there will be 26 candidates entering the primaries April 4 and 5 from each party—22 for student council, three for student board of publication, and one for student body president.

KS Pep Squad To Be Chosen In April Election

Eight regular cheerleaders and eight alternate cheerleaders will be chosen from students who try out in Nichols gym on April 4, according to Larry Youngdoff, BA Soph, present head cheerleader.

A cheerleading school will be held April 1 and 2 in Nichols for those trying out.

Anyone trying out must have a grade average of one point for the previous semester. Cheerleaders will be selected by the cheerleaders' advisory board.

The five qualities on which students will be judged are: ability to do the yell, knowledge of the yell, personal appearance, acrobatic skill, and amount of pep.

Housing Worries Hit College Officials Too

By CHARLES SCHREIBER

The lack of housing facilities and building space is fast becoming a matter of primary importance to the college administration and students alike.

Last fall when Gamma Phi Beta social sorority began its search for a building site, the tight real estate situation hit forcefully home to many organized houses which were casting covetous glances at drawing-board plans of new chapter houses.

The Gamma Phi's applied to the administration for help when it appeared that they might not be able to find a location on which to build. As a result, an emergency building site was considered as a possible answer.

This 15.3 acre site was a portion of college-owned property north of the old Campus road and east of Manhattan avenue. It is presently occupied by the College apiary, nursery, a poultry range, and other projects of the botany and agronomy departments. It is the only part of the college campus land area which lies east of Manhattan avenue.

Dean of Students Wunderlich and others from the administration met with sorority representatives and discussed some of the problems which might arise. Among these problems were such things as possible lease arrangements, whether or not the developed area would be on the tax rolls (as state property it would not be), how building site costs might be determined, and possible building restrictions.

Since the College cannot sell, exchange, or lease its own land without Legislative approval, the administration has taken a careful approach to asking for this approval, mainly due to the fact that the move would be a change in policy toward organized houses.

In the past, each house has been completely responsible for finding its own location.

After the Gamma Phi's were able to purchase a site from a fraternity the discussions ceased and the situation returned to the status quo. The various investigations and discussions indicated two ways the problem of financing and developing the area might be solved.

One method would be for the K-State Endowment association to buy or trade for the land and then do the necessary developing and improving. The organized houses could then secure a long term lease (probably 99 years) and erect their house. This would also satisfy the tax requirements since the Endowment association does pay taxes on its holdings.

The other alternative would be for the College to lease or sell individual building sites from this tract. This would necessitate each house doing its own developing and improving.

The proximity of this location to the existing women's dorms and campus activity centers makes it an attractive geographic location for future women's housing and should be kept in mind by any organization in search of a building area.

Quotes from the News

By UNITED PRESS

San Francisco—Dr. Perry Byerly University of California seismologist elaborating on his 1955 statement that the San Andreas fault had been slipping at the rate of two inches a year since the 1906 shakeup and that a quake could be expected.

"As this slipping continues, tension mounts in the nearby rock structure until the breaking point is reached. When the breaking point occurs, there's an earthquake."

Tokyo—Private detective Takefumi Yasui who predicted last month that San Francisco would have an earthquake March 22: "I told you so."

Boston—Methodist Bishop John Wesley Lord urging that six-year-old Hildy McCoy be allowed to remain with her Jewish foster parents Mr. and Mrs. Melvin B. Ellis instead of being returned to her Catholic mother:

"It is moral judgment that decrees that, for the welfare and good of this six-year-old adopted daughter, the law be superseded by the divine law of love."

Pogo

Editorial Comments

1957 Y-Orpheum Is Improvement

CONGRATULATIONS ARE in order for everyone who worked with, and participated in Y-Orpheum. The program showed a terrific improvement, under the general direction of Bruce Wilson, over previous performances we have seen.

It will be interesting to note what profit the YMCA will clear on the production.

Neither night of the presentation was a sell out. Saturday night's attendance could undoubtedly be attributed to the NCAA tournament and to the weather (but wasn't it wonderful!)

K-STATE IS anxiously awaiting the outcome of its appeals to the Legislature for appropriations. We may need a new Student Health building even more desperately if everyone has sent home their snow boots like we have.

Yes, last Friday was the first day of spring.

Anyone who listened to Dev Nelson's report of Saturday night's game between KU and North Carolina would certainly agree that Nelson is a true Kansan.

We think perhaps he shows his bias too exuberantly for radio and TV broadcasts. Nelson also broadcasted all of K-State's games.

WHILE WE'RE at it, if you have any suggestions for the Collegian's Personality of the Week column, drop in Kedzie and tell one of the editors.—Jane Moore.

Late Season Blizzard Beginning To Slacken

By UNITED PRESS

The severe late season blizzard that struck Kansas late Friday is "gradually beginning to taper off," the U.S. Weather Bureau reported today.

Richard Garrett, forecaster, said the paralyzing snow and rain brought between one and two inches of precipitation to all of Kansas.

Between 7 and 14 inches of snow which drifted to depths of 17 to 20 feet in some spots fell in the Western section of the state.

The Southwestern Bell Telephone Co. has reported it was "out of touch with the entire Northwestern part of Kansas."

Officials said 129 towns were without long distance telephone service.

Communications in the southern half of the state were in better condition because of an underground cable connecting Wichita and Garden City.

Its use was restricted to emergency traffic.

The company said that at least 2,400 poles were down and at least 10,000 cross arms were broken.

It said 596 toll circuits on its long lines in Kansas were out.

Repair crews totaling 1,200 men were struggling to restore service.

An overnight snowfall brought between three to six inches of snow in the Northeast section. The storm will leave several inches of snow as it moves into the Southeast today, officials said and should end there tonight.

Officials reported the snow has almost ended in all sections except the southeast.

Winds gradually are subsiding, the Weather Bureau said, although they will continue to blow around 40 miles an hour today in the Central section. Winds reached up to 60 miles an hour in the West.

Temperatures did not get "exceptionally low," forecasters said, ranging from 25 to 32 degrees during the storms. Temperatures will remain about the same today and will get "some colder" tonight.

Wise and Otherwise— Sidewalks Full, Conflabs Gone

By Darrel Miller

IT SEEMED unlikely this morning that there was a convention in the Union. The sidewalks hadn't been cleaned.

ABOUT THE only thing that hasn't shown up on the platforms of K-State political parties this year is a nice 2-inch rain—and after the past week of precipitation that may not be needed.

All those folks who were disappointed by the lack of a white Christmas can take heart today and hope for a white April Fool's Day... or a green Easter.

A friend of mine has eaten so much hamburger since he's been in school that he's beginning to like it. He says beef steak is hard to chew, and sticks between the teeth.

THE FINALS of the NCAA basketball tournament proved one thing: There's still room in the world for talent.

The Campus Business Relations committee is sampling student buying habits in the hopes of gaining reduced prices for students. Here's hoping they don't overlook the liquor stores. They could save K-Staters a lot of money there.

AN AGE-OLD dream of college students has been made possible by Campus Industries, Inc. Now that the group has worked out an arrangement with Curtis Circulating company, it is possible for K-Staters to work their way through college by selling magazines.

Everyone from Student Council to state Legislature worries about making K-Staters be good little boys and girls and park right. But before you can park right you have to have a place to park, or so it always has seemed.

The Crewcuts have been to K-State, and made a profit. Next on the musical list is Metropolitan Opera baritone Norman Scott. That's really the long and short of it, musically and hair-wise.

Telegraphic Tabloids

By UNITED PRESS

Wisbech, England—George B. Hines, managing director of the Wisbech Bulb Co., is a man who likes peace and quiet in his office—so much so that he's willing to pay for it.

Hines gave each of his 36 employees a bonus of \$2.80 in their weekly pay envelopes for not talking on the job.

Washington—Candor on Capitol hill: Sen. Styles Bridges (R-N.H.) said on a TV program last night the congress probably will cut taxes next year.

"Does Congress always save the tax cuts for election years?" a questioner asked.

"No, but it is very helpful," Bridges replied.

Colombo, Ceylon—Communications officials are still waiting for someone in Moscow to pick up the telephone and say "hello."

Ceylon and Russia were linked last month by a radio-telephone circuit. Since then, communications minister G. A. S. Markikkar has been standing by to exchange a few words with a Soviet counterpart to formally inaugurate the link. So far despite numerous letters and cables from the communications industry, no one on the Soviet end has been willing to talk.

Rouen, France—German pianist Heinz Arnts shakily got up from his piano stool at the Theater De la Lyre last night after 620 hours of continuous playing, which broke his own former world's record by 20 hours.

Washington—James B. Carey, Vice President of the AFL-CIO, apparently has an eye for beach fashions.

Carey, discussing a Senate rackets probe of labor unions, said last night "We'd like to have full and complete disclosure—like a Bikini arrangement."

Debaters Rank High in Contest Over Weekend

Sharon Nuttle, PrL Fr, and Patty Trent, BMT Fr, placed high in the Northwest Louisiana invitational debate tournament at Nachitoches, La., last weekend. Students and teachers from schools in the South and Southwest attended.

In the senior men's division, Tom Bowman, PrL Jr, and Ray North, PrL Jr, won three and lost two debates. Bob Paulson, ChE Soph, and Kay Eplee, BA Soph, finished with a score of two wins and three losses in the junior division.

After scoring four wins and one loss in the five preliminary rounds of debate, Miss Nuttle and Miss Trent defeated Louisiana Polytechnic institute in the semifinals. They were defeated in the finals by North Texas State university. Miss Trent ranked third in the overall junior women's debate division.

In the individual events Miss Eplee placed third in prepared poetry reading, and Miss Nuttle took third in unprepared public address speaking.

The West Point Regional debate tournament is in the Student Union today. Afternoon debating begins at 1 p.m. and will continue on a two hour schedule for three rounds of debate.

STUDENT HEALTH

Two women and four men are in Student Health today.

The women are Beverly Bass, HT Fr, and Christine Bergstrom, HEJ Fr.

Men are Harry Pence, IA Jr; Robert Harmon, Ag Fr; Gary Blum, BAA Jr; and Keith Swenson, Ar 04.

WEATHER

The Kansas weather forecast is for locally heavy snow and four to six inches in the extreme Northeast today with some blowing and drifting. Elsewhere there will be lighter snow ending in the West this forenoon and over Central and Eastern Kansas by this afternoon or evening.

Strong winds of 25 to 40 miles per hour are predicted in the Central and Eastern portions today but diminishing tonight. There will be cloudy weather in the East and partly cloudy weather in the West tonight. It will be colder in the Eastern portion today and the Western and Central portions of the state tonight.

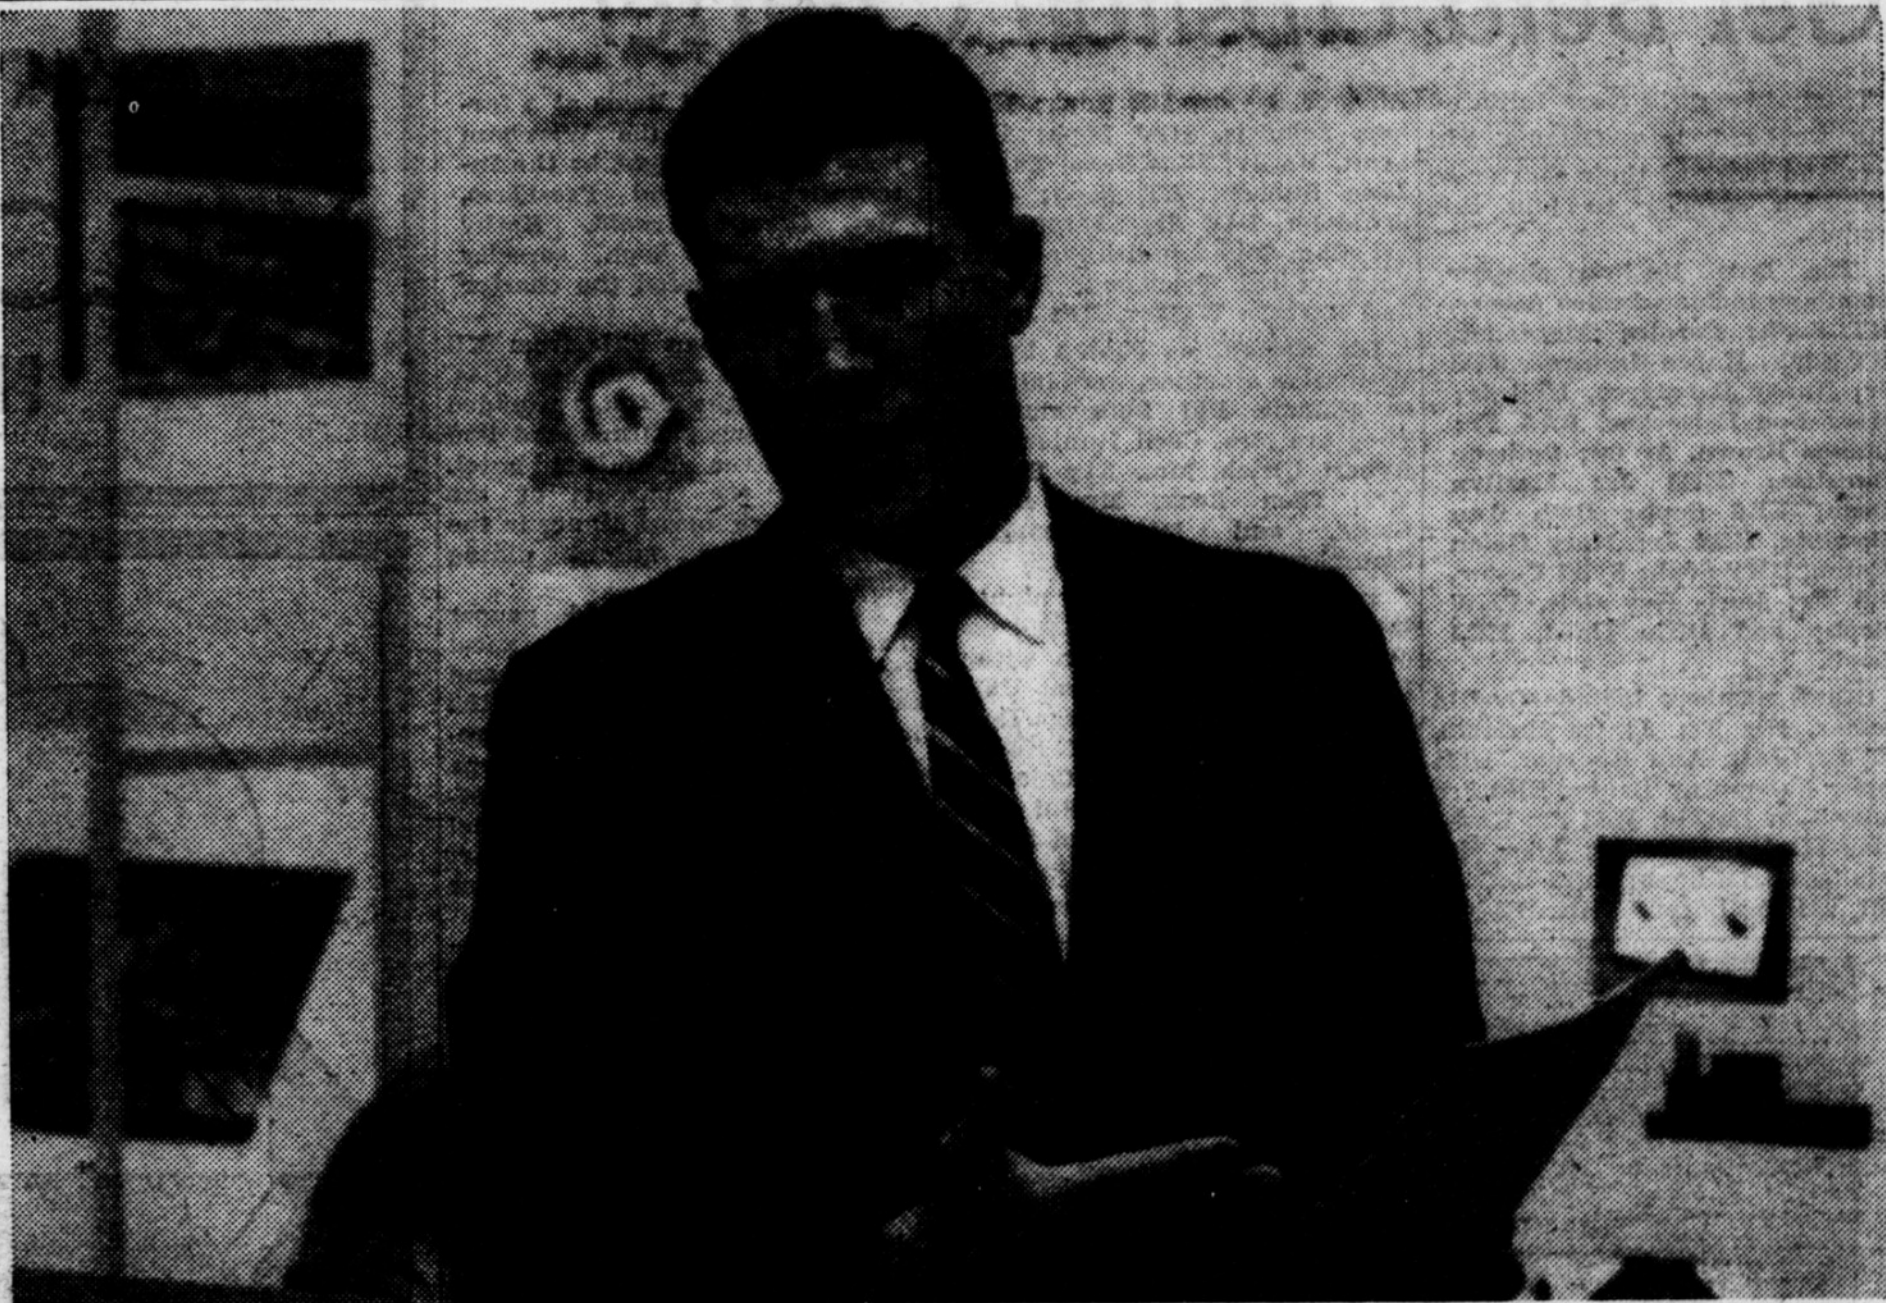

The weather Tuesday will be partly cloudy and warmer. The expected high today is 30 degrees and the low tonight 15 to 20 degrees in the West to 30 degrees in the East. The temperature was 28 degrees, and there had been .15 of an inch of precipitation in Manhattan at 8:50 a.m. today.

Ah, Glorious Spring!

Photo by Doug Tedrow

ALL THE WORLD IS WHITE—As snow still falls following a general blizzard in Western Kansas, Oklahoma, and Eastern Colorado, K-Staters may expect another snow storm sometime tomorrow from the Great Lakes area. Garden City reported 15 inches of snow yesterday with many families and car-loads marooned on the roads between towns. Storm warnings were issued early this morning for all states between Colorado and Ohio.

"A big company works for me..."

JOHN D. EVANS, University of Pennsylvania, 1952

"I began working on a training program for General Electric in the summer of '52. Right now, I'm 'Employee and Plant Community Relations Manager' of my company's new plant in Burlington, Iowa. One of the advantages I found in working for a big company such as General Electric is that, because of its size, it is able to give me, and other college-graduate employees like me, a wide variety of training and experience in any one of 159 plants all over the country. Through an extensive on-the-job training program, it is providing me with the opportunity to become one of the top men in my field, and I know that as long as I apply myself to each job, I'll keep moving up. The way I look at it, General Electric is helping me help myself. That's why I say I'm working for a big company, but a big company works for me, too."

size. 27-year-old John Evans is just one example of the thousands of college graduates at General Electric, each being given the opportunity for self-development so that he may grow and realize his full potential.

As our nation's economy continues to expand in the years ahead, thousands of young people of leadership caliber will be needed to fill new positions of responsibility in American industry. General Electric feels that by assisting young people like John Evans in a planned program of personal growth, we have found one way of meeting this need.

A Manager of Employee and Plant Community Relations at General Electric holds a responsible position: he handles employee benefits, health and safety, training, wage and salary administration, and community relations.

Progress Is Our Most Important Product

GENERAL  ELECTRIC

This wide framework of opportunity is a unique characteristic of a company of General Electric's

TYPICAL SCENE at the Gamma Phi Betas' tea Sunday afternoon in the Union shows many people talking and sitting and talking and sitting.

Gamma Phi Betas Initiate; Get Beta Upsilon Charter

Thirty-two girls were initiated this weekend into Gamma Phi Beta and received their charter as the 10th sorority to join this campus.

The Beta Upsilon chapter members include Janice Albers, HT Soph; Carolee Alexander, HT Soph; Karen Andrews, EEd Sr; Nancy Barragree, EEd Jr; Mary Lou Beisecker, BAA Fr; Linnea Brown, Ar OS; Bethene Burnham, EEd Jr; Marilyn Dean, EEd Soph; Beth Ann Dowling, EEd Jr; Mary Helen Eaton, BMT Soph; Sybil Foster, BA Fr; Doris Kay Geis, PEW Soph; and Dixie Good, HEJ Soph.

Other members include Orvilla Homer, His Fr; Janice Humble, HT Sr; Jean Ann Koerner, DIM Soph; Nancy Ann Lange, EEd Jr; Betty Jane Larkin, MEI Fr; Katherine Martin, HEN Fr; Alice McCandless, DIM Soph; Aura McConnell, VM Fr; Lorene Ritts, HE Fr;

Eleanor Saylor, HE Soph; Kathleen Schultis, HEJ Soph; Billie Scott, BA Jr; Jane Seitz, Eng Jr; Jane Stinson, HT Soph; Carol Schideler, DIM Sr; Sharon Stewart, Chm Soph; Judith Stover, HT Soph; Cibyl Teichman, HE Fr; and Barbara Walker, Mth Jr.

Six women, as chosen by the Manhattan alumnae, were initiated as Gamma Phi Beta alumnae. They are Mrs. Cecil Hunter, Mrs. Robert Ulrich, Mrs. Ray Buzzell, Mrs. Glen Beck, Mrs. Robert Clegg, and Miss Georgiana Smurthwaite.

Initiation began Friday night in the Presbyterian church and concluded Sunday afternoon with a formal tea in the Student Union at which time Mrs. George Docking, the First Lady of Kansas, President and Mrs. McCain, national officers, Gamma Phi alumnae, parents, faculty, and friends met the initiates.

The charter was presented to

the Gamma Phi Betas at a formal dinner in the Wareham hotel Saturday night by the International Grand President, Mrs. Gerald Arnold. Kathy Schultis, HEJ Soph, sorority president, accepted the charter for the sorority.

Twenty Gamma Phis from KU assisted in the weekend activities.

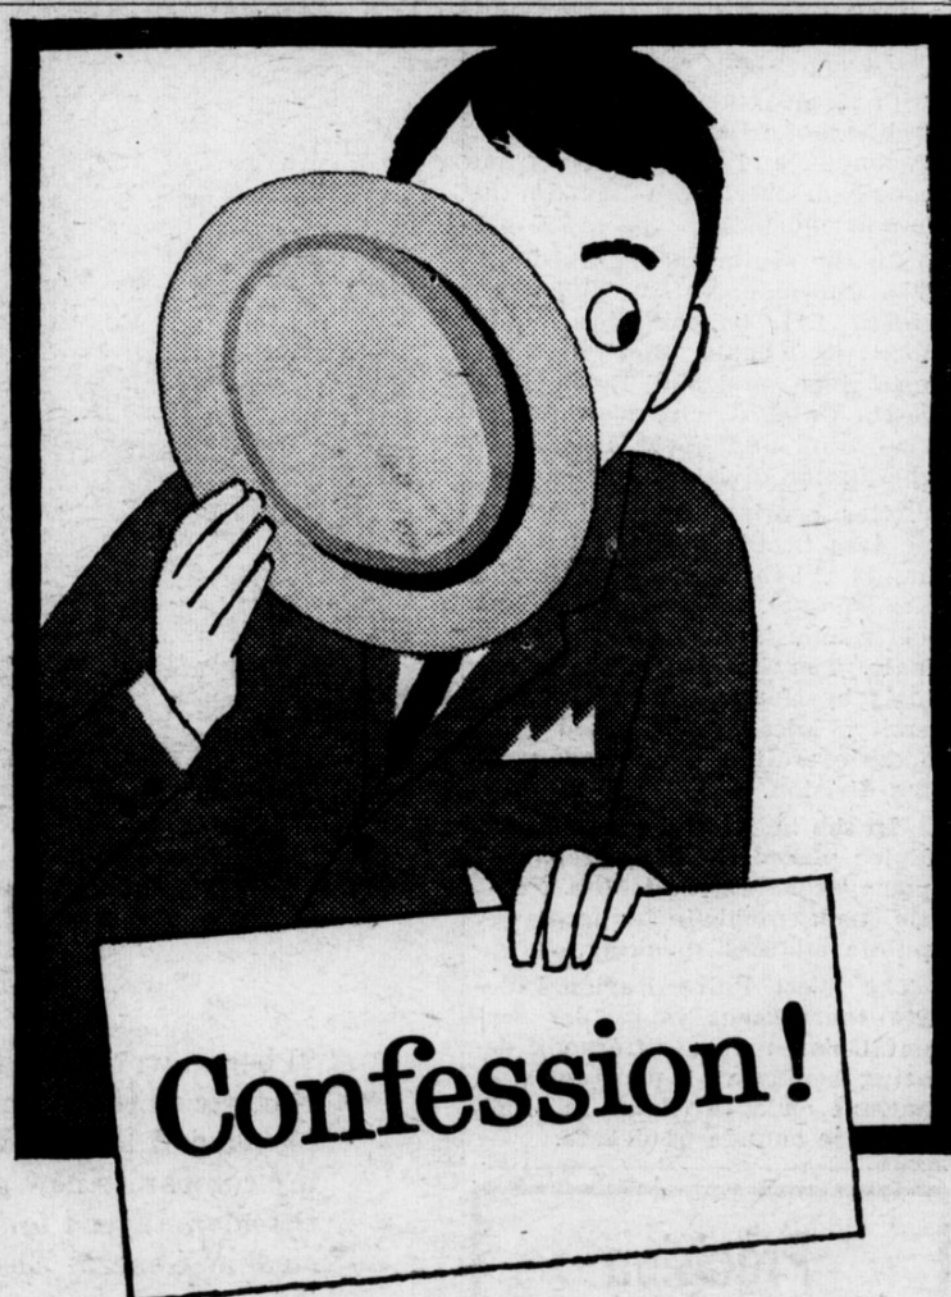

Yesterday, the initiates attended the Presbyterian church and had dinner in the Wareham hotel. After the tea, parents of the initiates were served dinner in the Student Union walnut dining room.

Ash trays, salt and pepper shakers, playing cards, two guest books, and silver candelabras and candy dishes were among the many gifts the Gamma Phis received from alumni, other Gamma Phi chapters, their national officers, and campus sororities and fraternities with which to start furnishing their new house after completion next fall.

LITTLE MAN ON CAMPUS

By Dick Bibler

Parties Stay Undampened Regardless of Bad Weather

Pi Kappa Alpha

Members of Pi Kappa Alpha had their annual Dixie ball Friday night in Pottorf hall. Carol Cooper, HEA Soph, was crowned PiKA Dream Girl by Jerry Metz, Geo Sr, president. Music was furnished by the Pastels from Emporia. A banquet at the Wareham terrace room preceded the dance.

Pi Beta Phi

A musical dessert was the theme of a party given by the Pi Beta Phi Manhattan alumnae club for Pi Phi pledges Sunday, March 17, at the chapter house.

Alpha Chi Omega

Alpha Chi Omega had their annual Paradise prof formal in the Union main ballroom Friday. Special guests were Dean and Mrs. Herbert Wunderlich and Dean and Mrs. Charles Jacot.

Phi Kappa Tau

Carol Smith, HEN Fr, Chi Omega freshman from Manhat-

tan, was crowned "Sweetheart of Phi Kappa Tau for 1957" Saturday at the Red Carnation ball in the terrace room at the Wareham hotel. Annette Tighe, Chi Omega, PEW Soph from El Dorado, and Janet Macy, HEN Fr, from Manhattan, were Miss Smith's attendants.

Dave Huebner, president of Phi Kappa Tau, performed the coronation ceremony during intermission. Carol was presented a bouquet of red roses. Her attendants

each received a bouquet of yellow roses.

Sigma Phi Epsilon

Members of Sigma Phi Epsilon from K-State, KU, Washburn, Baker, and Emporia State attended a semi-formal dance at Meadow Acres ballroom in Topeka Saturday evening.

You'll be pleased with a Collegian want ad.

THE PULSE-POUNDING SAGA OF DE WITT CLINTON, AMERICAN

Let us today turn our eager young minds to the inspiring story of De Witt Clinton, one of the greatest figures in American history and — unaccountably — one of the most neglected.

De Witt Clinton (sometimes called Aaron Burr) first made himself known to fame in 1756 when Governor William Penn commissioned him to survey the forests of the Western Reserve. (One is inclined to wonder what in the world Governor Penn could have been thinking of, for De Witt Clinton was eighteen months old at the time.) However, the little chap did remarkably well. He surveyed as far west as Spokane, teaching phonetic English to more than twelve million Indians along the way, and then, tired but happy, he became Johnny Applesed.

Later, he became a keelboat and sailed home to enter politics. He tried to join the Greenback Party, but his back wasn't green enough, so he joined the Whigs.

He was offered the Whig nomination for the presidency, but declined with the celebrated statement: "If nominated I will not run; if elected I will not serve."

But the Whigs only nudged each other and said, "That old fox, he's just playing hard to get." So they nominated him anyhow, and sure enough he did not run, but he was elected anyhow, and sure enough he did not serve. In fact, he was elected to a second term, which he also did not serve. However, only a few top Whigs knew there was nobody in the White House. The rest of the country thought that the President was confined to his room with a wrenched knee. For a while people sent "Get Well" cards, but soon everyone forgot and turned their attention to important matters like opening the west, inventing the buffalo, and the Black Tom Explosion.

After two terms as President, De Witt Clinton entered Yale and took up smoking. He tried several brands of cigarettes until he found the one brand that pleased him in every particular—Philip Morris, of corris!

(You knew I was going to say that, didn't you? Well, of course you did, especially if you are a Philip Morris smoker, for if you are, you know what a sweetheart of a smoke Philip Morris is — how full of rich, natural flavor, how natural and mellow, how long size and regular. And if you are not a Philip Morris smoker, you've got a treat coming. Light one soon. Light either end.)

Upon graduation from Yale, De Witt Clinton became commissioner of baseball and smoked and loved Philip Morris Cigarettes for the rest of his long and distinguished life, and when at last he was called to his reward, his friend Old Hickory (Daniel Webster) stood up in the Senate and said, "How sad that De Witt Clinton must now be forever separated from his beloved Philip Morris!"

"Nay!" cried Pitt, the Elder (Henry Clay), bounding to his feet. "We need not separate De Witt Clinton and Philip Morris. I know how to keep them together always!"

And, sure enough, if you will look at the blue federal tax stamp on your pack of Philip Morris, guess whose picture you'll see. De Witt Clinton's! That's whose!

© Max Shulman, 1957

The makers of Philip Morris, who bring you this column each week, don't subscribe to Old Max's historical data, but we sure admire his taste in cigarettes. You will too. Try a new natural Philip Morris today!

Greeks Enjoy Dinner Parties, Founders' Day

Theta Xi

Theta Xi had its annual alumni dinner Sunday. Guests were Mr. and Mrs. Bob Smith, Mr. and Mrs. Henry V. Beck and family, Mr. and Mrs. Clyde Wells and Mark, Mr. and Mrs. Leon Stanton, Keith Huston, Mr. and Mrs. Max Rolph and family.

Delta Delta Delta-Pi Kappa Alpha

Delta Delta Delta members had an exchange dinner with members of Pi Kappa Alpha Monday evening.

Alpha Delta Pi-Alpha Gamma Rho

Members of Alpha Delta Pi and Alpha Gamma Rho had an exchange dinner at the chapter house Tuesday evening.

Delta Delta Delta-Kappa Sigma

Kappa Sigma members had an exchange dinner with members of Delta Delta Delta Thursday, March 14.

Dormitories

Residents of Southeast, Northwest, Van Zile and Waltheim halls had exchange dinners Tuesday evening.

Phi Kappa Tau

Phi Kappa Tau celebrated its Founders' day, Sunday. Guest speaker at the banquet in the Student Union was Justice Fred Hall, past governor of Kansas. Justice Hall is a member of Phi Kappa Tau national council.

Pi Kappa Alpha

Members of Pi Kappa Alpha celebrated their Founders' day with about 30 alums at a banquet in the Wareham terrace room Saturday night. Wes Roberts, 1952 chairman of the Republican party, was the guest speaker.

At UCRL, there are unique opportunities to work with some of America's outstanding leaders in nuclear research and to utilize the most expansive facilities in this field. Here, new ideas and techniques are traditional and there is the opportunity to do what has never been done before.

Plan now to meet with UCRL's representatives. They will give you full details on opportunities in your field and discuss future openings at the Laboratory's Livermore and Berkeley sites in Northern California's San Francisco Bay Area.

Current UCRL projects include:

Nuclear Weapons, Nuclear Rocket Propulsion,
Controlled Thermonuclear Energy, Particle Accelerators,
High-Speed Digital Computers, Critical Assembly
and Reactor Research

Four Records Fall At Saturday Meet

By JIM CAIN

Four Ahearn fieldhouse indoor track records were broken and a fifth was tied at the K-State Invitational relays Saturday night.

No official team standings were kept in the meet, which was intended only for individual competition.

Tying his own record in the 75-yard high hurdles was K-State's Gene O'Connor who ran the distance in 9.1. O'Connor took second in the 75-yard low hurdles, being nosed out by Missouri's Charlie Batch in 8.2. In beating O'Connor, Batch broke the existing record of 8.4 set by O'Connor in 1956.

In the 75-yard dash, Oklahoma A&M's Orlando Hazley set a new record of 7.5 breaking the old record of 7.7 set in 1956 by Marvin Chiles of K-State. Hazley beat out Bobby Wooten of Pittsburg State and Dolan McDaniel of K-State who finished second and third, respectively.

Pittsburg State's Ralph Handley and Missouri's Jim Kilgroe set a new standard of 6 feet, 4 1/4 inches in the high jump breaking the old record of 6-4 set in 1956 by Joe Powell of K-State.

K-State's mile relay team set a new varsity and Field House record when they ran the event in 3:20.6 breaking the old record of 3:22.5 set earlier this year. Running on the team were Henry Renollet, Jim Vader, DeLoss Dodds, and O'Connor.

In other events, Glenn Long of Topeka high jumped 6 feet, 4 1/4 inches with Sonny Ballard of Manhattan second, an inch lower to highlight the special freshmen events.

Distance medley relay—1. Missouri (Clinton Kelly, Pete Orr, Tom Fort, Jim Sanders); 2. Oklahoma

A&M; 3. Ft. Hays; 4. K-State. 10:14.9

Sprint medley relay—1. K-State (DeLoss Dodds, Dave Burton, Dolan McDaniel, Tom Rodda); 2. Pittsburg State; 3. Emporia State; 4. Ft. Hays. 3:29.5

75-yard high hurdles—1. Gene O'Connor (KS); 2. Charlie Batch (MU); 3. John McIntyre (MU); 4. Michael Sidlow (FH). 9.1 (Ties Field House record of O'Connor, 1956.)

Mile run—1. James Long (MU); 2. Joel Friston (MU); 3. Richard Lotton (FH); 4. Rolland Elliott (KS). 4:28.1

Shotput—1. Bob Rumping (MU); 2. Fred Weisel (MU); 3. Duane McIntire (ES); 4. Ralph Willard (KS). 51-2 1/4

Two-mile relay — 1. Missouri (John Graham, Luther Cooper, Clinton Kelly, Jim Sanders); 2. Oklahoma A&M; 3. K-State; 4. Ft. Hays. 7:50.7

High jump—1. Tie between Ralph Handley (PS) and Jim Kilgroe (MU) 3. tie among Wes Wilkison (KS), Joe Crutchfield (A&M), and Jim Green (MU). 6-4 1/4 (breaks old record held by Joe Powell of K-State in 1956 at 6-4.)

75-yard dash—1. Orlando Hazley (A&M); 2. Bobby Wooten (PS); 3. Dolan McDaniel (KS); 4. Ken Atwell (MU). 7.5 (Breaks old record of 7.7 set in 1956 by Marvin Chiles of K-State.)

Polevault—1. Tie between Karl Englund and Bob Davis (MU); 3. Tie among Dick Utter (ES), Otto Haase and James Maska (FH) 13-10

3,000-meter run—1. Tom Fort (MU); 2. William Dunlap (FH); 3. Terry Wilkinson (A&M); 4. Terry Turner (KS). 9:03.0

Broad jump—1. Dick Strinni (MU); 2. Bob Davis (MU); 3. Don Blow (ES); 4. Kenny Nesmith (KS). 23-3

75-yard low hurdles—1. Charlie Batch (MU); 2. Gene O'Connor (KS); 3. John McIntyre (MU); 4. Michael Sidlow (FH). 8.2 (Breaks old record set by O'Connor in 1956 of 8.4.)

Mile relay—1. K-State (Henry Renollet, Jim Vader, DeLoss Dodds, Gene O'Connor); 2. Missouri; 3. Pittsburg; 4. Ft. Hays. 3:20.6 (Sets new Field House and varsity record, old record 3:22.5, set earlier this season.)

K-State Freshman events
600-yard run—1. Charles Carl; 2. Julius Lincoln; 3. Bill Campbell; 4. Russell Grant. 1:15.2

High jump—1. Glenn Long; 2. Sonny Ballard; 3. Steve French; 4. Richard Johnson. 6-4 1/4

1,000-yard run—1. Duane Holman; 2. Julius Lincoln; 3. Charles Carl; 4. Fred Loseke. 2:21.9

Top Cage Freethrower

KANSAS STATE COLLEGIAN
Monday, March 25, 1957-6

BOB BOOZER is heir apparent to the "Outstanding Free-thrower" trophy to be awarded Wednesday night at the annual Wildcat basketball banquet. The 6-7 sophomore forward hit 77 per cent from the charity stripe this season—good for 178 free throws, a record for K-Staters. Each year, the winner's name is engraved on the trophy.

'Uncanny' NC Year—McGuire

By UNITED PRESS

North Carolina's Tar Heels squeezed through two triple overtime periods to win the National Collegiate basketball championship and Coach Frank McGuire admitted today, "It's uncanny how we kept our undefeated season going."

McGuire was preparing to coach the East squad in tonight's East-West Shrine all-star game here and was waiting for the hubbub over fights during the national championship game to die down.

"We were lucky, awfully lucky all season long in the close games," he said. "But our boys always kept their poise and came through in the clutch. I guess that's the mark of champions."

The Tar Heels had to go through three overtimes to top Michigan State in the semi-finals, 74-70, and through three more to win the national championship from Kansas, 54-53, Saturday night.

But when it was all over, Coach Dick Harp of Kansas and all others agreed that North Carolina truly is the nation's No. 1 team.

The tense, drama packed championship game brought on two scuffles among the players and two more between the coaches.

IT'S FOR REAL! by Chester Field

DAWN'S SURLY LIGHT*

Early to bed and early to rise

Makes a man healthy, wealthy and wise.

The truth of such nonsense by me is contested;

ENGINEERING STUDENTS

WE CAN'T PROMISE YOU THE WORLD...

...but

we can offer you a genuine career opportunity with the leading jet aircraft equipment manufacturer.

Hamilton Standard's tremendous rate of expansion alone is evidence enough of the obvious opportunities now open at this beautiful, modern plant. However, there are numerous other "plus" values which you will want to consider:

- 1) the opportunity for further, tuition-assisted study at R.P.I. Graduate Center.
- 2) the exciting, challenging projects dealing with fuel controls for both jet and nuclear engines, air conditioning systems, jet starters, and turbo-propellers.
- 3) the tremendous variety of openings, so that you may select the field which interests you most.
- 4) the ideal location, in beautiful Connecticut, within easy travel distance to Boston or New York.

These are just a few of the reasons it is essential for you to talk to Hamilton Standard.

If you cannot attend an interview, please send your resume to Ted Fisher at

Activities

Klod and Kernel Klub To Hold Essay Contest

The Klod and Kernel Klub has announced that the American Society of Agronomy is sponsoring a Student Section Essay contest for 1957. Robert Ganzer, TA Soph, is chairman of the contest committee at K-State.

Ganzer said there will be a local elimination contest. Prizes of \$15, \$10, and \$5 will be awarded the three winning essays, which will then be forwarded to the national contest. The deadline for the local contest is May 1.

Angel Flight

The meeting time for regular meetings of Angel Flight has been changed to every second and fourth Tuesday at 7:30 p.m. in the Military Science building, Rosemary Derks, Eng Jr, president of the group, has announced.

"In addition to regular meetings, drill practices are going to be held from 4 p.m. to 5:30 p.m. every Tuesday afternoon. All members should be present, since this is in preparation for the spring review," Miss Derks said.

The group will make a trip to Forbes Air base April 4.

Art Display

The silver and copper work which is in the Union display window near the stateroom was done by Mrs. Betty Sieler, art instructor in the Engineering department.

The display includes handmade silver jewelry and several pieces of copper enamel. It is sponsored by the Union Fine Arts subcommittee, and will be shown during the next week, according to Janis Broman, Chm Jr, committee chairman.

Little American Royal

Judges announced for the Little American Royal are Wayne Davis, swine; Gene Francis, sheep; Bob Acre, horses; Bill Ljungdahl, beef cattle; and Willy Watson and John Oswald, dairying, according to Bob Bozworth, DH Sr, chairman of the Little American Royal.

Students drawing to show swine should meet in the Swine barn at 4 p.m. today, Bozworth said.

be ready for distribution by the middle of May, according to Gaye Fryer, HEJ Sr, editor.

Chancery Club

The Chancery club heard a talk by Senator William B. Ryan of the 40th district on "The Lawyer in Politics" recently.

Regular business at the meeting was the nomination of candidates for next year's Chancery officers.

Sigma Delta Chi

Roger Myers, TJ Jr, was elected president of Sigma Delta Chi, journalism fraternity, at the club's last meeting.

Other officers elected were Gary Yeakley, AgJ Jr, vice-president; Doug Tedrow, TJ Jr, secretary; and Jim Bell, TJ Soph, treasurer.

Dairy Club

A committee was appointed to make arrangements for the Dairy club's annual spring steak fry at this week's meeting of the group. There will be a dairy judging contest in conjunction with the steak

fry. The contest is open to all students.

Another committee was appointed to make arrangements for the plate lunch the club will serve to a conference of technicians of the Kansas Artificial Breeding service unit next week.

Miniwanca Club

Two freshmen girls, one freshman boy, and a junior agriculture student will be chosen on the basis of well-rounded personality to attend Camp Miniwanca, the American Youth Foundation camp in Shelby, Michigan, held for a week in the latter part of the summer.

Requirements for the scholarship are for the student to be well-rounded in the educational, physical, social, and spiritual aspects of his personality. Applications may be obtained from Marilyn McNelis, FN Sr, president of the K-State Miniwanca club, CPO box 176, or from any member of the club.

Foreign Students Meet; Understanding Stressed

Twelve colleges and universities, totaling approximately 100 students, including K-State representatives, attended the fourth annual international weekend at the Student Union Friday and Saturday.

The groups attending were from K-State, Washburn, Emporia, Kansas, Northwest Missouri State college, Sterling, Kansas State Teachers' college, Parsons' Junior college, McPherson, Wichita university, Kansas Wesleyan, and El Dorado Junior college.

Friday night President McCain spoke on the "Keys to International Understanding" which he listed as (1) charity, (2) education, (3) travel, (4) cultural exchange, and (5) student exchange.

Sam Hasayen, ME Jr, was elected honorary chairman for next year's international weekend.

John Rhodes, ChE Soph, and Marilyn Smith, Soc Sr, were permanent chairman and secretary of the weekend.

Participating organizations from K-State were the Art club, Cosmopolitan club, Blue Key, YWCA, and Mortar Board.

An international exhibit was displayed in the Student Union by Suzanne Cliborn, HEA Jr, and her committee members, Friedrich Kunath, FT Jr; Chiara Bini, spe-

cial student; Georg Plange, FT Soph; and Sam Hasayen, ME Jr.

Friday night's banquet in the Union was planned by Thomas Gibson, EE Soph; registration by Virginia Taylor, SED Fr; and publicity by Midge Mulkey, BA Soph.

Rosalyn Rowell, Soc Jr, took care of the over night housing for the women, and Mark Hueftle, AA Soph, for the men. Arnold Appleby, AEd Sr, was in charge of hospitality.

Georg Plange, FT Soph, organized the discussion sessions consisting of eight topics: "International Student Clubs and Their Problems," "How to Understand Other Individuals, Customs, and Cultures," "The Social Life of the Foreign Student," "The Role of American Students in International Understanding," "Women Students in the Modern World," "Overcoming Language Barriers, Esperanto," "Religious Activities and Their Relation to International Understanding," and "Education: How It Contributes to International Understanding."

GOP Heads Spearhead Cuts In 71.8 Billion Dollar Budget

Compiled from United Press
By KEITH KEMPER

Washington—The Congressional economy drive shifted into high gear today from the support of the Senate Republican leadership.

Senate Republican Leader William F. Knowland and chairman Styles Bridges of the GOP policy committee both called for cuts in President Eisenhower's \$71.8 billion budget.

They said in separate statements over the weekend that the cuts were necessary to clear the road for general tax reductions next year.

Other Congressional developments:

Presidency—Rep. Kenneth B. Keating, ranking Republican on the House Judiciary committee, proposed setting up a high-level commission that could decide if a U.S. President was incapable of carrying out his duties. In cases where the President could not or would not decide about his incapability, Keating's proposed commission would step in and take over the matter. He said the commission should be composed of representatives of the Senate and House, the Supreme Court and possibly the State and Treasury departments.

GI Housing—The House called up for debate a bill to liberalize the government's program of direct loans to veterans in rural areas. The loans would be made

when private funds for such loans are not available.

Dag Fails in Cairo

Jerusalem—Israeli officials said today UN Secretary General Dag Hammarskjöld had failed in his mission to Cairo.

Official sources said in Jerusalem he had been unable to soften the attitude of Egypt's President Gamal Abdel Nasser and that the West would have to adopt a tougher attitude toward Nasser.

Nasser's attitude has strengthened the Israeli positions, and Secretary of State John Foster Dulles has agreed that Israel has the right to defend itself if attacked in the Gulf of Aqaba or from the Gaza strip, the Israeli sources said.

Washington—Dave Beck's lawyer said today that the chief of the powerful teamsters union "positively" will appear before the

Senate rackets committee at 10 a.m. tomorrow.

Ike Coughs Up British Aid

Washington—President Eisenhower, tanned and rid of his cold but not his cough, put his advisers to work today to back up new agreements reached with America's old ally, Britain.

Military sources indicated one of the first results of the Bermuda conference with British Prime Minister Harold MacMillan will be stepped-up planning for turning over U.S. missiles to the British.

These sources said preliminary discussions already have been held and "something tangible" is expected within the next few months—certainly by the end of the year—within the framework of the North Atlantic Treaty Organization.

Sylvia Gaddie, Veep Of National HE Club

Sylvia Gaddie, TxC Jr, has been elected the first vice president of the National Home Economics college club by college home economics clubs throughout the nation.

This was announced at the Home Economics association spring conference here this weekend by the national field secretary, Miss Betty Ruth Joyce.

Sixteen Kansas college home economics clubs attended the conference, making a total of approximately 147 college students.

Speaking at the general assembly Friday, the national field secretary stressed thinking big in her topic "Space Ships Are We?"

Four graduates conducted a panel discussion "Have You Considered Graduate Study?" with Miss Gwendolyn Tinklin, associate professor of foods and nutrition, moderating.

Saturday's program was highlighted by Student Union program director Bob Alexander's talk on "What is the

Efficiency Quotient of Your Club?" He stressed planning activities with suggestions on handling club publicity, the chairman's role, how to use advisors, budgeting and financing, and the need for evaluation.

'Rhapsody in Blue' 4-H Dance Theme

An all-college semi-formal dance, "Rhapsody in Blue," is being sponsored by the Collegiate 4-H club in the Student Union ballroom Saturday from 9 p.m. to 12 p.m.

The Dreamaires will furnish the music, and refreshments will be served. Pat Todd, HT Jr, is the dance committee chairman.

Tickets at \$1 for 4-H members and \$1.50 for non-4-H members will be sold in Anderson hall and the Student Union Wednesday through Friday.

"What's it like to be in

BUSINESS ADMINISTRATION AT IBM?"

Two years ago, Robert Everett asked himself this question. Today, as Administrative Assistant to the Divisional Controller, Bob reviews his experience at IBM and gives some pointers that may be helpful to you in taking the first, most important step in your business career.

"What's it like to work for a big, expanding company like IBM? What would I be asked to do? Would I get ahead fast?" These were some of the questions that filled Bob Everett's mind as he faced up to the big problem, "How can I put my M.B.A. training to the best possible use?"

Bob came directly to IBM from Cornell in July, 1955, with an M.B.A. in finance. He was immediately assigned, with twenty-nine other M.B.A.'s, to a Business Administration training program. This six months' program comprised general orientation in the entire IBM organization, a six weeks' field trip to the

Developing a new system

Syracuse branch office and several months at the Poughkeepsie manufacturing facilities. There he gained a functional knowledge of IBM machines, particularly the 700 series of giant electronic computers.

His training completed by January, 1956, Bob was assigned to the Methods Department as a Methods Analyst at IBM World Headquarters in New York City. Here, with the cooperation of operating department personnel, he worked on the development of systems and procedures for the various Division areas. In addition to normal methods techniques used in developing systems and procedures, he studied these projects in terms of possible machine application for either IBM high-speed giant computers or conventional accounting equipment. One project was the study of the Machine Ordering procedure with the objective of simplifying and mechanizing it and at the same time improving the source information to provide for a more complete analysis of sales and production backlog.

Filtering out the "hot" projects

Promoted the same year

By December of the same year, Bob was promoted to his present job—Administrative Assistant to the Controller of the Data Processing Division. "The first function of an Administrative Assistant," says Bob, "is to filter out the 'hot' projects from those that can be handled later. You follow through on projects assigned by the controller and keep

Keeping the boss posted

him posted on their progress." Bob's new position affords a pleasant diversification of work: charting divisional responsibilities of the controller's function... plans for decentralization... costs of regionalization... summarizing key financial and statistical information for presentation to top management.

Bob points out that there are many areas in Business Administration at IBM for men with an M.B.A. or a B.S. in accounting: corporate, general, and factory accounting; internal audit; methods; payroll and taxes. Administrative and management positions constantly open up at World Headquarters, IBM's 188 branch offices, many plants and laboratories.

Why Bob picked IBM

Bob made a careful study of existing opportunities before selecting IBM for his career. He had a dozen campus interviews; took nine company tours. IBM's M.B.A. program interested him—because, as he says, "It gave me a chance to review the entire company before starting an actual line assignment." He was intrigued by the increasing use of data processing equipment in finance and he knew that IBM was a leader in this field. Salary-wise, he found IBM better than many, but it was company growth potential that motivated his choice. "Opportunity certainly exists

"Opportunity certainly exists at IBM"

at IBM," he says. "Growth factors alone will account for many new executive positions. A second factor is the trend toward decentralization, which also creates new jobs. These factors, plus IBM's 'promote-from-within' policy, add up to real opportunity."

IBM hopes that this message will help to give you some idea of what it's like to be in Business Administration at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists, mathematicians and Liberal Arts majors in IBM's many divisions—Research, Product Development, Manufacturing Engineering, Sales and Sales Assistance. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of College Relations, Mr. P. H. Bradley, will be happy to answer your questions. Write him at IBM, Rm. 1001, 590 Madison Ave., New York 22, N. Y.

Jobs, Applicants For CI Directors Both Total Five

Only five students have applied for the five positions open on the Campus Industries board of directors, according to Jerry Holliday, ArE Soph, chairman of the board during the first year.

Applicants are Kay Burke, HE Fr; George Hooper, BA Jr; Warren Keegan, Ec Sr; George Roggendorff, VM Jr; and Steve McCarl, ME Fr.

"Before these people are officially named as the new board, their appointment must be approved by the Student Council," Holliday explained.

Don Beck, ME Jr, who filled an empty position on the board two weeks before the time for the turn-over, is a permanent member, leaving only five of the six positions to be filled.

Scholarship House Planned for KSC

A drive to raise \$150,000 for building and equipping K-State's first scholarship house is being carried on by Kansas home demonstration women.

The house will be built as a tribute to Mrs. Georgiana Smurthwaite, who was a K-State staff member and state extension home economics leader for many years.

The scholarship house will be a cooperative venture. The coeds who live in the house will do the work instead of hiring outside help. Similar houses at other schools have saved students as much as \$25 per month.

Eligibility for admission will be determined by leadership, initiative, character, scholarship and need. Present plans call for the house to be ready for occupancy by the fall of 1957.

Wilkerson Plans To Veto Council Appointments

A veto of Student Council appointments to four positions on the Union Governing board was promised last night by Student Body President Pat Wilkerson.

Following last night's Council meeting Wilkerson told the Collegian he will veto the Council's action due to a "misunderstanding" between the Council and the Board.

The action arose when the Council rejected two of the Board's recommendations for appointments without giving any reason for the rejection.

Eight Names Okayed by Union Board

The Union Governing board last night forwarded the names of eight people to fill the positions of four retiring UGB members. The Board spent 15 minutes apiece interviewing the 19 applicants for the positions.

The eight: Gerald Smith, PrL Jr; Kirsten Peterson, EEd Soph; Lynn Mechesney, Gvt Soph; Jim Smith, VM Jr; Charles Moggie, BAA Soph; Vash Rumph, AH Sr; Peggy Daniels, Eng Soph; and Dixie Brown, HDA Jr.

Of these eight the UGB gave preference to four; Rumph, Peterson, Mechesney, and Jerry Smith.

Board member Mary Lu Compton, Sp Jr, took the list to the Student Council for its approval. The Council approved two of the UGB's recommendations, but rejected the other two.

Student body president, Pat Wilkerson, said after the meeting he would veto the Council's appointments. A special meeting will be held Wednesday between three Student Council members and three Union Governing board members to discuss the appointment problem.

Mortar Board Offers Grant

Applications for two \$150 Mortar Board scholarships are now available in the Dean of Students office, Shirley Sarvis, HT Sr, president of Mortar Board, announced today.

Only freshmen women who will be sophomores next year and have good character, rate high in scholarship and have need for financial assistance can qualify for a scholarship.

Applications must be turned in to the Dean of Students office by April 1.

"In this case it appears that the lack of a reason for the Council's action is unfair to two applicants for the vacant positions," Wilkerson said.

In other action the Council appointed members to fill positions on Campus Industries and a Council Retreat committee.

Five new members were appointed to the board of directors of Campus Industries. They are Steve McCarl ME Fr; Warren Keegan, Ec Sr; Kay Burke, HE Fr; George Roggendorf, VM Jr; and George Hooper, BA Jr.

Elin McCandless, HDA Jr; Ray Zimmerman, AH Sr; Gilmore Dahl, AH Sr; and Verlen Sobke, HT Sr, were appointed to a committee to make plans for a retreat in honor of the new Council to be elected this spring.

A motion was passed to recommend to the new Council that "all appointments to permanent committees be made at the third meeting of the Council after spring elections."

The Council forwarded a recommendation to the Faculty Senate that the Senate study the question of instructor evaluation

by students. The Senate was asked to encourage instructors to use evaluation sheets.

Wilkerson reported that K-State has been invited to send an entry for competition for queen of the KU Relays in April. The Council voted to ask AWS to run a campaign to select K-State's representative.

Neil Scott, Zoo Jr, and Pat McDermott, BA Jr, were asked to attend a regional meeting of the National Students association at Lawrence April 12 and 13.

Wilkerson relayed a suggestion from Dean of Women Helen Moore that Council consider the possibility of beginning night quizzes later than 7 p.m. Dorm schedules and meals are disrupted, he said.

Sigma Alpha Epsilon fraternity was banned from posting any more posters on the campus until the end of the school year because it failed to pay a fine on time.

Gary Haynes, TJ Sr, and Bill Patton, VM Soph, were appointed by the Council to attend a United Nations conference at Colorado university, April 1-6.

STUDENT BODY president candidates Neil Scott, Zoo Jr, left, and Ray North, PrL Jr, study a book on Kansas Government for campaign ideas.

SGA Candidates Total Eighty-Three

Eighty-three petitions for 26 Student Governing association offices were filed by deadline yesterday. Primary elections will be April 4 and 5 with general elections April 11 and 12.

The total number of eighty-three petitions is not final until they are approved by the Elections committee, however.

Anyone who wants to work in the election booths may sign up in the SGA office today at 3 p.m., according to Neil Scott, chairman of the Elections committee.

Three petitions were filed for student body president, six for Student Board of Publications, and 74 petitions have been filed for Student Council representative.

The three for president: Ray North, PrL Jr, United

Staters party; Neil Scott, Zoo Jr; and Tom Bowman, PrL Jr, from the Integrity party.

Six students filed for Student Board of Publications: Janice Graham, TJ Jr, Jim Bell, TJ Soph, and Roger Myers, TJ Jr, running independent; Marcia Boyd, TJ Soph, United Staters party; Phillip Arlen Young, AgJ Soph, and N. Ray Lippe, AgJ Jr, Integrity party.

Forty students filed petitions for Student Council representative from the School of Arts and Sciences.

United Staters party: Joyce Graham, BA Jr; Meredith Brink, MGS Jr; Carolyn Eby, BA Soph; Larry Edwards, GA Jr; Kay Reboul, MEI Soph; Darrell Feaker, BA Soph; Charles Wingert, His Soph; Rosella Hiebert, Art, Jr.

Dan Hahn, Sp Soph; Patty Trent, BMT Fr; Winifred Killian, Art Soph; Mary Helen Eaton, BMT Soph; Dee Anne Oberg, Eng Soph; Nancy Hill, EEd Jr; Betty Britton, EEd Soph; Bill Patterson, Sp Jr; Dick Brantingham, BA Soph; Bob Carlson, BA Soph; Paul Attwater, PrL Jr; and Eugene Asken, TJ Jr.

Integrity party candidates: Warren Keegan, Ec Sr; Kay Eplee, BA Soph; Lynn Mechesney, Gvt Soph; George Hooper, BA Jr; Lavonne Tawney, HE Soph; Roberta Jo Wray, SED Soph; Pat McDermott, BA Jr; Gene O'Connor, PEM Jr; Larry McDonald, PrL Soph; Annette Tighe, PEW Soph; Nancy Hayes, Gvt Jr; Barbara Ericson, BA Jr; Emily Ann Douthit, Psy Soph; Barbara Huff, Gvt Fr; Glenda Robertson, SED Soph; William

(Continued on page 4)

AWS Announces Candidate Slate

Patsy McClenahan, EEd Soph, and Mary Beth McCoy, HE Soph, will run for president of the women's council of the Association of Women Students.

Darlene Larkin, TrC Jr, and Peggy Daniels, Eng Soph, will run for first vice-president; Rosalyn Rowell, Soc Jr, and Janet Kugler, HT Jr, for second vice-president; and Ruth O'Hara, HeJ Soph, and Sally Carney, Eng Soph, for third vice-president.

Jean Koerner, DIM Soph, and Monne Wills, EEd Soph, for recording secretary; Jeanne Williamson, MEI Jr, and Kathy Schultis, HeJ Soph, for corresponding secretary; and Nancy Barragree, EEd Jr, and Jo Edwards, Pth Fr, are running for treasurer.

AFROTC Rifle Team Wins Top Marksmanship Trophy

Photo by Darryl Heikes

TOM COBLENTZ, Zoo Soph, left, and Bill Shilling, CE Fr, right, are both members of the K-State Air ROTC rifle team which won the Department of Defense trophy for top ROTC marksmanship. S/Sgt. James Hart, rifle team coach, is in center.

The K-State AFROTC rifle team has won the Department of Defense trophy for top ROTC marksmanship of the year for the second straight year, according to S. Sgt. James Hart, coach of the team.

Members of this year's team are: William M. Shilling, CE Fr, Thomas L. Coblenz, Zoo Soph, and three January graduates, Stanley W. Braman, Floyd W. Cummins, and Phillip C. Gregory.

The quintet defeated championship marksmanship teams from the University of Maine and the University of South Carolina who were representing the Army and Navy ROTC units respectively.

The contest concluded the 36th annual William Randolph Hearst National ROTC matches in which more than 1600 teams participated.

The scores were sent to the Pentagon in Washington, D.C., where they were tabulated by a board of high-ranking military officers.

Mr. John R. Hearst, assistant general manager of the Hearst newspapers, sponsors the competition, sent a letter to President McCain: "This year's shoot, we have been informed, has been the most spirited in the long history of the matches. The recorded marks were outstanding in accuracy. Therefore, you, your faculty and student body are fully justified in being proud of the achievement of your fine team of marksmen."

Over the Ivy Line

Preservation of Bachelorhood Championed by KU Hermit

By Shari Shellenberger

SOME IDEAS for the preservation of bachelorhood are given in Jerry Dawson's Ad Book column in the University Daily Kansan by Dawson's friend Elrod. Elrod, a bachelor himself, suggests:

- (1) Don't date.
- (2) If you must date (to fill pledge requirements, etc.) feign stupidity, poverty, and spill coffee all over your date's nice new spring dress.
- (3) Join the Navy ROTC. If the subject of marriage should unfortunately arise, you can nip it in the bud by saying, "The government forbids it."
- (4) Walk, don't drive. The close confines of an auto tend to concentrate perfume, which in turn may render a weak-willed male incoherent. An unguarded word may lead to matrimony.
- (5) Act as if you were a prisoner of war. In the true spirit of the Geneva Convention, give only your name, classification, and student number.
- (6) When attending the movies with a date, be overbearing. A suggested ticket-buying routine

may go something like this: "Two, please. Oh mercy, I don't seem to have any money. Oh say, there, Lucinda, I seem to have forgotten my wallet."

THIS WILL result in either a very embarrassed date forking over the necessary cash, or not attending the movies, but going to the date's house to watch television instead, which in turn leads to all sorts of possibilities.

For example, changing channels in the middle of a program when all the date's girl friends are gathered around watching an exciting love story.

OR, IF NO ONE else is watching, turning up the volume so that the windows (and in some houses even the walls) reverberate. This is particularly effective during final week."

All this sounds as if it might be quite effective. Any fellows striving toward the preservation of bachelorhood might well follow these suggestions. And our thanks to Elrod.

World News Briefs

Southern House Bloc Unhappy Over Budget Cuts Made So Far

Compiled from United Press
By KEITH KEMPER

Washington—Southern Democrats in the House vowed today to grasp the economy axe more firmly in their own hands.

Chairman Howard W. Smith of the House rules committee said the Southern bloc is not satisfied with the budget cuts made so far this year.

He said that from now on the Southerners will look for additional economies in appropriation bills after they emerge from committee.

Other Congressional developments:

Housing—Key members of a House banking subcommittee planned to draft a "veterans preference" plan as part of an omnibus housing bill. The plan would make it easier—and possibly cheaper—for veterans to buy FHA-insured housing.

Labor—Senators prepared to introduce bills to eliminate the "twilight zone" between federal and state authority in labor disputes.

Appears Before Racket Group Today

Washington—The Senate Rackets committee, which says teamster president Dave Beck took at least \$270,000 of union funds for his own use, summoned him to a drama-packed public hearing today to surrender his personal records.

Beck, the burly boss of the nation's biggest union, promised to show up and bring his books

BULLETIN

Washington—Teamsters boss Dave Beck refused today to give his personal financial records to the Senate Rackets committee after hearing a committee charge he "may have misappropriated" more than \$320,000 in union funds.

The committee immediately subpoenaed the records.

as new rumblings of rank-and-file teamster revolt were heard.

Whether he would hand them over for investigators to delve into the deals which made him a millionaire, was another question—and Beck wasn't answering publicly in advance.

Leaders Discuss World Affairs

Bermuda—The Prime Ministers of Britain and Canada scheduled a sweeping joint assessment of world affairs today. The meeting could have a sharp bearing on the future of the United Nations emergency force.

The agenda was so heavy that Canada's Louis St. Laurent and Britain's Harold MacMillan cancelled original plans to have a personal chat

and decided to lead the discussion themselves.

Canada's External Affairs Minister Lester B. Pearson was the moving force in the United Nations for the creation of UNEF and other countries generally have looked to Canada for fresh ideas on the international army since then.

K-State Budget Raised By Kansas Legislature

K-STATE RECEIVED a budget boost of about \$334,000 yesterday by the Senate Ways and Means committee of the Kansas Legislature.

K-State received a hike from \$3,820,000 in the budget to \$3,983,351 for salaries and wages; from \$585,512 to \$609,512 for Extension services; from \$1,083,772 to \$1,511,032 for research, plus an additional item of \$50,000 for classrooms and laboratories and experiment station salary boosts.

The Senate received appropriation bills totaling \$83,957,000 from general revenue, and including 5 per cent additional for merit increases for state college faculty members from the Ways and Means committee.

PRINCIPAL SENATE boosts were for salaries at the University of Kansas and K-State. A \$650,000 or 5 per cent increase recently requested by the Board of Regents was spread uniformly among the state schools.

Kansas university received a \$368,000 increase, the three Kansas teachers colleges, the school for the deaf, and the school for the blind got corresponding increases.

KU's salary scale was boosted from \$5,581,150 to \$5,858,150; an additional \$10,000 was received for operating expenses; a new item of \$75,000 for walks, drives, landscaping and a steam tunnel; a \$5,000 raise for geological survey and \$2,500 for research.

THE UNIVERSITY of Kansas Medical center received no increase for salaries; however, the bill called for \$20,000 for a tunnel connecting the continuation center to the main building.

Emporia State Teachers college received an increase of \$51,709 for salaries, Pittsburg, \$40,479, and Fort Hays State college, \$36,838.

An Editorial

Slime Marches On

WITH THE ADVENT of some moisture in Manhattan and on the K-State campus, the north and south parking lots have begun their swirl down the gutters again.

The north parking lot is a quagmire, with only the hardpressed and foolhardy game enough to park in it. The south lot, with its thin coating of gravel and asphalt, has developed into a testing grounds for tanks.

THIS RAISES the ancient problem of what can be done to correct the situation and give K-State's harried drivers a place to park their cars.

The Kansas Legislature now has before it a bill which would allow an authorized agency, probably the Tribunal or Traffic Control board, to fine K-Staters for overparking in unauthorized areas.

THE MONEY from these fines would go toward payment of the campus police and maintenance of roads and parking lots.

Another source of money to fix up the gopher hole-studded lots is to take some student fees money away from other departments and give it to the physical plant boys who could do the job.

OF COURSE, there's always the time-honored possibility of getting the work done through regular channels. The physical plant sets aside \$1,000 each year for parking lot maintenance.

IN THE PAST, however, money from this source has never seemed to reach as far as the parking lots.

Many people come to K-State to watch athletic contests and consequently park in the south parking lot. If they can get through the obstacle course without breaking an axle, they leave, I'm sure, with a low impression of what K-State has to offer their offspring.—Roger Myers

tory, from here the pennant races shape up this way:
American League.

1. The New York Yankees—If they lose this one, there should be a congressional investigation. The only questions are how many homers Mickey Mantle will hit (55) and how many games Art Ditmar will win (21).

2. Detroit Tigers—In the race 'til the head of the stretch. Then watch Whitey Ford and company go by.

3. Cleveland Indians—Still loaded with pitchers to throw it up there.

4. Chicago White Sox—Go, go too slow, slow.

5. Boston Red Sox—Proving once again that money will buy anything but complete poverty and a pennant.

6. Baltimore Orioles — any higher would be a real Oriole Borealis.

7. Kansas City Athletics—Still in Missouri.

8. Washington Senators — The old, old story: first in war, first in peace—and last in the American League.

National League.

1. Cincinnati Reds—More muscles than a weight lifters' convention but that may be the stumbling block. The pitching figures to improve but the blasters have to blast on schedule.

2. Brooklyn Dodgers — The

beards grow longer and longer and sooner, if not later, the thumbs won't plug the dike any more.

3. Milwaukee Braves—If they ever get mad, look out. But there's still no fire in the ashes.

4. St. Louis Cardinals—The gang's out of gas with nobody to fill the tank.

5. Philadelphia Phillies—Gee whiz, kids?

6. Pittsburgh Pirates — Gee, kids!

7. New York Giants—San Francisco wouldn't want 'em.

8. Chicago Cubs — Lucky to finish eighth.

And, oh yes, the Yankees will win the series, four games to two. Anyone for football?

NW Triumphs Over Chi O's In Girl's IM's

Northwest hall defeated Chi Omega by a score of 29 to 26 in women's intramural basketball last night in Nichols gym.

High scorer for Northwest was Pat Vopat with 20 points; for Chi Omega, Judy Pringle with 14 points.

SAE, Jr. Vets Top IM's In Total Points for Year

With intramural badminton and volleyball finished and softball ready to start within the next two weeks, Sigma Alpha Epsilon and Jr. AVMA are leading their divisions in total points for the year.

In the fraternity class, the Sig Alphas have amassed a total of 593 points over the year. Their closest rival is Delta Tau Delta with 473. Sigma Phi Epsilon is third with 466. Fourth is Sigma Chi with 410 1/2. Beta Theta Pi ranks fifth in the standings with 389 1/2.

Others in order of rank are Sigma Nu with 382 1/2, Pi Kappa Alpha with 356, Kappa Sigma with 301, Delta Sigma Phi with 286, and Phi Delta Theta with 283.

Jr. AVMA has 436 points to lead the independent division for the year. OK House is nearly 100 points behind with 337. The OK's closest rival is House of Williams

with 279. Fourth is West Stadium with 256. The Rho Alphas are fifth with 224.

Rounding out the first ten are House of Brec with 185, YMCA with 184, Wesley Foundation with 138, the Aces with 134, and Newman Club with 127.

IM Table Tennis To Be Next Week

Doubles and singles in intramural table tennis, originally scheduled for this week, will be played Monday, Tuesday and Wednesday of next week, according to Frank Myers, director of intramurals.

Artist Series

Audience of 1,000 Hears Scott Sing

Norman Scott, famed bass-baritone of the Metropolitan Opera, appeared before a crowd of approximately 1,000 last night in the College auditorium in the final Artist Series program of the '56-'57 season.

"Mr. Scott gave an excellent recital and the program as a whole was composed of well-chosen tunes," said William R. Fischer, associate professor of music.

The first three parts of the program consisted of "Within These Holy Portals," Mozart; "O Rudder Than the Cherry," Handel; "If You Find a Lovely Lady," Mozart; "Man is for the Woman Made," Purcell Britten; "Die Post," Das Rosenband; "Goethe," and "The Erlking,"

Franz Schubert; and an aria from "Don Carlo," by Verdi. He gave an encore before intermission taken from Figaro by Mozart.

After the intermission Scott sang "Elegie," Massenet; "L'Heureux Vagabond," Alfred Bruneau; "Reve D'Amour," Faure; "Au Pays," Augusta Holmes; "The Pilgrim's Song," Tchaikovsky; "The Chains of Love," Armstrong Gibbs; "Blow Le Winds" and "Shenandoah," arranged by Cellus Dougherty; and "Long Ago in Alcala," Andre Messager.

Generous with his encores, Scott sang three: "I Got Plenty of Nothin'," from Gershwin's "Porgy and Bess;" "Vienna, My City of Dreams;" and "Old Man River."

Activities Board Okays Six Places for Functions

The Student Activities board has approved six places for social functions on the basis of a report from a special committee. These places are the Community building, Country club, Gillette hotel (eating only), Pottorf hall, Student Union, and Wareham hotel.

The Activities board deleted from the report a paragraph urging College control of beer busts by means of social permits from the Dean of Students' office.

Recommended for investigation were the Canteen, the Cock and Bull, Christo's Mill, Keck's, Legion hall, Rainbow, Skyline, and the VFW club.

The disputed paragraph which was deleted stated:

"The group recommends to the Activities board that they consider the possibility of requiring groups to obtain social permits for beer busts. The feeling behind this included the fact that

these things are going on, and perhaps they should have some measure of control. These would not necessarily become general information but would at least be known in the Dean of Students' office."

Charles Goetzinger, assistant professor in the Speech department, commented that it was doubtful that such action would encourage change of policy.

"It is contradictory to what the handbook (Student Directory) says, and it is contradictory to what the Dean of Students' office says, but it isn't contradictory to what goes on," Goetzinger said regarding the paragraph.

Doubt that the recommendation would pass groups such as the Faculty Council on Student Affairs was expressed by board members.

"I am definitely not in favor of the college approving drinking, but I am in favor of the college forbidding drinking and enforcing it," Miss Golda Crawford, assistant professor in the General Studies department, asserted.

In questioning whether recommendations should come through a committee report or from organizations such as Panhellenic council and Student Council, Loren Kottner, Union director, suggested that further investigation on the problem was necessary.

Gary Rumsey, AEd Jr, pointed out that past administrations had given social permits for beer busts.

"Since the present Dean has been here we can't get College control by this manner. It

looks to me like it would be the best thing if we could, because if groups are going to have them we might as well be realistic," he said.

The administration was accused of avoiding responsibility for these functions by board members, who commented that the matter was left entirely with the sponsor and the organization.

Pressure from the state and problems of enforcing the present policy were brought out in defense of the Dean's position. Corrective measures are necessary to make the ruling effective, group members explained.

During the Activities board meeting, Pi Tau Sigma received approval for an initiation banquet to be held April 9 at Skyline. Blue Key's traditional spring picnic was okayed, and a letter from Tau Theta withdrawing their petition for recognition due to faculty disapproval was read.

The fund-raising drive being sponsored by the United States political organization was questioned since it had not been approved by the Activities board, but no action was taken. Political parties on campus have not been recognized as student organizations, and the board questioned whether it has regulating authority over these groups.

Fire Causes Damage In Elliot Court Home

Approximately \$2,000 damage was done to the home of Mr. and Mrs. J. W. Holland, 34-B ElHott courts, in a fire this morning.

Holland, Chm Fr, was in school at the time the fire broke out. His wife was working. Neighbors were taking care of their two small children.

Furniture, a TV set, and clothing in the front closet were completely destroyed. A parakeet suffocated.

The fire was discovered by Jerry Stegman, Zoo Sr, about 8:45 a.m. Bill Ogborn, VM Jr, was on his way to class when he heard Stegman yell "fire." Ogborn said he helped Stegman grab the fire hose and together they began extinguishing the flames. Somebody's wife called the College fire department, Ogborn said.

The fire started in the living

room. No immediate cause was determined. A plastic radio in the bedroom was partially melted. A kitchen clock was melted and running down the kitchen wall.

Thornton Edwards, Director of Housing said it was lucky that sheet rock insulating material was used in the construction of the houses.

"In this case, the fire did not spread to the attic. If it had, the other units would probably have burned in a matter of minutes," he said.

Edwards said this was the most serious fire the College has had for some time. About five years ago, a fire completely destroyed a bedroom, and there have been two fires which destroyed refrigerators.

April 1 Is Deadline

For Ordering Gowns

The deadline for ordering caps and gowns is April 1, according to Robert Anderson, assistant director of admission and registrar. Candidates for graduation may order them from the Campus Book store.

Commencement invitations will go on sale in Kedzie hall the first week in April. Theta Sigma Phi, women's journalism honorary, will be in charge of sales.

KS Debaters To Host Twelve School Meet

K-State will host the 25th anniversary Missouri Valley Forensic league debate tournament which begins with registration in the Student Union main lounge tomorrow afternoon and ends with debates on Saturday.

Two teams from each of 12 schools will debate the topic, "Resolved, that testing atomic weapons is detrimental."

K-State debaters Anita Grimm, Soc Sr, and Bunny Cowan, Phy Jr, will take the affirmative side. Phil Reid, EE Soph, and Dan Hahn, Sp Soph, will debate the negative side.

Other schools participating in the tournament are Arkansas

university, University of Nebraska, Iowa State college, University of Oklahoma, Louisiana State university, Wichita university, University of Texas, Colorado university, Creighton university, University of South Dakota, and University of Kansas.

Preliminaries for the extemporaneous speaking contest will begin at 9:15 a.m. Friday. The first round of debate starts at 10:30 a.m. The second, third, and fourth rounds will be in the afternoon.

Announcement of results and presentation of awards will be at 12:30 p.m. Saturday after the fifth and sixth rounds that morning.

'Little Royal' Prizes Shown

Students will show 120 animals at the 29th Little American Royal on April 6, according to Bob Bozworth, DH Sr.

All judges except one will be K-State graduates who are now ranchers.

Eight square-dancing horses from the Sand Spring Saddle club of Abilene will perform, and the 80-piece Herington high school band will play.

Master of ceremonies will be Harold Garner, AH Sr. Ringmasters are John Bircher, DM Sr; Bob Quantz, AH Sr; Bill Perkins, AH Sr; and Ed Cotner, DM Sr. They will help the judges place the animals and take down the results.

Four pure-bred gilts have been donated by various swine associations to be given as door prizes.

Between-act entertainment will be provided by clowns played by Harry Todd, AH Soph; Darrell Keener, AH Soph; and Joe Cukjati, VM Fr.

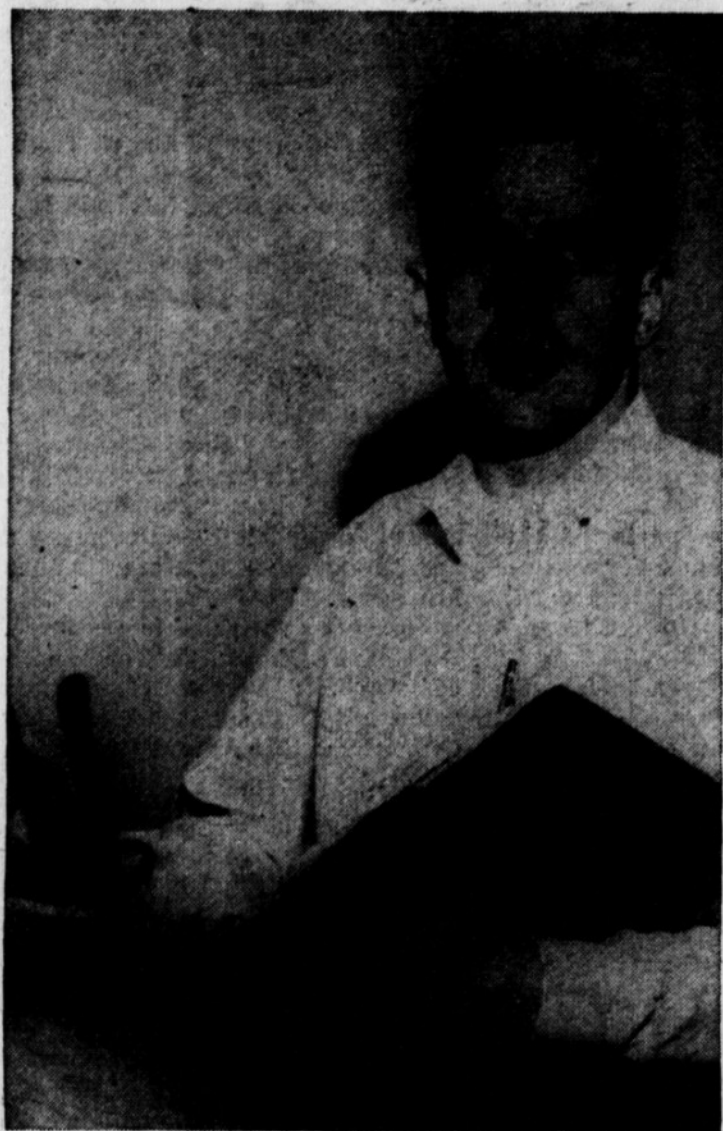

Lawrence Morgan, former K-Stater from Goodland, will present the Grand Champion awards.

Cat Trackmen Travel To Oklahoma A&M

The K-State track team will see its first outdoor action this Saturday at the Oklahoma A&M relays at Stillwater.

Coach Ward Haylett said that assistant Coach Herman Wilson would take 10 men to the meet. Haylett must stay in Manhattan because of the state high school indoor track meet at Ahearn field house.

Unable to attend the meet will be sophomore quarter-miler Dave Burton, junior polevaulter Karl Lindenmuth, sophomore distance runner

Clifford Gruver, and junior high jumper Wes Wilkison.

Burton and Wilkison are suffering from pulled leg muscles while Gruver is nursing a sore calf. Lindenmuth is still recovering from a sprained ankle incurred early last week.

The entries:

100-yard dash—Dolan McDaniel, Bobby Jones.
120-yard high hurdles — Gene O'Connor, Gary Doupnik.
Two-mile run — Terry Turner, Arlan Stackley.
Distance medley relay—Lawrence Brady, Henry Renollet, Rolland Elliott, Stackley.
Sprint medley relay—O'Connor, DeLoss Dodds, McDaniel, Tom Rodda.
Two-mile relay—Brady, Hubert Guest, Rodda, Jesse Unruh.
Mile-relay—Renollet, Jim Vader, Dodds, O'Connor.
Javelin—Ralph Willard, Gary Pottorf.
Shotput—Willard.
Broad jump—Ken Nesmith, Ray Belkman.
880-yard relay—Renollet, Jones, Vader, McDaniel.
High jump—Hayden Abbott.

Olympic Stars Marry Despite Iron Curtain

By UNITED PRESS

Olympic champions Harold Conolly and Olga Fikotova were married three times over today in the biggest wedding Prague has seen since the day of the Bohemian kings.

Czechs by the uncounted thousands boiled out into the sunlit streets to shout their congratulations for the Boston boy and the Czech girl who fought for the right to marry across the Iron Curtain in one of the biggest romances of the 11-year-old cold war.

Kubek May Be Yank Starter

By UNITED PRESS

Tony Kubek, who graduated from the Yankees' rookie school summa cum laude, inherited not only a treasured baseball diploma today but also quite possibly the world champions' regular left field job.

So says professor Casey Stengel, at any rate.

"If I had to name my opening day left fielder right now, I'd have to say Kubek," Stengel declared. "He can hit, he can run, he can field, and he can throw."

"Of course, I've got some other fellas who might force me to change my mind between now and the opening game, but this kid looks mighty good to me."

Kubek, a native of Milwaukee who stands 6-3 and weighs 188, played shortstop at Denver last season, batting .331. Old Case liked the looks of the 21-year-old youngster the first time he saw him, and being endowed with plenty of shortstops, put the kid in centerfield.

"He looked like he had played it all his life," Stengel explained.

"There's something about the way he goes after and catches a fly ball that reminds you of Joe DiMaggio. Of course, he has some things to learn, but I wouldn't hesitate to start him tomorrow if the season opened that soon."

Despite the fact that he hit only six home runs at Denver—where, according to Casey, "Homers are kinda cheap because of the wind and dry air"—the Yankee pilot believes Kubek has enough power.

Should Kubek come through, it would be in keeping with the tradition of the Yankee rookie school, which produced

such players as Mickey Mantle, Gil McDougald, Bob Grim, Johnny Kucks, Tom Sturdivant, and Horm Siebern in the past.

Siebern was the sensation of the school a year ago, but crashed into a fence during an exhibition game and saw little action. The Yankees sent him to Denver, where he hit .300 in 36 games.

Pi Phis Whip Waltham In Intramural Basketball

Pi Beta Phi defeated Waltham, 14-11, in women's intramural basketball play in Nichols gym yesterday.

Kathy Horridge led the Pi Phi's scoring with 12 points. Kay Linder paced Waltham with 10 points.

At halftime, the Pi Phis led Waltham 8-7. In the remaining eight minutes Pi Beta Phi hit six points while holding Waltham to four for the final margin of 14-11.

In the only other contest scheduled yesterday, Alpha Delta

Pi forfeited to Alpha Chi Omega.

Tonight's play pits Van Zile against Northwest hall and Southeast hall against Chi Omega.

At UCRL, there are unique opportunities to work with some of America's outstanding leaders in nuclear research and to utilize the most expansive facilities in this field. Here, new ideas and techniques are traditional and there is the opportunity to do what has never been done before.

Plan now to meet with UCRL's representatives. They will give you full details on opportunities in your field and discuss future openings at the Laboratory's Livermore and Berkeley sites in Northern California's San Francisco Bay Area.

Current UCRL projects include:

Nuclear Weapons, Nuclear Rocket Propulsion,
Controlled Thermonuclear Energy, Particle Accelerators,
High-Speed Digital Computers, Critical Assembly
and Reactor Research

Western-Attired Aggies To Join Block and Bridle

Block and Bridle will hold informal initiation at 7 p.m. Friday in the pavillion directly north of Waters hall, according to Burke Rogers, AH Jr.

Initiates are to wear western attire, a red bandana, an animal husbandry tool, a sign with the name of the initiate and the signatures of 20 Block and Bridle members on it, and a box of treats.

Formal initiation will be before the regular meeting at 7 p.m. April 2 in SU 208.

Ag Association

Paul Faidley, AEd Jr, is the Agricultural association's nominee for Agriculture Week manager. Harry Todd, AH Soph, and Jim Beauchamp, TA Soph, are nominees for assistant Ag Week manager. Elections will be held at the Agricultural association meeting April 4.

Modern Language Film

"Gigi," a French language film, will be presented by the Modern Language department at 4 p.m., April 2 and 3, in the auditorium of Eisenhower hall.

Home Ec Seniors

Seniors majoring in Home Economics will have an opportunity to see research equipment in various areas at 4 p.m. Thursday, according to Dr. Grayce Goertz, as-

sistant professor of Foods and Nutrition.

This tour will take the place of the usual Home Ec lecture.

Vet Medicine Seniors

Veterinary medicine seniors will hear a lecture at 8 a.m. Friday in room 175, Dykstra veterinary hospital. Dr. Daniel D. DeCamp, VM '29, will speak on poultry inspection.

Engineering Council

The Engineering council will meet tomorrow at 5 p.m. in the Engineering library. Plans for the Council's spring election will be discussed, and a replacement for one member of the Council who is resigning will be made.

IFYE

An orientation meeting for IFYE host families will be held Thursday evening in the Student Union, according to J. Harold Johnson, state 4-H Club leader.

Phi Alpha Mu

Phi Alpha Mu, honorary scholastic sorority for upperclass women in Arts and Sciences, recently initiated 21 women.

Those initiated were Joline Boehner, BMT Jr; Janis Broman, Chm Jr; Shirley Cameron, EEd Jr; Judith Crawford, His Jr; Becky Culpepper, EEd Jr; Barbara Ericson, BA Jr; Mary

Forbes, PrL Sr; Janet Frey, EEd Sr; Anita Grimm, Soc Jr; Barbara Jones, SED Jr;

Beatrice Jones, ML Jr; Laura Lyon, Eng Sr; Royanne McMullen Graham, TJ Jr; Beverly Miller, Mus Jr; Rachel Pickett, Soc Jr; Pat Tucker, Mth Sr; Dixie Viar, EEd Jr; Barbara Walker, Mth Jr; Carol Snodgrass, MEI Sr; Mary Williamson, MEI Jr; and Darlene Nelson, EEd Sr.

Eta Kappa Nu

Jay Bohning, EE Jr, is the newly elected president of Eta Kappa Nu, electrical engineering honorary. Other officers are Dan Baty, EE Jr, vice-president; Carl Swisher, EE Jr, treasurer; Bernard Hanson, EE Jr, recording secretary; Ken Brackney, EE Sr, corresponding secretary; and Art Jones, EE Jr, correspondent for "Bridge" magazine.

Phi Epsilon Kappa

Seven physical education majors have been initiated into Phi Epsilon Kappa, honorary fraternity. Vervyle E. Snyder, assistant professor in physical education, has announced.

Initiated were Richard D. Allen, Sr; Benjamin C. Buette, Gr; William W. Guthridge, Soph; Ralph Graham, Soph; Donald J. Matuszak, Soph; Joseph J. Mosa, Gr; and William S. Overbey, Gr.

Van Zile Plumbing Fixed

Plumbing repairs recommended for Van Zile hall by a state Board of Health inspector have practically been completed, according to Dr. B. W. Lafene, director of Student Health.

February was contaminated water caused by back siphonage of water.

Interrupted Meal

LEBANON, Ore.—(U.P.)—Some 125 firemen and their wives gathered here for the annual volunteer firemen's banquet. Twice during the evening alarms called the men to duty.

Large School Budget Past Kansas Senate

A record 83-million dollar budget for use by state agencies was approved yesterday by a roll-call vote of the Kansas Senate. The bill is now before the House Ways and Means committee for consideration. President McCain appeared before the committee yesterday to explain K-State appropriation requests.

Senator Donald Hults (R-Lawrence) said Governor George Docking had indicated he would sign the budget bill.

UGB Spots Still Unfilled

Representatives from the Student Council and Union Governing board met yesterday and nullified last Monday's Council selection of four persons to fill upcoming retirements from the UGB.

Council President Ron Bryant requested UGB Chairman Ray Sis and members of the Board to submit another list of eight candidates to the Council next Monday.

The Council plans to wait one week after receipt of the list to make final selection. This will allow time for discussion of any discrepancies between UGB preferences and Council selections.

The meeting was scheduled as a result of charges from the Union Governing board that the Council had not respected Board preferences although the UGB had spent 15 minutes apiece interviewing 19 applicants for the positions.

The Board also objected because the Council neglected to attach any reason for not going along with two of the Board's selections.

Minor changes in K-State's budget included the allocation of \$400,000 to supplementary building funds for additions to Kedzie and Eisenhower halls. This money was originally intended to go for a new steam turbine generator.

The change was made because the committee felt money for the two halls shouldn't be appropriated over a three year period as originally planned.

The amount allotted to Kedzie hall, presently at \$375,000 although \$540,000 was originally requested, will be sufficient to build an addition 22,800 square feet in area between Calvin hall and Kedzie.

Although a larger building including room for expansion of the College Press was hoped for, designers say the largest building that will fit in the area is one of the size being considered.

"It will be possible to go another four years without a new generator as long as we have increased supplementary power from Kansas Power and Light," according to R. F. Gingrich, superintendent of the Physical Plant.

Car Cleaning Class?

TEX WINTER, K-State basketball coach, and his wife grin at a toy automobile given them by appreciative Wildcat basketball fans. A moment later K-State alum Ken Mahoney presented Winter with the key to a new 1957 car—and you should have seen his expression then!

Winter Presented New Car At 10th Basketball Banquet

By JIM BELL

Collegian Sports Editor

K-State basketball coach Tex Winter was honored last night in an expression of the feeling of Wildcat basketball fans, K-State alumni, and his friends.

K-State alum Ken Mahoney presented Winter with a 1957 automobile to climax an eventful 10th annual Basketball banquet in the Union.

The surprise presentation topped an evening that saw Roy DeWitz named "Most Inspirational" player, Eddie Wallace named honorary team captain for the year, and Bob Boozer presented with the "Outstanding Freethrower" trophy.

Coach Dick Harp of the Kansas Jayhawks was the featured speaker.

"I don't know what to say," Winter said as he realized what he'd been given. "It's certainly a lot more than I deserve. Thank you very much."

Assistant Coach Howie Shannon and his wife were presented

with golf clubs and an automatic clothes dryer.

Coach Winter presented awards to varsity players. Boozer's name will be engraved on the permanent free throw trophy kept in the Field House.

Winter explained that the "Most Inspirational" trophy winner is elected by team members and coaches.

"I think everyone who's seen Roy (DeWitz) play—the hustle

and desire he's shown—will agree that he deserves the trophy," Tex said.

Winter paid special tribute to Captain Eddie Wallace and Jack Kiddoo, graduating seniors.

Other team members were Hayden Abbott, Larry Fischer, Dean Plagge, and Don Richards, all juniors. Jim Holwerda, Don Matuszak, and Bob Merton were sophomore squad members.

Winter made special mention (Continued on page 3)

Neighbors Help

Fund Drive Starts To Help Hollands

Neighbors have started a collection to replace furnishings ruined by fire yesterday morning in the Elliot courts residence of J. W. Holland, Chm Fr.

"A group of us have asked one person out of every two barracks to collect the money residents wish to donate," Mrs. Vernon Scott of 30-C Elliot courts said.

The canvassers had no report yet as to the amount of money raised yesterday. Mrs. Scott said the fund raisers probably would report their progress by tonight.

The fire caused about \$2,000 damage to the apartment and furnishings. Smoke caused minor damage to the Hollands' clothes. Cause of the fire still is unknown, according to Holland. The furnishings were not insured, he said.

The Hollands stayed at the Scott home last night. Their accommodations for the next two weeks while their residence is being repaired are uncertain.

"For the next two weeks, I guess we'll just stay where we are welcome," Holland said. "I want to thank our neighbors for all the cooperation and aid they've given us. They've all been swell."

Anyone wishing to contribute to the fund for the Holland family may send his donation to Mrs. Scott at 30-C Elliot courts. Donations will be forwarded to Mr. and Mrs. Holland.

Keegan Chairman Of Industry Board

Warren Keegan, Ec Sr, was named chairman of the Board of Directors of Campus Industries, Inc., and Kay Burke was named recording secretary yesterday.

Jerry Holliday, ArE Soph, former chairman of the Board of Directors, was designated the most outstanding member by the retiring board. Holliday will be recognized in the annual Student Council recognition banquet next Thursday.

Keegan reported that information on possible backings for the weaving products have been received and are being transferred to the head of the weaving industry.

AFROTC Names Outstanding Men

Five Air Force ROTC cadets have been named distinguished military cadets by Col. C. H. Wilkens, head of Air Science.

Those named: Samuel H. Peppiatt, Geo Sr; Walder H. Martin, AH Sr; Brent Adair, HTc Sr; Donald O. Smith, IE Sr; and Danny Burgess, AE Sr.

To be designated as a distinguished AFROTC cadet, a student must be in the upper 25 per cent of his graduating class scholastically and possess outstanding qualities of leadership.

Peppiatt, Martin, and Adair have qualified for pilot training. Smith and Burgess have qualified for training in a technical field. They were presented with a certificate and a commendatory letter by Colonel Wilkens.

SU Will Show Profit For 1st Fiscal Year

THE K-STATE Union will end its first fiscal year in the black, according to Director Loren Kottner. But this profit will not relieve K-Staters of their financial obligations to the Union.

The reason for this profit—the Union is in the midst of what Kottner terms “the good months.” These are the months during which students flock to the Union in increased numbers to boost sales receipts.

SALES FROM the cafeteria, snack bar, and information desk make up 80 per cent of the Union's operating funds.

The other 20 per cent comes from the \$5 membership fee each student pays into the Union. This membership comes out of the student activities fee which goes to support Student Publications, the Athletics department, the Union, and others.

THE STUDENT activities fee consumes \$16.50 of the present \$90 tuition.

In addition to the \$5 a student from activity fees, the Union receives \$7.50 a student in building fund money. Five dollars of this \$7.50 is being used to pay off the million dollar bond used to build the Union and the other \$2.50 is being used to purchase air conditioning equipment.

“THE UNION must continue to receive the 30.3 per cent of Student activity fees if it is to break even,” Kottner said. “There are no new money-making projects in sight.”

“We talked to Bebe Lee about taking over the concession stands at athletic games but his Athletics department needs the money as badly as we do.”

“RIGHT NOW the Union is thinking about two ways of increasing income. If the cafeteria could be enlarged, we could seat more people and increase the volume of business, thereby cutting down the loss.

“Also, more conferences and conventions are using the Union. The more these outside groups can be encouraged to use our banquet service the more money would be available to us.”

“OUTSIDE GROUPS pay the most for use of the Union.

“If the next four months bring in as much as the same four months last year, I'm sure we'll end this fiscal year in the black.”

Here is a breakdown of Union income and expenses from September 1, 1956 to February 28, 1957. The cents have been dropped from these figures.

Income	
Sales (food service, games, Information desk)	\$204,311
Fees	\$38,479
Other income (room rentals, juke box, coke machines)	\$5,611
Total income	\$248,402
Operating Expenses	
Cost of goods sold	\$96,827
Program department	\$8,056
Maintenance department	\$36,463
Other salaries and wages	\$74,464
Other operating expenses (supplies, paper goods, insurance, social security, telephones)	\$21,211
Depreciation on equipment	\$11,425
Total expenses	\$248,449

World News Briefs

Economy Axe Swings; Public Works Bill Cut

Compiled from the United Press

By KEITH KEMPER

Washington—House economizers vowed to continue swinging their economy axe today despite a presidential blast against piecemeal budget cuts.

At the same time the Senate's economy drive collided with a \$1.5 billion public works bill carrying many senators' pet projects.

Mr. Eisenhower yesterday told a news conference that if Congress really wants to cut the budget it could start with “the great number” of public works projects authorized for “political purposes.” He called piecemeal budget cuts “fatuous” and the most foolish kind of economy.

Suez Canal Will Open Soon

Cairo—The Egyptian government announced today the Suez canal will be open to normal traffic about April 10, but, Egypt will run it alone with “no foreign supervision whatsoever.”

Wing Commander Ali Sabry, President Gamal Abdel Nasser's chief political aide, made the announcement while the government privately was seeking reaction from other nations to its plans.

Sabry said British and French ships would be permitted to use the canal if they pay tolls to Egypt. He did not mention Israel specifically but said “no distinction will be drawn between one country and another.”

Readers' Forum

Dear Editor:

Again, you have brought up the campus parking problem. This time by commenting on the sorry condition of the parking lots on the campus.

Let us say this: The function of Kansas State college is not to provide adequate parking facilities for the students and staff of the college.

This problem comes up at a time when the administrators are crying for more funds to enable the schools to expand classroom facilities and increase teachers' pay. We say this: Let the parking lots go and apply that money for their upkeep to the building of a teachers' salary fund.

By taking this step, you would solve three problems. 1. The overcrowded parking lots; 2. Funds for the repair of these same lots; and 3. No more editorials or letters to the editor concerning this sore spot. We are certain this proposal would be approved by the city bus lines, if by no one else.

Incidentally, we all have and drive cars.

Frederick Mohrman, Gvt Jr
LeRoy E. Morton, EEd Sr
Hal R. Sinclair, VM Jr

Dear Editor:

The state room, located in the K-State Student Union, is very definitely an attribute to Kansas State college and also the student body at Kansas State. The state room is, undoubtedly, the most used and most abused room on the entire campus.

The very fine tables that have been so graciously paid for by past generations of “Wildcats” bear a disgusting resemblance to the walls of the old time public toilet. Anything from calculus problems to shoddy rhymes can be found written on the tables almost anytime of day.

This, coupled with the paper and dirty cups left by inconsiderate people, makes one wonder if students can appreciate a decent place to drink 5-cent coffee.

Sibley, Iowa—For Lester L. Scott, it was a case of double embarrassment when he was tripped up by an electronic speed detector and fined \$6 at Grinnell, Iowa.

Scott is Sibley police chief and sells electronic speed detectors on the side.

Howell, Mich. — Long-time friends Mrs. Donald Kirby and Mrs. William Murphy like to do things together.

They were playing bridge with their husbands when both were taken to a hospital where they gave birth to daughters.

San Antonio, Tex.—Inmates of the Bexar County jail know a good thing when they have it.

Before staging an hour-long riot last night, during which they smashed windows and broke water pipes, they carefully covered up their television set with blankets.

Burbank, Calif.—The court ruled in favor of Socrates and Diogenes yesterday.

Socrates Chrisopheris was cleared of a charge of passing a stop sign and Diogenes Volkman won a judgment on an unlawful detainer suit.

Detroit—With Lois Winterberg it's a case of the course before the car.

On completing a high school course in driver mechanics, Miss Winterberg said: “Now that I know what makes cars run, I think I'll learn to drive one.”

Top Ten Tunes

Record Party Doll Tops Week's Sales

By Sharon Totten

“PARTY DOLL,” by Steve Lawrence is the top tune in Manhattan record store sales again this week, while Terry Gilkyson's “Marianne,” is number one on the jukebox list. Both records are leading the top ten list for the third consecutive week.

The ten records sold most in Manhattan this week are:

1. “Party Doll,” Steve Lawrence
2. “Butterfly,” Andy Williams
3. “Teen Age Crush,” Tommy Sands
4. “Round and Round,” Perry Como
5. “Why Baby Why,” Pat Boone
6. “Little Darlin’,” The Diamonds
7. “Young Love,” Tab Hunter
8. “Lucille,” Little Richard
9. “Walkin’ After Midnight,” Patsy Cline
10. “Gone,” Ferlin Husky.

TOP TEN TUNES on Manhattan jukeboxes this week are:

- “Marianne,” Terry Gilkyson
“Butterfly,” Andy Williams
“Young Love,” Sonny James
“Party Doll,” Buddy Knox
“Walkin’ After Midnight,” Patsy Cline
“Banana Boat Song,” Harry Belafonte
“I’m Walkin’,” Fats Domino
“Teen Age Crush,” Tommy Sands
“Who Needs You,” Four Lads
“Lucky Lips,” Gale Storm

A NEW RECORD by the Platters, “I’m Sorry,” is coming up fast and looks like it might hit the top ten soon on the jukebox list.

Columbia has a money-saving deal for the months of March and April. An album entitled, “Via Broadway,” which features songs from such Broadway musicals as, “Kiss Me Kate,” “South Pacific,” “My Fair Lady,” and “Kismet,” will come out at various times.

Anyone buying one of the albums at the regular cost can buy the second one at a reduced price. This should be a good way for record collectors to add to their collection of show songs.

Senate-Passed Severance Tax Facing ‘Slow Death’ in House

By UNITED PRESS

Topeka—A 2 per cent severance tax on gas and oil, passed by the Kansas Senate 23-17, “doesn’t have a chance” of passing in the House, speaker Jess Taylor said today.

The oft-discussed revenue-raising measure got through the Senate for the first time in 20 years yesterday. The House immediately sent it to a 35-member joint committee, where it was expected to die a slow death.

Members of the joint group come from the Oil and Gas committee and the Assessment and Taxation committee. Most members were believed to be against a severance tax.

The severance tax slipped through the Senate yesterday on a crucial vote by Sen. William Ward, a Republican from Marion. Ward refrained from voting on previous occasions when the bill was up, but favored the passage yesterday.

Gov. George Docking said he would sign the severance tax bill if it gets through the House. He said the measure should be brought out of committee to the House floor where it could be debated “in a democratic way.”

Senate leader Paul Wunsch of Kingman also passed over voting in earlier tests of strength, but balloted for the measure yesterday.

Only Sen. Frank Hodge (R-Hutchinson) switched sides, from no to yes.

Eighteen Republicans voted for the bill and 15 against. Three Democrats voted against and five for.

Ward said after the vote that “after seeing the number of no

of assistant coaches, Shannon and Ernie Barrett, trainer Porky Morgan, and manager Bob Boyd.

K-State President James A. McCain paid tribute to R. I. Throckmorton, retiring chairman of the Athletic Council and Big Seven faculty representative.

Throckmorton was presented with an honorary K-jacket and a lifetime pass to K-State athletic contests by the Athletic department staff.

"We have no remorse over the outcome of our NCAA finals game with North Carolina," Harp said. "They had a harder row to hoe than we did, and they deserved the win."

Harp commented that spectators at basketball games should conduct themselves as adults, and he deplored conduct of crowds at some games played by KU this season.

"I think it's time people who go to basketball games realize that they're not there to criticize coaches, players, and officials."

"The tragedy, whether you like it or not, is that adults—grown people—can be vicious."

Harp pointed out that he was not as worried about students as he is about adults. "I've never felt that students were vicious," he said.

Thirteen freshmen and a frosh manager were recognized by Shannon. Sonny Ballard, Steve Douglas, Dennis Duell, Wally Frank, Steve French, Bob Graham, Bill Guthridge, Jerry Johnson, Glen Long, Darrell Reitzel, Carroll Stephens, Joe Vader, Dee Woodward, and manager John Stone, were mentioned.

Spahn Flashes Old Form

By UNITED PRESS

Warren Spahn, who wept unashamedly when the Milwaukee Braves lost the National league pennant on the next-to-last day of the 1956 season, was smiling again today.

The reason for Spahn's joy was a six-hit, seven-inning stint against his favorite "cousins," the Cincinnati Redlegs, yesterday. Joe Adcock knocked in five runs with a pair of homers to propel the Braves to the 12-8 victory.

In another contest, the Detroit Tigers clobbered the Dodgers, 18-1, as Frank Lary extended his streak of scoreless frames to 15 with a one-hit, seven-inning stint.

World Series hero Johnny

Kucks became the first New York Yankee pitcher to go nine innings, allowing four hits against St. Louis, but the Cardinals emerged with a 1-0 victory.

The New York Giants extended their spring record to 12 victories in 17 games—by blasting Boston, 5-2.

NW Tops Van Zile

Northwest defeated Van Zile 21-20 in women's intramural basketball yesterday in Nichols gym.

Because of a conflict in scheduling, the Southeast-Chi Omega game was not played. It has been rescheduled for next Monday at 5 p.m.

Kansas State College, Manhattan, Kansas, Friday, March 29, 1957

NUMBER 117

Total So Far

Ninety-One Are Restricted From Driving on Campus

"Ninety-one persons are restricted from driving or parking on campus," Charles Jacot, assistant dean of students, said

yesterday. "Of these, 42 persons were restricted first semester. Since the beginning of the spring semester, 49 persons

have been notified that they've received their third ticket for a parking violation."

Students receiving three tickets during the course of a school year for traffic or parking violations are restricted from driving on campus. If a fourth ticket is issued, dismissal from school is a possible penalty.

A third ticket may be appealed by a student if the appeal is submitted to the dean of students office within 48 hours after it is issued.

"Under the present system for handling traffic and parking violations, students with more than two parking tickets are treated more as discipline problems than as violators of rules. I am not sure this is the proper procedure for effectively handling this problem," Jacot said.

A bill allowing six state colleges or universities to enforce the fine system for parking violations has recently been presented to the legislature.

If the bill were passed, students would be responsible for payment of fines made necessary by their repeated violations of traffic and parking regulations.

Cheerleader Hopefuls To Practice Monday

In preparation for those who try out for cheerleader Tuesday night, cheerleading school will be in Nichols gym at 7 p.m. both Monday and Tuesday, according to Marilyn Adams, EEd Jr, assistant head cheerleader.

Anyone interested in trying out for a cheerleader position should attend the school, according to Larry Youngdoff, BA Soph, head cheerleader.

Cheerleading hopefuls will have a chance to learn the yells better and polish up their techniques.

A cheerleader's advisory board composed of various school personnel, will choose eight men and eight women, four of each to be regular cheerleaders, and four of each to be assistant cheerleaders.

More Bowlers Needed For New SU Leagues

Men students interested in the newly-formed bowling league should apply at once in the Union activity center, according to Bob Alexander, program director.

Seven teams have been formed, and five men are needed to make up the eighth team.

JOHN McCOMB, PrV Soph, the K-State entry in the oratory finals, makes some last-minute changes in his speech, which he delivered last night in the Union. The oratory contest is just one phase of the Missouri Valley Forensic League Debate Tournament, which started last night and will continue until tomorrow.

Board of SP Says Okay

Student Directory To 'Grow' in Size

The Board of Student Publications, in a meeting yesterday, approved a plan to enlarge next year's student directory to a size 8 1/2 by 11 inches and use national advertising. The Student Council is considering the change for next year's directory.

The Board is in charge of the editing of the directory for the Student Council.

The Student Council originally proposed the enlargement of the directory, and the inclusion of advertising, to cut down on costs of printing.

Pat Wilkerson, BA Sr, student body president and Dick Peterson, ME Sr, Student Council member, were present at the meeting to seek the Board of

Publications' approval on the issue.

The new proposal would not change the fact that the Student Council pays for the directory out of its annual apportionment, but would mean that they would have to appoint the advertising manager.

Senior Invites on Sale Next Week Only in K101

Senior commencement invitations will go on sale in K 101 Monday morning. Sales will last until a week from today. Theta Sigma Phi, women's journalism honorary, will be in charge.

German Student Looks Toward Aiding Mankind

GERMAN STUDENT, Georg Plange, thumbs through the record selections in the music lounge in the Union.

"When I am 60 I want to be able to look back and know that I have done something besides make money, that I have benefited mankind in some way," is the goal expressed by George Plange, feed technology major from Dusseldorf, Germany, who will someday inherit from his father one of the largest milling firms in Germany.

Plange lives in Manhattan with two other foreign students, Colin Ovenstone from Great Britain, and Pierre Caminade from France, in a house which they call "Little Europe."

He first enrolled at K-State in the fall of 1955 after crossing Europe that summer on the Italian ship, the Andrea Doria. Although he has not returned to Europe since first arriving here, he had originally planned to go back for a visit last summer. His reservations, before they were cancelled, called for the trip over to be by air, and for the return voyage to be on the crossing of the Andrea Doria which proved ill-fated the latter part of July.

Prior to coming to K-State the German received 11 years schooling in Germany and Switzerland. After that he traveled for four years in England, France, Switzerland, and Germany as a student trainee in various engineering firms. This consisted of working only to learn the operations involved, and in doing so received no monetary pay.

"I came to K-State," Plange said, "because it is the only school in the world that offers a degree in feed technology. My father attended K-State for one year as a graduate student and I also hope to go on to graduate school."

"The milling department is fine, although there are some things about K-State which do not impress me. For one thing, it seems there is not the direction of spirit here that there is in Europe,

and many students here are so frustrated. They do not go to school to learn."

Plange said that in Europe, if an instructor is very good, students applaud when he enters the classroom. If the instructor is bad and does not know his subject students shuffle their feet on the floor and otherwise make noises.

"The students in Europe are on their own initiative and all instructors are forced to be good to keep ahead of them. All the students want here is their degree so they can say, 'I have a piece of paper, I can earn more money now'."

"Students here are too materialistic and don't seem capable of being happy with little things. Here it is almost a crime if things are not new. Americans do not appreciate quality, only newness," he said.

In connection with student regulations and restrictions Plange expressed a slight bewilderment. He said the college students here are treated like the kindergarten children are in Europe, particularly in regard to the dorm and housing restrictions for the girls. In Europe college men and women live where they please.

In regard to coeds, he said the Americans dress very well, but they all dress alike. He wonders why they all wear white socks and said he wishes someone would wear green or some other color for a change.

Georg said the two things he liked most about America is that there is so much land that is not overpopulated, and the fact that the sun shines more here than in Germany.

Also, age is not as important here as it is in Europe. In Europe you have no chance of getting a position until you have reached a certain age. People here also get married younger.

Pitt State Collegio To Chastise Profs

By Shari Shellenberger

PROFESSORS! Want to get your names in the paper? Students at Pittsburg State college are complaining to college officials about instructors who extend classes over the class period. This naturally causes students to be late to their next class.

The Pittsburg Collegio, in an editorial on the matter, refrained from printing the names of the offending professors. But the Collegio warned that if such practices continue, it feels that it is under obligation to the student body to print the names of these professors in an effort to correct the situation.

ACCORDING TO the University of Oklahoma Daily, the trend in the past few weeks on the University campus is to "wake up each morning, rush to get the paper or turn on the radio to find out what new stipulations have been placed on the college students."

Following what seems to be the "fad" in Big Seven schools, University students face a possible tuition hike. And the proposal would DOUBLE the tuition fee.

Doubling the fee would require out-of-state students to pay around \$600 a semester plus other incidentals like food, housing, and parking fees. Says the Daily: "This ought to alleviate the crowded conditions of this institution of higher learning with rapidity."

ANOTHER TREND at OU is to ban cars on the campus. Should this plan go into effect, the Daily says, students would be forced to ride bicycles to class, thus forcing women students to discard all skirts and sweaters, and purchase only Bermuda shorts and treader pants.

Rules and regulations are quite delightful, aren't they, K-Staters?

"THERE IS a certain element on this campus that is trying to silence me," says 'Harry' in his Flying Shrapnel column in the Iowa State Daily.

Harry claims that people want to silence him because he knows too much—lives and reputations are in the balance. Referring to future exposures, Harry says:

"Boy, wait till I expose the Athletics department. Why does it take seven athletes to wind the clocks in the gym? Who is the athlete in charge of observing the growing grass in the stadium? How come the Armory was named Strannigan's Place instead of Gary's (Thompson) Barn? All these scandalous things will be exposed next quarter . . . I know lots of things. Truth is on the march."

Telegraphic Tabloids

By UNITED PRESS

Santa Barbara, Calif.—City employees painted 15 private cars for free yesterday, but all the owners complained.

The employees, traffic sign painters, were moving their truck when the hose on a pressurized tank broke, spraying the cars with a mottled white on one side.

Montreal—The Montreal Star yesterday carried a two-page advertisement by Steinberg's Limited, a chain grocery organization. It featured soaps, floor waxes, sponges, brooms and paper towels but not a single mention of food.

Hollywood—Spike Jones said yesterday he will play an original musical score called "Hollywood Euophony" on his new television show Tuesday. "The main sound in the arrangement is the clanging of fenders of the Hollywood Freeway," he said.

Washington—AFL-CIO Special Counsel Arthur J. Goldberg told a labor meeting with tongue-in-cheek yesterday that the AFL-CIO's Ethical Practices committee has written a new code entitled: "I can not get it for you wholesale."

Chicago—Dave Beck to a reporter who asked if he would resign from the presidency of the Teamsters union:

"Why should I?"

Independents Need To Be Organized

THERE ARE more than 4,000 independent students on this campus. Think what a strong organization they could make if they were well organized!

There is an Independent Students association on campus at the present but not enough students are interested in the organization to effectively conduct a meeting, according to Don Lancaster, Sp Sr, president of the group.

UNLESS THERE is some interest shown and students begin attending meetings, ISA will have to be disbanded, Lancaster says.

This will leave no voice in campus activities for the largest percentage of students.

IT IS INEXPENSIVE to belong to the organization so why shouldn't every non-Greek on the campus be an active and interested member?

The ISA is having an election of officers April 10, in the Student Union. If you are an independent, why not go to the meeting. It is an excellent opportunity to develop and show your leadership ability.—Jane Moore

Docking Signs Measure To Boost Cigarette Tax

By UNITED PRESS

TOPEKA—The price of cigarettes in Kansas will increase one cent per pack Monday.

Gov. George Docking yesterday signed into law a bill raising the tax one cent per pack. The bill was labeled emergency legislation and will go into effect April 1.

Docking also signed a bill calling for the razing of the old Topeka City Library building located on the statehouse grounds.

THE SAME BILL calls for locating the legislative committee meeting rooms, legislative offices and relocation of the revisor of statutes on the fifth floor of the State House.

A joint House committee voted 20-12 yesterday to table a Senate-passed severance tax on gas and oil, practically assuring death of the \$8 million revenue measure for this session.

THE MEASURE was referred by Speaker Jess Taylor to a joint committee made up of members of the House Assessment and Taxation, and Oil and Gas committees.

Reaction to the committee's action came in the form of a quiet move among several House members to revive a severance tax by attempting to amend it on to another bill.

Representative Steadman Ball (R-Atchison), one of the outspoken backers of the plan, said he would "do anything honorable I know of to get this before the House." Several leading Republicans also were working to accomplish this end.

SIMILAR SEVERANCE TAX measures have died in about the last 10 Kansas legislatures.

Debate in the committee was mainly over technicalities and wording of the bill in a desultory fashion before the motion to table it was made as a substitute to report it unfavorably.

Governor Docking, who said he would sign such a 2 per cent severance tax, said yesterday that he thought the "entire House should have had a chance to vote on this."

Queen's 2d Try Gets Staters Okay

When a girl is elected queen of one campus affair, should she then be excluded from further queen honors?

In answer to this question, a scattered sampling of the student body responded with an almost equal distribution of "yes" and "no" replies. A no-yes ratio of 7-6 shows only a slight negative majority.

Negative arguments state that if a girl is qualified to win once, she should not be withheld from other competition.

Positive opinion generally maintains that there are enough beautiful and capable girls on the campus to merit a fair distribution of the honors.

● LORETTA POUND, BMT Soph—"No. I will agree that a girl with beauty, charm, and personality is run to death sometimes, but just because she has received one honor should not exclude her from others."

● CHARLES MOGGIE, BAA Soph—"Yes—with the exception of the Royal Purple queen I think there are enough good-looking girls at Kansas State to pass honors around."

● MARY MOAK, PEW Fr—"No. If she is good enough to get one honor, she should try again. You never can tell, she might be the future Miss America."

● MARY LYNN DEEWALL, EED Jr—"Yes. Queen honors should be passed around on the campus so a greater number of deserving girls can become well-known."

● GARY CRISS, ME Fr—"No. One organization should be able to put up a girl as a queen candidate even if she has previously reigned over another affair. Organizations should use discrimination and select the best candidate, whether a new face or a previous winner."

● LYNN MARTI, Soc Soph—"Yes, for one year, but not for all four. One girl shouldn't be allowed to monopolize the honors when there are so many fine girls on the campus."

● JIM PARKER, Sta Soph—"No. I don't think a girl should be eliminated from one queen contest just because she had the necessary qualifications to win a prior contest. If she is one of the best candidates available, I believe she should be allowed to enter. Why penalize her for her beauty?"

● JUDY STARK, SED Fr—"Yes. After being elected once, she shouldn't be eligible again. There are other qualified girls."

● BILL HUNTINGTON, IE Jr—"No. If a girl is the popular choice of the students, she has the right to take part in as many activities as she chooses."

● CAROLYN KEANE, PrV Fr—"Yes. When one girl is constantly capturing the honors, other girls become discouraged. They feel they won't have a chance to become known."

● JOHN STONE, BA Soph—"No. When a girl has been selected as a queen of some campus affair, she has proved her personality and ability. If she has a chance to represent an organization in another campus activity, I definitely think she should. What's worth doing once is worth doing again. No one should prevent it."

● JACK MCCAIN, ME Fr—"Yes. If one girl is popular enough she might win them all. Why not pass honors around?"

● ALICE WHITNEY, EED Fr—"No. Personality and charm that a girl had to win the first election shouldn't eliminate her from further competition."

'Nightcaps' Boast of Vocal Engineers, Rules Slide Up Strictly Musical Scale

By JERRY EMERSON

Whoever heard of three male engineers and a girl forming their own talented quartet? The Nightcaps, composed of Bob Sanders, EE Fr, Doug Exline, ME Fr, Jon Weigand, NE Soph, and Janet Holm, EEd Fr, have accomplished this feat, and very successfully.

The quartet is fast becoming a familiar sight at parties, dances, and other social gatherings at K-State and in the Manhattan area. Formed in the first semester of this school year, the quartet has already sung at the Kappa Kappa Gamma formal, the Manhattan Lions club, several Manhattan churches, and represented K-State in the Big Three Variety show. They also appeared at the Student Union Birthday party.

The unusual feature about the quartet is that Sanders arranges all the music that the quartet sings. He also directs the group, plays the piano, and sings bass in the quartet. Though now majoring in electrical engineering, Sanders does have somewhat of a musical background. He studied music at his home in Salina and received number one, or "excellent" vocal ratings, two consecutive years in the Kansas High School Music contest.

Miss Holm, Weigand, and Exline also have musical backgrounds. Janet and Doug, both from Salina, sang in a quintet with Bob in high school. Jon, who says he doesn't know how he crept in with the Salinans, is from LaCrosse, and has also received two "excellent" ratings in state music contests.

Concentrating mostly on popular and rhythm music, the Nightcaps are planning to have a record cut of some of their favorite numbers. Recently they added "Blue Mexico" to their repertoire. Sanders wrote both the words and music to this number.

The quartet members find that the fun of singing as a group is more than enough reward for their extra hours of work practicing.

"It gives us a good excuse to get away

THE "NIGHTCAPS"—Jon Weigand, NE Soph; Janet Holm, EEd Fr; Doug Exline, ME Fr; and (center foreground) Bob Sanders, EE Fr, three male engineers and a girl who get together on their own time to sing do a bit for the Collegian. Unfortunately, the attachment for sound hasn't been fitted to the press yet.

from our studies for awhile," laughed Weigand. "It didn't help my physics grade much last semester though."

The Nightcaps feel that their most important performance up-to-date was on the Big Three Variety show. They were suffering a case of stage fright and were

"scared to death." As they were about to begin their number the microphone fell over and brought a round of chuckles from the audience.

"It sure relieved the pressure," Sanders said. "After that, we laughed ourselves and forgot all about being afraid."

Signs of the K-State Times:

'Had Bull, Did I Ever Travel!'

By RAY WILSON

Of all the ways students supplement their funds in college, Dale Wilson, AEd Soph, probably has the most unusual—he rides Brahma bulls.

"You don't have to be crazy to ride Brahma bulls," he laughs, "... but it helps."

He became interested in bull riding the first time he saw a rodeo. "I was nine years old then, and it looked like an easy way to make money. I tried it some time later, and found it wasn't as easy as it looked."

He stayed on the first bull he rode through only two jumps. "Those animals weigh a ton, literally," he said, and "it's hard to stay on them because they're so determined to get you off."

By riding bulls, Wilson makes enough on weekends to pay his way through school. He earns \$35 to \$40 a weekend riding, then can devote the rest of his time to studying.

The most he ever won in a single event was during a two-day rodeo when he won \$90. Those aren't bad wages for a couple of minutes work, he said. It's the risk involved that makes it exciting, Wilson said.

Brahma bull riding is considered to

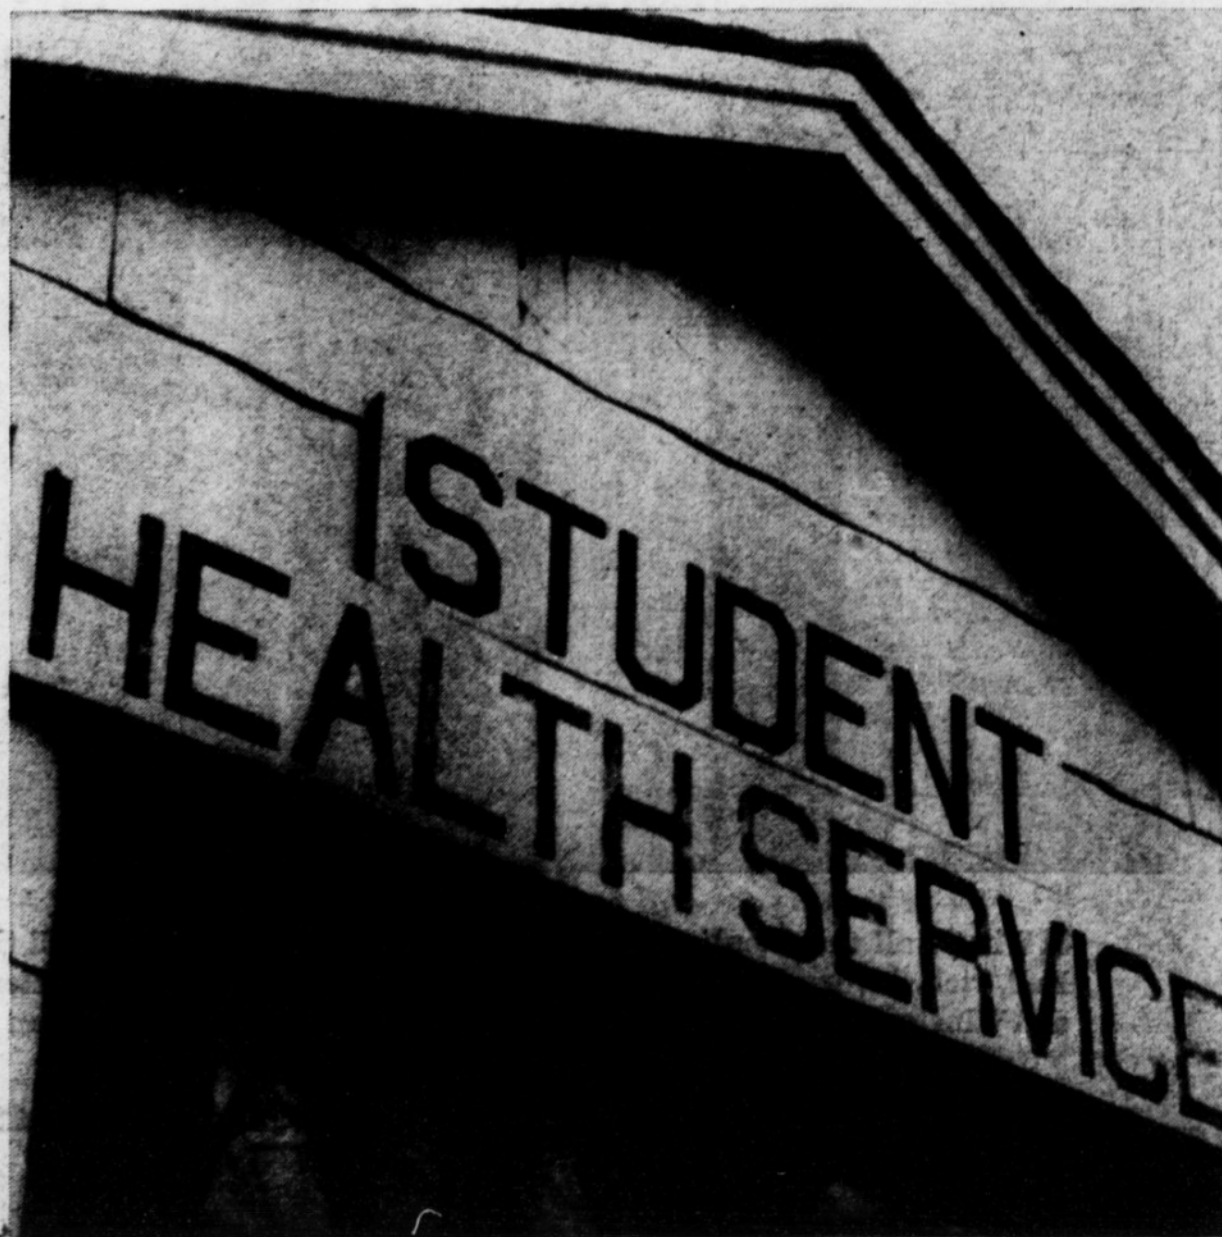

be the most dangerous event in a rodeo. There is the danger of being hurt by a fall, and a constant danger of being gored after being thrown. Wilson, who considers this pretty risky business, has never received anything worse than a sprained ankle.

After finishing his education, Dale plans to make bull-riding his full time occupation. He will join the Rodeo Cowboys association, which will make him eligible for large rodeos all over the United States. "I plan to ride until I am about 30 and then settle down and be an Ag teacher, he said. "After most men reach the age of 30 they don't have the stamina to continue this sport."

Dale is not the only cowboy in the family. Two of his brothers are in the rodeo business. One is retired and the other, Clark Wilson, AE Sr, is already a full fledged member of the RCA.

Bull riding, like so many other things, gets in your blood; you can't quit," Wilson said.

BRAHMA BULL RIDING, anyone? The Collegian photographer's conception of the home for aged bull riders.

Alumni Busy Working, Teaching, Still Studying

An extension dairyman in Jackson, Tenn., Joe Weldon Armstrong, BS '54, is married to the former Alice Joyce Spillman who attended Texas Lutheran college. The couple was married in '52. During '54 and '55 Armstrong was a county agricultural agent in Yates Center.

Joan Catherine Newcomer, BS '51, received a master of arts degree from the University of Minnesota this month. While a student at KSC she was president of Mortar Board, honorary for senior women, and Theta Sigma Phi, journalism honorary, and was in K-State Players and A Cappella choir. She was also listed in Who's Who in American Colleges and Universities.

James Gordon Baldwin, BS in '54, is a senior salesman and

business methods counselor for the Addressograph and Multi-graph corporation in Topeka.

Since his graduation last year in veterinary medicine, Dr. Martin R. Frey has been associated with a group of practitioners in Nampa, Idaho.

Joseph Spencer Wheatly, BS in DVM '54, practiced in Rolling Fork, Miss., for a year, and in Nashville, Tenn., for a year. He is presently a lieutenant in the service and is a veterinarian food inspector.

Teaching vocational ag in Mankato is James William Wilson, BS in Ag '54. He married the former Loretta Armbruster.

A '52 graduate now on the staff of the Pathology department, Dr. Harry D. Anthony, BS and DVM, and his wife became parents of a boy, their first child, December 28.

Name Trouble

Milwaukee (U.P.)—After Gerry Hopfensperger had appeared in 19 Marquette basketball games this season, his name had appeared in the box score spelled in 14 different ways. Marquette officials have inquired, without answer, as to what will happen to freshman cager Al Wierciszewski next year?

Activities Column

Water-Safety Instructors To Be Offered Course

A water-safety instructors' course will be conducted by Gilbert Grebbel, a representative of the American Red Cross from St. Louis, starting April 8.

Before students may participate

in the course attendance is required at a session to check on strokes and skills used in water safety. Students will be tested on various swimming strokes, treading, floating, a standing dive, and

life-saving skills.

This checking program will be Monday, Tuesday, and Thursday, April 1, 2, and 4, in Nichols gym.

Both men and women are eligible for this program.

American Society of Ag Engineers
Eight student and six faculty members of the American Society of Agricultural Engineers will attend a Midwestern conference at St. Joseph, Mo., this weekend.

Home Ec Journalism Club

Jane Franz, HEJ Soph, is the newly elected president of the Home Economics Journalism club. Other officers are Jan Kraft, HEJ Jr, vice-president; Karen Dusenbury, HEJ Fr, secretary; and Janice Bates, HEJ Fr, treasurer.

Tickets Being Sold For Play, Banquet

Activity tickets will admit college students to K-State Players presentation of "Merry Wives of Windsor," to be at 8:15 p.m. in the College auditorium April 4 and 5. Adult tickets are now on sale at the Student Union information desk and the Auditorium box office.

Gordon Jump, Sp Sr, has the leading part as a comedy fat man.

Tickets are on sale in Holton hall today and Monday for the

Future Teachers of America spring banquet, to be in the Student Union north ballroom Monday at 6:15 p.m. Scholarship awards will be presented and next year's officers will be announced.

Quarter-Miler Lost For A&M Relays

K-State's track team suffered a severe blow Tuesday when sophomore quarter-miler Jim Vader pulled a muscle which sidelines him for tomorrow's meet at the Oklahoma A&M relays in Stillwater.

Vader is the fifth man to be lost by the Wildcats in two weeks. Early last week junior pole vaulter Karl Lindenmuth was sidelined with a sprained ankle that will keep him out of competition for at least three weeks.

At last Saturday's K-State Invitational relays, the Wildcats lost sophomore quarter-miler Dave Burton with a pulled muscle, sophomore distance runner Clifford Gruver with a calf injury, and junior

high jumper Wes Wilkison with a pulled muscle.

Assistant Coach Herman Wilkison, subbing for Coach Ward Haylett who must stay in Manhattan because of the high school indoor in Ahearn field house, said that the loss of these men will seriously affect the team's chances at Stillwater.

Vader, who ran on the mile relay team that set a new Field House and varsity record of 3:20.6 last Saturday, will be replaced by senior Dolan McDaniel. Henry Renollet will replace Burton on the mile relay team.

Chi O's Win In Gals' IM's

In women's intramural play yesterday, Northwest defeated Alpha Chi Omega, 27-15, while Chi Omega dropped Alpha Delta Pi 23-15.

Carolee Baertch hit 13 points for Northwest to lead her team. Gayln Krey scored nine points to lead Alpha Chi's scoring.

Chi Omega dropped Alpha Delta Pi game, Annette Tighe scored 17 to lead Chi Omega, and Susan Schober got seven for Alpha Delta Pi.

Net Season Begins

K-State's tennis team will open its season tomorrow at 2 p.m. against Southwestern of Winfield. The match will be played on the tennis courts, weather permitting. Otherwise it will be played in Ahearn gymnasium.

Gridders Have 6 Days To Practice for Alumni

By MIKE SCANLAND

With six practice days left to prepare for the annual varsity-alumni game, K-State's football team will be getting more group work, backfield Coach Herb Cormack said yesterday.

Scrimmages are scheduled for Friday, Saturday, Monday, and Tuesday. The alum contest is slated for Saturday, April 6.

Saturday's workout will be a regular game condition scrimmage in Memorial Stadium.

Defense has been emphasized for more than a week in practice, and Cormack believes the team's defensive play is a little ahead of the offense.

"The pursuit was better and there was more gang tackling this week. More men are getting to the ball carrier and getting to him faster. When you have more men getting into the act all the time, the ball carrier isn't as likely to get away for long runs quite as often," Cormack said.

Cormack believes the offense has been more dangerous lately, too. The backs have been getting away for long runs, but he said that coaches will be working to

improve the consistency of the offense—to develop the team's ability to keep the ball moving.

"The running has shown definite improvement. Everybody has been running hard. The general tempo of the running has been more vicious. The backs just duck their heads and run at people," Cormack said.

He feels that good all around strength is being developed in the backfield. "More men are getting so they're ready to play in this conference," he said.

"If we get by with no more than the normal amount of injuries, these kids are going to give a

good account of themselves next fall," Cormack said.

"There has been a definite improvement in passing and receiving," he said, referring to the passing attack Coach Bus Mertes is trying to develop.

Cormack commended the pass receivers, saying they have shown great desire and have made some extremely difficult catches.

Cormack thinks any of his first three backs at each backfield position is capable of giving a good account of himself in Big Seven competition. The one exception is fullback where the team is four deep with good talent.

Prep Track Meet Here

A total of 107 Kansas high school track teams are scheduled to compete in the third annual Kansas State High School indoor meet to be held in Ahearn field house tomorrow.

Entries include 49 schools from class B, 35 from A, and 23 from AA. All preliminaries and shot-put finals will be run in the afternoon session starting at 1:30. The all-final night session will start at 7:30.

The defending champions in classes AA, A, and B are Wichita North, Effingham, and Douglass, respectively.

In the two-year old affair, North owns a pair of meet records and Effingham and Douglass hold one apiece.

Curtis McClinton, North's outstanding senior hurdler last year, holds the meet record of 7.9 in the 60-yard hurdles. North's other record is the 6-3 mark set last year in the high jump by Arthur Lee.

Norman Boldridge of Effingham holds the record for his

school with a mark of 6.5 in the 60-yard dash.

Kenny Hodges, who set a record of 11-2 1/4 in the pole vault for Douglass, is the only record holder of last year's champions returning to compete this year.

Grapplers To NCAA

A group of six K-State wrestlers journey to the National Collegiate Athletic association tournament today and tomorrow at the University of Pittsburgh.

Five of the six men are sophomores and the sixth is a junior. "We are green and may not go far," said Coach Fritz Knorr. "But there is no better experience than wrestling in a national meet and with a little luck some of our men could spring a surprise."

Leading the Wildcats will be Douglass sophomore John Doyle who won the Big Seven 157-pound crown and went undefeated in conference dual-meet competition. Doyle's season record is 7-2-2 which gives him 27 points for the top scoring spot on the squad.

The other Wildcat wrestlers

competing in the tournament are Riley Miller, 123-pound sophomore from Wichita; Billy Youngers, 115-pound sophomore from Wichita; Jim Roberts, 147-pound Tulsa sophomore; Gary Haller, 167-pound junior from Colby; and Jim Dietrich, 177-pound Manhattan sophomore.

The only other Wildcats scoring over 20 points during the season besides Doyle were Haller and Miller. Miller was second high scorer with 25 points and Haller was third with 21. Miller's overall record was 5-3-3 while Haller's was 5-5-1.

Roberts scored 16 points and had a record of 4-5-1 while Dietrich and Youngers each scored eight points and had respective records of 2-8-0 and 2-1-1.

KSC Newman Club Ninth Largest in U.S.

K-State's Newman club, Catholic students' organization, is the ninth largest of the 615 Newman clubs in the United States. The present membership is 492. Ted Johnson, Phy Sr, is the president of the group which includes 20 foreign student members.

Newman clubs are devoted to helping college Catholic students. The K-State club meets every Sunday morning for a coffee hour, business meeting and program after mass at the Seven Dolors church. Guest speakers have discussed "Psychiatry and the Church," "Problems of Alcoholism," and other ethical, religious, and social problems. A discussion club meets every Monday evening at the Student Union to consider problems of courtship and marriage. The K-State Newman club was organized in 1912.

The Newman Day banquet and dance given in honor of Cardinal Newman is the biggest social event of the year.

Members of the club attend skating parties, hay rides, dances, mixers, and other parties. Under the direction of Frank Rodman, VM Jr, the club has taken part in almost all intramural sports. They are now 10th in the independent division. Members receive a newsheet entitled, "K-State Newmanotes" about every two months.

COLLEGE BOOK STORE

AGGRIEVILLE

Baptist Students Form Club

Ten K-State students with the help of Rev. Harold Ekert, pastoral adviser, and Richard Taylor, faculty adviser, have organized the Kansas State chapter of the Southern Baptist Union.

Attempts have been made previously to establish the Southern Baptist Union on campus, but this is the first time it has been officially recognized as a college organization. It is the 22d religious group to be approved by the Student Governing association.

The Reverend Ekert came to Manhattan from Southwestern Oklahoma last October. The Southern Baptist Union is organized in colleges and universities mainly in the Southern and Central regions of the United States. "The students at K-State were eager and co-operative in organizing a similar group on this campus," the Reverend Ekert remarked.

The chief activity of the Southern Baptist Union is the Morning Watch which is a devotional meeting in Danforth chapel every Tuesday at 7:20 a.m.

Plans for the organization have been underway since January. At the first open meeting March 8, a constitution was

adopted and officers were installed. Bill Molloyhan, ChE Jr, is the charter president.

Other officers are Edith Burdick, EEd Jr, vice-president and enlistment chairman; Phyllis Love, HT Jr, secretary-treasurer and publicity chairman; Bob Bohn, TA Sr, devotional chairman.

Coeds Approve Love, Marriage

Kelly-Shaw

Cigars at the Alpha Tau Omega house announced the pinning of Norma Kelly to Ken Shaw, ChE Sr. Norma is from Wamego and Ken is from Towson, Md.

Kraft-Frye

The pinning of Jan Kraft, HEJ Jr, to Buddy Frye, GA Jr, was announced by the passing of chocolates at the Chi Omega house and cigars at the Beta Theta Pi house Sunday. Jan is from Overland Park and Buddy is from Centralia.

Fisher-Siever

The pinning of Judy Fisher, SEd Soph, to Dick Siever, Soc Soph, was announced at the Pi Beta Phi house and the Pi Kappa Alpha house Sunday. Judy is from Wichita and Dick is from Parsons.

Andrews-Croy

Cigars were passed recently at the Alpha Kappa Lambda house to announced the pinning of Don Croy, ME Jr, to Edna Andrews, a freshman at Emporia State Teachers college. They are both from Cottonwood Falls.

Engagements

Baertch-Clowers

The engagement of Carolee Baertch, HE Soph, to Jim Clowers, GA Soph, was announced by a pink and white "Easter bunny" at Northwest hall, Sunday.

Somers-Kohfeld

Chocolates passed at the Pi Beta Phi house announced the engagement of Bev Somers, ML Soph, to Charles Kohfeld. Charles, a member of Kappa Sigma, is a KU

graduate. Both Bev and Charles are from Norton.

Baird-Davis

Chocolates were recently passed at Southeast hall to announce the engagement of Dorothy Baird, BA Fr, to Robert Davis, ME Fr. Dorothy is from Brewster and Robert is from Chapman.

Schenk-Waters

Ron Waters announced his engagement to Jean Schenk, a registered nurse from Salina, at the Tau Kappa Epsilon house recently. Ron is a graduate student in business and is from Brookville. Jean's home town is Hays. The wedding will be June 8.

Jones-White

Cigars were passed recently at the Tau Kappa Epsilon fraternity house to announce the engagement of Jackie Jones, EEd Soph, to Duane White, BA Jr. Jackie is from Kansas City, Kansas, and Duane is from Caldwell. They will be married June 1.

Schroedel-Saenger

Chocolates at the Kappa Delta sorority house and cigars at the were passed recently to announce Beta Sigma Psi fraternity house the engagement of Eva Schroedel, EEd Sr from Parsons, to Fred Saenger, AEd Sr from Sylvan Grove.

Marriage

Ottaway-Hillman

Miss Louise Ottaway, EEd Soph, became the bride of Jack Hillman, Art Soph, March 6, at Goddard. Louise is a member of the Clovia sorority. Jack is from Manhattan and Louise is from Viola.

Greeks Plan Full Agenda Of Activities

Beta Theta Pi

The members of Beta Theta Pi will be hosts at the annual Beta Pig dinner and formal Saturday evening in the Student Union. Dinner will be served at 7 p.m. The Pastels from Emporia will provide music for the dance starting at 9 p.m. In the receiving line will be George Peters, BPM Jr, president of the fraternity; Joan Wiley, Cincinnati, Ohio; Mrs. Ida Hall Wells, house mother; Dean and Mrs. Herbert Wunderlich; Dean Helen Moore; Jack House, AA Soph, and Rexine McBain.

Theta Xi

Theta Xi members entertained rushees last weekend. Rushees were from Wichita, Hutchinson and Waterville.

Delta Delta Delta

Delta Delta Delta members from Kansas State, Baker university, and Kansas university will attend State Day in Hutchinson Saturday.

Long and Short

OGDEN, Utah—(U.P.)—A four-member jury cleared G. Ray Stockman of keeping a vicious dog after a 14-year-old newsboy who claimed the animal attacked him admitted in city court he didn't know whether the dog's tail was long or short.

Pledges to Actives; As Houses Initiate

Delta Tau Delta

The following men were initiated into Delta Tau Delta fraternity on Sunday, March 17: David Templeton, AE Fr; Joel Kesler, EE Fr; Dean Hoar, ME Fr; Norman Stockham, BAA Fr; Robert Wempe, PsP Jr; Devon Miller, PrV Fr; Richard Jennings, EE Fr; Edward Cochran, CE Fr; Don Hazlett, AE Fr; Douglas Archer, NE Fr; William Simic Jr., PrV Fr; Ralph Shaw, PrV Fr; Jerry Metcalf, BAA Fr; Lowell Johnson, ME Fr; Edward Regnier, ChE Fr; John Erickson, Fr; Michael Finney, NE Fr; and John Arford Jr., AEd Fr.

Two of the new initiates received their active pins from their fathers who are Delta Tau Delta alums. These men are David Templeton and his father, Edgar Templeton and Joel Reid Kesler and his father, Joel Kesler.

Sigma Nu

Sigma Nu members held initiation for seven pledges Sunday.

The new initiates are William Kastner, EE Fr; James H. Brown, ChE Fr; Jim Lisher, Chm Fr; Kermit Smith, EEd Jr; Robert Brown, MEI Jr; Ronald Henry, Cr Fr; Steve McCarl, ME Fr.

Kappa Sigma

There was a model initiation for Chuck Downing at the Kappa Sigma fraternity house Sunday morning. Chuck is a freshman in milling technology.

Pledges

Sigma Phi Epsilon

A new pledge of Sigma Phi Epsilon is Jim Mears, Art Fr from Abilene.

JOB INTERVIEWS

Since the interviewing season is nearing its end, only 18 concerns will be on campus in the next two weeks to interview seniors who are seeking jobs, according to Dr. Chester Peters, director of the College Placement bureau.

Dates of interviews, names of companies, majors wanted, and scheduling offices:

April 1—San Francisco Naval Shipyard, ME, CE, ArchE, EE, Gen E, Electronics (Juniors and seniors), E 109; Ernst & Ernst, Accounting, A 110; General Electric, ME, EE, IE, ChE, Chm, Phy, Mth, E 120; McKesson & Robbins, BA, BS, Lib Arts, A 110.

April 2—Farmers Home Administration—Ag (seniors), A 110; Soil Conservation service, Ag (students for summer), A 110.

April 3—Soil Conservation service, Ag (students for summer), A 110; Rath Packing company, BA, Lib Arts, Ec, Chm, ME, IE, ChE, A 110; Shell Oil company, Accounting (majors and minors), A 110; Missouri Pacific railroad, CE, ArchE, E 142; Topeka Air Force depot, BA, IE, Acctg, Ec, A 110.

April 4—Interstate Electronics corporation, EE, E 120.

April 5—City Water and Power Department of Los Angeles, EE, E 120; Hughes Research and Development, EE, Phy, E 120.

April 9—Convair-Pomona, ME, MetE, NucE, NucIE, ChE, AeroE, Phy, E 109.

April 10—Pan American Petroleum corporation, ME, CE, (Juniors and sophomores), Army Audit agency, Acctg, A 110.

April 11—Sears, Roebuck & Company, Acctg, BA, Ec, Lib Arts, A 110.

April 12—New York Life Insurance company, BA, Lib Arts, Ec, A 110.

Teacher Placement

April 1—St. Louis Public schools, EED, SED; Denver Public schools, EED SED; Placement office for both.

If you are interested in a particular school system which has not

reported a vacancy to the Placement bureau, it would be wise to write a letter of inquiry to the Superintendent of the school system to check if there is a need for someone of your qualifications.

STUDENT HEALTH

In Student Health today are 12 students. The five girls are Sharon Anthony, SED Fr; Elsie Ling, HE Sp; Mary Gardner, AH Fr; Janet Frey, EED Sr; and Christine Bergstrom, HEJ Fr.

Seven men in Student Health are Thomas Hamilton, Sta Gr; John Collison; George Malone, Phy Soph; Harry Hopson, VM Sr; Richard Rudman, AED Sr; Jerry Karr, AE Jr; and Mohiendin Sabhlik, IE Sr.

WEATHER

The weather forecast for Kansas is for considerable cloudiness today, tonight and Saturday, with scattered light showers in the Southwest today. More rainfall will cover the West and South Saturday.

E-School Council Asks for Money For K-Hill Work

At a meeting of the Engineering Council last night, members approved a motion to send letters to the various engineering honoraries and departmental associations requesting donations to provide the additional funds needed to complete the K-Hill repair project.

Dean Nehring, ChE Jr, co-chairman of the K-Hill committee, reported that bids had been opened to local contractors and that the low bid for the project exceeded the \$2,000 allotted the Council by \$100.

Senate Committee Hits Beck With Additional Charges

Compiled from United Press
By KEITH KEMPER

Washington—The Senate rack-ets committee dug into a rash of new charges against the Teamsters union today including reports that Dave Beck has been linked with strikebreaking and collusion with management.

Committee Counsel Robert F. Kennedy told newsmen the committee has enough evidence to warrant further investigation of possible labor-management collusion by Beck, through Nathan W. Shefferman, Beck's nylon-and-deep-freeze-purchasing friend.

Beck Hung in Effigy

Yakima, Wash.—Dave Beck, teamsters president, was hanged and burned in effigy here last night in front of Teamsters union hall.

A placard reading "majority members of local 524 strongly in

favor of Senate investigating committee" hung from the effigy.

AFL-CIO To Slash Beck

Washington — The AFL-CIO high command gathered today for a council of war on whether to swing behind a move to smash the power of Teamster president Dave Beck.

Attorney General Blasts K-State

Kansas State Collegian

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Monday, April 1, 1957

NUMBER 118

Mount Oread Sinks 7 Feet

Chamberlain Takes Pro Offer, Set to Join Celtics in August

Wilt Chamberlain, 7-2 basketball player for Kansas University the past season, has accepted an offer to play with the Boston Celtics professional team next season.

Chamberlain makes the move after

spending only one season at Kansas. He helped the Jayhawks to second place in the National Collegiate tourney in Kansas City recently, and was the fourth ranked scorer nationally in NCAA figures with 800 points and a 29.6 average.

"I guess Chamberlain finally has found an outfit that can pay him what he's worth," KU Athletics Director Dutch Lomborg said bitterly. "I'm not too surprised this has happened."

At Kansas, Chamberlain set a basket full of records. He hit 52 points against Northwestern for a new one-game total at KU, and speared 31 rebounds in that game for another.

With the Celtics, Chamber-

Regents Change K-State's Name

The Board of Regents Friday approved a request from President James A. McCain to change the name of Kansas State college to Kansas State College of Agriculture, Engineering, and Applied Sciences.

The reason for the change, according to McCain, is that K-State has been noted for its agriculture curriculum, and that since the Engineering school rapidly is achieving a nationwide reputation that name should be included in the College name.

McCain's recommendation and the action by the Board of Regents show a complete reversal of attitude from their recent view which would have changed the college's name to Kansas State university.

K-State student reactions to the name change definitely have been against the change as passed by the Board.

Students expressed the belief that the name change represents a throwback to the days

when silos sprouted on campus instead of modern buildings.

Student body President Pat Wilkerson said he would do everything within his power (which is not much) to get the name change revised to read Kansas State College of Knowledge.

Here are some of the opinions given to the Collegian by K-State students:

Si Lobulder, AH 04—"I'll be a brown cow if they're not making a sow's ear out of a silk purse. Since I am majoring in the husbandry of animals, I vehemently resent inclusion of the word 'engineering' (Ugh!) in the name of my school."

Starr Stonehunter, Geo Gr—"Personally, they can take the new name and cram it down the limestone sides of the power plant smoke stack. What do they mean by leaving geology out of the school name? It's a slight to all rock pickers in general."

John Bonehead, Communications Soph—"So help me, the next thing the Regents do will be to take all indoor plumbing out of college buildings, and we'll go back to the little-houses-outdoors era."

Thomas Doubting, Psy Sr—"I just don't know. I can't really decide what to think of it. I must talk to Doc Langford. I'm sure he'll have some so-called reasoning to contribute."

Doc Langford, former student turned psychology professor—"It will snow in July. That's all I have to say."

It safely can be said that K-Staters would like to have a name for their school, and that they would like to have a neon sign in front of the Union proclaiming such, according to Loren Kottner of the Extension Division, April Fool.

Board Outlaws Campus Group

The union board governing the Student Activities Committee has declared the committee a non-existent organization.

In rendering its decision, the union board said since there has been no evidence that the Activities Committee does exist (other than non-acceptance of money-making projects), it must be non-existent.

French Meeting Is Set

At a recent meeting of the French class, a radio speech major shocked the class when he jumped up and said, "Honi soit qui mal y pense."

(Continued on page 5)

School 'Too Strict' On Alcohol Policy

Kansas State was accused this morning of "babying students" in an information report filed in Topeka for "willful violation of the state's alcoholic beverage laws."

Kansas Attorney General John Anderson presented to the Kansas Supreme Court a sworn statement alleging that K-State is violating the state's liquor code by being "too strict in its enforcement."

The Attorney General later told the Collegian in a telephone interview that a recent article published in a scandal magazine about Manhattan started an investigation of the College's social regulations by the Kansas Bureau of Investigation.

"The original idea was to find a way to tighten up the College rules. However, as the investigation developed, the KBI found that students over 18 were being denied their rights according to Kansas law," Anderson said.

"Instead of finding a stinking snake pit as we expected, we found that, due to the strict social rules, youths are being deprived of knowledge of the

basic facts of life," he went on.

"The principal violation we found concerns a College ruling that outlaws all alcoholic beverages to students because there might be minors present in the same living units."

The state feels that this policy is a violation of Kansas laws and against all of the fundamental freedoms guaranteed by the Constitution of the United States, Anderson said.

"If we allow this to continue, Kansas State will gain the reputation of babying students and graduating impractical scholars," he said.

If the Kansas Supreme Court upholds the Attorney General's charges, K-State will be forced to liberalize its social regulations.

This would permit a wider consumption of alcoholic beverages off campus, outlaw all student committees from establishing so-called "approved" places for social functions, and eliminate all other rules that tend to limit the social life of K-State students.

President McCain, when (Continued on page 8)

Wilkerson Plans To Veto Decision by Wunderlich

Pat Wilkerson, student body president, today indicated he would veto a move by Dean of Students H. Wunderlich to take away all social privileges from the Union Governing Board for holding a beer bust in the unfinished third floor of the Union.

Wilkerson said Wunderlich had overstepped his authority in ruling against the governing board. "If anyone is going to take care of that governing board, it's going to be me," Wilkerson said.

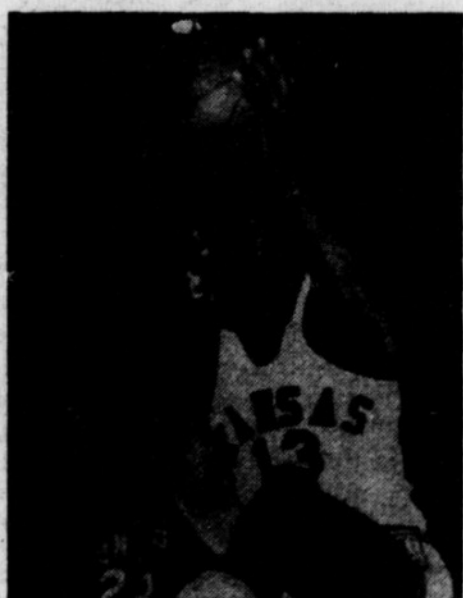

The action climaxed a series of fast moves by the dean after he first learned of the beer bust while watching a news reel at a local theater which showed the board in action debating coffee prices.

Wunderlich immediately restricted all Governing Board members from driving on cam-

pus, took away social permits from all sororities and fraternities that had held parties in the Union, fined each board member \$1,000, held up the grade of all student members and destroyed their transcripts, cut in half all faculty board members' salaries, and then turned the whole matter over to the Tribunal to decide what action should be taken.

The Tribunal reversed Wunderlich and ruled that, because of the way the department of administration is set up, it is impossible to make heads or tails out of anything.

Wunderlich reversed the Tribunal and took away all Tribunal social privileges. Then Wilkerson made his move and reversed Wunderlich. Official sources close to the College indicated that there is some chance Wilkerson will be reversed by the Board of Regents.—April Fool.

Wilton Chamberlain
(Continued on page 5)

Student Council To Check Apportionment Board Work

Alleged inconsistencies in the activities of this year's Apportionment Board will be the main topic of discussion at Student Council meeting tonight at 7:30 in room 205 of the Student Union.

Student Council chairman Ron Bryant has requested that faculty advisers of all activities that get Apportionment Board funds be present at the open hearing.

"It has come to the Council's attention that plans for next year's apportionments have been made in secret by this year's Board," Bryant said.

"We have discovered that the Board held secret meetings earlier this year and laid definite plans for the division of stu-

dent activity funds next year."

Bryant said collusion between the Athletic Council and certain Apportionment Board members advocated a policy that would give 50 per cent of all student funds to athletics. Another 30.3 per cent have been permanently set as the Student Union's share of the activity funds.

"This would leave only 19.7 per cent for all other campus activities," Bryant said.

"We'll get to the bottom of this problem at the meeting tonight. All students are welcome to attend," he said.

In other action, the Council will review the Union Governing Board's proposal that a flagpole and a red-lighted neon sign

be put in the front yard of the Union.

A phone interview with some Council members indicates that this proposal will be turned down as constituting illegal advertising.

The activity-ticket problem also will be discussed. A motion will be placed before the Council at the suggestion of Athletics Director Bebe Lee that all students who pay activities fees be branded on the left cheek.

"This would insure no more trading of activity tickets and help solve seating problems," Lee said.

Committee reports will conclude the meeting.—April Fool.

Cool Candid Cracks Of Campi Conditions

(This is the first and last in a series of articles for those who haven't been fully oriented with Kansas State college.)

Student Health Service

Due to an oversight when the college was planned in 1814, there was a big mudhole left between the old Veterinary Hall and the Engineering Wing.

THIS MUDHOLE was first filled with cement, sand, and gravel. After all else had failed, it was filled with the Student Health barracks. This establishment boasts a large assortment of colored pills. Students interested in paying a call should see that their personal effects are in order.

K-State Union

The Union is a nice place—shiny and clean. As somebody once said, it's the "House that Jack built . . . yours and mine."

THE UNION was built to fill the needs of the Extension Division, Rabbit Breeders' Conference, turfgrass conferences, and the administration. It's also a good way to spend student money.

There are numerous facilities, including an amazing food service which has coffee-pricing schedules it hasn't even used yet.

Natives

The merchants in Manhattan cheerfully share the wonderful climate, good times, support of the college, and what scenery there is. You won't find a more gracious or generous group anywhere. Only when it comes to food, shelter or clothing do they put the screws to you.

Parking tickets

Each time a car is parked anywhere on the Kansas State campus a parking ticket is affixed to the windshield under the windshield wiper. This entitles the owner to participate in local court proceedings.

FOUR OF THESE tickets entitle the owner to another ticket . . . a one-way ticket home.

The simple and little-known solution to this problem is the avoidance of getting parking tickets by removing windshield wipers.

Clothes

Clothes are required.

Meal tickets

By buying a union meal-discount ticket, you can get up to 10 percent smaller meals.

Student Housing

There is no student housing.
April Fool.

An Editorial

Stoning of Faculty Must Stop; Panty Raids Should Oughta Quit

IT'S HAPPENED again. The faculty of Kansas State College of Agriculture, Engineering, and Applied Science has been pampered by the Board of Regents.

It was bad enough when the Board voted every faculty member a flat \$20-a-year increase in salary, with the retirement age lowered to 77. But the crowning blow came Friday when the Board voted to turn the lawn east of Anderson hall into a faculty parking lot.

THIS MORNING the lawn, which was the only spot of green grass on campus, was covered by a multitude of faculty jalopies.

The Regents' excuse was, since they were paying faculty members so much, they wanted the teachers to be at work on time. Hence, a central location was needed for a parking lot.

HAS THERE ever been such fallacious

reasoning as this? The Board is discriminating against the students, who are the real customers at K-State.

However, in spite of this injustice, we students must keep our heads. There must be no more talk of lynchings; there must be no more mob violence or panty raids; threats on the lives of faculty members must cease.

IT IS BAD enough that two professors were stoned to death. Let's hope nothing really serious happens.

In the meantime, students must keep calm. K-Staters must be humble and remember that they also are emissaries of good will. Think of posterity. Think of Tito down there in the Balkins. Would he balk? Decidedly not.

Neither should we.—D. Miller, April Fool

Top 10 Tunes

Top Tunes Totter and Tumble As New Records Take Over

By Elvus Pretzel

RECORD SALES in the Manhattan area this week showed a complete juggling of the top 10 tunes. "Never before has there been such a fast turnover on the top 10," said Miss Getta Hitt, manager of record sales at Hipp's Electric & Hdw.

"Party Doll" just seemed to poop out finally," said Miss Hitt. "When 'Party Doll' gave out Andy Williams' 'Butterfly' also left and the two were exhausted, saleswise."

HOWEVER, two other established hits took over the top positions. Patsy DeClined gained new fame by "Walkin' After Midnight" with Pat Boom close behind singing "Why Baby Why?" The old favorite, "Marry Anne" (from the Broadway musical "Shotgun Wedding") slipped to tenth position. "Teen Age Crush" melted to No. 5, while Big Richard's "Lucille" started tearing "Round and Round." "Little Darlin'" is still above "Young Love."

The top 10 records this week are:

1. "Walkin' After Midnight," by Patsy DeClined.
2. "Why Baby Why?" by Pat Boom.
3. "Lucille," by Big Richard.

MANY NEW TUNES flooded the market last

week. Among the newcomers are "Slow Boat to Europe," by Jimmy McCain; "An Olds Melody," by Tex Winter; "I'm an Ikey Doodle, Damn Ye," by A. D. Miller; "Union Dues, Something for Me," by Loren Kottner; "You Ain't Nothin' But an E-1," by an anonymous ROTC sergeant.

Wilt Chamberlain has come out with a new platter. It features "How High's the Moon?" and has "Dunkin' at the Fieldhouse" on the flip side. April Fool.

Splat

Mud Slinging!

Our sincere congratulations to the Kansas Legislature. We hear they had 100 per cent attendance at a recent session. Of course you must realize it was the KU-K-State basketball game.

Alas! We have discovered that coffee as served by the K-State Union has a thousand uses. One practical use is as a strong diarrhetic.

We understand that the Union will be airconditioned soon. Around here that means it will be cooled by next January.

The Student Council is making plans for a retreat to break in new Council members after the elections. The last retreat was held at Top of the World, but since beer is no longer legal there, the Council is looking for another spot.

The recent rains have been a boon to farm crops. In fact they have greatly encouraged the growth of mud holes in the student parking lots.

Faculty members are the crust of the earth. Just dirt?
April Fool.

Collegian Goes Berserk Because It's April First

IT'S APRIL FIRST!

That's the reason for this crazy issue of the Collegian. It was designed to April Fool you just a bit before you realized that it was all a joke. Members of Sigma Delta Chi, professional journalism fraternity, are responsible for all of the jokes.

IF ANYONE chooses not to take it all as a joke, he may consult the new president of Sigma Delta Chi, Roger Myers. He's 5-10, weighs 140, and has crew-cut red hair. Just ring 9-1927 and ask for Otis.

Really folks, we were only joking.

Darrel Miller, retiring president of SDX.

NO TIME WASTED—Under the able direction of F. R. Ringgich, the College B&R worked all last night to complete this parking lot in front of Anderson Hall. The lot was approved Friday by the Board of Regents. Turning in the usual fast and efficient service, B&R had their "faculty-staff" parking signs in place by 8 a.m. That these are faculty cars is apparent.

World News Briefs

Deck Stands on Rights, Refuses to Open Mouth

Portland (PU) — Teamster union member Bave Deck today invoked the 1st, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, and 24th amendments when questioned by Senate war investigators today.

When asked why he had failed to use the 2nd amendment, Deck replied that there must have been an oversight somewhere. He said that he would personally start a \$10 million public relations bureau to tell the true story to the American people.

Deck said that he hoped to hire present director of publicity at Kansas State college, Manhattan, Max Milbourn.

Tuttle Creek Dam Cut

Washington (PA)—The Senate Ways and Means Committee today cut \$12 million from an appropriation to finish Tuttle Creek Dam near Manhattan, Kan. The funds had been intended to finish closing a 60-foot gap through which the Blue River now runs.

Senator Mike Baloney said that the present dam was adequate and that in the event of a flood it would still stop quite a bit of water.

When questioned by reporters, Baloney admitted that there would

be somewhat of a leak in a part of the dam but he emphasized that this would not in any way interfere with the operation of the rest of the 6-mile-long structure.

Cheerleaders Get Cup

Kansas City (SIN)—The Big Seven conference announced today that Kansas State cheerleaders had been awarded the trophy as the best cheerleaders in the Big Seven.

The best cheerleaders were selected by a student vote on all seven campuses. Although the total votes were not announced, it was reported that the K-State yell-leaders received the most votes from Iowa State and unexpectedly got their smallest vote from K-State students.

Plans, Weaver to NU

Topeka (APE)—The Kansas Legislature today passed a bill to enable K-State Dean of Arts and Sciences John Weaver to take the plans of K-State's new animal husbandry "cow palace" to the University of Nebraska.

Weaver, who is to become dean of the graduate school at Nebraska next fall, said that he hoped to construct a large barn on the Nebraska campus. He thought the plans of the one now under con-

struction at K-State were ideal.

"There is presently too much emphasis on the liberal arts at Nebraska," he said. "I hope that I can bring about a more equal division of funds as now is going on at K-State."

Washington A-Bombed

Washington, D.C. (Down)—Russian aircraft dropped hydrogen bombs on the White House early this morning. Presidential press secretary James Hagerty told the people not to be alarmed.

April Fool?

Legislature Slices Kedzie Hall Fund

The Kansas Legislature today approved a \$32,000 request in the building fund budget for an addition to Kedzie Hall.

The amount approved was somewhat below the \$500,000 originally asked by the Board of Regents, but the Legislature said this amount would be better since it could be appropriated in one lump sum rather than over a 3-year period.

The size of the appropriation was determined by the size of an addition that can be added to Kedzie, according to the K-State architecture department.

It was pointed out that a larger wing could not be designed and built south of Kedzie because to do so would necessitate the removal of a sidewalk now there.

Also figuring into the problem is a rarely known economic principle, Motes "Law of Inverse Diversification," which says roughly that the largest wing that can be added to a building is as large as, but no larger than, the largest wing that can be paid for (other things being equal).

Ralph R. Lashbrook, head of the department of journalism, said, "my eye fell out when I heard the news." He added later that he didn't want to be quoted on that statement. Two phone calls and three mind changes later he said the smaller addition would be satisfactory.

"After all," Lashbrook said, "Kedzie Hall cost just \$16,000 when it was built in 189 B.C., and this \$32,000 appropriation is twice that."

"It certainly seems that an amount of money for a wing that

is double the amount for the original building would be adequate. At least it is analogous to me.

"There will be plenty of room in the new wing for a faculty men's rest room, which is the big thing as far as we are concerned, and will save us many long trips to Anderson Hall and the Student Union."

Also approved by the Legislature was \$6,000 to pay for an extra campus patrolman to hunt termites with a squirt gun in the Kedzie basement when the creatures come out of hiding at night.

This brought a wave of protest from the K-State zoology department which maintains that the Kedzie colony is the most highly developed group of termites in the world.

The zoology department has been developing a theory about the social order of termites.

It has been able to establish that termites, who rule the roost so to speak, eat only the best grade of paper while those further down eat paper of a poorer quality. Termites at the very bottom can eat nothing but newsprint.

In some circles, this last discovery is cited as proof that the Collegian is such a biased sheet that even the better class of termites won't touch it.

'Oklahoma Grid Reign May End'—Mertes

By Graceland Rant

The long domination of the Oklahoma University Sooners over Big Seven football rivals will soon be broken if head K-State football coach Bus Mertes' predictions come through.

"If spring practice is any indication of what to expect during the regular season next fall, well, OU had just better look out," the Cat grid mentor threatened.

"Right now the club is going through what I like to term the transition stage," he said. "The transition from last to first."

Bubbling with optimism, Mertes glared out over the array of Wildcat grid talent and announced this the most successful spring practice in his 3-year tenure at K-State.

"Except for polishing up a few fundamentals like blocking, tackling, running, punting, and passing, we're all set."

Stooping down to throw a severed arm of one of the third-string ends away from the playing area, Mertes said that a few of last season's problems are still hanging on.

"Right now I only have 20 men out, but we expect more men to check out equipment when the nine weeks is over," Mertes said. Mertes was hampered in his efforts last year by the small number of squad members as the Cats raced to a 3-7 record.

"Although our ranks are rather thin in some positions, we have fabulous depth at left end and linebacker." Twelve men are working for the starting left end spot and eight returning lettermen are trying for the coveted left-side linebacker niche.

"This spring practice has pointed up some particular deficiencies. We are in desperate need of a whirlpool bath for our gridders. However, I have been promised two new helmets for the 1957 season."

Questioned about the other Big Seven clubs, Mertes said he looked for a real tough time against conference opponents and picked Iowa State as the dark-horse.

"Iowa State has been the league cellar dweller for a long time, but I think this is going to be their year. Don't be surprised if they move up to sixth place next fall."

"I think that . . . oomph!!!" Mertes said as he was trapped and run over by a misguided end sweep. "However, I suppose that . . . oomph!!!" he explained as one of the punters missed the ball and kicked him in the stomach.

"There's going to be a big change in K-State football next fall," Mertes said as the stretcher bearers bore him off the field.

April Fool.

K-STATE'S FOOTBALL BRASS talk things over around the conference table. Head coach Bus Mertes (second from left) expects his Cats to dethrone the champion Oklahoma Sooners this season. Mertes' team is strong at left end and left linebacker and he has some 20 men out this spring. Mertes says that he expects perennial cellar dweller Iowa State to be the dark horse in next fall's Big Seven race. The Cat head coach says that K-State is going through a transition period—from last to first at the present time. From left to right: right-halfback coach Herb Cormack, Mertes, left-end coach Ed Cavanaugh, right-guard coach Steve Sucic, and left-linebacker coach Pat Naughton. This definitely is an April Fool joke.

K-State Bars Announcer From Games on Campus

By PANTZ RADE

Dev Nelson has been barred permanently from broadcasting future athletic events originating from the K-State campus, according to Jim Douglas, PEW Fr.

Disbarment proceedings were initiated against Nelson shortly after the conclusion of the past basketball season.

"We began our investigation into the matter when we started receiving letters from our alumni, complaining about the conduct of Nelson," Douglas said.

Nelson was accused of saying over the air that the Field House was ideally located and furnished for an animal husbandry barn and he couldn't see why the Legislature couldn't lower the state debt by withdrawing monetary backing of the animal husbandry building now being constructed.

The complaint was filed by Ernie Barrett, Rick Harman, and Dick Knostman, all former students of Kansas State.

"Nelson's statements have been a slap in the face to all loyal K-Staters, who realize that we are no longer considered an agricultural college," Barrett said.

"Who knows, someday we might even teach the manufacture of 7-foot basketball players," he continued.

The Department of Animal Husbandry also chose to disagree with Nelson on the matter.

"It's ashame to assume that we could or would quarter our fine specimens in the Field House," Rufus F. Cox, head of the department, said.

"The building is much too drafty for the animals, and besides, they don't even have enough electric outlets for the blankets that we use to safeguard the health of the animals," he said.

As an afterthought, Cox said he thought the Field House would be a wonderful place to train radio and television sportscasters.

"Just think, we could lock 'em up in there for four years and when we let them out for graduation, they'd have the ideal temperament it takes to broadcast sports," he said.

April Fool.

Ex-Cagers May Play On Cat Varsity Again

Fritz Schneider and Pachin Vicens, Wildcat basketball stars, may be able to play for the Wildcats next season, M. A. Durland, newly appointed chairman of the Kansas State Athletic Council, said today.

The two, who have a year of eligibility left at almost any school in the country if they wish to sit out a year after enrolling, (except, of course, any school in the Big Seven) were declared ineligible last year by the conference in order to help keep Kansas State from winning the title again.

Cotton Durland said he felt that since KU had won the title this year, the conference would be out to get the Jayhawks. He indicated

that they would be going after somebody big.

Anyhow, Durland said he thought he could trade votes with three other school representatives in order to get a majority. Durland indicated that he would be able to get a majority (four votes) in this way because he would also vote to let the two (Vicens and Schneider) play one more year.

Wunderlich, Mertes Clash

Dean of Students H. Wunderlich and head football coach Bus Mertes were in open conflict today after Mertes accused Wunderlich of "trying to run my football team."

"He won't keep out of my office," Mertes said. "The dean of students has his place, and my office is certainly not that place."

Wunderlich commented that

Mertes doesn't know much about the pep club. "He'd make a good quoits coach," Wunderlich said.

"Mertes should shift Roether to tackle, and move Spagnoletti to forward. Also, I think he oughta use a single wing," Wunderlich said.

Athletics director Bebe Lee agreed with Wunderlich that Mertes would make a good quoits

coach, but he also went along with Mertes.

"Wunderlich's right, Mertes would make a good quoits coach—and I like Bus. He's a fine fellow, and I'd like to keep him around as quoits coach emeritus or something.

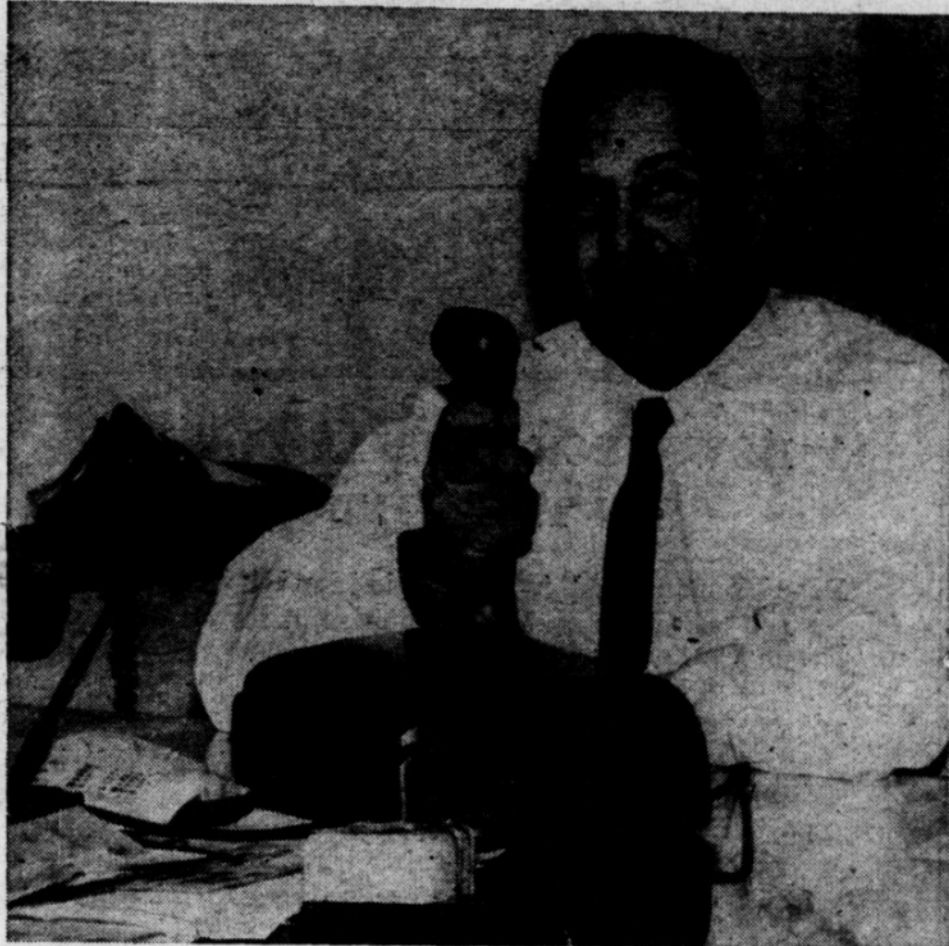

"However, Bus is right, too. The dean oughta keep out of Bus' office. An office is a place where a fellow oughta be able to get away from the blood-thirsty crowd, and have a little peace and quiet for a change."

President James A. McCain said he already had taken steps toward reprimanding Wunderlich.

"After the students hung our dean of students in effigy, we had no choice but to remove him from his position of responsibility. The students' wish is our aim—we like to go along with them," he said.

"Mertes will stay on as long as he wants," McCain said. "We're shifting him to a position in physics, though. Who knows, he may even move up 'til he's head of the department."

April Fool.

BUS MERTES, K-State's head football coach, dictates a statement. That's a telephone in the background.—April Fool.

Lee Warns Speedy Tex

Athletics Director Bebe Lee today warned Tex (Fred) Winter to quit speeding in the athletic department parking lot with his new Oldsmobile.

Lee said that Winter was endangering K-State football players who have been forced to practice in the parking lot because they were no longer able to practice elsewhere.

The football squad was moved into the parking lot after the Wildcat track team expanded over all practice fields, playing fields, Ahearn Field House, and all other areas now under the athletic department's control.

The track expansion came about after alumni demanded

that track be given proper emphasis at K-State.

Winter is expected to go along with the new order, since Lee rules the athletic department with an iron hand.

Only last week he told wrestling coach Fritz Knorr, who also helps with the athletic department bookkeeping, if he (Knorr) didn't watch out he would find himself a professor in the mathematics department.

Knorr had turned down a 50-cent request from the ping-pong team for new balls.

Winter's only comment was, "I still don't believe it. Fans just don't act this way."

April fool.

Athletics, A.H. Combined In Move by Lee, Weber

K-State's athletics and animal husbandry departments were combined today in a surprise move by Athletics Director Bebe Lee and Dr. A. D. Weber, dean of Agriculture.

"We feel the advantages of the combination will help out the animal husbandry boys, and we know it can't hurt us," Lee said this morning.

He pointed out that the Cat football team might find herds of talent in the dairy barns.

"We're going to change the name of our athletic teams to 'Aggies' again," Lee said. "We feel that this will be in keeping with the fine traditions of Kansas State College of Agriculture, Engineering and Applied Sciences."

"We've got some pretty fair country footballers in animal husbandry," Dean Weber said.

"We want some of those basketball players to clean out the dairy barn loft, too. And that ain't hay."

Student reaction to the move

was varied. A riot was staged in front of F 205a by six PEW majors.

"They can't do this to dear ole KSC," Ammie Sloe, PEW 06, said. "I'm transferring to dear ole PU."

Nine faculty members quelled the riot with old coke bottles and a hank of hair. Other students submitted to the move without further ado (or hair-do for that matter).

April Fool.

KU's Wilt Turns Pro

(Continued from page 1)

lain will play alongside the likes of Bill Russell, 6-10 cager from the University of San Francisco, and Bob Cousey, long-time Celtic and National Basketball Assn. favorite.

At Kansas, the 7-2 center played alongside the likes of Eddie Dater and Harry Jett.

"Man, I can hardly wait to get to Boston," Chamberlain said

yesterday. "That's real ivy-league country."

At Lawrence, Kansas students reportedly had initiated a fund-raising campaign in an attempt to keep the big basketball player at KU. Seven student body leaders at KU presented Chamberlain with an extra-long Cadillac El Dorado.

"Thanks," he said as he tucked it under his arm. "But, man, this ain't enough."

Another fund-raising campaign was started by KU Jay-watchers yesterday. "We hope to buy out the Celtics," a spokesman said.

In New York, Col. Harry Henshel of the Amateur Athletic Union said "I told you so."

Kansas coach Dick Harp collapsed last night at the home of a friend, Dr. F. C. Allen. Dr. Allen was not available for comment. He left soon after Harp's collapse on what he called a "recruiting tour."

"I wanted to go to North Carolina so I could play for a winner," Chamberlain said in a special interview this morning. "But they didn't offer me near as much as the Celts."

Chamberlain would not disclose his salary for the coming season, but he said that he was flying to Boston this weekend in a B-29 the Celtics had given him.

Teardrops Flow as Prexy Sums Up Reasons for Trip

Tears flowed freely Friday at a meeting of the Board of Regents as President McCain gave his farewell speech before leaving on a 6-month exile in Europe.

He summed up his reasons for leaving saying that this school year had, so far, reminded him of the story of a close ex-friend, Samothrace O. Summergone, known to his intimate friends as "Guess-Wrong Sam."

Many years ago, Jimmy said, Sam was a theatrical producer in New York, auditioning hopeful young actors for a forthcoming production.

What's-his-name continued that the choice narrowed to two unknowns: John Barrymore and Rod-

ney Arbuthitis. Sam chose Rodney, and the play flopped forthwith. Barrymore went on to fame with another producer.

Sam's next venture was a musical, survival of which depended upon a fine comedian. Again he had a choice of unknowns, Will Rogers or Walter Loganberry. He chose Loganberry and watched his musical fold.

After a few experiences like that, Sam went to Hollywood to try his luck at pictures. After months of casting around among young sprouts for the male lead of his first venture, the director finally said: "Sam, it looks like it's between this boy Clark Gable and the other unknown, Julius Appleknocker Jr." Sam took Julius.

Shortly afterward, he decided Hollywood was not for him, a decision given impetus by horse-laughs from the box office. Back in New York, he picked Susie Gooly over Ethel Merman.

Disheartened, he decided to try Hollywood once more. His secretary informed him he could take either Transcontinent or Skyhigh airline.

Sam chose Skyhigh. Over the Rockies the plane began to quiver, three engines conked out, and things looked grim. Sam went to the pilot. "Look," he said, "I'm what's wrong here. If I can just get a parachute and get out of here I'm sure you'll be okay."

The crew chief pointed to two parachutes, one white, one yellow. Same chose the white one and dived out. Instantly the plane steadied, the engines came to life.

Sam pulled the ripcord. It came off in his hand. "St. Francis! save me!" he shouted. A large hand came out of a cloud and caught him in mid-drop. "Oh, St. Francis, I knew you'd save me," breathed Sam. Then he heard a stern voice from above:

"St. Francis Xavier, or St. Francis of Assissi?"
April Fool.

'Adjust' Plan To Continue

The "Adjustment to College Life" program of the College administration will continue to be carried out by underlings while President McCain studies educational processes in Europe.

"Adjustment to College Life" teaches all student leaders and their followers the blessed state of thinking, doing, and saying exactly what older persons want them to. It also includes ostracizing nonconformists and independent thinkers.

However, the President said he hoped that Dr. Arthur D. Weber, acting president, in giving "the charge" to the graduates at the spring commencement, "Would dare them to be different, to think independently, to write independently, and to act like college graduates after they leave this splendid institution of higher learning."

That's exactly what they should do when they mature and go out into the world, McCain said. However, such maladjustment while they are students could lead to all kinds of embarrassing questions and poor public relations for the College.

New Fumigating Machine To Stop 'Corral' Odors

A new outdoor fumigating unit has been installed in the College dairy barnyard to keep smells from wafting toward married-student housing areas.

A. Thornton Edwards, director of housing, said the "corral fragrance" is so strong when the wind blows toward the housing area that it presents a health problem.

The new machine, constructed by agricultural engineering students, will convert the "corral fragrance" and scents from campus lawn fertilizers into an odor much like the smell of baloney.

Edwards said that this new campus smell will help K-State scholars soak up all the knowledge handed out by professors in the classrooms.

"The new smell will be healthy, too," he said. "In addition, a chemical used to create the odor will contain a hormone that is expected to help keep the campus fertile."

Edwin Jacob Frick, Sunset zoo costodian, said that the new machine will be a boon to

campus wildlife. "It makes the grass and foliage grow twice as fast and will provide plenty of cover for the small animals," he said.

"In no time at all the birthrate of wildlife will double and the campus will be teeming with birds, bees, and rabbits. This will make K-State a haven for them."

Students will benefit from the new fragrance, too. According to reports from a committee on preservation of campus wildlife, hormones used to convert the animal odor will stimulate the growth of hair.—April Fool.

Pinnings

Brute-Hair

Cauliflower at Wallflower hall Sunday announced the pinning of

Klod-Chip

Helda Klod, AH Fr, announced her engagement to Cal Chip, AgE Jr, by passing corn at Slowvia last night. Both are from Green Pastures.

Wee-Schlitzvonhagen

Dea Wee, HEJ Soph, announced her engagement to Shernzol Schlitzvonhagen, HE Sr, at the Pi Leta See "Footstompers Bawl" Saturday night. Dea is from Above and Shernzo is from Lower.

Wile-Dial

Cigars were passed at Farm Barn Thursday to announce the upcoming marriage of Afta Wile, Sp Soph, to Kroka Dial, Psy Fr. Afta is from Hunger and Kroka is a member of Tappa Keg fraternity.

Ima Brute, Eng Fr, to Terralotta Hair, PEM Sr. Ima is from Hogdale, Mont., and Terralotta is from Ipswitch.

Helvis-Wall

Dandelions at Holstein Hall announced the pinning of Lotta Helvis to Harry Wall. Lotta hails from Yuron Junction and Harry is from Coldwater Basin.

Later-Gator

Roses were passed at the Sli-Delt house to announce the pinning of Seeya Later, JE Jr, to Ala Gator, RE Fr. Ala is a Beta from Garden City.

Fryer-Boyd

Gaye Fryer, Yearbook Sr, today announced her pinning by Marcia Boyd, Reporting II, in an argument over yearbook design. Miss Fryer, who was pinned in 8:03, said, "I'll win next time."

IF IT'S TOO CROWDED UP HERE FOR YOU—THERE'S MORE ROOM IN BACK!

HOW MUCH IS THAT DOGFISH IN THE WINDOW?

Dear Mom and Dad (writes Zelda May Nirdlinger, soph).

You have been asking me to account for all the money I spend. There follows a day by day summary of recent expenditures. Don't forget, you asked for it.

MONDAY:

\$2.78 — telegram to the Secretary of the Army, offering to go instead of Elvis.

\$0.26 — pack of Philip Morris, my favorite, and yours, if you know a good thing when you taste one!

\$0.50 — sorority fine for oversleeping and missing my first hour class twelve days in a row.

I bought a rooster named Ralph

\$2.95 — I bought a rooster named Ralph to wake me in the morning. (Can't sleep with an alarm clock ticking all night.)

TUESDAY:

\$0.50 — sorority fine for not cleaning my plate at dinner. (I just couldn't! Dinner was Ralph.)

\$0.50 — sorority fine for dating undesirable boy. (Roderigo is not undesirable! Some people say he is "fast" and a "devil" but I say he is just insecure. Why else would he go steady with eight girls?)

\$0.26 — pack of Philip Morris. What joy! What zest!

WEDNESDAY:

\$557.38 — a motorcycle for Roderigo. (He is giving up all his other girls for me, but they are so widely scattered that he needs a fast conveyance to go around and tell them all goodbye.)

\$0.26 — pack of Philip Morris. (Have you tried them yet? If not, you've got a big treat coming. Light one soon. Light either end.)

THURSDAY:

\$0.50 — sorority fine for staying too long in the shower. (Gee whiz, a girl gets mighty dirty polishing a motorcycle!)

\$0.52 — two packs of Philip Morris — one for Roderigo. (Dear Roderigo!)

FRIDAY:

\$0.26 — pack of Philip Morris — a happy smoke for a happy day. Yesterday Roderigo broke with the last of his girls, and today he is mine, all mine!

\$8.57 — new dogfish for zoology. (I was dissecting a dogfish in zoology when I happened to look out the window and see Roderigo riding by with Mary Ann Beasley on his buddy seat. I got so upset I threw the dogfish at them.)

SATURDAY:

\$2.59 — a carton of Philip Morris, one pack for me, the rest for Roderigo. (I was foolish to be angry about Mary Ann. Roderigo explained that she meant nothing to him—just helping him with English lit. Similarly, Grace Krovney is helping him with Spanish, Betsy Pike with econ, Mazda Notkin with psych, Lola Tweet with phys ed, etc. The least he can do is give them all Philip Morris.)

Well, mom and dad, you can see how expensive college is. Send money.... Love and kisses, Zelda May

© Max Shulman, 1957

The price may vary from place to place, but Philip Morris continues to be a natural smoke that daunts no purse, however small. It is made in regular and long size by the sponsors of this column, and is ignitable at either end.

Israel Plans Showdown Towards Canal Passage

Compiled from United Press
By KEITH KEMPER

Jersalem — Israel plans to force a showdown on the question of free passage of the Suez canal, Jerusalem dispatches said today.

A Dutch trade delegation in Israel quoted high government sources as saying a ship flying the Israeli flag will join a convoy soon in a major test of Egyptian President Gamal Abdel Nasser's intentions.

The Israeli decision was reported as Nasser studied an American state department note protesting the "Nasser plan" for

operation of the Suez canal by Egypt and Egypt alone.

Beck May Face Trial

Washington—Teamster President Dave Beck was on notice today that he may face criminal prosecution following revelations by the Senate Rackets Investigating Committee.

Committee Chairman John L. McClellan raised the possibility of criminal prosecution yesterday in an interview on the television program "Meet The Press."

Asked if the committee had enough evidence to warrant such

prosecution, McClellan said financial reports the teamsters union is required to file do not show alleged "loans" to Beck.

Rain Still Forecast

Topeka—A weekend of general rains over Kansas soaked dry topsoil planted with spring crops, while the weather bureau forecast more rain by tonight in the Western half of the state.

Temperatures were expected to remain mild, hovering in the 50s over most sections today. Rainfall was expected to be triggered by another, low pressure area moving out of Oklahoma.

CALENDAR

Monday, April 1

AWS election, 9 a.m., SU and Anderson.
Westminster Fellowship, 4 p.m., SU 203.
Union Governing Board, 5 p.m., SU Walnut Dining Room.
Gamma Phi Beta Executive Council, 5 p.m., SU 205.
Arts and Sciences Council, 5 p.m., SU 207.
Episcopal evening prayer, 5:15 p.m., Canterbury house.
Future Teachers of America, 6 p.m., SU main ballroom.
American Chemical Society, 7 p.m., W 115.
Pan-Hellenic Council, 7 p.m., SU 206.
Life-saving clinic, 7 p.m., N.
General psychology exam, 7 p.m., EL.
K-State AFOTC Ass. 7 p.m., MS 210.
Newman Club, 7:15 p.m., SU third floor.
Club Cervantes, 7:30 p.m., SU 208.
Student Council, 7:30 p.m., 205.
Mu Phi Epsilon, 7:30 p.m., SU 203.
Promenaders, 7:30 p.m., SU 207.
Frog Club, 8 p.m., N 2-4.
AWS, 8:15 p.m., SU 203.

Tuesday, April 2

AWS election, 9 a.m., SU and Anderson.
Adult Leader Training Conference lunch, 12 noon, SU banquet room B and west ballroom.
Phi Chi Theta, 2 p.m., SU 205.
Wesley Foundation, 4 p.m., SU 203.
YWCA, 4 p.m., SU 207.
Student Activity Board, 4 p.m., SU 206.
Episcopal evening prayer, 5:15 p.m., Canterbury House.
Alpha Phi Omega, 7 p.m., SU 203.
KSCF, 7 p.m., Anderson Rec Center.
Block and Bridge, 7 p.m., SU 208.
Phi Eta Sigma, 7 p.m., SU 207.
Style-show rehearsal, 7 p.m., Calvin.
Chemistry exams, 7 p.m., W 101 and D 108.
Harmonizers, 7:30 p.m., SU Walnut Dining Room.

Leadership school, 7:30 p.m., J1, 12, 18, 20, 15, 112, 113, 118.
Philosophy Club, 7:30 p.m., SU 206.
Psychology Club, 7:30 p.m., 205.
Dance instruction, 7:30 p.m., SU Dive.
Phi Eta Sigma smoker, 8 p.m., SU ballroom A.

STUDENT HEALTH

Those in Student Health today are Norman Beneke, PEM Soph; Roland Rothenberger, EE Jr; Tom Amerine, NE Fr; Harry Hopson, VM Sr; Jeffery Karr, AE Jr; and Elsie Ling, HEB.

WEATHER

The weather forecast for Kansas is for light rain or drizzle in east and south central, with most of it coming in the forenoon. It will be cloudy elsewhere today. Showers and scattered thunderstorms are expected in the west tonight, with showers spreading over the southeast and central portions.

It should be warmer in the west today and turning colder in the extreme northwest tonight. The high today will be in the 50s. The low tonight is expected to be 50. Temperature at 8 a.m. was 45 degrees.

K-State Showmen Prepare for LAR

Fifteen K-Staters who are planning on showing animals in the Little American Royal received instructions from Prof. Don Good Saturday on the grooming of the animals before the show and how to handle them in the show ring.

World Premier To Be Shown Here Tonight

A premier showing of "Timberline and Tundra" will be tonight at 7 in Williams Auditorium, Umberger Hall, by Collegiate 4-H Club.

Scenes filmed by photographers Cleveland and Ruth Grant include caribou in migration, close-up studies of the Alaskan red fox and of white Dall sheep, mother grizzlies and their cubs, the mating season of bull bison and big-horn rams, and how the bull moose loses the velvet from his new antlers.

The Grants, who have spent many years in study and photography of animals, will be present to answer questions following the showing of "Timberline and Tundra" and a 30-minute film on birds.

Scenes taken by the two were included in Walt Disney's "Artic Wilderness" and "Vanishing Prairie."

Tickets are on sale at the Student Union information desk. They are 70 cents for students and \$1 for adults.

AWS Will Elect Today, Tomorrow

Election of officers for the women's council of the Association of Women Students will be in Anderson Hall and in the Union today and tomorrow. Voting booths will be open from 8 a.m. to noon and from 1 to 5 p.m.

Each woman on campus may vote. Elected officers will handle the executive duties of AWS, which is an association governing all women on campus.

"This is the first year all women have had the opportunity to vote, since the organization was started about two years ago," according to Rosalyn Rowell, president of the women's council.

K-State's AWS was recognized as a chapter of the Intercollegiate AWS at the organization's national convention in Lansing, Mich., recently.

"I joined IBM for two clear-cut reasons," recalls Bob. "First, the tremendous company growth obviously offered every chance for advancement. Second, the work area was exactly what I was looking for—transistors and their application to computer systems."

Bob entered IBM's voluntary training program in June, 1955, where he studied the entire organization, its divisions and diversified products. He received technical training in computer logic, programming, and components such as transistors, cores and tapes. By September, half his day was being devoted to an actual project; by the following March, he was on this project full time. "Our job was

The "small-group" approach to research

to transistorize six servo-amplifiers for the MA-2 bombing-navigational system," he recalls, "and we completed the project in April."

In IBM Research (as in all IBM) Bob works in a small group. "Our team consists of three E.E.'s and a technician. We start with analysis and synthesis work involving math and systems logic. Then we use the 'black box' approach." His group splits up occasionally to research special phases of a project but reunites in frequent sessions to coordinate activities.

Promoted to Associate Engineer

In August, 1956, Bob was made an Associate Engineer. From April of the same year, he had been working on a new Government project. This was "to design and develop a transistorized radar data presentation system for the MA-2 system." Basically, this was a research program in sample data theory and the develop-

"What's it like to be

A RESEARCH ENGINEER AT IBM?"

Two years ago, college senior Robert Therpe asked himself this question as he worked toward his E.E. at the University of Toledo. Today, an Associate Engineer in the Applied Logic Group of IBM Research, Bob reviews his experiences and gives some pointers that may be helpful to you in taking the first, most important step in your career.

ment of a system containing both analog and digital components. "Bob still works on this project—toward a completion date of April, 1957.

Shortly after this program started, Bob joined the Applied Logic Group.

Plotting transistor characteristics

Here, he was concerned with research in new areas of computer technology—for example, cryogenics and high-speed memories. Bob studies systems which operate on "real time," and his immediate problem is to analyze and synthesize closed-loop sample data systems for the control of complex data processing.

Asked what his most interesting assignment was, Bob replied, "My

New areas of computer technology

work on a digital-to-analog converter with a high degree of sensitivity and accuracy. This strictly electronic converter, with transistors, combines both digital and analog circuitry. It was a tough problem, and a fascinating one."

What does the future hold?

At the present time, after two years in IBM Research, Bob is more than enthusiastic about his future. He plans to continue in systems study and to develop "a more sophisticated approach." Two lines of advancement are open to him: to Project Engineer,

the administrative side, or to Staff Engineer, the technical side of Research. "Either way, I'm sure I'll get ahead," Bob feels. "Electronics research is really on the move at IBM. We have about 600 people at Poughkeepsie now, as against 56 in 1950. We'll need some 1,700 before 1960 to help staff a new research laboratory at Yorktown Heights, Westchester County, N. Y."

What does he like best about IBM? Probably the fact that he's so much "on his own." "There's no 'over-the-shoulder' supervision," he says. "You schedule your own program and create your own 'pressure.' And, if you

Promoted in fourteen months

feel the need for more education, IBM provides every facility for continued study. Besides the voluntary training programs, there are excellent afterhours courses offered by the IBM Department of Education. And you have a chance to work toward advanced degrees—at IBM expense."

IBM hopes this message will give you some idea of what it's like to be an E.E. in Research at IBM. There are equal opportunities for E.E.'s, I.E.'s, M.E.'s, physicists, mathematicians, Liberal Arts majors, and Business Administration graduates in IBM's many divisions—Product Development, Manufacturing Engineering, Sales and Sales Assistance. Why not drop in and discuss IBM with your Placement Director? He can supply our brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of Engineering Recruitment, R. A. Whitehorn, will be happy to answer your questions. Just write him at IBM Corp., Room 11804, 590 Madison Ave., New York 22, N.Y.

Germs Hit Fraternity; 61 Illnesses Reported

A mysterious malady which struck Sigma Alpha Sigma fraternity last night, making 61 boys ill, is no cause for alarm, Student Health Service, announced today after the story had leaked out to the press.

There is not much of a chance that any of them will die from it, health director I. B. Laffin said. "I just don't see why anybody should get alarmed about it," he added.

Laffin told a reporter that he hoped no one would print the story as parents just might read it and become unnecessarily alarmed. "I expect most of the boys to recover in the next few months," he said.

The illness causes high fever and makes it hard for those stricken by it to keep liquor down, Laffin said. This is the second time in six weeks that the fraternity has been stricken with such a malady. The first time, 29 were ill and almost all have since recovered enough to go to class (if they were going before), he said.

The Kansas Department of Administration is investigating possible causes of the illness.

"It looks now," Laffin said, "as if the drains in the showers are connected directly to the water supply. It is fortunate that these frat boys do not keep very clean or they would be sick all the time."

It is reported that the first illness was caused when pledges were forced to take showers as part of Hell Week. The last apparently was caused when one of the brothers became excited when his date kissed him and was thrown in to cool off.

Housemother Madre (Ma) Mama became indignant when she

learned that the story of the illnesses was being printed in newspapers. "This reflects on us, our cook, on me, and on all the members. Why are you picking on us?" she stormed.

Laffin said he hoped that correction of the faulty plumbing would stop the illnesses. "Student Health just can't handle so darned many cases," was the way he summed it up.

April Fool.

Attorney General Blasts KS

(Continued from page one) asked about the Attorney General's action this morning, said, "It is too bad that this action has been taken against the College just when our social program has reached the point where students could enjoy a good, clean, and moral life at K-State."

"I feel certain that the Attorney General has made some mistake," he continued. "We don't want to protect our students from the facts of life, we

just want to exercise control over their activities."

Dean of Students H. Wunderlich commented that "K-State is just like a father and mother to students. The idea that we're babying them is ridiculous. Actually, we're pretty hard on them."

The Supreme Court is expected to hold a preliminary hearing on the Attorney General's charges later this week. Justice Fred Hall is reported to have said "Flapdoodle" when informed of the impending case.

A rumor this morning said two top administrative officials on campus are hurriedly packing for a European vacation.

April Fool.

Sex Maniac Found In Chi Alpha Dorm

Research to find better methods of separating wheat bran from endosperm will be continued at K-State with a new \$35 grant from the U.S. Labor Department, Carl Roach of the College news bureau finally announced today.

The work has been under way for about a year with John Gosh devoting full time to the agricultural experiment station project.

Purpose of milling is to separate the outer coating of the wheat kernel from endosperm, which is pulverized to make flour.

Recently Gosh has been working on three ways of removing the bran before milling: Scouring (peeling the outer coating from the wheat); pearling (rubbing wheat against an abrasive material to remove the outer coating); and impact (hurling the wheat kernel at high velocity against surfaces to break off the seed coat).

While these techniques have all been tried before, there has been little scientific study in this area.

Off-the-Record Meeting Held

At a secret meeting of a few of the Apportionment Board members Friday night, Dean A. L. Pugsley rose and said:

The meeting then was adjourned.

April Fool.

"NO, NO, NO," cries a K-State official as he hears of the charges against K-State for "babying students."

Perfect 36 Wins Queen of Queens

Gloria Bgsft, BVD Fr, was elected "Queen of Queens" recently by the KS Student Council. She was selected from a field of 17 candidates, including a Guernsey cow and a patch of poison ivy.

Miss Bgsft received a cast-iron trophy with her named spot-welded on the center of gravity.

She previously had been chosen "Miss Perfect 36" by her hometown newspaper.

She measures 36-36-36.

Polygraph Aid For Athletics

The Athletics Council in an emergency meeting this morning requested an additional \$500,000 to finance purchase of a Keeler Polygraph, or lie detector, to be installed in the Field House.

Louis Scardino, freshman billiards major and student member of the board, refused to comment after the 3-hour meeting.

It is thought purchase of the machine will lead to a better "understanding" of student problems involving admission to athletic events, Bebe Lee, director of athletics, said.

"They don't really have seats at the game anyway," he added. "But we'll be darned sure they're students now, with the help of the polygraph."

A dean who also was at the meeting explained that the polygraph would not slow the crowds down at all.

"The doors will be opened earlier, in fact," he said.

Louis Scardino, freshman billiards major, refused to comment.

"I just don't care to talk," was the way he put it.

French Class Meets

(Continued from page 1)

Class was dismissed.

Sticklers!

DON'T JUST STAND THERE . . .
STICKLE! MAKE \$25

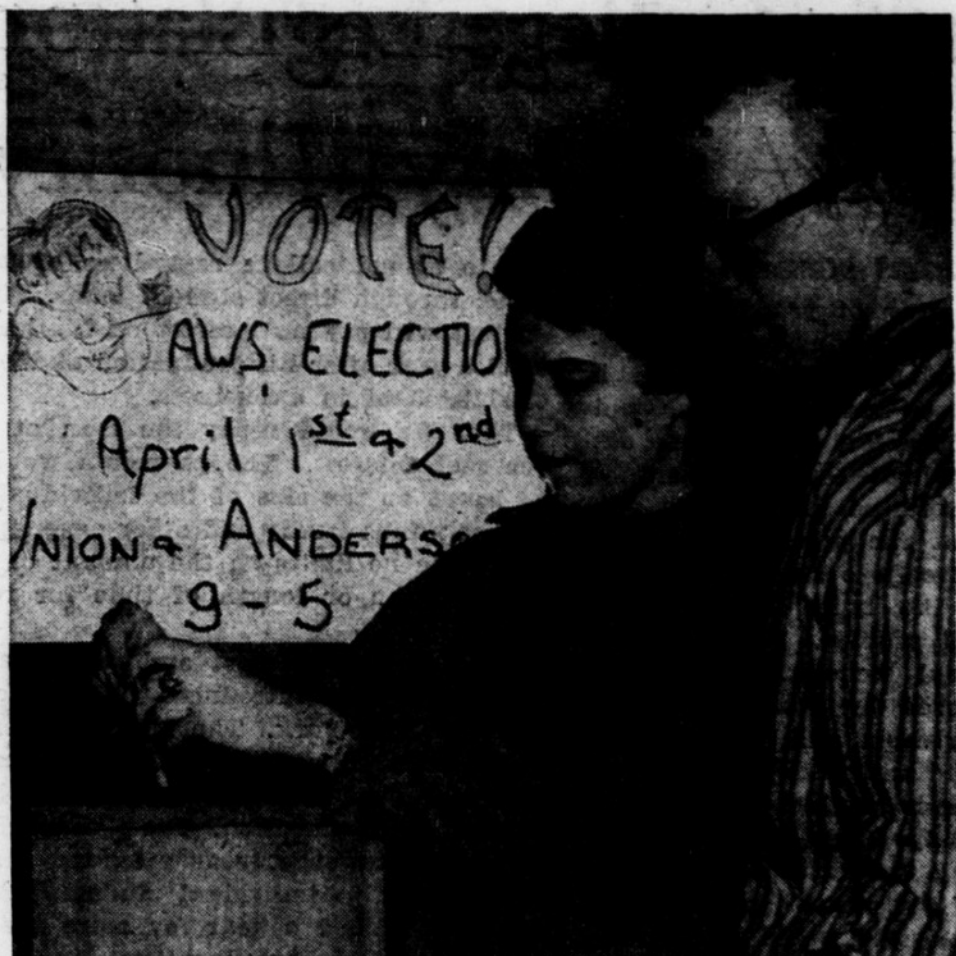

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

LUCKIES TASTE BETTER

"IT'S TOASTED" TO TASTE BETTER . . . CLEANER, FRESHER, SMOOTHER!

©A. T. Co. PRODUCT OF The American Tobacco Company AMERICA'S LEADING MANUFACTURER OF CIGARETTES

ANOTHER BALLOT is cast for AWS officers. Jim Hiner, His Fr, watches as Janet Holm, EEd Fr, drops her vote into the ballot box in the Union. Another ballot box has been set up in Anderson Hall, and both will be open until 5 p.m. today.

Today Last Day To Vote; AWS

Today is the last day that women will be able to vote in the election of officers for the women's council of the Association of Women Students, ac-

Need More Tryouts for Yell Leaders

"A greater number of both men and women should come out to cheerleading school tonight than came out last night, Larry Youngdoff, BA Soph and head cheerleader, who is conducting the school, has announced.

Eight men and 36 women attended the school last night in Nichols gym from 7-8:30 and there are positions open for both eight men and women. Anyone interested in trying out for cheerleader is eligible to do so if he had had a grade average of one point in the preceding semester.

Devers Gets Six Months; Alibi Breaks

David N. Devers, 21, of 510 N. Eighth street, was convicted on one count of assault and battery of a K-State coed and sentenced to six months in the Riley county jail plus court costs last Friday.

Devers was suspected of accosting seven K-State coeds on the campus February 14. The seven filed complaints against Devers but only one charge of assault and battery was brought against him. Four of the seven women positively identified Devers as the man who attacked them.

Devers based his defense on an alibi that he was with friends at the time of the alleged crimes. The alibi broke down when Devers' chief witness testified he wasn't sure as to the exact time the defendant was with him.

cording to Rosalyn Rowell, Soc Jr, acting president.

"Every woman on campus is entitled to vote, and may do so at either the booth in Anderson hall or in the Union. The booths will be open until 5 p.m. Activity tickets must be presented in order to vote," she said.

There are 14 candidates running for the seven offices. The new officers names will not be disclosed until their installation at All Women's Day, next Monday evening.

"There were approximately 120 women who voted in yesterday's AWS elections. We hope that today we will have a greater turnout, so that the election will be representative of a majority of the women," said Rosalyn Rowell, Soc Jr, president of the women's council.

A review of the Intercollegiate Association of Women Students convention at Lansing, Mich., was given by Patsy McClenahan, EEd Soph, and Darlene Larkin, TxC Jr, who were candidates to the convention.

Plans are being made to choose the candidate for the "Miss Football" contest held in Berkeley, Calif.

Seventeen candidates, representing each sorority house and the dormitories, are in the process of being chosen by their respective living groups.

IFC Discusses Plans To Help City Cleanup

Interfraternity Council was presented with a plan consisting of several projects for community improvements to be followed during Greek Week, at its meeting last night.

Lucian Hobbs, City Council representative, presented the plan to the IFC.

Included in the plan were the construction of fireplaces and ovens in the City and Sunset parks and the painting of various buildings at each of the parks.

A general cleanup of trash in the parks and the main streets and highways will also be in-

Kansas State Collegian

VOLUME LXIII

Kansas State College, Manhattan, Kansas, Tuesday, April 2, 1957

NUMBER 119

Membership Rejected by SC For Kansas State in NSA

Membership for K-State in the National Student association was rejected last night by the Student Council because of current opposition from national fraternity and sorority groups.

The Council approved three recommendations concerning NSA membership. These provide for photostatic records of material collected that concerns NSA, rejection of membership at this time, and further study of the problem.

In other action, the Council

approved a motion that would set definite standards for night testing on campus. A three-point proposal was forwarded to the Faculty Senate committee on Academic Affairs that would provide for a schedule of night tests to prevent conflicts, would limit the test to the 5, 9, and 14-week testing periods to avoid conflicts with other school activities, and provide that no night test begin before 7:15 p.m.

The Activity Ticket committee reported that a Council rec-

ommendation asking that activity tickets be optional would undoubtedly "not even be entertained at an Athletic Council meeting."

The Committee also felt that transferable activity tickets would not be feasible, and that some exchange ticket plan could be worked out. No action was taken by the Council and the Committee will study the situation further.

Nor Sutton, ME Sr, was introduced at the meeting and will be taking the position vacated last week by Jerry Holliday, ArE Soph.

The Union Governing board submitted a list of eight names to fill four vacant positions on the Board. The Council will choose the four representatives next week. Names submitted were Jim Smith, VM Jr; Lynn Mechesney, Gvt Soph; Kirsten Peterson, EEd Soph; Gerald Smith, PrL Jr; Dixie Brown, HBA Jr; Charles Moggie, BA Jr; Jay Ryan; and Peggy Daniels, Eng Soph.

Campus Industries will be asked to select an advertising manager to handle advertising in next year's Student Directory. The manager would be hired on a percentage basis of the advertising sold.

The Council voted to ask the Endowment association for money to pay for flags to be flown on the flag pole donated by the senior class. Flag pole plans are waiting action by the Union Governing board. The Board must decide if the pole can be placed in the Union's front lawn.

UGB Selects Four; SC Must Approve

The Union Governing board last night selected four people to fill forthcoming UGB vacancies and sent the list on to the Student Council to be approved.

The four, Jim Smith, VM Jr, Lynn Mechesney, Gvt Soph, Kirsten Peterson, EEd Soph, and Gerald Smith, PrL Jr, were given preference on the eight-name list.

UGB is required by SGA rules to submit twice the number of applicants as positions.

The Student Council will vote on the eight names and then let the appointments "cool off" for a week before taking final action to allow time for possible discussion of the finalists.

The UGB was required to submit a new list of eight after the Student Council last Monday selected two people who weren't among the UGB's preferred four.

The original Council action drew a veto of the appointments from Student Body President Pat Wilkerson.

The eight people from whom the Council will make its selection are Miss Peterson; Miss Mechesney, Jim Smith, Gerald Smith, Charles Moggie, BA Jr;

Dixie Brown, HBA Jr; Jay Ryan and Peggy Daniels, Eng Soph.

The Governing board approved the appointment of Bruce Wilson, His Gr, as chairman of the Union Program council. Joyce Graham, BA Jr, was appointed secretary of the Council.

Other chairmen appointed were Sally Engle, Art committee; Larry Foulke, NE Soph, Campus Entertainment; Jan Kraft, HEJ Jr, Coffee Hours; Mike Dole, ChE Soph, Dance committee; Jerry Maze, ChE Jr, Games committee; George Roggerdorff, Harmonizers; Barbara Ericson, BA Jr, Hospitality committee; Jim West, Mtc Soph, Jazz Club; Rosalyn Rowell, Soc Jr, Movies committee; Sue Goss, TJ Jr, Publicity; and Virginia Taylor, SED Fr.

Photo by Darryl Heikes

APPLYING THE MAKE UP on Dean Englund, CE Fr, is Harvey Tedrow, BA Fr. Both students were in the Sig Ep chorus of the 9th Annual Sertoma Minstrel Show held last night in the Manhattan City auditorium. The show will be presented again this evening.

Sleeping in ROTC Is Risky Iowa Student Gets Shot At

By Shari Shellenberger

IT DOESN'T pay to go to sleep in ROTC classes. Or at least at Iowa State it doesn't.

While giving an important lecture one day, an Iowa State ROTC instructor (an Air Force major) whipped out a pistol and fired at a dozing student who immediately rolled into the aisle.

TWO OF THE major's friends carried the body from the classroom as students looked on in horror. The unperturbed major then calmly reloaded his cap pistol and continued his lecture.

Pre-arranged, maybe. But undoubtedly effective.

A NEWLY adopted Interfraternity council ruling at Boston university states that any fraternity presenting charges of illegal procedure against another fraternity will be required to pay a \$25 fee.

This is intended to "eliminate crank charges" brought by one fraternity against another. The money will not be returned.

It's even expensive to be a stool pigeon nowadays.

THE LATEST saga of the recent final week at the University of Oregon concerns a studious sophomore who crammed through Sunday night for a Monday morning exam. He left his living organization in slippers, came back to get shoes, and found he had mis-mated socks, got to his exam site and discovered that the test was on Wednesday!

THE UNIVERSITY of Colorado Daily says there are no bounds to the foolish-

ness when campus politicians get together around election time.

CU campus political bosses proposed to print 12 different sets of ballots for an election so that each candidate might occupy, at one time or another, a top place on the slate.

THE DAILY commented that the 12 different ballots "will probably not change the course of the vote one whit . . . Let's not spend student money to quash imaginary fears of campus politicians."

That's politics for you!

TAKE THIS for what it's worth. From "Along the Jayhawker Trail" in the University Daily Kansan, commenting on the championship game of the NCAA tourney (KU 53, North Carolina 54):

"There were 10,500 persons in the audience at Kansas City's Municipal Auditorium Saturday night. In that crowd was a governor, important and wealthy people, and rabid fans. One man was not there, however, and his absence created a void that 100,000 persons could not fill.

PHOG ALLEN wasn't there.

He was in Minneapolis on an important engagement while the tournament was being played.

Who can say now what difference it would have made to a dog-tired team to look over to the bench and see Phog sitting beside Dick Harp. The man we think of as the finest basketball coach ever was missed that night in Kansas City.

A real tearjerker.

Readers' Forum

Dear Editor,

Three cheers and a hoorah. We have some thinkers among us.

Frederick Moherman, LeRoy Morton, and Hal Sinclair in a letter to the Collegian have solved a problem that has plagued the traffic control board, student council, and just about everybody for the past several years . . . the campus parking problem.

And they solved it in less than a paragraph.

"LET THE lots go," they say. "Put the money earmarked for their upkeep into a teacher's salary fund." Very thoughtful.

This, the three thinkers say, will accomplish three things:

1. Eliminate overcrowded parking lots.
2. Eliminate worry about funds for these lots.
3. Eliminate letters to the Collegian and editorials regarding the condition of these lots.

IN ANSWER to these elucidating proposals, I would answer in this order:

- (1) How?, (2) Sure, no funds at all, and (3) Wanna bet?

Using this same clear-thinking logic, I'll predict that if it rains tomorrow at 3 p.m., K-State will beat Oklahoma university in next year's football game, 58-6.

THREE CHEERS and a hoorah. We have some thinkers among us. But un-

less they thought they were funny, their thinking eludes me.

Gary Haynes, TJ Sr.

Dear Editor,

As a male alumnus of KSC I would like to advise one change for next year.

Please be more particular on how you select next year's cheerleaders. I have been to several games this year, and I along with many other alumni, am very disappointed in the lack of sincere interest and enthusiasm shown by the K-State cheerleaders, especially the females.

I don't like to tear anyone down as individuals and I don't know any of them personally. I do know that they are not very good representatives for Kansas State college. The cheerleaders should be people who are really interested in athletics, school spirit, and school support.

A PERSON should not even run for cheerleaders without these qualities—looks aren't everything. None of the above mentioned qualities are expressed in this year's group. There is no unity whatsoever.

I would like to put in a plug for the male head cheerleader. He tries but gets very little cooperation from the others. I feel sure many other alumni and students will agree with me.

L. Carpenter, '53.

Current College Legislation Would Aid Only Minority

By CHARLES SCHREIBER

The current crop of proposed educational legislation contains four bills designed to aid the college student through extended service benefits, loans, and scholarships. The cost of carrying out these bills is estimated at \$2 billion.

A recently released government survey indicates at the present time only 11 per cent of college students are dependent upon the types of aid these measures would provide.

The "National Scholarship Act of 1957" co-authored by Senators Joseph Clark of Pennsylvania, and Wayne Morse of Oregon, would authorize 50,000 scholarships to be made available each year.

The scholarship funds would be apportioned among the states according to the number of high school graduates in each state. The state would be responsible for all administration in regard to selection of recipients.

All selections would be made on the basis of merit and the student would have complete freedom of choice as to which college or university he would prefer to attend so long as that school was accredited by educational authorities.

The maximum amount awarded to any one student would be \$1,000 with an average of \$500.

A second bill, sponsored by Sen. Richard Neuberger of Oregon, is the most selective in that it simply revives the G.I. Bill of Rights which expired January 31, 1955.

According to Senator Neuberger, our national security depends on the strength of the whole society and not merely on standing military forces. Therefore, our over-all strength depends directly on the technical knowledge and skills of our people. Who deserves aid more than those who have interrupted their education for a stretch of active duty.

The third bill, a re-proposal of last year's Student Loan bill, is termed by its sponsor, Congresswoman Coya Knutson of Minnesota, as revolutionary as installment buying was to consumer buying 20 years ago.

The bill is designed to permit any per-

son to attend college regardless of income, through direct student loans. The student will pay no interest on his loan until a year after his graduation and his establishment in a business.

Then he would repay the loan at 3 per cent interest. The payments would be based on the size of the individual's income minus family and other expenses. There are no limits on the amount of a possible loan or length of time for repayment.

The fourth and most ambitious plan of all has been introduced by Senator Javits of New York. The bill would establish a \$1 billion federal fund for persons who need financial support in obtaining higher education. The plan would operate as an eight year program providing loans to individual students not to exceed \$1,000 a year for more than five years of higher education.

These four attempts at student aid are being considered at a time when the education division of the Department of Health, Education and Welfare has released the results of a recent survey of colleges and college students on the costs of attending institutions of higher education.

According to the survey, undergraduate students on the average, will pay \$1,500 to attend nine months of classes at a tax-supported college this year. This is almost twice the yearly cost of \$747 for 1940. The survey indicated that for all students, public and private, the costs of today's college education will be paid in one of the following ways:

Family	41%
Student savings	29%
Student earnings after enrollment	17%
Scholarships	5%
Veterans' and Rehabilitation programs	5%
Loans	1%
Miscellaneous	2%

Under the present system of unsubsidized undergraduate study only 11 per cent of the total number surveyed relied upon scholarships, benefits and loans, while 46 per cent of the students paid their own way.

Union Board Downs Beck On Truth Campaign Plan

Compiled from United Press

By KEITH KEMPER

Washington—The Teamsters union executive board has overwhelmingly turned down teamster president Dave Beck's down Teamster President Dave Beck's The Washington Post and Times Herald said today.

The newspaper said only Beck and his executive assistant vice president, Einar Mohn voted for the plan at a secret all-day and evening meeting yesterday at the union's multi-million dollar national headquarters here.

Heads Back Safety Council

New York—The nation's governors backed the National Safety Council today and condemned highway speeding—even by a President.

A United Press survey failed to turn up a single statehouse chief who con-

doned speeding by public officials. Only three admitted ever having been stopped and none was a flagrant violator.

Egypt To Improve Canal

Cairo—Egypt announced today it would soon put into operation a major program for improving the Suez canal under its announced plan of running the waterway under its own terms.

Jordan Assassination Fails

Beirut, Jordan—Damascus radio said today Jordan's security forces had foiled two attempts to assassinate King Hussein. The attempts apparently were Communist-inspired.

The broadcast coincided with reports from Amman that left-wing Suleiman Nabulsi had resigned in a dispute with the young king over Jordan's move toward the left under Nabulsi's leadership.

Alums Loaded for Saturday Tilt

By MIKE SCANDLAND

K-State's football team will face a stern test when it takes the field against a star studded alumni eleven at 2:30 p.m. Saturday in Memorial Stadium.

About 30 alums will be on hand. Included in that number will be two of K-State's all time great backs, all-American Veryl Switzer and Corky Taylor, all-Big Seven.

Switzer played two years with the Green Bay Packers before entering the Air Force, and Taylor played one season with the Los Angeles Rams before entering the Army.

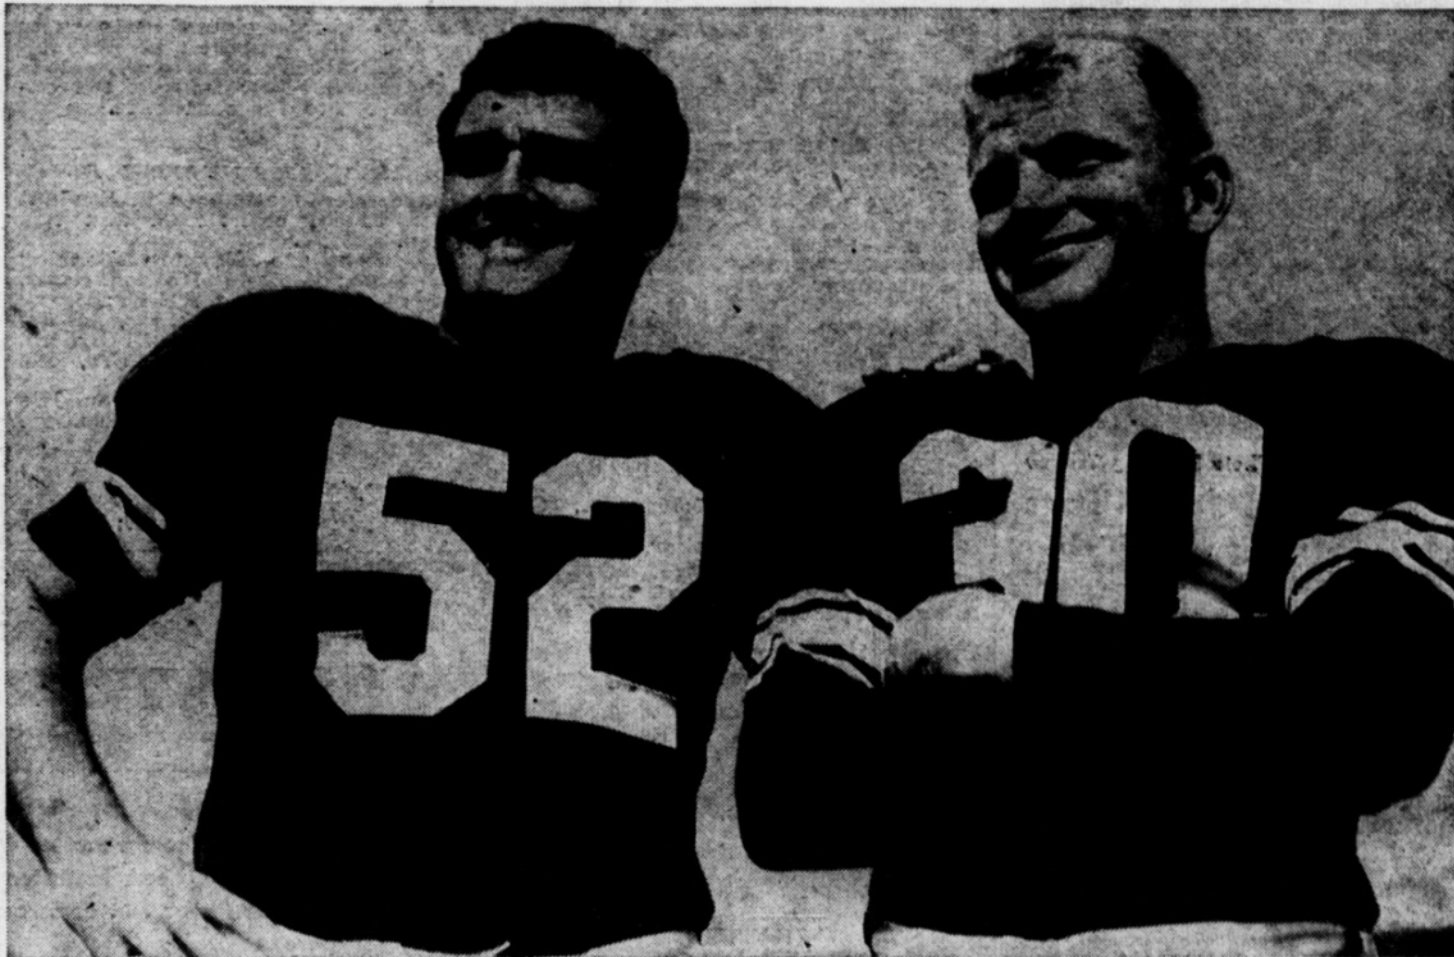

Coach Bus Mertes thinks the varsity will be able to give the alums a good game but points out that this is the first time Taylor and Switzer will be working together in the same backfield against the varsity. Backing up this double barreled backfield punch will be Bob Dahnke and Bob Whitehead. Both are ex-quarterbacks for K-State.

Doug Roether, all-Big Seven fullback for the Cats in 1955, will play for the alumni also.

The alums will have at least three all-Big Seven linemen available. They are guard Tom O'Boyle ('53), end Ed Pence ('53), and tackle Ron Nery ('55).

A possible starting line would be ends, Pence and Jim Rusher ('55); tackles, Nery and Frank Rodman ('55); guards, O'Boyle and Ray Romero ('49); and center Jim Furey ('55).

Romero played pro ball with

CAT VARSITY gridders will play against these two alumni Saturday. Jim Furey (52) and Doug Roether (30) both graduated in 1955. Roether was all-Big Seven at fullback, and Furey was picked to play in the East-West Shrine game. Roether played in the Blue-Gray game that year.

the Philadelphia Eagles for three years.

With eight alums from the 1955 outfit and most of the rest only a few years away from college ball, the alums

figure to be in pretty good shape. They will have the added advantage of using the free substitution rule while the varsity will play under present NCAA rules.

Ed Pence will be player-coach for the alums.

Mertes believes the varsity has a better than even chance to repeat last spring's victory over the alums. "We have a small edge. The varsity will be more ready than it has ever been and we have the advantage of being better organized and being in better shape," he said.

Starters for the varsity may be Joe Vader and Don Zadnik at ends, Don Miles and Jaydee Stinson at guards, Jack Keelan and Gene Meier at tackles, and Ellis Rainsberger at center. Backfield starters may be Dick Corbin at quarterback, Ben Grosse and Ron Beshk at halfbacks, and Ralph Pfeifer at fullback.

The varsity-alum game was revived on an annual basis in 1955. The first game ended in a 7-7 tie and the second in a 19-6 victory for the varsity.

SE Edged Out; Pi Phis Stomp Alpha Xi Delta

Chi Omega defeated Southeast hall, 34-33, while Pi Beta Phi dropped Alpha Xi Delta, 33-8, in women's intramural basketball yesterday.

The Chi O-SE game was close all the way. It was tied, 8-8 at the end of the first quarter; 16-16 at the half; and 26-23 at the end of the third quarter.

The Pi Phi's held Alpha Xi to five points in the first three quarters. The scores ran 6-5, 18-5, and 29-5 through the quarters.

High scorer for Chi Omega was Judy Pringle with 18 points, while Barbara DeBrunner led Southeast with 15 points.

Kathy Herridge led the Pi Phi's scoring with 19 points and Paula Beason took scoring honors for the Alpha Xi's with six.

Four Cat Teams in Action As Spring Schedule Starts

Wildcat tennis, track, baseball, and golf squads will be in action this week as the spring sports schedule gets into full swing.

Karl Finney's tennis team, which opened with a 5-4 loss to Southwestern of Winfield Saturday, undertakes a four-match trip to the south meeting Wichita tomorrow, Oklahoma Baptist Thursday, Oklahoma A&M Friday, and Oklahoma Saturday.

Ward Haylett's K-State trackmen invade Austin for the Texas Relays Friday and Saturday, hoping to improve on their showing in the Oklahoma A&M relays last Saturday.

Ray Wauthier's baseballers, also on a southern road trip, play Memphis Naval Air Station today and tomorrow and meet Arkansas Tech Thursday and Arkansas Friday. The Cats will be bolstered by infielder Roy DeWitz, winner of the most inspirational player award for the past basketball season.

Mickey Evan's Wildcat golf team opens its early season journey to the south against Wichita Thursday and meets Oklahoma A&M at Stillwater Friday and Tulsa Saturday.

MISTER TOAD gets all the attention at the Delta Phi Delta art exhibit in the Union. Rosella Hiebert, Art Jr; Margaret McKnight, Art Jr; Judy Perine, Art Soph; and Joleen VonFange, Art Sr, lavish the display with their attention, at a tea held in the art section of the Union last night.

Art Work Exhibit Displayed in Union

Art work, which was done by the members of Delta Phi Delta, national art honorary, will be on display in the Union art lounge until Monday, April 8, according to Rosella Hiebert, Art Jr, president of the organization.

Integrity Party

The Integrity party will hold a meeting of the office candidates and the campaign committee today on the 3rd floor of the Union at 4 p.m.

The meeting is for general planning, according to Ed McCoy, PrL Jr, campaign manager.

Agriculture Association

New officers of the Agriculture association will be elected at a meeting of the organization in the auditorium Thursday at 4 p.m. Candidates for president and vice-president are Jack Van Horn, Ag Jr; Paul Hatfield, AEd Jr; Bill Brethour, AH Jr; and Clinton Peirce, Ag Jr. The person receiving the highest number of votes will be president. Second high on the ballot will become vice-president.

Others nominated are Reinhart B. Billiar, FT Jr, and Carlyle Thompson, TA Jr, secretary; Dean Peter, Ag Jr, and Bryan Barr, AH Soph, treasurer; Paul Faidley, AEd Jr, Ag Week manager; and Harry Todd, AH Soph, and Jim Beauchamp, TA Soph, assistant Ag Week manager.

Modern Language Film

"Gigi," a French language film will be presented by the Modern Language department at 4 p.m., today and tomorrow in the auditorium of Eisenhower hall, Robert E. Pyle, assistant professor in Modern Language has announced.

"Gigi," stars Gaby Morlay as

Gigi and Jean Tissier in the male lead. The film is shown with English subtitles and has a running time of 90 minutes.

"Gigi," is based on the famous novel of the same name by Colette, the noted French woman novelist, who died in 1954. It was in the stage version of "Gigi" that Audrey Hepburn, selected by Colette for the title role, shot to fame overnight.

The film is a sophisticated comedy about a girl of 16 who manages to break with the traditions which bind her family and find happiness on her own terms.

Masonic Club

Professor Herbert Knutson, head of the Entomology department, will be the guest speaker for the regular meeting of the Masonic club at 7 p.m. in Engineering room 127 tonight. Professor Knutson's topic will be Masonic History.

Commencement Invites On Sale in Kedzie Hall

Graduating seniors may buy commencement invitations in Kedzie hall this week until Saturday noon, according to George R. Eaton, College Press director.

Invitations will be sold from 8 a.m. until noon and 1 p.m. until 5 p.m., today. Sales will begin at 7:30 a.m. and last until 5:30 p.m. tomorrow, Thursday and Friday. Sales Saturday will last from 8 a.m. until noon.

NUMBER 120

KS Players

'Wives of Windsor' Starts Tomorrow

"The plot thickens" when the K-State Players present Shakespeare's rowdy play, "Merry Wives of Windsor" in the College auditorium tomorrow and Friday at 8:15 p.m.

Taking the role of Sir John Falstaff, Gordon Jump, Sp Sr, says, "I'm a knight, but not very rich, and I make love to the wives of the rich peasants, Ford and Page. Eventually the wives compare notes, I get caught, and end up in mighty embarrassing circumstances. So I'm off women for about a paragraph of dialogue, and the plot thickens."

Page, Gene Olander, EE Fr, says, "My part is the husband of one of the merry wives who is being wooed by Falstaff. I'm the trusting type." Ford, the other husband played by Jim Johnson, EE Jr, is not the trusting type, however.

A gossip, Mistress Quickly, played by Sharon Evert, EEd Soph, acts as a go-between for all romances in the play. Nym and Pistol, two of Falstaff's cohorts who eventually betray him, are played by Landon Fireson, Soc Soph, and Ken Keefer, Sp Fr. The young lovers, Fenton

and Ann Page, are played by Glen Rhea, Sp Fr, and Wendy Helstrom, Sp Fr.

Other members of the cast are Bobbi Baumann, Sp Soph, Mistress Ford; Richard Mansfield, BMP Jr, Sir Hugh Evans; Darwin Klein, BAA Fr, Shallow; Jerry Hager, Sp Jr, Dr. Caius; John Barry, Sp Jr, host of Garter Inn; James Tullis, EE Sr, Bardolph; Dale Livengood, Sp Sr, Robin; Bob Annon, CE Fr, Simple; and Jon Weigand, NE Soph, Rugby.

The play is directed by E. G. Hoover, professor in the speech department. Assistant directors are Patsy Meyers, Sp Fr, and Betsey Thomasson, Sp Sr.

Top Seniors May Apply For Honors

Applications for senior leadership honors are still available in E106, according to Dr. Ralph Nevins, associate professor of mechanical engineering.

Seniors with 1.75 grade-point averages who will graduate in May or August of 1957 or in January of 1958 are eligible for the honors.

Dr. Nevins says that only about 25 applications have been returned to the committee so far. He urges all those who have not received applications in the mail to pick them up as soon as possible. All applications must be returned to the committee by April 5 so that they may be processed in time for the annual honors assembly in May.

THE ETERNAL TRIANGLE OF LOVE traps Sir John Falstaff (Gordon Jump, Sp Sr), as he is caught making love to Mrs. Ford (Bobbi Bauman, Sp Jr), right, by his other mistress, Mrs. Page (Sharon Wagner, RT Fr), at last night's dress rehearsal of "The Merry Wives of Windsor." The play will be presented April 4 and 5 at 8:15 p.m. in the Auditorium.

Polls Open Tomorrow For Student Primaries

Polls will be open from 7:45 a.m. to 5 p.m. tomorrow and Thursday for the Student Governing association primary election, according to Neil Scott, Soc Jr, chairman of the elections committee.

Students must show their

activity cards in order to be able to vote. Ballots for both parties will be available at the polls.

Booths will be set up for arts and science students in Eisenhower hall; for engineering students in Seaton hall; for ag stu-

dents in Waters hall; for vet medicine students in Veterinary hall; and for home economics students in Calvin hall. An election booth will also be set up in Anderson hall for use by students in all schools. Graduate students may vote in any of the places.

In keeping with a policy made during senior class elections last year, Scott stated that anyone caught using an activity card other than his own will be sent to Tribunal.

The name of Paul Faidley, AEd Jr, has been added to the list of Integrity party candidates for Student Council representative.

Two candidates running for Student Council representatives were declared scholastically ineligible. They are Nancy Hill, EEd Jr, and Mike Stout, AH Jr, both representing the United Staters party.

Book Theft Suspects Go Before Tribunal

Two book theft cases were reviewed by the College Tribunal Monday night, according to Herbert J. Wunderlich, dean of students.

Wunderlich stated that two college seniors are suspected of stealing some books and selling them to a book store for about \$14.

One of the suspects has admitted stealing three books from a car which was parked north of the gymnasium, according to James Shane, His

Jr, attorney general of the Tribunal.

Shane said that this student claims he took the books from a car which he thought belonged to a student who had previously stolen his geology book.

Both of the suspects are being investigated in connection with the theft of two books from a car which was parked in front of the Pi Beta Phi sorority house. These books were sold to one of the Aggieville book stores, according to Shane.

He said that the student who admitted taking the books from the car parked north of the gymnasium has also admitted that he bought back the books taken from the car parked in front of the Pi Beta Phi house and returned them to their owner.

Shane said that the second student, who is suspected of taking the books from the car parked in front of the Pi Beta Phi house, claims that he bought the books at a reduced price from a student whose name he doesn't know.

Shane said if both cases could be proved conclusively, the Tribunal could recommend action.

April Concert Cancelled

The concert scheduled for April 7 by the K-State band has been cancelled, according to Prof. Luther Leavengood, Music Department head. However, the annual pop concert will still be given May 12 for Music Week.

Aggies To Vote On Amendments

Four amendments to the Ag School constitution will be voted on at the Ag seminar tomorrow at 4 p.m.

Amendment I would add the president of departmental clubs and the Ag Week manager to the Agricultural Council. The editor of the Kansas Agricultural Student magazine would be dropped from the council.

Amendment II would allow the Ag Council to appoint an Ag Week manager if the office becomes vacant.

Amendment III would have the assistant Ag Week manager be declared manager for the following year.

Amendment IV would provide two methods of amending the Ag School constitution in place of the method used now.

Water, Water Everywhere

To the puddle-hopping student, it may seem like a foot of rain has fallen. But contrary to popular opinion, the drought in the Manhattan area has not been broken, according to Dean L. Bark, associate professor of physics.

Manhattan has had 5.79 inches of precipitation since the first of January, reported Bark, who is in charge of the weather station at the college physics department. He said it will probably take at least 10 to 12 inches of precipitation to break the drought.

Bark explained, however, that if this 10 or 12 inches were to fall all at one time, they would naturally run off immediately and would not be as effective.

In the five year period from January 1, 1952, until January 1, 1957, Manhattan received a total of 121 inches of moisture. This, said Bark, was the driest five year period ever recorded in Manhattan.

The amount of rain which fell in Manhattan yesterday was 1.21 inches. Bark stated that this was a good start toward breaking the drought.

TWO DAYS of drizzle and rain have left the campus soggy. A snow storm is expected to pass by this area on its way to South central Nebraska sometime today. Rain is forecast for this area.

Students' Opinion of Collegian Varies Widely, Inquirer Finds

By ELDON MILLER

THERE HAS been a wide variance of opinion as to whether our college newspaper is worth its salt. Some people have said that the Kansas State Collegian is the finest publication in the Midwest. Others have claimed that there are some brands of toilet paper which they would rate above the Collegian.

"Do you think the Kansas State Collegian is serving the students as well as it should? If not, how can the paper be improved?"

K-STATE STUDENTS, picked at random, were asked these questions recently. Sixty per cent of those asked gave the Collegian a vote of confidence while the remaining 40 per cent said the paper was not doing its job adequately.

One might also note that one-fourth of those liking the paper still found some of the paper's principles much to their dislike.

● LYNN MECHESENEY, Gvt Soph.—"I think it's a good paper. There has been a better coverage of world and campus news this semester and excellent feature articles."

● ROSEMARY DERKS, Eng Jr.—"Two out of five days it is good. On the other three days there isn't enough news in the paper. Also, there seems to be a lack of cooperation on the part of the staff as far as putting in certain club and activities news."

● HARRY TODD, AH Soph.—"I believe the paper represents the college student as well as it can. But sometimes the reporting is rather vague and the color of the stories is often given more attention than the actual facts."

● BOB ROLAND, Prv Fr.—"It doesn't give the common students point of view enough. The editorial page seems to cater to a certain few."

● JIM NIGHSWONGER, LD Fr.—"I believe it is pretty adequate and covers col-

lege news well. The advertising is fine and there is not too much of it."

● BILL MENGELING, VM Fr.—"This paper should have more animal stories."

● JO ANN EDWARDS, Pth Fr.—"I like it. I especially like the letters to the editor column. I also think Little Man on Campus, Pogo and the Stiklers are very good."

● DAVE LOBMEYER, ChE Jr.—"I think it is a good paper. It provides good reader interest and has a well balanced coverage of news."

● JERRY SCHUETZ, AA Jr.—"There is not enough social news in the paper and if it does get in it's cut too much. Also there is a lot of discrimination as to which organizations get news in the paper."

● JERE HINKLE, CE Fr.—"All in all it is a very good paper. However, the sports coverage could be improved."

● JOHN TEW, BA Sr.—"I feel that the Kansas State Collegian should be on a pay for itself basis as far as publication technology is concerned. Putting the paper on a competitive market basis would give the journalism students better training and would produce a better paper in the long run."

● DUANE HALMAN, IE Sp.—"I believe the paper is serving the students as well as it can considering that it is a daily paper. Its coverage of everyday activities is very good."

Telegraphic Tabloids

By UNITED PRESS

Gillingham, England—A local minister Saturday rejected a couple's request that the hymn "Day of Wrath and Doom Impending" be played at their wedding.

Valley Stream, N.Y.—Police yesterday broke up a four-mile two-hour traffic jam on Long Island parkway by returning Raymond Olsen to his mother.

The four-year-old tot had been stopping cars by standing in the middle of the road and holding up both hands.

Tokyo—Chiba Prefecture fishermen today lay their baby problem before the government fishery board.

Usually they haul in small fish in their nets, but Saturday they found a 150-pound baby seal.

The lost "little" baby (he should be in the cold waters of the North Pacific) is a problem because an agreement signed between the United States, Canada, Soviet Russia, and Japan prohibits the catching of seals.

House Asks for Vote On Civil Rights Bill

Compiled from United Press

Washington—The House today cleared the way for a drive to get a vote on the civil rights bill.

But, the bill's supporters were pessimistic about getting fast action.

Filing of formal reports for and against the administration's program cleared the way for a drive to get it through the House rules committee and on to the House floor.

Other congressional developments:

Budget—The House economy fight continued over the administration's \$2.9 billion budget for the labor and health, education and welfare departments. The House called up an amendment to cut off funds for the government's new sewage disposal plant program.

Judges—The House judiciary committee approved a bill that would require chief judges of federal district and circuit courts at the age of 75 to turn over their top posts to younger judges.

Tornado Hits Dallas Killing Nine

Dallas, Texas—A tornado rumbled slowly across 16 miles of Dallas yesterday, crushing an estimated 800 homes, killing nine persons and injuring at least 152.

The state department of public safety estimated that 600 other

BULLETIN

Dallas, Texas—Killer tornadoes whirled slowly through North Texas and Southern Oklahoma late yesterday, crushing hundreds of homes, killing at least 16 persons and injuring upwards of 800 others.

Ten persons were killed in Dallas—the hardest hit area—and more than 700 others were injured. An 11th person was killed in Texas 100 miles northeast of Dallas and black tornado funnels swept on into Oklahoma.

Five were killed in Oklahoma and 14 others were injured there, bringing the two-state death toll to 16. An estimated 800 homes were destroyed in Dallas alone.

At least 170 persons, many of them in critical condition, were injured enough to require hospital treatment in Dallas. The state department of Public Safety estimated that 600 others were hurt, but not enough to go to hospitals.

persons were hurt, but not seriously enough to go to hospitals. Boxcars full of bricks were blown from railroad tracks.

Automobiles were blown over houses. Fire marshal Guy Herbert said one automobile blown over a house, "worked fine, even to its radio," after the tornado passed.

No Egyptian Changes Seen in Canal

Cairo—Western diplomats said today they doubted President Gamal Abdel Nasser would make any substantial changes in his plan for operating the Suez canal despite suggestions by the U.S. and other foreign governments.

Beck's Report to Justice Department

Washington—The Teamsters Union high command today wrapped in secrecy the seriousness of its apparent break with teamster president Dave Beck.

At the same time, the internal revenue service was reported to have referred the results of its investigation of Beck to the justice department for possible prosecution. The department declined to comment.

Beck in taking the fifth amendment 117 times before the Senate rackets committee rather than discuss his financial activities said he had been warned he might be indicted on income tax charges.

Readers' Forum

Dear Editor:

This attitude of Mr. Haynes towards those on this campus who do not have the imagination to voice proposals which are inconsistent with prevailing student sentiment towards the administration of the college seems to be quite prevalent and typical of those who have no imagination or initiative to offer sound, constructive answers to persistent problems which continually plague the administrators of this institution.

We realize that our attitude was in general one which was rather far-fetched, but one having as much merit as any other proposals outlined to any responsible agency which has jurisdiction over this problem. All we've heard so far are proposals which would discriminate toward certain groups, namely underclassmen.

We would offer a suggestion to study the handling of the problem by K.U. but we have been made to realize that nothing good can possibly come from the great sister institution of higher education on the Kaw. The situation there is handled (how effectively we don't pretend to know) by not allowing students that live within a mile of the campus to get campus driving permits. This might possibly affect most of the student body who own and drive cars on our own campus.

As to the gripes about the maintenance of the parking lots, what can you expect when all funds for this type of work must come from the state legislature which can't be expected to show to much concern for the conditions of our parking lots.

Perhaps the physical plan can eliminate some funds from other phases of campus up-keep so that we can keep our feet dry and clean after having parked our cars. Incidentally there was only \$5,000 allotted by the Legislature for the work done on the Union parking lot last summer.

Texas Relays Slated Saturday for K-State

K-State's track team will journey to Austin, Texas Friday to compete against some of the nation's best trackmen at the Texas Relays Saturday.

According to Coach Ward Haylett, junior pole vaulter Karl Lindenmuth may return to action after being sidelined for two weeks with a sprained ankle.

Still definitely on the injury list are sophomore quarter-milers Jim Vader and Dave Burton from Kansas City. Junior high jumper Wes Wilkison is also definitely out, and sophomore distance runner Clifford Gruver from Scott City was forced to quit track be-

cause of a calcium deposit on his shin.

At the Relays will be four 1956 Olympians, sprinter Bobby Morrow, discus thrower Al Oerter, quarter-miler J. W. Mashburn, and hurdler Eddie Southern.

Another top-notch star at the meet will be Michigan shot putter Dave Owen who has already topped 59 feet this year. He will pose as a definite threat to the record of 59 feet, 9 inches set by Bill Nieder of Kansas last year.

Another record in danger will be the discus record of 172-5 1/4 set by world record-holder Fortune Gordien. Oerter faces no stiff competition in the meet but should easily erase this mark.

Sigma Chi Wins Doubles In Ping Pong Intramurals

Sigma Chi's Larry Rash and Ron Bryant are fraternity intramural table tennis doubles champions after last night's action in Ahearn gymnasium.

Rash and Bryant beat Harold Grubb and Allen Chaplin of Sig-

ma Phi Epsilon, 21-13, 21-14, 21-15, in the finals.

Doubles in the independent divisions were played up to the finals last night. Richard Wang and Daniel Lee of Newman Club will play Donald Veraska and Paul Petrossian of the Rho Alphas in tonight's finals.

Tonight's finals in fraternity singles will see Larry Rash of Sigma Chi take on Art Fromm of Sigma Alpha Epsilon. Terry Antenin of West Stadium and Richard Wang of Newman Club will play in the independent singles finals.

Tonight's action will start at 7 in Ahearn gymnasium.

Baseballers Win Opener, 6-1

By JAY WORKMAN

K-State opened its baseball season with a 6-1 victory over the Marine wing of the Memphis Naval Air Station yesterday on the strength of five runs pushed across in the fourth inning.

Today the Wildcats meet the Naval training unit of the Air Station in a double-header.

The Cats played errorless ball and backed the six-hit effort shared by pitchers Warren Polak and Bill Sinderson

with an 11-hit attack.

Top batters for K-State were Paul Bader, Bob Boyd, and Ken Nakari with two hits apiece.

The contest was scoreless through the first three innings before the five-run outburst by the Cats all but iced it. Memphis could not score until the seventh frame, but K-State got that one back in the top of the ninth for the final margin.

For K-State, Rylon Thae-mert and Roy DeWitz collected doubles and Nakari got a triple.

Polak, senior right-hander, started the game for K-State. He gave up two hits in the five innings he pitched and struck out four while walking none.

When Sinderson took over, the Cats held a 5-0 lead, and he stopped the service team effectively through the final four frames, giving up four hits and fanning four while allowing the sole Marine run.

Stan Sparkles As Cards Win

By UNITED PRESS

Manager Fred Hutchinson of the St. Louis Cardinals isn't kidding when he claims Stan Musial "is like good whiskey . . . he gets better the longer he's around."

The veteran outfielder had a perfect five-for-five day at bat yesterday, stroking four singles and a homer as the Cardinals downed Cincinnati, 9-2, to complete a sweep of their three-game series.

At St. Petersburg, Fla., Enos Slaughter, another old-timer, ignited a ninth-inning rally that enabled New York's Yankees to edge Boston, 1-0.

The Brooklyn Dodgers snapped a three-game losing streak by whipping Pittsburgh, 11-5.
